penalty.

These matters are creating much unpleasant feeling among the men. I need not say to you, they nave behaved rallantly, and the country owes them everything; and if it can possibly be avoided they ought not to be sent home under the feeling that the Government, when their services are no longer required, takes the first opportunity to treat them unjustly and violate its contract with them.

ment, when their services are not only stly and violating the first opportunity to treat them unjustly and violating to first on the first opportunity to treat them unjustly and violating to contract with them.

I assure you that unless these difficulties are relieved there will be created a general discontent which will be injurious hereater; and it is my fervent desire for the success of your administration which leads me to bring them directly to your notice.

Very respectfully,

Your obedient servant.

A. G. CURTIN.

To the President.

The refusal has been persisted in under an opinion of the Attorney General of the United States, a copy of which was sent to me.

I recommend that the Legislature make proper recommend that the superior corrected. I recommend that the Legislature make proper efforts to have this injustice corrected.

The report of David Wills, Kan President of the Sol ders' National Cemetery, at Gettysburg, herewith transmitted, shows the present condition of the cemetery. As the battle of Getty sburg resulted in a glorious victory, and was in fact the beginning of the end of the war, and occurred on the soil of the Commonwealth, I think it would be well that it should be commemorated by an historical painting, to be placed in the Capitol of the State; and I recommend that the Legislature take

war, and occurred on the soil of the Commonwealth, I think it would be well that it should be commemorated by an historical painting, to be placed in the Capitol of the State; and I recommend that the Legislature take finessures for that purpose.

The State of Maryland has proposed to her sister State that they unife with her in establishing a cemetery for our soldiers who fell at Antietam. I herewith taansmit copies of the Maryland statute, and other documents on the states and recommend the passage of an act heartily accepting the proposition of the State of Maryland. All the States having promptly and generously responded to our proposition to have a cemeteryst at Gettysburg, it would seem proper that we should reciprocate, and unite in this. The duty is made more sacred when we remember that more of Pennsylvania's sons fell in that batie than those of any other State.

The report of the State Agent at Washington, herewith transmitted, shows that under his efficient management the claims of our soldiers are promptly examined and paid. Every effort has been made to apprise our officers and men that their claims will be collected by the State Agent, (Col. Jordan), without expense to them; yet it is feared that many of them continue to employ private claim agents, whose fees bear heavily on the claimants.

Since my last annual message I have expended of the screte service fund, the sum of four thousand three hundred and thirty-three dollars and twenty cents, out of which I have paid my personal staff and other extraordinary expenses. No appropriation is required for the increase of this fund.

I invite your attention to the reports of the Military Departments of the state, to the report of the Separintendent of Common Schools, which exhibits the properous condition of our system of public education, and to the report of the State on the reports of the Sitation for the protection of our propens.

I commend to your attention to the report of the Signation for the protection of our people, by proper sanatory measu

is proposing to establish a uniform system throughout the United States.

The arsenal at Harrisburg is decaying and unsafe. The arms and munitions of the State there deposited areof the value probably of half a million of dollars. I recommend that provision be made for repairing it, or that a new arsenal be constructed in this vicinity, for the purpose of securing their preservation.

Since my last annual message, the late President of the United States has fallen a vicilm to the most foul and base assassination recorded in history. It will afford me pleasure and I will heartily unite with you in any expression of indignation at the crime, and of appreciation of the public virtue and services of its victim, Abraham Lincoln.

My uniform course during the late war, was to avoid the discussion of the policy of thegeneral government, while giving a hearty support to the national authorities in all their measures to suppress the rebellion. I shall continue to pursue the same course during the embarrassments necessarily connected with the entire restoration of the country. The principles expressed

MEXICO.

Letter from an Anti-Juarist. [Correspondence of the Philada, Evening Bulletin.]

