Welikethe outspokenness of Roebuck.

We have no objections whatever to his hating the friends of the Federal Union, and we particularly admire his frankness in bluntly declaring that he hoped the Americans would not be an united people. If he should chance to come this way in the course of his travels, we think we can promise Mr. Roebuck an honorary membership in the Democratic Club, and an opportunity of mixing in the "unmixed society" of the worthy grandson of an equally worthy grandsire, who (the grandson) publicly toasted Jeff. Davis the other day, and of another high priest among Copperheads, who could not even pay a gas-bill without making it the occasion for the venting of venomous treason and vindictive spite. Mr. Roebuck should come to the United States by all means and receive the cordial greeting of the 4-11-44 patriot of the New York Daily News; the benisons of the "Distinguished (stern) gentleman who languishes in Fortress Monroe;" the congratulations of our own local special admirer of the "Stern Statesman," and last, but by no means least, in coppery intensity, the distinguished patriot who so freely mingles gas with his politics and politics with his gas.

Berder. Terrible Reports About Fenian Armies.

[Correspondence of the New York Times.] OTTAWA, Cahada, Friday, March 9.-Up bere in the woods we begin to feel the teapot tempest that seems to be disturbing your mercurial people. You already know that the Government has ordered out a large force to defend, if need be, the New York and Michigan borders-that arms are glistening in the pale March sun, and bright uniforms are astounding the urchins of all The ice is our tender point. That once

broken up, we do not fear invasion, but who knows when the hot-blooded Fenians of New York may pounce upon us by a night's march over the solid surface of these narrow rivers? It is certain that as soon as the ice breaks

up, the Home Government will send large reinforcements to the stations from Quebec to Mackinaw, and every reasonable precau tion will be taken to repel assault, The Government buildings and all the

banks in Ottawa have been placed under military guard at night. There has been a most enthusiastic response throughout Ca-nada to the call for volunteers, and ten thousand men arealready marching toward the frontier. Parliament has been called to meet on the

10th of April. Nova Scotia and New Brunswick will immediately accede to a Confederation with the Canadian Provinces, and a common tariff will be enacted, to include Newfoundand, and perhaps Price Edward's Island.

English gunbeats have been ordered to the fishing grounds, in view of the abroga-tion of the Reciprocity Treaty. These facts show that we are not quite so dormant as you Yankees believe. It may be that Canada will be swept away by a grand coup de main, but not by the demagogues who engineer your so-called Fenian

movement. MONTREAL, Friday, March 9,-The excite-MONTREAL, Friday, March 9,—The excite-ment so suddenly sprung upon us yesterday by the Government's call for ten thousand volunteers, is not perceptibly abated. You mercurial Americans, who explode at the mere supposition of a great event, do not appreciate our coolness. We must have the very tip-top of excitement before our slug-gish blood can be stirred, but when it is stirred it is not easily cooled. , Since my advices to you yesterday-which, by the way, I undertake to guess

at different points on the frontier. The Globe calls upon President Johnson to interfere. It says: "The people of Canada are abundantly able to give the ruffians a warm reception, but it is a poor repayment to the Canadian Govern-ment for its action during the rebellion in the Southern States, to be now compelled to spend money and blood in resisting out-rages planned in the States of the neighbor-ing Republic. The city papers this morning contain two columns of special dispatches ing Republic. The city papers this morning contain two columns of special dispatches from all parts of Canada, giving news of military preparations, from which it ap-pears that every town and city is turned out in full strength. Troops were arriving all last night from the interior towns, and were billeted on the citizens. Ten of them were billeted upon citizens. Ten of them were billeted upon alleged Head Centre Murphy. As fast as the troops arrive they are organized into battalions. They are to be drilled five hours per day. To-day there a turn out en masse of the citizens, to make a demonstra-tion of strength. From the alacrity with which the call has been answered, it seems that annexation to the United States, and all other differences of opinion encourted

all other differences of opinion succumb to the danger of the hour. The excitement is hourly increasing. The troops are held in readiness for immediate embarkation. Volunteers get twenty-five cents and rations per day. The Orange Watchman of to-day says that the Fenians of this city will walk on St. Patrick's day armed with pikes and revolvers, and it calls upon the Mayor to prevent their walking. It is be-lieved that the influence of peace-loving Catholics will restrain the more violent men, and thut the precession will be cherdered and that the processions will be abandoned. The Watchman also asserts that Bishop Lynch has declared his intention of leaving Canada, to avoid the danger and responsi-bility of a battle which may take place on

