CITY BULLETIN.

FEMALE MEDICAL COLLEGE, The fourteenth annual commencement of this insti-tution was held this afternoon, at the Col-

tution was held this afternoon, at the College; bullding, Twenty-second street and North, College avenue.

The exercises were opened with prayer by Rev. Edward Hawes.

T. Morris Perot, Esq., the President of the Board of Corporators, then conferred the degree of Doctor of Medicine upon the following graduates: Eliza J. Chapin, New York; Elizabeth C. Warrington, New Jersey; Harriet A. Wylie, Wisconsin; Charlotte T. Woodruff, New York.

The valedictory address was deliverd by

Harriet A. Wylle, Wisconsin; Charlotte I. Woodruff, New York.

The valedictory address was deliverd by Mark G. Kerr, M. D. Professor of Materia Medica and General Therapeutics.

This College, the first in the world regularly organized for the instruction of women in the various departments of learning taught in the best medical schools, opened its first session on October 12th, 1850, with a faculty of six Professors—regular practitioners, and graduates of regular schools, During the early years of its existence, the College struggled with many difficulties. The session which has just closed has been attended by a larger class of regular students than any former one, and the seventeenth annual announcement is the seventeenth annual announcement is issued under circumstances more hopeful

and encouraging than have before existed. Seventy-one students have received the diploma of the institution since its inception and about four times that number have matriculated and attended its lectures.

Three of the chairs of the College are filled by its graduates; and many more now occupy honored and profitable positions in their respective localities, as successful practitioners of medicine.

Quite a large percentage have been the daughters; sisters, or wives of physicians, and thus have not only possessed facilities for study, but have been able to commence for study, but have been able to commence practice at home, receiving aid from those interested in their welfare, and giving it in return. A few have made their practice largely a consulting or office practice. Still others in their professional capacity have entered seminaries of learning, hospitals, or other establishments, where they receive good remuneration; and the demand there is for the services of medical women as teachers and lecturers upon sanitary subteachers and lecturers upon sanitary sublects evinces that the possession of a sound medical education is already appreciated in the community as an instrument of power and a means of extended usefulness.

and a means of extended usefulness.

SERENADE TO A PROMINENT FENIAN.—
General B. F. Mullen, Chief of the Military and Naval Department of the Fenian Brotherhood, was serenaded last night at the Girard House, by the sympathizers with the movement for Irish Nationality. Patriotic American and Irish airs were performed by the Liberty Cornet Band, and speeches made by General Mullen, District Centre Andrew Wynne and John Hassen. Esg. General Wynne and John Hassen, Esq. General Mullen promised his friends that they need not have any fears of a violation of the neutrality laws by Col. O'Mahony. His remarks excited much enthusiasm.

During the next week the Fenian Brother-

During the next week the Fennan Brotherhood will hold a series of meetings throughout the city, commencing on Monday night
at Jefferson Hall, when General Mullen,
Stephen J. Meany, of Cleveland, and others
will make addresses. To-night the Fenians
will participate in a social entertainment at
Fenian Hall, southwest corner of Twelfth
and Chestonic streets. and Chestnut streets.

CONCERT HALL was well filled on Tuesday evening, by a select and appreciative audience, who listened with pleasure to the reading of Professor Mark Bailey, of Yale College. His style of elecution is very good and his declamation is nervous and intense, and his declamation is nervous and intense, without being overwrought. We should judge that his voice, which was a little thick, owing to a slight cold, was extremely flexible and quite highly cultivated. The faces of those in the audience reflected almost every emotion of the speaker, and they appeared thoroughly to enjoy his rendering of the pieces, some of which were familiar to them. Another visit to our city will make Professor Bailey, who appeared for the first time before a Philadelphia audience, better known to us, and we reserve dience, better known to us, and we reserve our criticism of his ability until we can

A NUISANCE.-In Hudson street, below Chestnut, there is a huge pile of ashes, and garbage of various kinds upon the side-walk. This dirt has been accumulating garbage of various kinds upon the side-walk. This dirt has been accumulating there for months, and now occupies the whole breadth of the pavement, to the great annoyance of the many persons who pass through the street during the day and night. There is an ordinance prohibiting the throwing of ashes, &c., in the streets, but it does not appear to be the duty of anybody either to enforce the law or to remove this nui-sance. It is to be hoped that the proper authorities will attend to this matter soon.

DOMESTIC MARKETS .- Prices in market this morning were as follows: apples, 25 to 40c. per half-peck; butter, 60 to 70c. per lb.; cabbage, 8 to 12c, per head; crauberries, 14 to 18c, per quart; eggs, 25 to 28c, per dozen; roast beef, 22 to 25c, per lb.; sirloin steaks, 27 to 30c, per lb.; mutton, 10 to 20c, per lb.; onions, 20 to 25c. per half-peck; parsnips 10 to 15c. per half-peck; pork, 15 to 20c. per lb.; potatoes, 18 to 20c. per half-peck; poultry, 20 to 28c. per lb.; turnips, 10 to 12c. per half-peck; and veal, 12 to 22c. per lb.

ALLEGED ARSON CASES,—Yesterday John Kester was committed by Alderman Beitler, on the charge of setting fire to a stable at Sixth street and Susquehanna avenue on Wednesday night, and Hester Richardson, a colored girl, was bound over, on her own confession, on the charge of setting fire to a bed and washstand at the residence of Mr. B. Alexander, No. 707 Callowhill street. This defendant is about 11 years old. Fire Marshal Blackburn testified that she is of weak intellect.

