Interesting from Texas. NEW ORLEANS, Feb. 16.—The indications continue that there will be a heavy emigration to Texas from the Northern States, especially in the spring. Below the town of Dala, in Brazos, in Central Texas, a large portion of the plantations have already been occupied by these new comers. The owners of the land have divided them into small lots and rented them to poor people who are going into cotton planting. There are four hundred thousand acres of the richest cotton land on the Brazos river alone still untouched by the plow. Hon. Albert H. Latimer, Controller of Texas, has been appointed by the President Tax Commis-

sioner for Texas. From the West. CINCINNATI, Feb. 17 .- The City Council yesterday passed a resolution asking the Legislature for authority to issue bonds for the purchase of the gas works, amount not specified; and bonds to the amount of \$500,000 for the construction of a new hospital; to levy a tax of one mill on the

dollar for sewerage purposes. Navigation at this point was partially suspended yesterday, but the regular line of boats all resume their trips to-day.

Great confusion and excitement occurred in the Tennessee House of Representatives yesterday, over the discussion of the franchise bill. Hard words passed between the speaker and Mr. Mullins, and the presiding officer threw his mallet at the latter's head.

Louisiana. NEW ORLEANS, Feb. 16.—The Baton Rouge Advocate says that not one-third of the cultivatable land in that section and along the coast in that immediate neighborhood had been put in cotton this year. There will not be as many acres planted in the East and West Baton Rouge parishes this year as last season, for the want of

Three other men had been to the timber, and it seems they could not keep up with their teams, one was found, the others were not, the last account we had; the one found was frozen in a standing posture, with both hands covering his face, within three rods of a house. These calamities have all happened within twelve or fourteen miles of here, and I have no doubt we shall hear of others.

Prospect of Its Return.

From Washington. [Special Despatch to the Bulletin.] WASHINGTON, Feb. 17.—The Reconstruc-

tion Committee are in session to-day for the purpose of deciding upon the fate of Tennessee. A majority of the Committee, at the last meeting, voted in favor of her admission into the Union on an equal footing with the other States in all respects whatever, her Constitution, on due examination, being found to be republican in its form. If this course is adopted by the Committee, which is very probable, it set-

tles matters in regard to the other Southern States. Robert E. Lee will be examined by the Sub-Committee on Reconstruction this afternoon, in regard to the condition of affairs in Virginia. He will be put through

most rigid examination. Several Senators to-day called upon the President, for the purpose of ascertaining the fate of the Freedmen's bill. The President is very reticent upon the subject. There is no doubt it will be returned to the Senate with his objections to it.

Mr. Cook (Ill.) argued that the power of recognizing the Seceded States as in the Union rests with Congress. When the military power can safely be withdrawn and

these States remain peaceably in the Union of their own accord and not by force, and the Union men and Freedmen do not require a military force to protect them, the civil government should be recognized; but no military power could set aside the enactments and judicial decisions of the States fully in the Union.
