The Committee on Property reported to lease the Howard Hall, in Shippen street, below Fourth, at an annual rent of \$500, for three years. Adopted.
The Committee on Boys' High School reported the names of graduates entitled to the degrees of Bachelor and Master of Arts.

Approved.
The Committee on Girls' High School reported the names of the applicants admitted to that institution at the last examina-

tion. The report was approved.

The Board then proceeded to discuss the The Board then proceeded to discuss the resolution offered at the last meeting to petition the Legislature to require all the taxes levied in the city for school purposes to be appropriated expressly for the Board School Control. The resolution offers to the Board an act to be recommended to the Legislature. The act was published in our report of the January meeting. It requires all moneys levied as taxes for school purposes to be plead in a bank designated by poses to be placed in a bank designated by the City Treasurer, subject to the order of the President of the Board of School Control. After paying the warrants of the school teachers, the balance of the fund is to be used in reducing the ground rents on the

city school houses.

Mr. Shippen explained the subject to the Board. For years he said the warrants from teachers have been hypothecated in our streets at discounts varying from five to twenty per cent., while the school taxes have been used by Councils for other pur-

THE COMMENCEMENT OF LENT.—Yesterday was "Shrove Tuesday," and, being the last day previous to Lent, it was generally observed as a day of feasting. In Italy and other countries entirely Catholic, it is made the last day of the carnival, and is celebrated. ted by masked balls and other amusements. In England ann Ireland the night of Shrove Tuesday is called "pancake night," from the fact that on that night pancakes are largely indulged in by those who can afford the luxury. The same practice prevails to a considerable extent in this country—only here it is termed "pancake day."

To-day is Ash Wednesday, the commencement of the season of Lent. That portion of the community belonging to the

portion of the community belonging to the Catholic and Protestant Episcopal persuasions will enter upon a season of fasting and prayer peculiar to their own denominations the observance of which is according to the rules and regulations of their respective churches. The period of Lent is known as the penitential season; and the first day, Ash Wednesday, receives its designation from the fact that at the services in the Catholic churches on that day the officiating priest, taking ashes on his thumb, marks the forehead of each communicant with it in the forenead of each communicant with it in the form of a cross, repeating at the same time the "Memento Mori," or remember death, "Dust thou art and unto dust thou shalt return." The season of Lent lasts about forty days, and terminates on Easter Sunday, the last week being known as "Holy Week," in which the ceremonies of the Cetablia and in a crost weak these the Catholic, and in a great measure those of the Episcopal church, are typical of the passion and death of the Saviour of mankind, and on the last day holy Saturday, of His heing placed in the tomb

being placed in the tomb. ST. VALENTINE'S DAY.—This is St. Va-ST. VALENTINE'S DAY.—This is St. Valentine's Day, when missiles of love and affection are supposed to have free passage without giving offence. The practice of sending out such missives, although rapidly falling into disuse, is still kept up to a considerable extent. For weeks past the windows of the fancy stationery stores have been filled with valentines of handsome designs, and this morning the letter carriers signs, gnd this morning the letter carriers all started out with extra sized bundles

The valentines now made differ considerably from those of a few years ago. They are not usually, when the increased expense of production is considered, so costly the constant ware. That is while the constant ware. under their arms. as they were. That is, while the prices of materials and labor have risen, the rates for valentines have remained stationary, or are less, and not so many rare specimens of work are produced now as formerly. The highest prices of any valentines, usually made for regular sales, average about ten dollars. Comparatively few reach this figure; but many are sold at from five to ten dollars each. Probably more than half the total sum obtained for all the valentines is derived from those disposed of at from one to five dollars; while not a quarter of the whole number manufactured sell at a higher price than one or two dollars. The great mass of them are of the very cheap descrip-tions, some of the sentimental varieties being afforded for five cents or less each. Great numbers—millions in the aggregate—are sold to children, whose first formal "declarations" are so often made through the medium of these showy preparations of paper and tinsel.

PITTSBURGH, COLUMBUS AND CINCINNATI RAILROAD COMPANY .-- We call the attention of merchants and travelers generally to the advertisement of the "Pan Handle" route to the West and Southwest. The road between Pittsburgh and Steubenville is now inished, thoroughly equipped and in per lect order. As our readers are aware i hortens the time to the western and southestern cities about five hours in time, and but one change of cars is made between Philadelphia or New York and Cincinnati St. Louis and other prominent cities in that region. The road is well officered and well managed in every respect. Mr. John Durand, the General Superintendent, is one of the ablest and most experienced railroad men in the country. Mr. John H. Miller, the General Eastern Passenger Agent, is very favorably known from his connection with the Pennsylvania Central and Pitts have the the Warne and Chicago Pallycods. burgh, Fort Wayne and Chicago Railroads, and Mr. S. F. Scull, the General ticket agent is also a thoroughly trained railroad man. Details as to the trains, &c., will be found in the advertisement.

