PROCLAMATION OF PEACE

REPUBLICAN THE CAUCUS,

FORTRESS MONROE,

Colored Treops. Arrival of

Proclamation. Canadian

PROHIBITION TO FISHERMEN.

From Washington.

[Special Despatch to the Bulletin.] WASHINGTON, Feb. 26.—The Peace Proclamation which has been in preparation for some time, is now ready and will probably be announced in a few days. It has been held back by the peculiar condition of affairs in Texas. It is said they are now in a satisfactory condition.

The Bank Presidents had another interview with Secretary McCulloch to-day, and it is understood, have effected an arrangement whereby General Spinner's decision has been modified.

The Committee of one from each State. appointed by the Republican caucus, will meet to-night to perfect their organization. They intend to move onward, turning neither to the right or left.

The Subject of Judge Kelley's Lecture before the Statistical Society, at Concert Hall, on the Eighth of March, will be "The Dangers and Duties of the Hour."

In the midst of all his official labors. Judge Kelley is evidently collecting materials for a well-considered discourse.

From Fortress Monroe.

FORTRESS MONROE, Feb.24.—The steamer Evening Star, from New Orleans Feb. 17th, arrived here this morning with the 1st U.S. Colored Cavalry, 850 men, under the command of Lieut. Col, W. H. Seip.

The regiment was organized in Decem ber, 1863, and was recruited in the vicinity of Camp Hamilton, two miles from Old Point, Va., under the command of Colonel Jeptha Jerrard, who subsequently resigned. It participated in the memorable operations on the James river as part of the 21st army corps, up to the siege of Petersburg, and was sent to Texas about the middle of last June. Since that time the regiment has taken an active part in the army in Texas, under Major General Weitzel, and has at various times been stationed at Brazos and on the banks of the Rio Grande. The troops disembarked from the steamer Evening Star and were marched to their old place, Camp Hamilton, whence they will be transported to City Point to be mustered out. The following is a list of the officers, the rest, with about 50 men, having been mustered out in Texas:

Lieut.-Col., W. H. Seip; Captain, Charles Schwartz; Lieut., G. Page; Acting Adjutant, Lieut. Charles H. Labsau; Acting Quartermasters, Lieutenants A. M. Spencer, F. W. Smith and F. Ohlenberger.

The 22d of February was celebrated on the Evening Star, off the coast of Florida, by the officers of the regiment and the passengers, in a very creditable manner. A procession was formed, headed by the band of the regiment, and marched around to the forward part of the ship. Speeches were delivered by the Hon. J. B. Richardson, of Massachusetts, and by. Dr. C. F. Gardener of Boston. Washington's Farewell Address was read by Col. Seip, and an elegant collation was partaken of by the passengers.

The steamer Guiding Star was to have left New Orleans to-day, with the 2nd regiment of U. S. Cavalry, under the command of Brevet Brigidier General G. W. Cole, also on the way to City Point, to be mustered out of the service. In anticipation of the arrival of these colored troops at City Point, Col. Wm. L. James, Chief Q. M. of the Department, directed Capt. A. H. Comstock, Assistant Qurrtermaster, to assume charge at that point, and no delay will occur in shipping the troops from here as fast as they arrive, and quartering them at City Point.

OTTAWA, Feb. 26.—The Canada Gazette contains a proclamation warning American fishermen that they cannot use the Canadian shore fisheries after the 17th of March

The following is the substance of the whereas, A certain treaty was made between Her Majesty and the United States of America, on the 5th of June, 1854, providing for reciprocal trade, and the United

States have given notice for the termination And whereas the said treaty will expire

on the 17th of March, 1866.

And whereas under the said treaty many persons, citizens of the United States have invested monies and fitted ont ships for carrying on in-shore fisheries within the territory of Canada, and may be unaware that their right to carry on such fisheries, will end on the 17th of March, 1866.