Within a few days past William H. Cannon, a youth of eighteen, lately in the employ of the Murray street firm of Jones, Smith & Sheppard, has been arrested on the charge of having drawn three thousand three hundred dollar from the Control three hundred dollars from the Central National Bank, corner of Broadway and Pearl street, on two checks of his former employers, to which he had forged their signature. The presentation at the bank of a third alleged forged check for four thousand dollars led to the arrest of two other youths of about Cannon's age, named James Mitchell and Alexander Gray, and a man named John Casey, a saloon keeper, on suspicion of connection with the forgery. An inquest was held yesterday in regard to the death of the unknown man whose

dead body was found on Wednesday lying at the corner of Second avenue and One Hundredth street; but, although consider-able testimony was taken, nothing was adduced to identify deceased or to indicate at whose hands he met his death, though that he was murdered is not doubted.

The Brooklyn Union, reporting the Fen ian meeting held in that city on Wednes day, remarks that "Col. John O'Mahony was greeted with

defeaning welcome, as though "All the fiends that ever fell Had pealed the banner cry of hell."

Was this intended to be personal? A Down-East paper has the following local: "A child was run over by a wagon three years old and cross-eyed with panta-

loons on which never spoke afterwards." A church at Bunker Hill, Ill., was the scene, last Sunday, of a hard fist fight between two young bucks, who disagreed concerning their claims to a certain pew. The presiding minister suspended h marks, and quietly waited till the affray was over. Pew-gilism extraordinary. The N. Y. Express says: "It is estimated

at the Fenian headquarters to-day that nearly a million men are ready to move for the liberation of Ireland upon orders to march." Why don't the O'M. give the order? Their Idees of March will soon be past.

The Emperor Napoleon has been directing his attention to the system of common school education in England. Two commissioners have recently visited Harrow and examine narrowly into its system of instruction, &c. They report that the 'Ar-row system is admirably adapted for teach-

ing the young idea how to shoot. At the bal costume which took place at. the Tuilleries on Feb. 8th, a quadrille was danced in which the gentleman were dreesed as leopards and the ladies as gazelles. Easily done. The gentlemen were spotted by the police, and the ladies were little dears.

Lord Brougham has formed a brigade of crossing-sweepers, to be composed of boys (paupers), who are to wear a uniform, be positively forbidden to beg, and compelled to lay aside a portion of their earnings for a fund against sickness or destitution of their number. His Lordship thinks that the boys' weeping will excite sympathy enough without begging.

DISSATISFIED TROOPS .- The dissatisfact tion of many white regiments still kept in the service is well known, and occasionally this disaffection takes tangible shape. The 13th Connecticut, retained in service at Sa-vannah, claim their term of enlistment to have been more than fulfilled, and great irritation among officers and men results. The 38th Illinois is in the same predica-ment, and in the House to-day, the Secretary of War was called upon to state why that regiment is still detained at Brownsville, Texas,-Tribune Wash. Cor.

GERMAN OPERA .-- The opera of The Huquenots was played at the Academy last evening before a vast audience. The solo parts were generally well done: Mmes. Rotter and Naddi, and Messrs, Hermanns, Himmer and Wilhelm Formes especially listinguishing themselves. But the chorus has so dwindled down that the ensemble pieces were very ineffective. Imagine the Rataplan sung by seven men! The number of women in the chorus has fallen off in the same ratio. The company give a final performance this afternoon, the opera being Stradella, by Flotow.

