The War Debt of the Loyal States. The report made yesterday by Representative Blaine, of Maine, from the Select Committee on the Debts of the Loyal States includes data upon the subject from all the Loyal States, excepting California, Oregon and Nevada. The sum total of such debts so far as ascertained is \$667,954,364. The reports of the Governors of the States were not exact or in full, but approximate, and it is believed that the total amount is not

by taxation or by individuals. The Committee recommend a reimbursement of States in part, upon the basis of the proportion of men furnished by each State. It was deemed too burdensome to the General Government to require more than a fractional reimbursement, which would not impair the national credit. Twenty five per cent. of the average expenditure throughout the loyal States, or \$51 for each man furnished, is recommended. This would produce the amounts set forth in the

following bill: A bill to reimburse the States that furnished troops to the Union army, for expenses incurred and advances made in raising the same.

the common cause of the Union, and there-fore constitutes an equitable claim on the common treasury of the nation, therefore Be it enacted by the Senate and House of Representative of the United States of America, in Congress assembled, that there shall be reimbursed by the United States to each of the States that furnished troops to the Union army, and also to the several territories and the District of Columbia, a sum could be 555 for each men dalle missing districts. equal to \$55 for each man duly enlisted into the military or naval service of the United States during the late war, the total number being reduced to a uniform standard of three years' service, viz: To the State of

WSHINGTON, Feb. 16.—A communication addressed to Mr. Banks from the Secretary of State, was presented to the House to-day, inclosing a despatch from our minister at Brussels, the Hon. H. S. Sanford, relative to the appropriations of the Belgian Government for the Paris Exposition of 1867, by which it appears that the Minister of the Interior recommends an appropriation of \$120,000 for cost of freight, labor, supervision, traveling expenses and publication of reports of Belgian juries and delegates.

He advises an enthusiastic emulation and active rivalry with other nations. Of this sum, fifteen thousand dollars is for care and supervision, a sum somewhat larger than that supplied for the same item at the former exhibition, as the number of exhibitors will be larger, and the products more varied. It is suggested that a number of masters, or skilled workmen in various industries, be sent for the purpose of studying the exhi-bition, and students in drawing and model-ing schools who manifest remarkable

The delegation of photographic artists re-presenting several of the largest cities of this country, are still in Washington, seeking such changes in the existing revenue laws as will supersede the necessity of affixing stamps to their photographs and other productions of the art. They represent that inasmuch as the use of stamps has resulted in serious damage to pictures in defacing and discoloring them, it is manifestly the duty of Congress to relieve the petition

ers by substituting a more acceptable way of contributing to the national treasury. The following officers have been detailed as members of a joint board of army and navy officers, to consider and report upon the subject of harbor defences, torpedoes, &c.—Brevet Brigadier General J. G. Bernard, B. S. Alexander and Q. A. Gillmore, on the part of the Army; and Admirals Charles H. Davies and John A. Dahlgren, and Captain James Alden, on the part of the Navy. The Board will assemble at the Navy Department on the 1st day of March

next. The Department of State to-day received a flag from the working people of Lyons, France, dedicated to the people of the United States, in memory of Abraham Lincoln. The flag is of the finest fabric, and is 31 metres in length and 2 15-100 metres in width, and is inscribed "Popular subscription to the Republic of the United States." in honor of Abraham Lincoln, Lyons, 1865, In response to an application received today, Secretary McCulloch decided that no general permit can be granted to importers of hides, and that before a cargo can be removed from a vessel indubitable evidence must be produced that the hides have not been taken from animals that have died from the effects of the cattle plague.

Madison, Feb. 16 .-- In the Legislature to-day, the Committee on Federal Rela tions reported a series of resolutions declare ing that the safety of the Government de pends upon an adhesion to the cardinal principal that all men are created free and equal, and while rejoicing over the restoration of the Union, we earnestly protest against any policy of reconstruction which disregards these vital principles and admits the enemies of the Government to participate in its administration.

The course pursued by the Southern

States since the close of the war to Northern men, the persecution of colored men, the election of former active rebel leaders to official positions, are evidences that it is unsafe to trust them with the destinies of the

The welfare of the loyal people of these States urges upon Congress the duty of establishing provisional governments until the Southern people demonstrate their fitness to resume their administration. The safety of the Government demands adequate punishment of treason, in bring-

ing to trial and punishment the rebelleaders. The resolutions commend President Johnson's course at the outset of his Administration, as an evidence of his devotion to the cardinal principles of our Government, and pledging him support as far as he faithfully executes the trust committed

to him.

These are considered the unanimous voice of a majority of the members of the Legis-lature, and will probably be passed at an early day.
