(For the Philadelphia Evening Bulletin.)
THE VETO.

Quoth Senator Willey,
"We've done silly,
There can't be a doubt!"
"The fact is," said Doolittle,
"We certainly knew little
What we were about!"
"By thunder," cried Morgan,
"He's washed our hand-organs,
Or else I'll be dashed!"
"That's so," chimed in Dixon,
"We can't play our tricks on
King Andrew the First."
"O!" said Stewart (Nevada),
"We're wiser and sadder
Than we were before."
Whimper Norton, of Minn.,
"And we'll do so no more!"
[Exemote the six Senators, in sackcloth.]

CENTRAL AND SOUTH AMERICA.

Reported Gold Mines on the Isthmus.

THE SPANISH-CHILEAN WAR.

The Spaniards Burn the Vessels Captured from the Chileans.

Diplomatic Relations Suspended Between Uruguay and Chile.

The steamer Henry Chauncey arrived at New York, yesterday, from Aspinwall, bearing later dates from all parts of Central and South America.

Advices from the Sandwich Islands announce the arrival, at Honolulu, on the 31st of December, of the United States steamship Lancaster, bearing the broad pennant of Rear-Admiral Pearson, in fifty-four days from Panama. This unusually long passage was owing to the fact of her propeller having got disabled on the start, compelling her to depend on her sails altogether.

Aspinwall, Feb. 12.—The steamer Chile arrived at Panama from the South coast on the 31st inst., bringing dates from Valparaiso to the 17th and Callao, to January 23.

She brought a full cargo, 2,780 packages of wool for Europe, and only twenty-eight for the United States.

By this arrival we learn that the blockade of all the Chilean ports had been raised, with the exception of Valparaiso, where the entire Spanish squadron was concentrated at the sailing of the steamer. At Caldera several ships were captured and burned by the retreating blockaders.

What the meaning of this concentration of the Spanish fleet is, still remains a mystery, unless we offer the ultimate result, in case of the refusal of terms proposed, to attack the city.

It was not known where the Chilean fleet was located, but the Southern papers soon formed with the Peruvians, when they would be able to cut off the supplies of the Spanish squadron, and annoy the enemy in view of the fact that the latter's general engagement until more largely reinforced.

The Chilean papers contain spirited articles, calculated to excite the Southern mind, and awaken all the old rancor and hatred towards Spain. The friendly attitude of other European powers, and particularly of the United States, has been warmly encouraged by the government and people, leading them to bid a more unqualified defiance to the Spanish Admiral and government at Madrid. The latter will be "back down" on the part of that brave little republic of the South.

The withdrawal of our government of Hon. Thos. H. Nelson, our resident minister at Santiago, has called forth many expressions of regret from the press. As head of the Foreign Legation, he is said to have acquitted himself with great credit during his residence in Chile, and more particularly since the beginning of the present troubles. It is a serious fault with our Foreign Bureau that "rotation" must remove able tried representatives from positions abroad, to make places for hangers-on.

The intelligence of the rupture between Chile and Uruguay, caused much regret on the entire coast, from Panama to the Straits.

PERU.

Since Dictator Prado's declaration of war the enthusiasm of the people has somewhat abated. A reaction had taken place, owing mainly to the decree prohibiting Spanish subjects from leaving the country, which was openly condemned. The Dictator, however, was working incessantly, reorganizing the different departments of government, and by his own activity had succeeded in inspiring a certain degree of confidence. Trade, as a matter of course, was nearly suspended.

The way is believed, will be the means of uniting and harmonizing the hitherto opposing factions of that unfortunate republic. Should such be the result, it may prove a blessing, contrary to the ordinary result of that sort of nations.

The only United States man-of-war reported on the entire coast from Panama to Valparaiso was the Waterwitch.

There is nothing of importance from Bolivia or Ecuador.

The Pensacola Navy Yard.

In the Naval Appropriation bill there is a heavy item for the Pensacola Navy Yard. It was opposed with a good deal of spirit in the House, and is not likely to be adopted except with the amount greatly reduced.

Hon. William D. Kelley took the right view of the subject in his remarks, which were as follows:

Mr. Chairman, I have been willing to vote for appropriations for repairs at the yards. But I can see no reason why more should be expended at the Pensacola Navy Yard than for any other; and I think the proposed appropriation for it is far more than for any other save one. We have no repair shops, and no machinery, and no large repair of vessels at Pensacola. It is not a fit place for a yard. There should be a coaling station and repair shop there, but nothing more. Our Navy is not what it was a few of the ships dependent upon it. It is an iron Navy, moved by steam and machinery. Naval supremacy among nations is hereafter to be settled on land.

That nation which has the amplest supply of forces, furnaces and rolling-mills, of iron and steel, and the most workshops and skilled workers in iron and steel, will be the master nation on the sea. The ques-

tion is one merely of machine power and skill in working the metals I have named.