EL Paso, Dec. 28, 1865,-Since I wrote last week, events are crowding themselves upon us. Close upon the heels of President Juarez's arrival here, came Dr. Luis Terrazas Governor of the State of Chihuahua, at the head of 300 miserable looking Mexican soldiers, many without shoes or clothing to keep them warm. And close upon their arrival came a forced loan upon the merchants of this city, arbitraryland tyrannical, not, as might be supposed, to feed the soldiers, but to keep a set of officers (vagabonds) a few weeks longer in idleness. The llustrious President of the great Mexican "Republic" has been driven to this extreme point by a handful of French, to make the last fintter and the last it will be unless Uncle Sam steps in and takes the fight off his hands. They are too cowardly to fight; then why should the United States fight their battles, unless it would be to take their country and give them a liberal government and keep down the tyranny that has ruled this "Republic" (only in name) for

twenty years? Juarez is trying to run the machine for the short time left him, on the strength of his shape and talent, and the well circulated report that he will shortly receive, some of the proceeds of the loan now negotiating in York. Merchants still refusing him credit for goods for his Quartermaster's Department, a bankrupt merchant steps in and offers himself as security, "that the Mexican Republic will pay the sum of four thousand dollars." A stranger at first sight would think, after seeing the one hundred over-dressed officers, in their red pants and gold lace, fine horses and silvered saddles, that they belonged to a great wealthy and powerful nation. Our plainly dressed Capt, Brotherton, commanding Fort Bliss, Texas,

looks like a gentleman among them. The latest news from Chihuahua is that the French have not yet moved this way. They are 800 strong. There is much talk here of fortifying the town and making a fight, but elieves that a single gun will be fired if they do come. So perfectly demo-ralized are they that I believe the whole outfit would run across the river at the approach of 50 Frenchmen. It is to be hoped that for the honor of their manhood they will make a show of resistance.

We want the French driven out of Mexico. but we also want a stable government established, that will give protection to life and property. Of the Mexicans, left to themselves, there is no hope. Past expe-rience has demonstrated the fact that they are not capable of self-government. The only hope is the United States. I am almost certain that the French will come up. We only hope they will come soon or leave the State, that these people can go into the interior of the country to prey upon the hard earnings of some other town, more able to bear the burden.

Facts and Fancies.

The Quincy (Ill.) Herald states that Tip" Prentiss, son of Major General B. M. Prentiss, left Quincy, recently, on skates, with a despatch for Lagrange, Missouri, fourteen miles above, and made the run up in fifty minutes. He remained there thirty minutes, and then started on his return, and ran down in fifty-five minutes, having made the round trip of twenty-eight miles in an hour and forty-five minutes, running time, and been out only two hours and a

portion to the quantity of water drank. Every milkman knows that the quantity of his milk is in exact proportion to the capacity of his pump.

The statement which appeared a few days since in reference to the proposed purchase of the ocean ram Dunderberg by the Go vernment of Chili proves to bean unfounded rumor. It would show Chili's good feeling for her antagonist if she should give her a pound of our great American Butter.

P.G.T. Beauregard makes an appeal in the New Orleans Delta for the delivery of fifty thousand cypress cross-ties along a Loui-siana railroad of which he is General Superintendent and Chief Engineer. Poor Peter tried hard for laurel, and is now reduced to cypress. He should be thankful that he has escaped the neckties that he deserved.

CITY BULLETIN.

THE YOUNG MAENNERCHOR FESTIVAL. Another signally successful bal masque has taken place at the Academy of Music. Coming so soon after the "Coterie" entertainment in the same magnificent building, it was a wonder that the affair was so absolutely and entirely successful, and that those who were fortunate enough to secure tickets were so thoroughly pleased with all the arrangements and so genuinely charmed with the doings of the maskers. The entertainment took place last night. The throng of ladies and gentlemen in costume was greater than at "La Coterie Carnival," but the crush of people who merely came to look on was not so great, nor was there such confusion and tumult at the doors. decorations of the Academy were fresh unique and remarkably pleasing, and even by themselves they would have entertained

As usual the parquet was floored over on level with the stage, while the stage was very handsomely set. The exit and entrance doors to the dancing floor were rigorously guarded; no one being allowed enter but those in masks. ()n each side of the parquet bands were stationed, whose alternate music echoed from floor to chandelier. A third band took part in the proceedings, which may be considered the dramatic portion of the entertainment. We allude to the descent of the "Prince" to his dominions on the dancing floor, and the grand procession which signalized that

Of the costumes we can only repeat our remarks in reference to the recent entertainment at the Academy. Knights, clowns monks, queens, acrobats, peasants, Waddi-loves, Paul Prys, field marshals, milk maids, monkeys, all mingled in the scene, with others whose costumes were as odd hunter on the prairies or the wild Indian whom the destiny of the latter compels to drive towards the waves of the Pacific, From and picturesque to the highest degree and the poet, the painter, the actor, the dreamy sentimentalist, all could find food for their intellect or their fancy in the scene, while the wit or the gossip could delightfully

mingle in the throng.

