From Washington. [Special Despatch to the Bulletin.]
WASHINGTON, Feb. 13.—The Senate and House Committees on Foreign Affairs have under consideration the Franco-Mexican question. A decided change has taken place in the minds of both Committees, and also in the minds of members of Congress, since the news reached here of the speech of Napoleon to the Chamber of Deputies, announcing his determination to withdraw the French troops from Mexico, and many express a willingness now to recognize

Maximilian's government as the govern-

ment de facto of that country. A committee from Philadelphia and Baltimore were to-day before the Ways and Means Committee, to protest against any discrimination in favor of foreign over domestic coal. The tax commission in their first report suggested a tax of fifty cents per ton. In their second report they recommend a considerable increase over that figure, which will probably be adopted

by the committee. Gentlemen occupying confidential relations with the President assert to-day that there will be changes in the Cabinet within two days, though it is said that the differences that exist in regard to certain measures among the members of the Cabinet are not of a character to produce a rupture at present. We have this from high

authority.

The House Naval Committee, to-day, re sumed the consideration of the proposition to accept League Island, but adjourned without reaching any definite conclusion. It is not improbable that the new members of the committee may visit Philadelphia with a view of examining the

Colonel W. H. Coyle, Judge Advocate of the Department, has left for the Dry Tortugas by way of New Orleans, with a guard and seven prisoners convicted by military commission and sentenced to be confined at the Tortugas. Resolutions in the Maine Legislature. AUGUSTA, Maine, Feb. 13.—The following resolutions were introduced into the House branch of the Maine Legislature, to-day, by General Shepley, of Portland, in relation to equality of civil and political rights.

Resolved, That the grand result of a truly republican government can never be fully attained until equality of civil and political rights be permanently secured, irrespective of differences of race or color.

Resolved, That so long as the elective franchise shall be denied or abridged in any State on account of race or color, none therein of such race or color, should be included in the basis of representation of such State in the Congress of the United States; and we approve of the efforts of the Senators and Representatives from this State in Congress to secure such an amendment of the Constitution as would effect this result, believing that the tendency and hoping that the ultimate effect of this amendment, if adopted, would be to secure equality of political as well as civil rights

for all. The Committee on Federal Relations to which was referred a resolution in relation to the crime of treason and the punishment of traitors, have reported, that as in their oninion no expression of the views of this Legislature is required to hasten the action of the Executive authorities of the United States on the subject of said resolution, it ought not to mass. The report was accepted.
