Mexican Affairs. to the negotiations in 1861 with Mexico, for the purpose of marching United States troops from Guyamas to Arizona, through Mexico, incloses papers upon the subject from the State Department, from which it appears that under date of May 6th, 1861, Signor Romero called the attention of My ignor Romero called the attention of Mr. Seward to a project of Southern men for seizing Mexico and establishing slavery therein, and declared that Mexico conquered her independence through the blood of her children, and will maintain it to the last extremity against any invader who may attempt to take it from her, and that she will never consent that any human being shall be reduced to slavery within its terri-tory. It is a free country, in which no man is born a slave, and in treading upon which liberty returns to those who may before have had the misfortune to lose it. He, therefore, wished to arrange between Mexico, and the United States a treaty which shall guarantee the boundaries of the Mexican Republic as now agreed upon, and pre-vent the introduction of slavery into Mexi-

can territory. He would make it an indispensable condition to such treaty or arrangement that no European nations should be participants lest it might become a motive or pretext for the intervention of that continen pretext for the intervention of that continent in the affairs of the Republic in particular and America in general. Mr. Seward replied, May 7th, that such designs of the insurgents here against the peace of Mexico cannot be carried into effect if their designs against their own Government are prevented. He says that full instructions were given to Mr. Corwin to establish such relations with Mexico and other American republics, as will strengthen those powers and enable them to maintain independence of any influence coming from the other hemisphere. In another letter, of the same date, he asks permission from the Mexican Government to passing troops through Mexican territory, for concentration in Arizona. Senor Romero, under date of August 20th communicates the desired permission. Mr. Seward acknowledges the liberal and magnanimous exhibition of confidence, and promises that Mexico shall have no occasion to regret the courtesy.

Presentment by the Grand Jury. Yesterday the Grand Jury handed to Judge Allison the final presentment for the term. They state that they have acted upon eight hundred and ninety-two bills, five agnt nundred and innerviwe only, two only, two hundred and ferty-two of which have been found true bills, and three hundred and afty ignored. "The unprecedented number of bills acted upon by the Grand Jury for the October term and the present term, amounting in the aggregate to 1846 bills, has employed the time of each jury during the whole term. Very many of these eases yet remain untried, and must necessarily go over to the next term of the Court. This accumulation of business is likely to continue, to the great embarrassment of the and manifest injustice to those committed to prison for trifling offences, and

who have a right to a speedy trial.

"In this connection the Grand Jury take occasion to say that the labor imposed upon the Judges of the Court are quite sufficient to employ the time and energies of five Judges, instead of three, and would recommend the appointment, by law, of two additional Judges." Reference is made to the death of Judge Thompson, and the Jury concur in the opinion expressed by others—that his health was undermined by his incessant labors and his close confinement in the miserable apartment in which this Court is held, which room has been presented by former Grand Juries, and which we do now present as a nuisance, prejudical alike to health and morals. The Grand Jury are of opinion that the establishment of a Police Court, with powers specifically defined by law, before which all cases of petty misdemeanors and larcenies should be heard and immediately decided would not only and immediately decided, would no save the time of each Grand Jury and Petit Jury and this Court, and the time of witnesses, but would be an immense saving to the county in the item of costs, and a real

good to the parties interested.

The Jury trace three-fourths of the crime to the sale and immediate use of intoxicating liquors, and they suggest a revision and improvement in our license system.

All the public institutions have been visited and found to be in proper condition.

The Corn Exchange Association: This spirited organization held their twelfth annual meeting last evening at their hall, corner of Second and Gold streets. The Association now numbers 454 members. There have been added this year eighty-eight new firms, and thirty-eight members we resigned. Nine members have died during the year, viz: Thomas Barnett; John Gibson, Thomas Richardson, Alexander Heron, Alexander Hogg, Joseph B. Craig, John Derbyshire, Thos. M. Tell and Charles

The Treasurer reports as follows: Receipts of the year, \$3,812 96 \$5,852 96

Washington streets,
Donation to Cooper Shop
and Union Befreshment . 1,000 00 Saloons, Cash on hand, . . . 440 00

\$5.852 96 Mr. Joseph S. Perot, the Secretary, read the report, which gives a detailed account of the proceedings of the Board of Managem month to month, the particulars of which have mostly already appeared in the daily papers. The following were the daily papers. The following were elected officers for the year: President, Charles H. Cummings; Vice President, Nathan Brooke; Secretary, Joseph S. Perot. Treasurer, Job S. Ivens; Managers, John T. Bailey, Seneca E. Malone, Henry S. Hannis, John H. Michener, Edward Lukens, George W. Mears, Geo. L. Buzby and E. A. Hun-

Explosion of the Steamer Missouri. Evansville, Ind., Jan. 30.5 The steamer Missouri exploded her boiler at 10 minutes before 7 o'clock, this morning, opposite Robertson's Saw Mill; near the mouth of Green River. The explosion was distinctly heard all over this city and at Newburg. The steamer Dictator was near the Missouri at the time of the explosion, and ran along-side and took off the survivors.

The Dictator touched at Newburg, and

took on board Drs. W. and E. Slaughter, but left no list of the lost or saved, and but few particulars. The wreck is in pos-session of the Evansville and Cairo Packet

I learn that there were but five or six ladies on board, but that there were many

gentlemen.

The safe and some of the books were brought to this city this morning, but the cabin register has not been found. The port list shows the officers and crew numbered about one hundred men.