The profits of the ball are to be devoted, as we have already stated, to the erection of Music Hall, by the enterprising Young Maennerchor Society, and we heartily wish that the pecuniary results of the entertainment were as thoroughly satisfactory as ere all its other "eyentualities.

LIBERAL BEQUESTS .- By the will of the late Francis Pierpont, deceased, July 14th, 1863, the following liberal bequests were made to public institutions, viz—Pennsylvania Hospital, for the benefit of the Insane Department, \$3,000; Widows' Indigent and Single Women's Asylum, \$2,000; Protestant Episcopal Hospital of Philadelphia, \$3,000; Northern Home for Friendless Children orthern Home for Friendless Children, \$1,000; St. George's Society of Philadelphia, \$3,000; Domestic Missionary Society of the Protestant Episcopal Church for the Diocese of Pennsylvania, \$1,000; Children's Hospital of Philadelphia, \$1,000; Union School and Children's Home, \$250; Foster Home for Children, \$250. Total \$14,500.

The will of Wm. Richardson was yester day admitted to probate. The deceased bequeaths one thousand dollars to "The Con iributors to the Pennsylvania Hospital," one thousand dollars to "The Northern Home for Friendless Children;" the remainder of the estate is to be held in trust for the benefit of his children, grandchild, and collateral heirs. The executors are George J. Richardson, J. B. Okie, Thomas Webster, Thomas Sparks and Richard Smethurst. Social Union.—An adjourned meeting of

the Social Union was held last evening, at the Second Reformed Dutch Church, Seventh street, above Brown, Mr. D. W. C. Moore, the President, occupied the chair, The meeting was opened by the singing of a hymn, after which Rev. J. Y. Mitchell, of the Central (N. L.) Presbyterian Church offered a prayer. Addresses were delivered by Mr. Ward, Rev. Mr. Lounsbery, of St. Jude's P. E. Church, and Dr. Osler. The nomination of a board of managers was then referred to a committee of three. Committee reported a list of names, and after some debate, a board of managers were elected, consisting of fifty persons, twentyfive of each sex, the clergymen of the variou evangelical churches of the city to be ex-officio members of the Board. Dr. Osler reported a series of resolutions looking to the erection of a hall for the uses of the Society, and the obtaining of funds for that purpose which were adopted.

NEW MILITARY ORGANIZATION. -Anumber of returned officers and privates who served in the late war have formed themselves into an organization similar to the Scott Legion of this city. The organization was projected by Gen. John F. Ballier, late Colonel of the 98th Pennsylvania volunteers and the movement received the support o the following regiments: 27th, 73d, 75th and 98th Pennsylvania infantry, and the 5th and 12th Pennsylvania cavalry, and the 29th New York infantry. Members of nearly all the regiments received in Pennsylvania all the regiments recruited in Pennsylvan have joined the organization, which will be known as the Pennsylvania Military Le gion. Regular meetings are held on the first Thursday in every month, at Northern Military Hall. A grand ball will be given by the Legion, at National Guards' Hall, on the Legion, at Na the first of March.

ANXIOUS TO PAY UP.—By the time the office of the Receiver of Taxes was opened, this morning, a crowd of several hundred tax payers was gathered about the door, anxious to take advantage of the first day that the books were opened for the receipt of the money due the city on the tax duplicates for 1866. Long lines were formed to the different desks during the day, and the clerks were kept as busy as so many financial bees. This anxiety to pay up was not so much the result of a desire to relieve the wants of the city treasury as of a wish to save one per cent. a month by prompt pay-

New Jersey Matters. DEAD BODY FOUND.-The dead body of an unknown white man was found in an open field on the Ellisburg turnpike, about three miles from Camden, yeeterday after-noon, and was brought into the city by Coroner Roberts, in the evening. It is sup-posed he had frozen to death. From ap-pearances he was about 70 years of age. He was dressed plainly, but everything on him

significantly felt. Whilst belonging to the Episcopal Church, he was most liberal in his views in reference to other denominations. Dr. Goddard is now in the very white woolen stockings, darkish pants, with one knee patched, and a light pair of pants for drawers. His hat was a lightish felt, and all seemed to be good. Deceased was bald-headed, and his face smoothly and freshly shaved. There was nothing found upon his person to indicate who he was, and Coroner Roberts will keep the body for a few days, in order to give his friends, if any he has, an opportunity to recognize him. He had been dead for several days when found.