HIGHWAY ROBBERY.-Benjamin Tyler was before Ald. Butler yesterday afternoon npon the charge of highway robbery. On Monday evening last, Mr. Robt. A. Hill, while passing Broad and Locust streets, was while passing Broad and Locustatreets, was accosted by Tyler, who caught him by the arm and dragged him into an alley near by, where three men were concealed. One of the rascals almost choked him, while the others robbed him of his watch and six dol-lars in money. Mr. Hill identified Tyler as one of the party. He was committed to an-

CORONER'S INQUEST.—Coroner Taylor held an inquest, yesterday afternoon, upon the body of Cornelius McDonough, who died from the effects of injuries received by being run over on the Norristown Railroad, a few days since. The evidence showed the deceased attempted to cross the track in front of the train, and that the accident was unavoidable. The verdict of the jury was to that effect. The deceased was sixty years of age, and resided above Manayunk, in Montgomery county.

A SERIES OF CHARGES. - Before Alderman Beitler, yesterday afternoon, John Cheney had a hearing upon three separate charges; first, larceny of money from the till in Mr. Frame's restaurant, at Ninth and Chestnut streets; second, threatening to kill Mr. F., and third, with malicious mischief in breakings, lot of articles in the rear of the bar ing a lot of articles in the rear of the bar, and totally demolishing a large mirror, valued at over \$100. STILL THEY COME. - The European Times, STILL THEY COME.—The European Times, 27th ult, says a large number of respectable young men from all parts of England are emigrating to America in the numerous steamers which are now plying between various ports and the United States. This exodus appears to have arisen in consequence of the accounts constantly received of the wealth of the United States, and the scope there for enterprise In There is certainly a fine scope for enterprise in this country and particularly in this city, as witness the success of W. W. Alter, Coal Dealer, 387 North Ninth street. Branch office at Sixth and Spring Garden streets.

THE PHANTOM OF THE FOREST.—That noble old weekly, the Saturday Evening Post, which has seen the sunshine and storms of nearly half a century, is out this week with a Supplement, containing the first half of Emerson Bennet's last great Indian tale, the "Phantom of the Forest." This splendid story is one of the most thrilling and fascinating that has appeared for years, and has already created a profound sensation among the best class of readers. Since the palmy days of Cooper, this country has produced no writer of Indian tales equal to Emerson Bennett, and this is his last and best. A large extra edition of the Post having become exhausted, the enterprising publishers have issued this Supplement for the benefit of new readers, containing one-half of this great novel, and which is furnished to purchasers of this week's Post without extra charge—in other words, fifty cents' worth of reading for five.

New Jersey Matters.

BURGLARIOUS.-There seems to be an increasing disposition among the idle and evil-disposed house-breaking and robbery, notwithstand-ing the vigilance of the police and watchfurness of the citizens themselves. Abou twelve o'clock on Monday night, an attempt at robbery was made at the house of Joseph W. Cooper, Esq., at Cooper's Point, but the villians became alarmed be fore effecting an entrance. As a son of Mr. Cooper went home from his duties at the ferry, he met two men on the steps, who inquired of him if a certain gentleman resided there. On being told that he did not the two hurriedly retreated, and when Mr. Cooper opened the door he discovered that four holes had been bored through the

The night before an entrance was effected into a house on Bridge avenue, by some adroit thief, and a pair of pantaloons were stolen. He was frightened away before he

could get anything else.

A night or two since the residence of C.
Hultz, No. 330 Plum street was entered,
during the absence of the family, and a
silver watch stolen therefrom.

A WARNING.—The convictions and sentences of the last term of court must satisfy the rogues of other places that New Jersey is a dangerous field in which to operate Those who select our inland villages in which to pass counterfeit money presume toe much upon the inexperience and sim-plicity of our people. A "hit" may be made occasionally, but the race of the offender is generally short, for they are sure to be caught. And then comes the penalty. There is no escape from "Jersey justice," when once invaded by "foreign" depredators, for they are sure to get all the law will give them. Taylor, the vender of counter-ieit money, was too shrewd to pass it in his own neighborhood. He used gold in all own neighborhood. He used gold in all his dealings about Longacoming and Tans-boro', and he was regarded as a great con-venience in giving or making change—per-forming the duties of a banker. Few men were more respected, because he was as generous and upright at home, as he was unscrupulous abroad. He was afraid to operate to any extent in Jersey, because he

knew the dread of "Jersey law." EASTERN CAMDEN .- The progress of improvement in Camden seems to have set eastward, for there are many new buildings contracted for to be commenced in the spring, in that direction. This is accounted for by the fact that Cooser's creek affords elegible location for manufacturings establishments, many of which have already been established there. There are several parties contemplating the erection of other large factories of various descriptions, which will consequently cause them to which will, consequently, cause them to build private dwellings to accommodate their workmen.

THE COURT HOUSE .- The present condition of the Camden Court House renders it hardly fit for the business transacted in it. The Board of Chosen Freeholders should make an effort to repair and greatly improve it. The furnace and heaters are badly arranged, so much so indeed, that the stench from the sinks and cells fill the rooms above to a very disagreeable extent, making it unhealthful and annoying. These evils are supparent that they ought to be remedied at once.

