CITY BULLETIN.

LECTURE BY REV. HENRY WARD BEECHER.—Ever since the close of the rebellion our citizens have been anxious to hear from the Rev. Mr. Beecher face to face. That desire can be gratified at Concert Hall on Wednesday evening, the 21st instant, where and when this popular orator and eloquent champion of human rights will deliver a lecture entitled "Work and Work." men." In order to fill the house to over-flowing it will only be necessary for us to add that the sale of tickets commences at Claxton's (late Martien's) at 12 o'clock to-day. The price of tickets has been placed at fifty cents, and a limited number of re-served seats will be sold at twenty-five cents extra. The expressed eagerness on the part of the public to hear Mr. Beecher discuss this subject at this particular junc-ture is intense, and those who desire tic-lets will consequently be obliged to apply Claxton's (late Martien's) at 12 o'clock tokets will consequently be obliged to apply

SUPEREMINENTLY EXCELLENT CONFECTIONS.—It is invariably true that when a manufacturer in any branch of trade does not make any inferior goods, he becomes a household name, and his manufactures are preferred to all others. This is true with respect to the Confections made by Mr. Stephen F. Whitman, No. 1210 Market street. It seems as if the public were indifferent to every kind of Confectionery not bearing his name. They are supereminently excellent.

THE COLD QUESTION.—The prevalence of colds has again induced the query so often agitated as to the immediate cause of the "cold in the head," "the cold in the back," and "the cold in the head," "the cold in the back," and "the cold in the throat." A gentleman who endeavored to trace the cause of his cold, came to the conclusion that he caught it going to bed in his bare feet. The real cause of many colds may be attributed to the long talks which people indulge in on the corners of streets. One of Boston's most celebrated physicians, now an octogenarian, when stopped in the streets, invariably remarks, "I will talk if you will walk," This should be a hint to button-holding friends, all of whom are a nulsance, unless they have sense enough to speak well of the coal sold by W. W. Alter, 957 N. Ninth street. Mr. Alter also has a branch office at slixth and Spring Garden streets.

THE WALNUT.—"The Young Scamp,"
"Robert Macaire," "Comedy of Errors"
and "Lonely Man of the Ocean" will be
given at the Walnut to-night, Clarke appearing in three of his best characters, supported by the full strength of the company. THE ARCH.—Mrs. Waller takes her farewell this evening, appearing as Iago, in "Othello." Mr. Waller will support her as the Moor, this being one of his best and most discriminating personations. The afterpiece will be "Robert Macaire," with Robson and Rankin in the cast. On Monday we have Chanfrau, De Walden and Miss

Olive Logan in "Sam." GERMAN OPERA.—The season of German Opera which is to commence on Monday, Opera which is to commence on Monday, the 26th instant, at the Academy, promises to be a brilliant success, judging from the flattering reception it has met under Mr. Grover's admirable management in the cities of Boston, Washington and Baltimore, where it rivalled the great Italian Opera in popularity. The great strength of the repertory and the pleasant and satisfactory method of giving the operas, together with the low prices at which the season sale is fixed, (ten dollars for the ten nights), are points which cannot fail to make the points which cannot fail to make the coming season of German Opera signally triumphant.

NOTICE TO THE PUBLIC.

In the year 1846, the writer embarked in the Drug Business in the city of Philadelphia, and while thus engaged, made several experiments in regard to the must desirable mode of preparing Fluid Extracts. My efforts being successful—the articles being approved and used by the Medical faculcy—I was desirous of placing them before the pullic, but hesitated for some placing them before the pullic, but hesitated for some time before concluding to resort to newspaper advertising, knowing of the prejudices that existed in the minds of many against using advertised Medicines; but through the advice of friends and those who had used my preparations, this objection was overcome.

Commencing in a small way, after 18 years' exertions, the popularity of my articles has extended to all parts of the United States, and widely throughout for reign countries—and this in the face of much opposition. Every means has been resorted to by unprincipled dealers since their merit and success have been known—such as advertising larger bottles at less price, cesuring all other preparations, and even copying my advertisements—but I am happy to state that out of the many who have resorted to this, none have been successful.

The Science of Medicine, like the Doric column.

successful.

The Science of Medicine, like the Doric column, should stand simple, pure and majestic, having fact for its basis, induction for its pillar, and truth atone for its capital.

I contend there is no business requiring these qualifications more as medicines are brought in contact.

its capital.

It contend there is no business requiring these qualifications more, as medicines are brought in contact with Druggists everywhere. I am also well aware that persons reason in this manner: that which may benefit one may be of no advantage to another! How mistaken the idea!

A Blood Purifier for one is a Blood Purifier for all.

A Diurettic for one, a Diurettic for all.

A Narcotic for one, a Diurettic for all.

A Purgative for one, a Narcotic for all.

A Purgative for one, a Purgative for all.