PORTRAIT OF GENERAL GEARY .- Messes, Henszey & Co., 812 Arch street, have just published a superb photographic likeness of the next Governor of Pennsylvania. The picture is a most speaking counterpart of this distinguished soldier, and the publishers ave made arrangements, as a contribution to the good cause, to furnish it to honorably discharged soldiers at cost, which will secure for it a wide distribution, and at the same ime aid many of our brave soldiers in their forts to make an honest living. .

At National Hall the Old Folks are still fourishing like a grove of green bay trees. At Assem-bly Building Signor Biltz and "The Sphynx" still hold the advertisement in reference to the benefit of Carn-cross, Dixey & Simpson at the Academy of Music on Monday evening. were the only real facts concerning the Great Fight that reached the New York papers-no very significant event has occurred. The agents of your American Associated Press will read you a synopsis of the real and supposed intelligence at their disposal, and I merely subjoin their dispatches, without

vouching for anything. In this city there is a peculiar state of feeling. As I said yesterday, but a small portion of our population would, under any circumstances, side with the Fenian move-ment. Consonant with the action of your Roman Catholic hierarchy, the magnates of the Church in these Provinces have set their faces against the movement, and some of them have spoken very freely in opposition. I hear that the Archbishop of Quebec, the actual head of the Church in all British America, will probably very soon express nis condemnation of the Fenian movement. His Grace may readily be excused from earlier attention to the matter, for it is

scarcely possible that a dozen Fenians can be found in all Canada below this city. In this town the fever has some curious

and ludicrous phases. The much-courted and petted secession refugees (while they bad money) who are yet lingering here, and dismally longing for some general amnesty that may give them leave to revisit th scenes from which they so cowardly fled, are now looked upon with suspicion. The people who followed Gregory and Laird in cocking these men, are suddenly consci-ence-smitten, and find that the lovely innocents of the was-to-be Southern Confederacy are elephants of huge proportions, whose sayings and doings for the past four years are returning with compound interest, and making this Canadian government but little better than that in London, so far as the

United States are concerned It is a singular phase of national history, that while the United States Congress seems kindly disposed toward an extension of the Reciprocity Treaty, by which these Pro-vinces have gained such immense advantages, the Provincial authorities are raising men to repel an expected invasion from the States.

From various sources, some of not very Tustworthy character, the following rumors are gathered: TORONTO, C. W., Thursday, March 9.— The crisis has arrived. All the Canadian

Militia are being enrolled, and it is expected they will be called out immediately. Volunteers in companies and squads are rallying from all the back towns for the defence of the frontier. Over two thousand volunteers arrived here last night and were billeted on the citizens. The people are fully aroused and no man shirks duty, although a few have been arrested through a misconception of the order call-ing them out. All the railways on the line of the frontier are keeping engines fired up to run off trains. It is estimated that 30.000 troops are now armed and ready to march, if invasion takes place. The authorities are sanguine of their ability to drive back and defend their homes against any Fenian invaders. All the troops have been drilling since two o'clock this morning. A full supply of ammunition has been issued to the troops, and the railway trains are made up and ready to move at a moment's notice to any point of attack. Many reports are current, and one, pretty generally credited, is that Parliament will be called to assemble immediately, and that the writ of habeas corpus will be suspended and martial law proclaimed before the 17th of March. The

proclaimed before the 17th of Maron. The government has taken possession of the Montreal telegraph line. TORONTO, Friday, March 9th, 3 P. M.— The Globe this morning makes the annoucement that the Government has received information that on St. Patrick's Day a numper of Fenians will cross the river. join in the procession in the cities, and create some

strong corps of revenue and special agents and it is expected that effective measures will be taken to stop the gigantic frauds which it is alleged are being perpetrated, and to punish those who are committing The new Health Board are rapidly or-