At Pensacola, or in that vicinity, there are neither forges, furnaces, machine shops, nor skilled workmen. It is the water, or near that yard fit to float an iron yard not on active service. To illustrate that I will read an article now going the round of the papers, which I clipped from the Philadelphia Inquirer of February 6:

A discovery has been made at Toulon, where the iron-plated frigate Provence is undergoing repairs, which shows the disease that menaces the entire iron-coated fleet of France. The Provence was fitted out for sea only fifteen months since, and already a great number of her plates are nearly consumed with rust. The director of naval architecture is of opinion that if a composition is not discovered to prevent the action of rust, the iron-plated fleet must be renewed every five years."

In the fact thus disclosed its nature's guarantee of the supremacy of the American navy. More fortunate than England and France, we have fresh-water harbors in which we can float iron vessels. Fresh water is a cure for the disease inflicted upon iron, and it is our duty to make large appropriations for our iron vessels in our warm Southern regions, in the waters of which worms eat wooden vessels, and the water rust consumes iron ones.

The latest excitement here is the successful opening of what promises to be a very rich gold mine, near the line of the railroad, in the vicinity of the old town of Cruces, of early memory, in California.

A party of intelligent miners, on their way for the Barbacoas mines, have made careful observations, pronouncing the prospect exceedingly rich. The gold veins, which the mine will yield, if properly managed, far beyond the average of good mines in California. It is in the hands of a small party of capitalists, and it is believed that it will undoubtedly make a "good thing" of it.

The bark Bolivia, from New York, arrived at Aspinwall, yesterday.

The St. Marys is the only United States man-of-war at Panama. The gunboat James Adger leaves here for a short trip to the Isthmus, and the gunboat Albatross arrived at Panama at 7 A. M. to-day, bringing eight-nine adventurers, who will leave for the new gold fields by to-morrow's steamer, the company with the steamer, the gunboat, and the crew, are expected to return to California by this mail, representing that from 10,000 to 20,000 are ready to leave for the Barbacoas mines on receiving the least encouragement.

Weather dry and hot. Thermometer 88 degrees in the coolest shade.

THE SPANISH-CHILEAN WAR.

Files of Valparaiso and Santiago papers have been received here up to the 10th of January.

The news of the rumored mediation of France and England in the Spanish-Chilean war has not been regarded with much favor in Chile, or deemed of great importance. It is not expected that Spain will voluntarily relinquish her claims on the coast.

The Spanish fleet has raised the blockade of Caldera, and the vessels engaged in it were at latest accounts at anchor off Valparaiso, and the object of this naval movement was not known.

An engagement has taken place at Caldera between a part of the blockading force and several ships of the Chilean fleet. The assailants were repulsed.

[From the Panama Herald, Feb. 12.]
We were shown a few days ago a most beautiful pearl, purchased by Mr. Reuter, of the Chilean islands, in the Bay of Panama. It is a pear-shaped pearl, perfect in color and form, and ranks among the largest sized in the world. Its value is about \$5,000. We were also shown a splendid opal ring, very handsomely set, and the property of Mr. D. Zehner, the French Consul here. The opal is superior to any we have ever seen, in its clarity and purity of color, and is of considerable size, perfect in color and form, and ranks among the largest sized in the world. Its value is about \$5,000. We were also shown a splendid opal ring, very handsomely set, and the property of Mr. D. Zehner, the French Consul here. The opal is superior to any we have ever seen, in its clarity and purity of color, and is of considerable size, perfect in color and form, and ranks among the largest sized in the world. Its value is about \$5,000.

[From the Panama Herald, Feb. 12.]
The last mail from the South, the Buenos Ayres Standard of the 27th December, by which we learn of a violent rupture between the Chilean and Peruvian governments, and the return of the Chilean Plenipotentiary, the Standard says: "The former had resolved on prohibiting corsairs, and the latter on the contrary, representing the property of the government, whereupon Governor Vidal very properly canceled the Chilean envoy's credentials. The correspondence between the two governments, and the brief review of the contents of the various letters exchanged."

On November 20, Senor Lastarria, being then minister of the Interior, and representing the government for corsairs to bring into that port, and dispose of whatever prizes they might make among Spanish merchant ships, and the Peruvian government, on the 15th, emphatically prohibiting the sale of any prizes in any of the ports of the Republic. The Chilean minister then returned to the United States, and on the 20th, insisted in a lengthy note that the government would just as well maintain a strict neutrality by allowing corsairs. Senor Lastarria replied, showing that it was no less the right than the convenience of Montevideo to prevent the pretensions of the Chilean agent; and Senor Lastarria having now removed to the Tigre sent a second note, in which he insisted, on December 1, to which the government again replied on the 12th inst., expressing much surprise at the uncalculated language of the Chilean minister. We are gratified to learn from the public prints, that a disposition is manifested at this late date, by some of the Representatives in Congress to recognize in a substantial manner, the services of the noble soldiers of the second war of Independence. We invite the attention of the Association to this matter.