REMOVAL OF NUISANCES .- The city au thorities of Camden have authorized Marshal Campbell to procesd at once and have all nuisances removed from within the city limits, such as pig pens, etc. This is a timely precaution, and a measure which cannot fail to be highly beneficial to the sanitary condition of the city, especially in case the cholera makes its advent among the people.

Partial Hearing.— Yesterday, a partial hearing was had in the case of the four persons who were arrested on the charge of having participated in the row on Saturday night, at Front and Market streets, in which the two brothers Hoy were so badly stabbed. AMUSEMENTS.

THE ARCH.-Last evening Miss Jean Hosmer appeared as the heroine of one of our favorite plays, "Evadne." In this drama the tone is elevated, the moral is good and the entire spirit of the piece is of t the purest character. Miss Hosmer plays Evadne remarkably well; her clear, distinct enunciation: her deliberation in movement. and her graceful demeanor, eminently at her for the delineation of such parts, while Mrs. John Drew has chosen her company with such an "inevitable eye" that no cas can be a bad one at the Arch. respects Mrs. Drew's management has been perfect, and the fact has never been more apparent at any time than since Miss Hosmer began her engagement. This evening Miss Hosmer appears in "Love; or, the Countess and the Serf," supported by Tilton, Mackay, Rankin, Marlowe, James, Miss Price, &c. The afterpiece will be "Turn Him Out." For her benefit on Brider Miss Hosmer in the Counter of the Counter Friday Miss Hosmer appears in "Ion," which Mrs. Drew will bring out in superb style, with new scenery, admirably appropriate costumes, &c.

THE WALNUT.—Clarke appears in "Babes in the Woods" and "The Fat Boy," the comedietta of "Perfection" being also given. The houses at the Walnut still coninue crowded to the utmost, and Clarke's pathos, fun and grotesqueness are still the wonder and the admiration of thousands of play-goers.

THE CHESTNUT .- To-night "Arrah-Na-The same effective drama will be repeated at to-morrow's matinee. This evening the new and irresistibly funny farce of "My Wife's Maid" will close the performance. It is quite new and will have run.

New Proposed Reciprocity Treaty. Copies of the preliminary report on the treaty of reciprocity with Great Britain, to regulate the trade between the United States and the provinces of British North America prepared by E. H. Derby at the request of the Secretary of the Treasury, were to-day laid before the members of Congress. He appends the draft of a bill to extend the present treaty for the further term of one year from March 17th, 1866, on the condiion that Canada shall repeal all duties and taxes on salt, cars, locomotives, vehicles of all kinds, machinery, furniture, tools, implements, soap, starch, boots, shoes, leather, horse shoes and horse shoe nails, harness; tacks, brads, watches, music and musical instruments, clocks, tin and wooden ware mousselin delaines, coarse shawls, satinets, and sheetings and shirtings worth less than \$1 per pound, and have raised her internal tax and duty on spirits to at least 75 cents per gallon, wine measure, and discontinue her free ports on lakes Huron and Superior. The said treaty for extension shall also provide that the United States may impose any internal taxes on the productions of the provinces which the levy upon their own products of the same kind.

The President is authorized to appoint two commissioners or envoys to negotiate a treaty with the United Kingdom and the provinces, either jointly, or severally, to regulate the commerce and navigation beween the respective territories and people of said province and the United States, on terms reciprocally beneficial. It is to be made the cuty of the commissioners to provide, if possible, for the permanent security of the tisheries of the United States, to secure the tree interchange of the chief products of ar and manufacture, as well the products of art and manufacture, as well the products of the forests and agriculture and other products between the Provinces and the United States, and to secure, if possible, the discontinuance of any free ports that may endanger revenue, and the assimilation of duties on articles taxed by the two countries and the removal of all charges for lights and compulsory pilotage and all discriminating tolls, and all duties for improved navigation between Lake Michigan and the Mississippi around the Falls of Niagara, and between Lake Ontario, Mon treal and Lake Champlain. All articles produced in any of the provinces which under the provisions of the treaty for ex-tension, if made, shall be freely admitted into Canada from the United States, shall during the year of extension, be freely admitted into the United States from Canada, if produced in that country.