AMUSEMENTS.

At the Walnut to-night Clarke appears in "The Comedy of Errors" and "Nicholas Nickleby." At the Chestnut "Henry Dun-Nickleby." At the Chestnut "Henry Dun-bar." At the Arch Mrs. Waller appears in "Naomi, the Deserted," with "A Regular Fix" for an afterpiece. At the American Wallett and other attractions. At the As-sembly Building Blitz, and at the same lo-cality the Peak Family. On the 22d instant Mr. S. K.Murdoch gives Patriotic Readings at Assembly Building, and on the 26th the Shaksperean Carnival takes place at Con-tert Hall.

NOTICE TO THE PUBLIC.

In the year 1846, the writer embarked in the Drug Business in the city of Philadelphia, and while thus engaged, made several experiments in rexard to the most desirable mode of preparing Fluid Extracts. My efforts being supersistence and used by the Medical faculty—I was desirous of placing them before the public, but hesitated for some time before concluding to resort to newspaper advertising, knowing of the predudes that existed in the minds of many against using advertised Medicines; but through the advice of friends and those who had used my preparations, this objection was overcome. Commencing in a small way, after 18 years' exertions, the popularity of my articles has extended to all paris of the United States, and widely throughout foreign countries—and this in the face of much opposition. Every means has been resorted to by unprincipled dealers since their merit and success have been known—such as advertising larger bottles at less price, censuring all other preparations, and even copying my advertisements—but I am happy to state that out of the many who have resorted to this, none have been successful. successful.

The Science of Medicine, like the Doric column, should stand simple, pure and majestic, having fact for its basis, induction for its pillar, and truth gions for

should stand simple, pure and majestic, having fact for its basis, induction for its pillar, and truth atoms for its capital.

I contend there is no business requiring these qualifications more, as medicines are brought in contact with Druggists everywhere. I am also well aware that persons reason in this manner: that which may benefit one may be of no advantage to another! How mistaken the idea!

A Blood Purifier for one is a Blood Purifier for all,
A Diny tie for one, a Dinretic for all.
A Narcotic for one, a Dinretic for all.
A Narcotic for one, a Narcotic for all.
Just as much so as wholesome food for one is wholeseme food for all, with no more difference than that some constitutions require more than others, and that persons in disease are given to despondency—expecting in a few days or weeks, and perhaps with a single bettle of medicine, to be restored to health, if not to youth and beauty. There persons rarely recover, lacking patience. They give nothing a fair trial, considering a lew dollars expended for the benefit of their health a waste of money. The same individuals may have been years in breaking down their constitutions, and have probably expended thousands of dollars in foress and dissipation, and thought nothing of it. Such forget that GOOD HEALTH 16 TRUE WHALTH. With upwards of 30,000 recommendatory letters and unsolicited certificates, I have never resorted to their publication. The Kidneys.

The kidneys are two in number, situated at the up-per part of the loin, surrounded by fat and consisting of three parts, viz: The Anterior, the Interior and the ixterior. of three parts, viz.: The Anterior, the Interior and the Exterior.

The anterior absorbs. Interior coasists of issues or veries, which serve as a deposit for the urine and convey it to the exterior. The exterior is a conductor also, terminating in a single tube and called the Ureier. The bladder is composed of various coverings or issues, divided into parts, viz. The Upper, the Lower, the Nervous, and the Mucous. The upper expels, the lower retains. Many have a desire to urinate without he ability, others urinate without the ability to retain. This frequently occurs in children.

To cure these affections we must bring into action the muscles, which are engaged in their various functions. If they are neglected, Gravel or Dropsy may ensue.

The reader must also be made aware, that howeverlight may be the attack, it is sure to affect his bodily -light may be the attack, it is sure to affect his bodily health and mental powers; as our flesh and blood are supported from these sources.

Gout or Rheumatism.

Pain occurring in the loins is indicative of the above diseases. They occur in perso stomach and chalky controllors.

The Gravel.

The Gravel ensues from neglect or improper treat-ment of the kidness. These organs being weak, the water is not expelled from the bladder, but allowed to remain; it becomes feverah and sediment forms, it is from this deposit that the stone is formed and gravel

TREATMENT.

Helmbold's highly concentrated compound Extract Buchu is decidedly one of the best remedies for discuses of the bladder, kidneys, gravel, dropsical swelings; rheumatism and gouty affections. Under this head we have arranged Jysuria, or difficulty and pain in passing water, scanty secretion or small and frequent discharges of water, Strangury or stopping of water, Hematuria or bloody urine, Gout and Rheumatism of the kidneys, without any change in quantity, but increase of color or dark water. It was always highly recommended by the late Dr. Physic, in these affections. effections.

This medicine increases the power of digestion and active the absorbents into healthy exercise, by which the watery or calcareous depositions and all unnatural enlargements, as well as pain and inflammation are reduced, and is taken by