Since our last meeting three valuable members have been removed by death. Among the number are Col. THOMAS MARLTON, one of our most respected citizens, who served as a volunteer under Gen. Jackson, in the battle of New Orleans, in 1815. VINCENT SLEEPER, and DOMINIC DRAID, old and esteemed citizens, and while health permitted, active members of our Association. The efficient Chairman of our Executive Committee, Capt. GEORGE EMERY, has, for many months, been prostrated by a dangerous disease; but within the last day he has recovered, and we are glad to encourage the hope that his life may yet be prolonged.

"In conclusion, the Committee cannot refrain from congratulating the Association on the disposition already made, and the efforts to resume, in good faith, their constitutional relations, without any unnecessary delay; to move forward, as members of the glorious Union, constructed by the Fathers of the Revolution, in a career of unexampled prosperity, as the exemplar and support of republicanism and the foe of tyranny throughout the world. Differences of opinion as to the best means of accomplishing this desirable end doubtless exist among honest men, but the result we regard a

CITY BULLETIN.

WASHINGTON'S BIRTH-DAY.

ITS CELEBRATION IN PHILADELPHIA.

The Old Soldiers, the Military Order of the Royal Legion, Military Parades, and Turn Out of the Fire Department.

The anniversary of the birth of Washington, having been constituted a legal holiday by the Legislature, is being pretty generally observed to-day in this city. The banks, insurance offices, public offices and a great many places of business are closed, and during the afternoon there will no doubt be a total suspension of business.

There is a very fine display of business in the shipping in port and the public buildings and many private houses. The splendid silk flag presented to the city by the Executive Committee, and the flag of the church and fire bells and the firing of cannon.

The National Guards, as newly organized, paraded this morning. The new corps is composed of 125 members, and out of that number about one hundred were on parade.

Col. Peter Lytle was in command, and the other officers were appointed from the ranks for the occasion. The uniforms of the men are blue and red, comprising dark blue coats, light blue breeches, and blue and red style military hats with red plumes. The Guards made a fine display and marched exceedingly well. They were accompanied by the band of the 1st and 4th regiments, and after proceeding over a designated route went to the Academy of Music to participate in the celebration of the M. O. L. L. S.

The Washington Grays, with full ranks will parade this afternoon. The company will be officered by Gen. Hoffman, Gen. Vincent, Col. Rose Smith, and Capt. At four o'clock, there will be a review by Major General Meade, in front of the Union League House.

Since our last meeting three valuable members have been removed by death. Among the number are Col. THOMAS MARLTON, one of our most respected citizens, who served as a volunteer under Gen. Jackson, in the battle of New Orleans, in 1815. VINCENT SLEEPER, and DOMINIC DRAID, old and esteemed citizens, and while health permitted, active members of our Association. The efficient Chairman of our Executive Committee, Capt. GEORGE EMERY, has, for many months, been prostrated by a dangerous disease; but within the last day he has recovered, and we are glad to encourage the hope that his life may yet be prolonged.

"In conclusion, the Committee cannot refrain from congratulating the Association on the disposition already made, and the efforts to resume, in good faith, their constitutional relations, without any unnecessary delay; to move forward, as members of the glorious Union, constructed by the Fathers of the Revolution, in a career of unexampled prosperity, as the exemplar and support of republicanism and the foe of tyranny throughout the world. Differences of opinion as to the best means of accomplishing this desirable end doubtless exist among honest men, but the result we regard a

Col. James Ross Snowden on behalf of the Executive Committee, then offered the following resolutions:

Resolved, That our thankful acknowledgments are due to that kind Providence which permits so many of the soldiers and seamen of the war of 1812, and their sons, to unite in celebrating the return of another anniversary of the birthday of the Father of his country.

Resolved, That on this day our thoughts turn in an especial manner to the immortal memory of the noble American patriot, who stands in history and in our affections as the central figure in the war of the Revolution; the formation and adoption of the Constitution of the United States, and the establishment of the civil and religious liberty of our country.

Resolved, That we will sacredly maintain and support the principles of Government exhibited in the administration of Washington, and will treasure up in our hearts the paternal and pathetic sentiments expressed in his Farewell Address.

Resolved, That in view of the fact that after the lapse of 55 years from the Treaty of Peace, by which our Independence was recognized, the soldiers of that war were placed on the roll of pensioners, and now the war of 1812, sometimes called the second war for Independence, was ended, we desire most respectfully to call the attention of the President and Congress to the propriety of passing a similar law to embrace the soldiers of that war, and to have the roll of pensioners, and now the war of 1812, sometimes called the second war for Independence, was ended, we desire most respectfully to call the attention of the President and Congress to the propriety of passing a similar law to embrace the soldiers of that war, and to have the roll of pensioners, and now the war of 1812,