Therefore, to prevent injury or loss to our subjects or to citizens of the United States with which we are in amity, we do caution and warn all persons not subjects of our realm, that after the said 17th of March next, no vessels owned and manned in the United States of America can pursue the in-shore fisheries without rendering themselves lia-ble to the confiscation of their vessels and such other penalties as are imposed by law. Department,

General Cushing will open the case for the liquor dealers and Attorney General Read will argue for the State. Mr Richardson of Boston, will close for the liquor dealers. It is said that the case pre-sents only one of the points raised by the laws of Massachusetts and will not settle the general question.

XXXIXth CONGRESS.—FIRST SESSION. WASHINGTON, Feb. 26th, Mr. Beaman (Mich.) introduced a bill to continue in force and to amend the Freed-

men's Bureau bill. Mr. Trowbridge (Mich.) offered a resolution, which was adopted, instructing the Committee on Military Affairs to inquire into the quality of the artificial limbs supplied to soldiers and sailors, and if found defective to report the needful legislation.

Mr. McClurg (Mo.) offered a preamble and resolution instructing the Joint Committee on Reconstruction to inquire whether the letter recorded States are still in contumacy. the late seceded States are still in contumacy, and if so to inquire into the expediency of levying contributions on the disloyal inhabitants thereof, to defray the extraordinary expenses of the General Government.

On motion of Mr. Schenck (Ohio) the resolution was referred without instructions, the table Reconstruction. Committee Presented Science 1989.

CITY BULLETIN.

MURDEROUS ASSAULT .- A young man named Lewis Foster was before Alderman Hutchinson this morning, on the charge of assault and battery with intent to kill. He was employed in the locomotive works of M. W. Baldwin & Co., at Sixteenth and Hamilton streets, and last week the foreman had occasion to reprove him for some neg lect of work. On Saturday, it is alleged Foster laid in wait for the foreman and attaacked bim with a club, knocking him down and wounding him severely upon the head. A young man who witnessed the occurrence interfered, whereupon Foster drew a large dirk knife and attempted to use it. He then rap, but was captured by Officer Cann. He was committed to answer

at Court. LARCENY AND RECOVERY OF STOLEN Goods.—Two boys, named Alfred A. Fleck and John Conly, were arrested yesterday for having entered the woolen mill of Thomas B. Schofield, No. 1214 Noble street, through the window, and stolen there-from twelve dozen balmoral skirts valued at \$300. The robbery had been carried on for a week or two. The accused were held in \$1,000 to answer, by Alderman Massey. Some of the stolen property was recovered. Robert Torrey, residing at No. 1320 Wood street, was arrested on the charge of having bought some of the skirts. He was held in \$1,500 bail for trial.

CHARGED WITH ROBBERY IN PITTS BURGH.-A man named Martin Cadev wa BURGH.—A man named Martin Cadey was arrested, yesterday, at the Pennsylvania Railroad Depot, upon the charge of the larceny of \$265 from Pat Holland, in Pittsburgh. Cadey fled to this city, and his wife was to follow him. He went to the depot on Saturday to meet her, but was very politely informed by a policeman that he was wanted at the Station-house. Cadey had on three or four undershirts and in due of three or four undershirts, and in one of them \$200 in English sovereigns were found sewed up. The prisoner was sent back to Pittsburgh for trial.

Malicious Mischief .- An elderly man was before Alderman Holme, this morning, upon the charges of assault and battery and alicious mischief. It seems that his son had been in the habit of visiting a house of rather doubtful reputation, at Bridesburg, and the accused went there, as he said, for the purpose of tearing it out. He kicked in the door and used threatening language towards the woman who lived in the building, whereupon she procured a warrant for his arrest. The defendant was held to answer.

RAILROAD MEETING,-A meeting of the merchants doing business on Broad and Market streets, was held this morning at the Hall of the Corn Exchange Association, corner of Second and Gold streets, for the purpose of protesting against the taking up of the railroad track on Broadstreet.Col.Wm B. Thomas presided. The only business effected was the adoption of a resolution to meet the Committee of Councils, and individually enter their protests against such

Wagons the Company had at the end of January last was 6:75 broad gauge, and 10,043 narrow; so that here already the narrow gauge webicles outnumber the broad. In the year from January, 1864, to January 1855, the Company increased their broad gauge en gines by 11, and their narrow by 35; their broad car risges and v agons by 11, and their narrow by 824."

