WASHINGTON, Jan. 30.

The Senate Commerce Committee are considering the proposition for abolishing the offices of Surveyor and Naval Officer. It is alleged that these offices are mere sinecures.

There will probably be an exception made in the law, in favor of the ports of the leading cities.

M. Montolon, the French Minister, had a long interview with the Secretary of State, to-day. It is understood that he communicated the reply of the French Government to the despatch of Mr. Seward, declining the recognition of Maximilian's Government.

An effort will be made in the course of the week, to secure the admission of the Tennessee delegation.

The evidence taken by the Reconstruction Committee in regard to affairs in the Southern States has not improved the chances of their success.

The Ways and Means Committee will report another Finance bill in a few days.

A sub-committee is in conference with Secretary McCulloch upon the subject. The report of the special commission on the Internal Revenue Law will be taken up by the committee soon. Some of their recommendations are looked upon with favor.

The official correspondence between Westcott and Mejia regarding the Bagdad affair is published. The former states that he sent 500 men to Bagdad at the request of Escobedo purely as an act of humanity, and not to perform military service for either party.

Mejia replied briefly by stating that he had notified his government of all the occurrences that took place at Bagdad. The French naval commander, before his departure for Vera Cruz to report the matter officially, protested in a short note against the invasion of Mexico by American soldiers.

General Sheridan to-day refused to allow emigrants to leave here for Mexico, acting under orders from Washington. He, however, does not prevent vessels from going.

Ex-Governor Rollins died here to-day. Both Houses of the Legislature have adjourned from respect to his memory.

The Mississippi is falling, and the great Morganza Levee, in the Parish of Point Coupee, will be repaired on Tuesday so as to keep out the water. German laborers are arriving in that parish under contract to labor on the plantations.

The sails are now at a stand. The new gulf will soon be prepared to furnish 1,000 sacks per day for export.

CINCINNATI, Jan. 30.—A special despatch to the Enquirer says, the jail and city guard house at Marietta, Georgia, were burned recently, and thirteen prisoners perished in the flames.

The West Indies and Brazil.

NEW YORK, Jan. 29.—The Herald's St. Thomas letter says there was a report there that Secretary Seward had told Santa Anna that the Monroe doctrine would be enforced, and on no account would the United States permit an empire in Mexico.

The cholera had somewhat abated in the principal towns in Guadalupe, but retained its full force in the interior, and there had been no diminution of deaths, which numbered in all 11,200.

The World's Havana letter says that Secretary Seward had an interview there with an aid of Maximilian, but does not profess to know what passed.

The Herald's Rio letter gives the full letter from Lopez to General Mitre. Instead of being a proposition for peace it alleges that the allies have conducted the war in a barbarous manner and threatens reprisals and to prosecute the war with renewed vigor.

Mitre denies the charge and warns Lopez against pushing matters to an extremity.—There are no indications of peace.
