THE EMPEROR NAPOLEON ON MEXICO.

DESTRUCTIVE FIRE IN NEW JERSEY.

THE CAPITAL OF KENTUCKY.

Reported Declarations of Napoleon about Mexico.

NEW YORK, January 26 .- The Daily News has received a special Washington despatch, stating that a private letter from a gentleman in Paris, dated January 4th, has been received in Washington, describing a recent interview between Napoleon and Minister Bigelow. The Emperor spoke frankly on the Mexican question, and expressed a determination to preserve friendly relations with the United States, and his wish to withdraw the French troops as soon as he could be assured that our policy of neutrality toward Mexico would be continued. He intimated, however, very plainly that he would not abandon Maximilian as long as there was any danger that the United States would pull down what he had built up at so much expense. All he asked was that we should not interfere with the present government of Mexico, the permanence and stability of which, if left to itself, he was convinced could be secured.

The correspondence adds: "I have reason to believe that despatches from Mr. Bigelow, containing a full report of his interview, was received by the State Department by the last steamer."

fire in New Jersey. NEWARK, Jan. 26.—The mansion of Edward L. Burtis, at Llewellyn Park, North Orange, was burned yesterday. The fire originated from a gasoline, which a colored man was replenishing with naphtha. He was severely burned, and is not expected to live. The loss is estimated at \$20,000.

CITY BULLETIN.

THE LATE OBSTRUCTION ON THE GER-MANTOWN RAILBOAD-ATTEMPTING TO EX-TORT MONEY.—A young man named Thomas West was before Alderman Beitler this morning, upon the charge of attempting to extort money from the Philada., Ger-mantown and Norristown Railroad Com-pany. It seems that on the 20th of December last, West made an affidavit before Adderman Plankinton, declar-ing that on the 18th of that month, he had discoved obstructions upon the track of the Germantown branch of the road near Wayne station, that he had attempted to remove them, but had been stoned and driven off by a party of men; and that he ran to the telegraph station at the Reading Railroad from which he had signaled the

train to stop.

The affidavit was taken to Mr. W. S.
Wilson, the General Superintendent of the
road, who gave West ten dollars. Subsequently Mr. Wilson received an anonymous letter purporting to have been written by one of the passengers on the train which was stopped. The substance of the letter was that the Company was mean in giving West ten dollars instead of \$100 and that a public meeting of the citizens of Germantown would be held. the citizens of Germantown would be held to take up a subscription for West for his valuable services. This letter did not have the desired effect and another mode was resorted to to excite sympathy for West.
A day or two after the Watts
murder and when the minds
of the people of Germantown were
greatly excited upon the subject, a piece of greatly excited upon the student, a piece of paper was posted upon a tree in front of the Chew property. This paper contained the following words: "Pupples beware of this. The next murder that is done in Germantown will be the young man that moved away the obstructions on the Germantown railroad—catch us if you can."

This fell into the hands of Lieut, Dungan

of the Twenty-second Ward Police, and the subject then underwent an investigation by George N Levith. West who worked at the factory of John Noons, at Nicetown, alleged that he had been shet at a few days ago through the window, and produced a plece of the lead somewhat in the shape of a minie ball. A woman who resides within a few feet of the factory heard the shot but saw nebody about, and an exami-nation showed that there was smoke from the powder on the inside, and that the window was broken from that side. The letter received by Mr. Wilson, and the notice pasted on the tree, were in the same handwriting, and had been written by Mrs. West by direction of her husband. A sheet of paper similar to that on which the notice was written was found in West's house. The defendant was committed in default of

DESTRUCTIVE FIRE IN THE SIXTH WARD -Last evening about half-past eight o'clock a fire broke out in the extensive hardware store of R. & W. C. Bidddle & Co., No. 131 Market street. The flames were first discovered by officer Scranton of the Sixth Ward, and had evidently been burning for some time. An alarm was immediately sounded, but owing to the shocking bad condition of the streets, the firemen labored under great difficulty both in reaching the scene of the conflagration, and in getting into service. The flames spread rapidly through the building, and the whole structure was soon enveloped. It was found impossible to save the property, and the firemen turned their attention to the adjoining premises, and, although the fire burned stubbornly until about eleven o'clock, it was confined mainly to the building in which it origi

The store of Biddle & Co. was four stories in height and extended through to Jones's alley, a distance of about 150 feet. It was filled from the cellar to the roof with every description of hardware and cutlery. The stock is said to have been the largest of any similar establishment in the city, and is es timated to have been worth over a hundred thousand dollars.

When the fire was at its height the scene was grand. The flames belched forth from the windows, back and front, and shot high into the heavens, causing a light which was visible for miles about the city. A dense black smoke enveloped the streets in the neighborhood in which the conflagration

was raging.

The adjoining properties, though in great danger, were saved by the admirable manner in which the fire was managed by the firemen. The flames worked into the fourth story of store No. 129, occupied by Roberts & Macaltioner, wholesale grocers, and got among some old papers, but they were speedily extinguished. The store was com-pletely deluged with water, and the cellar was pretty well filled. The stock was con-

siderably damaged.

The stock of seeds of Mr. C. B. Rogers, the occupant of No. 133, was considerably damaged by water. The rear part of this building was damaged by fire. No. 135, occupied by Messrs. Fleming & Martien, wholesale grocers, was not much damaged, but their stock in the basement suffered greatly. Some of it, in the upper part of the building, was damaged by water.

