CITY COUNCILS. The regular meetings of Councils were beld yesterday afternoon instead of Thurs-day, the regular day, the members being mainly absent at Harmburg, at the Conventions to nominate candidates for Governor. The business was as follows:

Mr. Freeman presented a petition signed by 220 property owners on Broad street. They claim to represent 3,200 feet of ground upon that street, and all ask for the removal of the railroad tracks now upon it.

Mr. Van Cleve presented a petition from a large number of fire companies, asking that the railroad tracks on Broad street may be removed. Mr. Page presented a petition from cer-tain citizens asking the same thing. It was

yery numerously signed.

Mr. Bumm presented a communication from Mr. Wm. J. Taylor, in which that gentleman tenders the sum of \$2,000 per annum as world for Archesteed when

annum as rental for Arch street wharf.

Mr. Spering presented a resolution expressing the sentiments of members of the bar in relation to the erection of the new court house at Sixth and Chestnut streets. It advocates a change of frontage of the pro-posed building, so that the main front will

be upon the square.

Mr. Page was of opinion that the erection of the building as proposed would be a blemish upon the locality, though at the same time there was great necessity for increased accommodation for the judges. Mr. Smith objected to the locality assigned to the new building. It ought to be at the southern end of the square. He hoped to see the time when all the buildings surrounding Independence Hall would be obliterated, and the time-honored structure stand as it

did in days bygone.

Mr. Hopkins desired to refer the whole subject to the Committee on City Property, with instruction to report at the next meeting the cost necessary to erect the Court House according to the plan proposed, This

was ultimately agreed to.

Mr. Barlow, of the Committee on Street Cleaning, presented an ordinance appropriating \$94,674 for the cost of cleaning the streets during the coming year, and pro-viding that the Mayor of the city be autho-

Mr. Van Cleve said that the Mayor should have the power to enforce the fulfillment of the contract, that may be made. Having authorized the contract system, it behooved Councils to strengthen the hands of the Mayor, and give him all the power that he requires. The contractors have made their arrangement to commence work on Monday

Mr. Barlow said that the Mayor had awarded the contract for the lower district, south of Market street, including the Twenty-fourth Ward, for \$45,000; for the district south of Market street, \$47,000.

Mr. Freeman said that the appropriation should be made for ten months of the year

remaining.
Mr. Barlow accepted the amendment, and the appropriation for the contract was there-

de the sum of \$76.666. The ordinance in that shape was now Mr. Barlow now introduced a supplementary ordinance to the one authorizing the Mayor to contract for the cleaning of th streets. The first section enacts that the payment shall be made in warrants drawn

by the Mayor, in equal monthly installments. One-tenth of each installment is to be retained by the city, Provided, that when the sum so claimed on each contract shall amount to \$5,000, the remaining payments may, at the option of the Mayor, be paid in full as they shall thereafter become due.

The second section provides thus: The Chief Inspector of Streets to supervise the work of the contractor. He is to report any neglect to the Mayor. If after such report, and such notice, the contractors do not at once remedy the evil of which complaint is made, then the Committee of Councils on Street Cleaning may direct the Chief Inspector to perform the work at the expense of the contractor.

The third section gives to the Mayor of the city the power to decide all questions of law and of fact, whatever they may be, that arise under the terms of the contract The whole was adopted unchanged, after

a long debate. A resolution was now presented by Mr Smith, directing the Committee on City Property to make the necessary inquiry and to report upon the advisability of put ting the new Court House with its front on Walnut street, east of Sixth street. This was agreed to.

Mr. Hodgdon, Chairman of the Commit-tee to Verify the Cash Accounts of the City Treasurer, reported thus: reasurer, reported Balance March 1, 1866,

Cash, - - Trust Fund, -28,919 Mr. Van Cleve now offered a resolution expressing the protest of Councils to the passage of an act of the Legislature, as asked by the Board of School Control, relative to the separate fund for school pur-

poses. Adopted.
Mr. Wagner, Chairman of the Committee on Law, to which was referred the resolution requesting the Legislature of the State to pass the law requiring the improvement of Broad street, reported in favor of the measure, and reported it back with certain unimportant amendments.
The bill, after long debate, passed.