"By gradually reducing the area of the broad car risges and v agons by 11, and their narrow by 824."

"By gradually reducing the area of the broad gauge working, and confining it to those districts where the passenger is the principal traffic (and passengers seem to rather prefer the broad gauge traveling to the narrow gauge), the change may be effected without the waste of a carriage, a truck or a rail for the purposes of maintenance, you must constantly make new care riages, engines and rails, and the renewals may by made of the narrow instead of the broad gauge. Thus the Great Western may be gradually changed as farasineeded (or even entirely) from a broad to a narrow gauge without waste or loss, and even with gain in the working expenses compared with the present rate, for there is no question that a heavy mineral and goods traffic can be more economically conducted by means of a narrow gauge line and stock than a broad. There is no question that freighters prefer the narrow to the broad gauge, especially where they have to supply their own trucks, and have dealings with distant parts of the country, reached only by the narrow gauge."

APPENDIX B.

sant parts of the country, reached only, by the narrow gauge."

"The gauge of the Richmond and Danville, and South Side (or Petersburgh and Lynchburg) Railroad is now and was during all the war, the same five (5) feet. After the retirement of Gen. Lee's army from the lines around this place and Richmond. the gauge of the Lyrchburg and Petersburg road was narrowed to 4 feet 8½ inches, from City Point to the junction with Danville road, by the Federal authorities as they progressed inwards. The Fledmont road was of the narrow of 4 feet 8½ inches gauge during the war, while the Danville road was of the five (5) gauge, and in cansequence there was a break of bulk at Danville.

This difference in the gauge was insisted on by the State of Nogth Carolina to prevent a deviation of the trade and travel from the interior of the State. That State has but recently consented to the widening of the gauge of this road to the same width as that of the Danville road.

This difference of gauge at Danville was of incalculable disadvantages during the war so much so that the Confederate authorities had determined to widen or harmonize the gauge of the Piedmont road with that of the Danville.

The disadvantages of break in the gauge are incalculable, not only preventative of all mechanical intercourse between the motive power or rolling stock of the two roads, but of proper dispatch and economy in the continuous transportation of passengers and tonnage as between connecting roads.

Facts and Fancies. A French newspaper says only three of its subscribers are bald, and they are in

arrears for subscription. In this country is is the papers and not the subscribers that The American Gardener says that a "hen will sit upon an oval brickbat as readily as

upon an egg." We don't believe any bird but a roc would do that. It is reported in commercial circles in Europe that Matthew F. Maury is to have the chief control of submerging the new Atlantic cable. If Matthew can sink the cable as successfully as he has sunk himself he ought to have the job.

The new art building for Yale College at New Haven has cost \$125,000 so far, and will probably cost \$30,000 more to comp'ete it. 'Artford would have been the better site for that building.

THERE was a general jail delivery at Elk-horn, Wisconsin, last Tuesday, all the prisoners escaping; among whom were the notorious Joe Brown, the robber of Rockwell & Co.'s bank, and two horse thieves confined there. Brown's wife went from Chicago that night, and at about 9 o'clock. it is supposed, unlocked the jail with false

Finance and Business-Feb. 26, 1868, There is more demand for money on the street, and rather higher rates are paid. The political complica-tions at Washington and the doubtful character of our foreign relations cause some apprehensions for the future, and although the supply of unemployed capital is large, the backers are extremely cautious in the selections of paper. Trade is necessarily dull in all departments, with but little probability of a chans until Congress takes some action upon the Finance, Tax and Tariffhills. Rusiness languishes in the absence of this action, and until it is known what is to be the established policy of the country, the importers exporters, manufacturers and consumers will take no new risks or enter upon any new enterprize.

