From the Southwest.

NEW ORLEANS, Jan. 22,-Constant and serious complaints are made from the interior parishes of the unwillingness of the freedmen to make contracts.

One city editor learns from prominent business men that it is well understood in the parishes that parties are at work underhanded, who have influence with the freedmen, and who induce them to disregard the order of the Freedmen's Bureau, with the view of compelling the old owners of the plantations to sacrifice them for lack of labor, when these gentry would step in and buy them at small rates, promising the freedmen to give them certain advantages. There is no Postmaster at Alexandria, La., although three loyal applications were forwarded to Washington some time since.

In Monroe county, Alabama, an Agricultural Association has been instituted by Southern men which combines the functions of the local agent of the Freedmen's bureau: the President of the Society in the same porpose succeeding admirably; ablebodied negroes are at work, young and old are provided for, and there are no drunken or vagrant negroes in the country.

A large number of noted horses have arrived at Mobile, for the Spring races. Many prominent turf men with their stables from Louisville, Cincinnati and Nashville, are in New Orleans, for Mobile.

Supreme Court Decision.

WASHINGTON, Jan. 23.—The Supreme Court of the United States has delivered an Court of the United States has delivered an opinion in the case of the late ship Admiral, a British vessel, with a cargo of salt and coal, which was captured by the Alabama in December, 1862, about 30 miles off Tybee island, while standing in for the port of Savannah, and was taken to Philadelphia and was there libeled as a prize

Savannah, and was taken to rinhaterpina and was there libeled as a prize. The Government asserts that the vessel is liable to condemnation under the rules of the "law of prize," which prohibits a neuthe "law of prize" which promities a field tral vessel having knowledge of the block-ade of a particular port, from sailing upon a destination to that port with the intention of inquiring at the station of blockade, relative to the continuance thereof, that such vessel taken upon a voyage prosecuted with that

intent will be presumed in a prize court to have intended to violate the blockade and that the vessel should be condemned bethat the vessel should be contemned be cause there was a suppression in the clear-ance at Liverpool, of the actual primary destination of the ship and this in connection with her near approach when captured to the blockaded

port of Savannah, and the circumstances attending her attempt to enter that port, af-

fords conclusive evidence of a premeditated and fraudulent Intention to break the blockade; that the claimant had notice of the blockade before sailing, and required no further notice from blockading vessels that the blockade still existed at the time of the arrival of the Admiral. The Supreme Court has affirmed the decree of condemnation, sustaining the posi-

tion taken by the Government.