A bill to repeal an ordinance appropriating ground for public purposes at Landing avenue was called up.

Mr. Page moved to refer to the Committee

on Law.

Mr. King protested against such reference. The bill had been before the Committee on Law, and nothing had come from them but the opinion of the City Solicitor, who recommends the repeal of the bill, and

declares that this will not make the city liable for damages.

Mr. Lynd took the floor, and briefly expressed the opinion that Councils had made a serious mistake, but that the action of the Legislature, authorizing the occupancy of the land in question by the city, could not be recalled. The city had rendered itself liable in passing the original act, and its repeal would involve the city in many law-

suits. Every property owner will insist upon his right, and the Supreme Court will sustain him in his right; and Councils will be compelled to sue for mercy at the hands of every one of them. Mr. Gray said that the Legislature and City Councils had made certain legislation. Tha owners of the property that the city was to take had, of course, made other arrangements for the prosecution of their business. Each one of them had their rights, and in those rights the Courts would

confirm them. The vote was put, and the bill fell by a vote of 14 to 12. Adjourned.

COMMON BRANCH. The Committee on Highways offered a resolution to authorize the owners of pro-perty on Walnut lane and Armatt street, Twenty-second Ward, to lay board side-walks. Also, to grade Adams street, Twen ty-second Ward; to pave Twenty-second street, from Carpenter street to Washington avenue, Twenty-sixth Ward; to open Lesher street, Twenty-third Ward; to open Twenty-eighth street, from Federal to Reed street, Twenty-sixth Ward; to grade Christian street, from Gray's Ferry road to Suther-land avenue. The two latter were recommitted. The rest were agreed to.

An ordinance was read from the Committee on Police to appoint twelve additional policemen, ten for duty as river police on the Schuylkill, and two as telegraph opethe Twenty-second and Twentythird Ward stations. An addendum to the ordinance stated that the Mayor could not detail policemen from his scanty force

The measure created considerable discussion. Mr. Hetzel opposed it. He argued against any increase of the force, as it

would necessarily add to the already heav

Mr. Martin favored its passage. Tuded to the general insecurity of property along the Schuylkill, and urged the increase.

Mr. Franciscus said that men were nightly assaulted and robbed along the river banks of the most central wards of the city, and the protection of our citizens de-

mand the additional policemen. Mr. Evans said that during Mayor Conrad's administration the police force of Philadelphia was two hundred more than it is now, although the city is thirty-three per cent, larger in houses and popula-

Mr. Dillon said he would give a conditional support to the bill. He would vote to increase the police force if the High Constables, whose work can be readily per-formed by the district lieutenants, are discontinued The ordinance passed.

Mr. Simpson called up his supplementary proposition to the act of consolidation, that the Councilmen shall hereafter take their seats in October instead of January, and amending the clause for the appointment of assessors, giving the power to the Mayor

and the Judges.

The bill was postponed indefinitely. An ordinance appropriating \$79,341 38 for cleaning the streets passed.

Mr. Little, from the Survey Committee,

offered a resolution to revise the grade of Ludlow street, West-Philadelphia, from Thirtieth to Thirty-first. Agreed to.

Mr. Allen, from the Committee on Claims, esented an ordinance to appropriate \$200 presented an ordinance to appropriate \$200 to Adam Alburger, for injuries received by his horse falling through the bridge near the Old Point House. Agreed to,

The Committee on Health reported in

favor of removing the coal oil works at York avenue and Belgrade street. A reso-lution requesting the Legislature not to protime for the removal of coal oil works within the limits was agreed to.

Mr. Harper offered a resolution instruct-ing the Committee on Finance to report without delay the personal property that should be taxed, and the amount thereof

which Councils, by act of Legislature, are entitled to levy. Agreed to.

Mr. Dillon presented a resolution requesting the Legislature to refuse to pass any act to legalize the persons not properly elected to Councils continuing in their seats.