The great feature of the Stock market to day was the excitement in Catewissa Railroad, caused by the announcement of the decision of the Court decision ing nall and void the contract with the Atlantic and Great Western Railway. About 4,200 shares of the Preferred Stock changed hands at 32@33, closing at the latter: the Common stock advanced to 26. Reading Railroad was very quiet at 49%. Pennsylvania Railroad sold at 56%—an advance of his Camden and Amboy Railroad at 1171, and Northern Central Railroad at 43%. 62 was bid for Lehigh Valley Railroad; 54% for Mine Hill Railroad; 36 for North Pennsylvania Railroad, and 29% for Philadelphia and Erie Railrpad. Canal stocks were held armly. Lehigh Navigation sold at 52%; Schuylkill Navigation Preferred at 29, and Susquehanna Canal at 12. Wyoming Valley was firm at 57; Delaware Division at 30, and Union Canal Preferred at 4%. Government Loans were without change, 104 was bid for the Coupon Sixes, '81; 103 for the Five Twenties: 99% for the Seven Thirties, and 94 for the Ten-Forties. State and City Loans were steady at Saturday's quotations. In Passenger Railway shares the only sale was of Spruce

and Pine Streets, at \$5.1

XXXIXth Congress-First Session.

Washington, Feb. 26th. SENATE.—Mr. Grimes on presenting a petition from citizens of Iowa, said he would take occasion to refer to a despatch published in the *Intelligencer* this morning, stating that an immense ratification meet ing had been held in Keokuk, at which the veto message and the President's administration had been endorsed. He said the author of that despatch had been opposed to the war all along, and that his press had been thrown into the river for the utterance of disloyal sentiments. He was unwilling that the de spatch referred to should go forth as a reflex of the sentiments of the people of Iowa. M. Lane (Kansas) moved to take from the

files the papers in the case of Messrs. Baxter and Snow, Senators elect from Arkansas, and refer them to the Committee on the Judiciary.

Mr. Clarke called for a division of the motion, and the question was called for on withdrawing the papers from the files, which was decided in the affirmative.

Mr. Clark then moved to lay the credentials on the table with those of others lately

in rebellious States.

Mr. Lane called for the yeas and nays, and the question was decided negative. Yeas, 27; nays, 16.
Mr. Lane then moved to admit Baxter

and Snow to seats on this floor, which was aid on the table. At 1 o'clock the regular order was taken up, being the concurrent resolution that no senators or representatives from any se-ceded State shall be admitted till such State

shall have been declared entitled to repre ation.
Mr. Sherman took the floor maintaining that the resolution could confer no power not already vested in Congress. He said a similar resolution had been adopted by the

last of Congress.

Hotse.—[Continued from the Third Edition.]

Mr. Bingham reported from the reconstruction committee a joint resolution to amend the Constitution by adding the fol-

lowing article. That Congress shall have power to make all laws which shall be necessary and proper to secure to the citizens of each State, all the privileges and immunities privileges and of the citizens of the several States, and to all persons in the several States equal pro-tection in the rights of life, liberty and property, and he supported it in a short speech.
Mr. Rogers (N. J.) spoke against it as a most dangerous movement towards centralization.

A letter from the city of Mexico, recently received in Columbus, Mississippi, contains the following paragraph: "Governor Harris, of Tennessee, visited the city in the middle of December to lay in, as he said, his sup-plies for Christmas. The rebel General Forrest, on the steamer Vicksburg, in the course of conversation was asked how he could be in Mexico and Memphis. He replied that he was not responsible for his rapid locomotion. "Tell all whom it may concern," says the Gen-eral, "that Forrest may be found at any time on his farm, among his plows, hoes, and shovels, endeavoring to make a support, and that others would do well to set-tle down with like purposes, and let the world know that they can be found at all times to answer the calls of their government. As for me, I did all in my power to

break up the government, but I have found it a useless undertaking, and am now resolved to stand by the government as earnestly and honestly as when I fought it."