FROM A CARD in another part of the BUL-LETIN, it will be seen that the Tremont Coal Company, of this city, are now prepared to furnish coal in any quantity, from their mines in Schuylkill county. At the annual meeting of the stockholders, held in February last, J. Edgar Thompson, Matthew Baird, Charles E. Lex. J. T. Wolf, Coffin Colket and Robert W. Ryerss, were elected directors, and the Hon. George Sanderson, (late of Scranton), President of the Company for the ensuing year.

ANOTHER NEW WONDER IN THE SEW-ING MACHINE WORLD.—We yesterd by examined, at the office of Messrs Peterson & Little, agents for the Wheeler & Wilson Sewing Machine Company, 704 Chestint street, the celebrated "Three-Stitch and Embroidering Atlachment." a very 'ngentous little affair, achieved by the Breen Manufacturing Company of New York; and which olds fair to make the Wheeler & Wilson instrument still more cumpletely the sovereign of the Sewing Machine field, as by the addition of this simple attachment (which enhances the cost of the Machine only \$15) it performs everything that any other machine has ever successfully attempted. In short, with this neat attachment (which may readily be applied toany Wheeler & Wilson Machine nowin use) the latter has the power, in the hands of the operator, to produce, 'firse, the "Lock-Stitch,' as made by the Wheeler & Wilson Machine, second, the "Elastic Double-loop Stitch," as made by the Tweethread Stitch," a combination of both the 3bove stitches,

THE ARTISTS OF THE OPERA TO MASON & HAMLIN.—The very extensive reputation which the Mason & Hamilu Cabinet Organs have acquired is the result, in large measure, we think of their great superiority in quality of tone to all other instruments of this class, which is obvious to every cullysted ear. We know not what peculiar secret or skill these makers possess, but certainly we have not heard such pure musical tones from any other reed jestruments, either of American or European manufacture. For other improvements effected by Mason & Hamilu they deserve much credit; and their Cabinet Organs must come into very wide use by artists. We should not think of very wide use by artists. We should not think ting any other instrument of this class for our ow

Mr. Stephen F. Whitman, No. 1210 Market street, is regarded very justly by the press and the public in every part of the United States, as the manufacturer of the choicest and most pure confections. For the spring trade he has manufactured a large and varied assortment, suitable for consumption at the fashionable watering places, where, for several years, his confections have been sought in preference to any others.

BRIGHT OR SHADY,-In a new German BRIGHT OR SHADY.—In a new German monthly, Dr. C. S. Bernais, of St. Louis, is out with an essay eatitled "May Drumming be looked upon as the bright or shady side of American Commerce." It needs no "drumming" either in German, English, or any other language, to secure customers, for the coal sold by W. W. Alter, at his yard, No. 357 North Ninth street. Mr. Alter's constituency has recently become so large that he has now established a branch office at Sixih and Spring Garden streets.

HELMBOLD'S

HIGHLY CONCENTRATED FLUID EXTRACT SARSAPARILLA.

Pure and Healthy Blood Resists Disease.

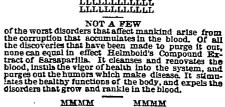

IN THE SPRING MONTHS the system naturally undergoes a change, and HELMBOLD'S HIGHLY CONCENTRATED EXTRACT OF SARSAPARILLA 1- an assistant of the greatest value.

GIVING BLOOM TO THE PALLID CHEEK BEAUTIFYING THE COMPLEXION.

IT ERADICATES ERUPTIVE and ULCERA-TIVE DISEASES of the THEOAT, NOSE, EYES, EYELIDS, SCALP and SKIN, which so disfigure the appearance, PURGING the evil effects of mercury and removing all taints, the remnants of DISEASES hereditary or otherwise, and is taken by ADULTS and CHILDREN with perfect SAFETY.

Scrofulous, mercurial and syphilitic diseases destroy whatever part they may attack. Thousands die annually from protracted disease of this class, and from the abuse of mercury. Visit any bospital, asylum and prisons, and satisty yourself of the truthfulness of the assertion. The system best resists the inroads of these diseases by a judicious combination of Tonics, HELMBOLD'S HIGHLY CONCENTRATED FLUID EXTRACT

AN INTERESTING LETTER is published in the Mrdico-Chirurgical Review, on the subject of the extract of Sarsaparilla in venereal affections, by Benjamin Travers, F. R. S., &c. Speaking of Syphills, and diseases arising from the excess of mercury, he states, "That no remedy is equal to the extract of Sarsaparilla; its power is extraordinary, more so than any other drug I am acquainted with. It is in the trickest sense a tonic with this thouluable, attribute, that it is applicable to a state of the system so sunkers and yet so irritable agrenary other substances of the tonic class unavailable or injurieus.

TWO TABLESPOONFULS of the Extract of Sax-saperilla, added to a pint of water, is equal to the Lisbon Diet Drink, and one bottle is equal to a gallon of the Syrup of Sarsaparilla, or the decoction as usually made. of the Syrupof Sarsaparilla, or the decocuon as usually made.

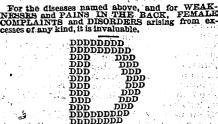

The decoction is exceeding troublesome, as it is necessary to prepare it fresh every day, and the syrup is still more objectionable as it is weaker than the decoction; for a fluid saturated with sugar is susceptible of holding its "suiton much less extractive matter than water alone, and the syrup is otherwise objectionable, for the patient is frequently nauseated, and his stomach surfeited by the large proportion of sugar he is obliged to take with each dose of Sarsaparilla, and which is of no use whatever, except to keep the decoction from spoiling. Here the advantages and superiority of the Fluid Extract in a comparative view are strikingly manifest.