Tabled. Year 19, navs. 13. Tabled. Yeas 19, navs 13. Mr. Bardsley a resolution instructing the Committee on Gas to inform Councils of the

comparative cost of lighting Philadelphia and other cities, and other matters of inteest relative to the price of gas. Referred to the Committee on Gas. Mr. Nichols moved to resume the con-sideration of Mr. Harper's resolution to en-

dorse the policy of the Philadelphia mem-bers of Congress on the reconstruction theory Mr. Evans moved to amend to take up the

Broad street bill.

The Chair decided the amendment not ermanea Mr. Harper moved to lay the motion on

The motion was carried. Yeas 29, nays 7 Mr. Harper moved to take up the Broad Street Improvement bill. Agreed to. Mr. Wolbert moved to postpone the subject for one week. He thought the matter was urged too hurriedly. The resolution was hurried through Select Council, and

Common Council should act with proper Mr. Harper called the previous question on the motion to postone. The call was postponed, and the Select Council resoluion was finally concurred in—yeas 31, nays 5. A resolution calling upon the Mayor to report to Councils an inventory of the tools used by the late Inspector of Streets belonging to the city, and the value of the same, vas concurred in.

Other Select Council bills were considered until the adjournment. Vaults of the Bank of France, Of the vast additions to the buildings of the Bank of France now in progress, and which will afford considerable space to the administration and offices now crowded to-gether, the cellars are the most important part, they being destined to receive, like the old ones, the metallic reserve of the establishment, amounting generally to several hundred millions of trancs. The walls of these vaults are of stupendous thickness.

On decending the first steps leading to their entrance, the first obstacle we find is an iron door, locked with three keys, one of which is in the hands of the Governor of the Bank, the second is kept by the cashier, and the third by the censor; so that this door cannot be opened without the simultaneous consent of these three functionaries. We thus gain access to a first compartment containing the funds for current use. The safe kept here is so curiously constructed that if you do not know the secret of its construction the slightest touch anywhere will set a noisy alarum agoing, loud enough to startle all the inmates of the establishment.

The next compartment is circular, and called Serre; it cannot be entered without the same ceremonial, and it is fitted up with fire-proof shelves. It contains all the important deeds, notes and papers belonging to the Bank; also deposits of private persons. Here the Duke of Brunswick used to leave his jewels, previous to going on a journey. Mademoiselle Mars used to send her diamonds there; the lingot d'or was deposited in the same place, &c. After the Serre come the vaults properly so called, the entrance to which is closed by an iron door secured by several combination locks; it turns on central pivots, like Italian doors, It gives access to a well-hole, containing a winding staircase, admitting but one person at a time, and leading to subteranean galeries 420 metres in length. These are filled with iron casks containing lingots and coin, and labeled according to their contents. By way of additional security, the well-hole might be filled up with clay and the vaults with water at a minute's notice, if the safety of the treasure were menaced in the

slightest degree .- Galignani's Messenger. THE AMERICAN DESERT.—The great "American Desert" at the foot of the Colorado, is supposed to exhibit only a barren waste, while the mountains are presumed to waste, while the mountains are presumed to abound in frightful precipices and yawning chasms, and with only here and there a straggling growth of stunted evergreens, rather enhancing than relieving the oppressive monotony of the scene. Nothing can be more erroneous. What is called the "American Desert" has been for centuries the resure ground of millions of bufful. the pasture ground of millions of buffalo, antelope, and wild horses; it will, not many years hence, be the greatest cattle-growing region of the continent. The immense savannas of Texas have their counterpart here. The buffalo grass abounds from beyond the Platte on the North to the Arkansas on the South: it grows rankest upon the sandhills, far away from the water courses, and where nothing else will grow. Cattle and horses fatten upon this all winter, picking it out from under the snow. The herdsman makes no provision for win ter, for his cattle will not eat either grain or hay, if only they can have liberty to seek the dead buffalo grass. The only care ne-cessary is to see that the herd have water, and a herder to keep them from straying.
The first is insured by sinking a short distance in any of the little water courses of the plains; the Mexican population of the south