Exciting Race with a Runaway Engine. An exciting race between two locomotives occurred recently at Newcastle, Engliand. The authorities received a telegration at the Central Station, Newcastle, that en-gine No. 392 was then tearing along the down line at tremendous speed, without any one upon it. It appears that the engine was standing with a ballast train at Durham, only the fireman being on it, the driver standing on the ground near it. While thus standing, No. 392 was run into by another engine. The shock detached the ballast engine from the train; threw open the regulator, and pitched the fireman upon the ground. The result of the regulator being open was that No. 392 came away at a gradually increasing rate of speed. Meeting no drain and in the property the engine rate. impediment to its progress; the engine ran on at a great pace. It is usual to slacken speed in approaching and crossing Victoria is in the land of the

Bridge, and when the engine came rushing The message of the President in answer to on with unchecked speed, the company the Senate's inquiry for information relative servants at Washington at once saw there was something wrong. At this station an engine was standing, the driver of which, Ralph Gilchrist, at once detached his engine from the train, and followed as fast as he could. It was a long and exciting race (the runaway going at the rate of sixty miles an hour), and Gilchrist only succeeded in ranging up along side of it at Washhouse lane, about half a mile outside of Gateshead. As soon as this was effected, the fireman, John Baty, jumped from his own engine on to No. 392, and succeeded in bringing it up, fortunately without any damage being done Meeting of the American Union Com-mission.

A meeting of ladies and gentlemen friendly to the poor whites and blacks of the South, and to the work of education among them, was held last evening, in the rooms of the Young Men's Christian Association, for the purpose of devising means to relieve the suffering in Georgia, which State has been assumed by Pennsylvania and West Jersey, as their portion of the work.

Hon. James Pollock was in the Chair, and L. Montgomery Bond, Esq., acted as Secretary.

The chairman called on Rev. Dr. Sud

dards, Rector of Grace Church, to lead the audience in prayer.

Mr. Pollock stated the object of the As-Mr. Bond referred to certain plans which had been adopted at the previous meeting, and suggested that four collectors should be appointed for the different sections of the

city. He concluded by offering a resolution to that effect, which was passed unanimously.

Joseph Parker, Secretary of the Association, alluded to the good which had been accomplished by the managers, and to the

answer of the prayers of the people of God in the victories of our armies and the restoration of peace to our borders. Mr. Adams, agent of the Union Committee, at Georgia, followed in a forcible ad-

Professor R. B. Todd, from Rodgersville, Tennessee, alluded to the great distress which is now prevailing in East Tennessee, and urged immediate responses from the benevolent people of the North.

Cost of Public Printing.

A letter from Hon, J. D. Defrees, Superintendent of Public Printing, to Senator Anthony, Chairman of the Senate Committee and Comm tee on Printing, shows the cost of the public printing, binding, &c., executed through the office of the Superintendent of Public Printing for the year ending Sept. 30, 1865, to be as follows: For Senate,

House of Representatives. 431,371 1 State Department. 261.552 0 Interior Department. 484,520 14 Post Office Department, Blanks for the Post Offices, 63,784 4 Attorney General's Office. Department of Agriculture,
Office Superintendent Public 45,960 0 Printing, . Library of Congress, . 717 9 Judiciary, . 28,988 24

\$1,749,394 8 The items of Senate and House include cost of proportion of Congressional docu-ments ordered by the Senate and House o Representatives, respectively, for distribu-tion by the executive departments and bureaus of Government.

A FOOLISH PEDESTRIAN .- A foolish fellow named John Steaver, nearly killed him-self in Portsmouth, N. H., last week walk-ing a hundred miles in a hundred consecutive hours. Heaccomplished the feat. The Journal says:
"On Wednesday afternoon, at the close
of the first transport four hours (the restel

commenced at 5 P.M. on the previous day he became weary and felt a stronger disposition to sleep than he afterwards experienced. This was driven off, but the effort produced a severe headache, which continued through the remaining days. On Thurs day he felt drowsy, but was so excited tha he would sit down without napping. Every hour the circuiting the room forty-two times was regularly performed, in times ranging from twenty to thirty minutes. On that morning he began to be discouraged, and expressed a wish to abandon further renewed effort. His advisers persuaded him and he renewed his efforts, and as he expressed it, with a determined will to suced. Friday, the third day, he was mor wakeful, his nervous excitement having in creased—probably by the strong tea which was his only beverage. His head was bandaged, and bathed with rum and alum frequently. He stumbled from weakness and weariness, but got up without help. Satur-day, the fourth and last day, was one of weariness, aching limbs, aching head and prostration. He required to be supported as he went his hourly rounds. In the ninety-fifth hour he tainted and fell. Every hour of the last four he was bathed all over with rum and alum. In the

pathed all over with rum and atum. In the 199th hour he again fell in faintness. The last hour at length arrived, and with his assistants he completed his forty-two circuits in 33 minutes. He now received fresh energy from the idea that he had accomplished his feat, and unaided, he literally dragged his limbs once more around the hall, to show that he was still awake, and amid the cheers of a large audience he reamid the cheers of a large audience he re tired after nine o'clock. In an hour's time he was at his home and on his pillow, no doubt, like Sancho Panza, "blessing the man who first invented sleep." But for him sound sleep was not safe. His medical attendant, Doctor Perry, was with him through the night, awaking him every hour. He was under so strong a nervous excitement that he at times had to be held in bed by hisattendants. Hisdreams were fearful-of miles to travel, and that his bandages were lost, and that his bathing materials had given out. This was evident from his exclamations. On Monday morning he was better, but he has not yet got rid of the the swelling of his limbs, of weariness in his back, and of his headache. He took his

meals regularly during the four days, and such doses as the doctor prepared. "Mr. S. tells us that he went to the extent of human endurance—he has no idea that he could have sustained himself three hours longer, Although he realizes \$500 on the bet and \$280 as admission fees, yet ten times that amount would not induce him again to make a like effort. A like feat was performed in California a few years since. In Baltimore it was attempted by a man, who died in the 97th hour." died in the 97th hour."
