3; Liverpool, §. The Firemen's demonstration, yesterday, was one of the finest ever made in this city. The engines were beautifully decorated and the day passed off pleasantly, with the exception of the temporary arrest, by the military, of the band of Engine No. 13, for playing the "Bonnie Blue Flag," and other

rebel airs. The steamer Mary Hein, from Liverpool, for New Orleans, was burned on the 28th ult., in the Red River, with 600 bales of cotton. One Federal soldier was lost.

The schooner Swallow, from Havana, for this port, put into Cedar Keys, leaking badly. The vessel has been condemned.

From the Rio Grande.

BROWNSVILLE, Feb. 28th.—Major General Getty has assumed command of the Ric Grande District, vice Col. Brown. Military matters are quiet. Cortinas is lurking about 12 miles above Matamoras, on the Mexican side. The reported death of the Liberal Chief, Mendez, from wounds received in taking the Rancho De Tanquita, is confirmed. An imperial decree has been published, which seems to do away with that which made the Rio Grande ports free ports of entry, the duties paid only when the goods went into the interior. Reports o murders and robberies in the region of the Rio Grande still continue.

The Missouri State Debt.

ST. Louis, March 5.—Governor Fletcher has signed the bill recently passed by the Legislature, providing for the consolidation and payment of the bonded debt of the State. By the provisions of the bill all the over due interest is to be funded and incorporated with the principal, in new bonds, and the payments of interest to be resumed on the 1st of January, 1868. The bonded debt of Missouri, including the unpaid interest, amounts to \$30,000,000. It is estimated by the members of the Committee, by whom this bill was reported, that under its operation the entire State debt will be liquidated in twenty

QUARTER SESSIONS-Judge Ludlow.-In the case of Joseph G. Fowler and Edward Hastings, charged with a conspiracy to cheat and defraud Henry Ginkings, who had bet upon a prize fight, returned verdict of guilty.

new trial was made, and the defendants were allowed to enter bail in \$1,200. Anna Johnson (colored) was charged with keeping a disorderly house at 505 Lombard street. The defence set up that the house was perfectly quiet. Jury out. John Hamilton was acquitted of a charge

of larceny. CLAIMS FOR PROPERTY DESTROYED BY THE UNION ARMY.—It will be recollected that several weeks since the House of Reprepresentatives passed a resolution, declar ing it inexpedient at this time to legislate for the payment of claims growing out of property appropriated or destroyed by the Union armies in putting down the rebellion. Practical effect was given to this resolution recently, when the Committee on olution recently, when the Committee on Claims was discharged from the further consideration of the resolutions of the Legislature of West Virginia, asking aid from Congress to repair bridges, &c., destroyed by Federal troops as a means of safety. The Committee also reported adversely on a bill for ascertaining and adjusting claims against the Government for injury or destruction of property by the armies of the United States or by the military authorities during the rebellion, and the bill was laid

on the table. The Committee was discharged from a large number of petitions, including forty for damages arising from raids in July 1864, by rebels in the vicinity of For Stevens, some miles from the city. There are agents now in Washington who have in their possession claims of persons residing in the Southern States, for indemnity amounting to millions of dollars, but the prospect of legislative action upon that sub-

ect is certainly far remote. A QUEER NARRATIVE.-Four days after the rebels fired on Fort Sumter, a son of Mr. Duncan, of Mecca, Ohio, enlisted for the war. He joined a Western regiment, and after being in several battles, was reported killed at the battle of Stone His body was brought home and Afterward intelligence was interred. brought to the parents, by returned Union prisoners, that their son was not dead but a prisoner in Georgia. Other prisoners re-turning from there last spring, brought the sad news of his death to the sorely distressed family. When the war closed, an opportunity was offered to penetrate the Mr. Duncan went down and had his son brought home again and buried. Having buried him twice, as he supposed it was natural that they should be reconciled to their loss; but a few days ago, their sou Bob, in spite of his wounds, and deaths and funerals, "came marching home," and

The western bound express train, when approaching a bridge, reason of a broken rail, was thrown from the track, and the sleeping car and the next one in front of it, were thrown down a precipitous embankment, some thirty feet. The two cars contained between forty and fifty passengers, and full thirty-five of the number were more or less injured. Quite a number are believed to be fatally hurt. Almost miraculously, not a single person was killed outright. The sleeping car was passengers in that car were slight,

LATE FROM WASHINGTON.

THE RECOOSTRUCTION REPORT.

Disloyalty at the South.

From Washington. [Special Despatch to the Bulletin.] WASHINGTON, March 6 .- Governor Boutwell, from the Committee on Reconstruction to-day submitted the evidence thus far taken in the States of Georgia, Alabama, Mississippi and Arkansas. The most important is the testimony of General Thomas, who testified that he had received information from truthful and reliable persons that there are organizations in the South hostile to the

Government of the United States.