The building in which the fire originated

was owned by the Messrs. Biddle and was valued at \$35,000, upon which there is an insurance of \$25,000—\$10,000 in the Hand and Hand, and \$15,000 in the London and

Liverpool companies.
The stock of the firm was valued at \$110,-000, and was insured for \$100,000 in the North American, Delaware Mutual, Pennsylvania, American, Philadelphia, Reli-ance, and several New York companies. damage to the stock of Roberts & Macaltioner was by water, and is fully insured in the Delaware Mutual and Pennsylvania Insurance Companies.

The losses of Mr. Rodgers and Fleming & Martin, who also suffered by water, are likewise covered by insurance.

A Horse Thief Jumps from a Train AND ESCAPES,—A man named William Bradley, who was convicted of horse stealbradiey, who was convicted of noise stealing in Lancaster county and sentenced to an imprisonment of six years in the Eastern Penitentiary, escaped from a train on the Pennsylvania Railroad. Bradley was hand-cuffed with another horse thief and when the train had reached Thirty-eighth street, the last named solinged street, the last named slipped the handcuffs off. The officer in charge secured him, but Bradley quickly leaped through the window of the car. He ran in a southerly direction, struck the Haver-ford road, passed through Haddington and crossed the county line. His course was traced by the Twenty-fourth Ward police, by his tracks in the snow, but they were

soon afterwards lost. JUDGE THOMPSON'S FUNERAL. The funeral of Hon. Oswald Thompson took place this morning, from his late residence at Germantown. The cortege was one of the largest of the kind ever witnessed in that section of the city. The Judges of the Courts, and a large number of prominent citizens, participated in the obsequies. The members of the bar also turned out in full

The religous services were conducted at the house of the deceased, Germantown avenue and Mill street, by Revs. J. Helffinstein and J. H. M. Knox. The coffin was then carried to the hearse by the attaches of the Court. The interment took place at

LARCENY OF IRON .-- John Eberly, a young man, was arrested last night for stealing iron from Bishop's mill, on the Wissa-hickon. The mill was burned some time ago. Eberly had a wagon and was abou to carry off some of the damaged shaftin when he was arrested by an officer. H was committed by Alderman Gibson.

RECIMENT, Col. Cecil Clay, will arrive here this afternoon at 3 o'clock, from Baltimore, and will proceed to Camp Cadwalader. This was formerly Col. J. Richter Jones's regiment, and it has done as much and as important duty as any the Govern-ment has had. It was organized in July, 1861. News of its coming was only tele-graphed this afternoon, too late to prepare for a proper reception of the veterans.

Cholera in the West Indies. The appearance of the cholera, or of a disease resembling it, in some of the West Indian islands, may suggest to our quarantine authorities the necessity for extra precautions and scrutiny. Perhaps we should find it more difficult to enforce an effectual quarantine against West India trading vessels than against almost any others. They are numerous, and comprise all sorts of craft, which slip in and out of port comparatively unnoticed. The scanty intelligence which we glean from our Jamaica and Bermuda exchanges does not make it certain the cholera itself has reached any of the islands. A disease resembling it and not less malignant or fatal than the cholera made its first appearance at Point-a-Pitre, on the island of Guadaoupe, on the 22d October, and extended thence to Martinique. A ship from Marseilles is reported to have brought it to Gaudaloupe. The Bermuda Gazette reports 375 deaths from the 19th to the 3d November, the number at Point-a-Pitre alone being 145. A letter dated at that town on the 16th reckoned the deaths at 30 to 35 daily. The disease was first supposed to be a fever peculiar to swampy places, but developed into a much more virulent form. There were not laborers enough to bury the dead, and the Governor was obliged to call in the military. Half the people had aban-

doned the town. There are no particulars of the actual presence of this disease at any other of the islands. The Governor of Guadaloupe at its first outbreak sent word to the neighboring authorities, and a rigid quarantine has been ever since enforced. The mail steamers neither receive nor land passengers there, and the mails are fumigated before being opened. The latest repert from Guadaloupe avers that the deaths average 131 a day. There may be some exaggeration in this, but it is well to be on the safe side in the matter of precautions.

Gov. Fenton yesterday sent a timely message to the Legislature, transmitting the report of the Quarantine Commissioners and Health Officer, and calling attention to the request of the Commissioners for money to provide temporary facilities such as are now wanting at quarantine. The sum required, \$50,000, is a trifle when the importance of the subject and the possible results of neglect are considered. The want of a suitable place for detention of quarantined passengers was keenly felt in the Atlanta ase, and in one way, or another ought to be immediately supplied.—N. Y. Tribune.

PRICES OF STOCKS IN NEW YORK. Uhsettled,

Finance and Business-Jan. 26, 1866. The Stock Market continues feverish and unsettled, and prices rule very irregularly for almost everything on the list. The greatest depression was in Catawissa Railroad Preferred, which opened at 34%, and old down to 34-a decline of \$4 per share in a single day, and a fall of \$12 from the highest figure; about five hundred shares changed hands. The Common stock declined 021. Reading Railroad also declined %, closing at 49. Pennsylvania Railroad was in demand at 54%@ 4%-a rise of 1/2. 114 was bid for Camden and Amboy Railroad; 61 for Lehigh Valley Railroad; 54 for Mine Hill Railroad: 29 for Philadelphia and Frie Railroad and 31 for North Pennsylvania Railroad. Canal stocks were neglected. The only sale was of Lebigh Navigation, at 53%. Oil stocks continue to have a downward tendency, and the recent heavy fall in the price of the crude article cannot fail to depress the value of the producing companies. In Bank shares the only sale was of Philadelphia, at 140. Hestonville Passenger

Railway sold at 35@36—a decline. Jay Cooke & Co. quote Government Securities, &c., to-day, as follows: U. S. 6's, 1881... Old 5-20 Bond New 1864. 5-20 Bonds, 1865..... 10-40 Bends...... 78-10 August......