ganizing, and the enforcement of sanitary measures is daily producing the most salutary effects. Yesterday a number of complaints were received, among which was one from Fort Plain, informing the authorities that a number of young calves were ties that a number of young carves were regularly sent to the markets in this city, the meat of which was unfit for food. The Sanitary police at once proceeded to the Washington Market and seized forty or ifty of that description, which were disnifty of that description, which were dis-posed of at the dumping ground. A report of proceedings will be found elsewhere in

io-dav's issue. An action brought by John A. Bigelow against Adolph Lachenmeyer, proprietor of the Lafarge House, for loss of jewelry and money while stopping at the hotel in Sep-tember, 1864, was tried yesterday in the Supreme Court, Circuit, Part 3, before Judge Mason. The jury brought in a verdict for the plaintiff for five hundred and twentytive dollars.

TORONTO, Friday, March 9-8 P. M.-The excitement is unabated in the Province Troops are still pouring in from the rural districts by hundreds. The moment they arrive they are organized into companies and squads for drill. So great has been the drain upon some of the large busines houses in the city, that they have been com pelled to suspend business during dril hours.

News from the frontier indicates no cause for the extraordinary movement, but the military authorities and the whole people approve the action of the Government in preparing for an emergency. Many assert that this hubbub is got up for political reasons, to unite the opposing factions to a sense of their danger, so that the annexationists may be silenced, and confederation carried next month in Parliament. The alarm being sounded so soon after the meet-of the Governors in Montreal is significant, and the belief that the calling out of volun teers is for this purpose is hourly taking hold of the public mind. It is singular that no troops have been sent to the frontier, notwithstanding that all the military forces were called from beds yesterday morning at 2 o'clock. If this be the real object of the Government, it will probably be successful, for all parties seem to have forgotten thei

for all parties seem to have forgotten their political differences, and rally for united and determined defence. HAMILTON, C. W., Friday, March 9.— From eight to ten thousand volunteers have responded to the call of the Canadian government. The excitement is increasing and volunteers are constantly drilling, and hourly expect to be ordered to points on the frontier. Nothing definite is known as to the information in possession of the Gov-ernment which prompted this action, but the wildest surmises are still indulged. The feeling throughout Western Canada runs very high, and displays a determination to oppose any enemy, from whatever quarter he may come. It is believed that the regu-lars in Toronto, Hamilton and London are under orders, but no movements have yet taken place.

The Left-Hand Penmanship by Disabled The Left-Hand Pennanship by Disabled Soldiers-Report of the Committee. The Committee composed of Governor R. E. Fenton, Rev. Dr. Bellows, Wm. C. Bryant, Esq., G. W. Curtis, W. E. Dodge, Jr., Howard Potter, Theodore Roosevelt, and Wm.Oland Bourne, appointed to award prizes for the bestleft-hand penmanship by roldient and reliever who have lost the Use prizes for the bestleft-hand permanship by soldiers and sailors who have lost the use of their right arms by amputation or per-manent disability during the late war for the Union, have made their report and an-nounced the following awards. FIRST CLASS-First Prize-\$200, to Frank-

ambition to become self-reliant, and to fit themselves for positions of honor and use-fulness has been accomplished in a manner ltogether novel and original, and, as the committee think, with memorable and, preiseworthy success. The average degree of merit is high, while many of the manusprints are very fine specimens of chirographic excellence and artistic taste. The majority of specimens are written in back lope, while a number are either vertical, or written in the usual farward slope of rightbanded penmen. The original amount of five hundred dol-

lars, offered by Wm. Oland Bourne, editor of the Soldiers' Friend, was increased by the United States Sanitary Commission, by the grant of two hundred and fifty dollars, to be distributed by the Committee in additional awards for penmanship, which the ommittee divided into two prizes of twentyfive dollars, and ten prizes of twenty dollars each. To this amount the committee added another two hundred and fifty dollars. which was awarded in amounts corresponding to the latter, as complimentary testi-

nonials for literary merit. The collection of manuscripts will probably be open for the public in a short time for examination.—N. Y. World.