General Grierson's testimony is also important. He said there was a manifest desire to involve this country in war with France, in regard to Mexico. In case of such an event, the people in the South would join hands with the foreign enemy against the United States. He said there were exceptions to this rule, of course. The testimony is very voluminous and contains a great variety of matter, all of which is important, as bearing upon the condition of affairs in the several States. It will have a very marked effect on the North, and will strengthen the hands of Congress in the attitude which they assume as regards the disloyalty of the South.

SENATE.-Mr. Ramsey (Minn.) introduced joint resolution for the establishment of Mr. Conness (Cal.) moved to take up the

bill to extend the time for withdrawing goods from the public stores. Mr. Brown (Mo.) desired to call up the bill for the reimbursement of the State of Missouri for her expenses in equipping and paying the militia of that State.

Mr. Sprague said he intended to discuss

The bill to extend the time for withdrawing goods from the public stores was taken up, the pending motion being to reconsider the vote by which it was passed. At the expiration of the the joint resolution to amend the Constitu-

tion on the subject of representation was taken up. Mr. Saulsbury (Del.)addressed the Senate

the Senate bill granting lands to aid in the construction of a telegraph line, from the States of Missouri and Arkansas to the Pacific Coast, was taken from the Speaker's table, read twice and referred to the Com mittee on the Pacific Railroad.

bia. Read twice and referred to the Committee for the District. Mr. Boutwell (Mass.) from the Joint Committee on reconstruction, reported in part

the evidence relating to the States of Arkansas, Mississippi, Georgia and Alabama, and asked that it be printed. It was so ordered. Mr. Eckley (Ohio) introduced a bill allowing compensation to maimed soldiers and sailors who are entitled by law to artificial limbs in lieu of such artificial limbs Read twice and referred to the Committee or

his amendment, which he did, as follows:

And provided further, that no part of the money appropriated by this or any other act, shall be applied to the pay or subsis-tence of any Cadet from any State declared tence of any Cadet from any to be in rebellion against the Government or joint resolution of Congress, for that case

to the amendment, as follows That no part of the money hereby appro

priated shall be applied to the support or pay of any Cadets hereafter appointed not in conformity with the express provisions of the law regulating appointments of Cadets at that Academy.

Mr. Blaine stated that his substitute was verbatim et literatim taken from the West

not do it." This amendment would cut off from the President the power to appoint a boy from the South, even though his father and all his male relations had fallen in the service

of the country.
He considered the amendment most illiberal, narrow and prejudicial to everything like good feeling. It could only be justified on the ground taken by the gentle-man from Panneylania (Mr. Stevans) man from Pennsylvania (Mr. Stevens.)
hat every person in the eleven States
was an alien enemy. Not believing but
that a Southern man who had been loyal
to the Government was entitled to its protection and patronage, he should voice to the Government was entitled to its pro-tection and patronage, he should vote a most decided negative on the amendment. Mr. Conkling (N. Y.) inquired whether the amendment or the substitute suggested

2:30 O'Clock.

INTERESTING TESTIMÓNY.

He had promised the parties not to make known their names. It included persons in every State in the South. The evidence was not sufficient to warrant any arrest, nor did he believe it would be necessary to make any arrest, as the military power was sufficient to destroy any such organization, should it attempt any action.

XXXIXth Congress-First Session.

Washington, March 6. quarantine regulations to prevent the spread of the Asiatic cholera, which was referred to the Committee on Commerce. Mr. Morrill (Me.), from the Committee on Commerce, reported a bill to establish telegraphic communication between New York and the West Indies.

Mr. Conness appealed to Mr. Brown to let the bill named by him be called up. Mr. Brown said he would do so if it would

not lead to discussion. the bill named by Mr. Conness.

The bill named by Mr. Brown was taken ap and passed.

in opposition to it.

HOUSE,—On motion of Mr. Loan (Mo.)

Mr. Ingersoll (Ill.) introduced a bill fixing the compensation for the bailiffs and criers of the courts of the District of Colum-

The House reconsidered its order in reference to the Military Academy bill, so that Mr. Schenck (Ohio) might again offer of the United States, appointed after the 1st day of January, 1866, until such State shall have been returned to its original relations to the Union under and by virtue of an act

made and provided. Mr. Blaine (Me.) opposed the amendment, and sent up to the Clerk's desk and had read a substitute which he proposed to offer

30th, 1864, designed to cure the evil of foisting upon Southern districts boys from the Northern States. Thirty-eight or forty Northern boys had been sent to West Point, and colonized as if appointed from the Southern States, sent there in violation of law. There were no vacancies now for one-third of the Southern Districts. The places had been filled by Northern boys, appointed as if from the South and it would remain filled till 1867 or 1868. The President had authority to make ten appointments annually and the adop-tion of this amendment would be saying to the President in substance, "We cannot trust you to ap-point a single cadef from the South. If you desired to nominate a son of Governor Brownlow or of John Minor Botts you can-

would disturb the boys whom the gentle-man from Maine described as having been

Mr. Blaine-No, sir, neither amendment affects them. My substitute merely prevents any further colonization from the North and leaves the question just where the law leaves it to-day.