Just as much soas wholesome food for one is wholesome food for all, with no more difference than that some constitutions require more than other, and that persons in disease are given to despondency—expecting in a few days or weeks, and perhaps with a single bettle of medicine, to be restored to health, if not to youth and beauty. These persons rarely recover, lack ring patience. They give nothing a fair trial, considering a few dollars expended for the benefit of their health a waste of money. The same individuals may have been years in breaking down their constitutions, and have probably expended thousands of dollars in dress and dissipation, and thought nothing of it. Such. With upwards of 30,000 recommendatory letters and unsolleited certificates, I have never resorted to their publication. I do not do this, from the fact that they are "Standard Preparations" (not Patent Medicines), but open to the inspection of all. The ingredients are not kept secret, and are recommended only for those diseases and accompanying symptoms for which their ingredients are everywhere recognised as Standard Specifics.

The Kidneys.

The kidneys are two in number, situated at the up-per part of the loin, surrounded by fat and consisting of three parts, viz.: The Anterior, the Interior and the of three paris, viz.: The Anterior, the Interior and the Exterior.

The anterior absorbs. Interior consists of tissues or veins, which serve as a deposit for the urine and convey it to the exterior. The exterior is a conductor also, terminating to a single tube and called the Ureter. The ureters are connected with the oladder.

The bindder is composed of various coverings or usue. divided into parts, viz.: The Upper, the Lower, the Nervous, and the Mucous. The upper expels, the lower retains. Many have a desire to urinate without the ability, others urinate without the ability to retain. This frequently occurs in children.

To cure these affections we must bring into action the muscles, which are engaged in their various functions. If they are neglected, Gravel or Dropsy may conse. ensue.

The reader must also be made aware, that however slight may be the attack, it is sure to affect his bodily health and mental powers; as our fiesh and blood are supported from these sources.

TREATMENT.

Helmbold's highly concentrated compound Extract Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, gravel, dropsical swelings; rheumatism and gonty affections. Under this head we have arranged bysuria, or difficulty and pain in passing water, scanty secretion or small and frequent discharges of water, Strangury or stopping of water, Hematuria or bloody urine, Gont and Rheumatism of the kidneys, without any change in quantity, but increase of color or dark water. It was always nighty recommended by the late Dr. Physic, in these affections.

This medicine increases the power of digestion and excites the absorbents into healthy exercise, by which the watery or calcareous depositions and all unnatural enlargements, as well as pain and inflammation are reduced, and is taken by

The DIRECTOR has the pleasure to announce a brief season of

Commercing as above, embracing the production of

brief season of GERMAN OPERA,
GRAND GERMAN OPERA,
Commencing as above, embracing the production of the strength of the repertoire of the Grand German Opera Company, it chiding several Operas, which are now presented here for the first time by this Company. The uniform good favor which the Artists. Chorus and Kinsemble of this Company has here as well as elsowhere enjoyed precludes the necessity of elaborate announcement. The Company now embraces the favorities of former seasons, together with several favo artists of the first telent. The thoroughly genial and spirited method of tendering Overa which has chiefly charterized the wonderful popularity of this Company intensifies with continued performance, and foremost among its successes are ranked its most recent preductions. The famous jewets, trophies and costumes of the "Esmarraida" war robes, the construction of which cost so enormously, have been added to the material for costuming the O eras. The absence of long enere-act waits is noticeable, and an unusually gay and enjoyable season may be confidently expected.

The Company embraces several NEW ARTISTS, Picted.

Fr. A DIA VOLO.

AUBER.
The first production here by this Company of this wenderfully popular opera. The shle critic of the Washington Chronicle produced the rec-nt production of 'Fra Diavolo' the most genuine success of the season, and the most enjoyable operatic performance ever given in that city. It is not presumption to say that no other American Cast equals that of the German Opera Company in vivacity and exprit de Topera. Habelman and Madame Rotter are esteemed as in their most efficitive rolex; Hermans, slightly trespassing on that good nature which the public everywhere accords him in order to please Millor, the anglishman, with something national, introduces, as one of the Robbers, Russell's popular ballad—'I'm affoat. I'm affoat '--which produces the most tumnituous enthusiaem, and presents this popular basso in an entirely new feature

Fourth Act Restored, as Presented only by this Company,

MARTHA,

and in addition the celebrated Robin Adair act of

"LA DAME BLANCHE.

This wonderful strong programme drew in Boston
the largest attendance of its entire recent seasons of
Grand Italian and Grand German Opera, famous as
exceeding by an average of ONE THOUSAND DOLLARS PAR DAY any former operatic season on the
American Continent.

The Boston Journal says:

"The matinee on Saturday was crowded to excess.
The German Company is highly est emed here, and
with 1 ood reason, too, for their performances evolve
such quantities of good humor that it is impossible
to resist their factination. Individuality is rarely
apparent, or at least objectionally so. We cite their
presentation of Martho as an illustration. How sparkling and enlivening was the overture, played by the
German orchestra, and directed by the skillful Nenendorft. This led us agreeably into the play. Following
it, from beginning to end, the charming muse of
Floture was united with the hearty co-operative action
of the singers, keeping the seases in a constant spell of
delight. All of the principal songs were encored, while
the concerted pieces were much applanded.
