which sensor ressented replied:

Dear Sir—It is not customary to allow a cross-examination of witnesses before a committee appointed to report on a subject not involving individuals.

The committee is supposed to be desirous to ascertain the truth, and capable of making all the examinations necessary. The committee is quite willing however to examine any witnesses who may be produced having a knowledge of the subject matter having a knowledge of the subject matter, to any reasonable extent. The credentials of gentlemen claiming to be Senators have not been referred to this committee; there is no probability that they will be.

Mr. Graham subsequently replied—My sole purpose is to aid the committee, so far as this State is concerned, in ascertaining the truth, and to guard against ex-parte testing the truth, and to guard against ex-parte testing.

If, therefore, the committee will at any time furnish notice of the points in which evidence is desired, or prejudicial testimony which it is necessary to meet my colleagues and myself will gladly avail ourselves of its permission to offer such re-levant proof as may be in our power.

The following Local Deacons were elected to Local Elders' orders:

J. W. McGill, G. W. Unkle, S. Webb, H. H. Davis, F. Hoffman, R. S. McWilliams. The case of young men who have been on trial in the Conference for two years, was then taken up. They are now eligible to membership in the Conference, and to be invested with Deacon's orders.

They were called before the altar to be examined by the Bishop, not in reference to their literary or scientific attainments, but as touching their internal experience and convictions as to their Divine call to the work of the sacred office. The sclemnity of their pressed of their present position was impressed upon them by the Bishop, who reminded them of the awful responsibility of their vows, which are binding in force as long as they live. He referred to the large number in this country of various churches, who once took upon them the vows that they were now about to take, and had departed from the sacred office. In contradistinc-tion from this he instanced the British Wesleyan Ministry. The late Rev. Dr. Newton when in this country years ago was asked if ministers in that country quently retired from the work of the

ministry.

To this interrogatory the Dr. replied that To this interrogatory the Dr. replied that in forty-one years he had known of but wo. One of these voluntarily retired from the ministry, fell into sin, and died without hope; the other returned after a time, made a full confession with tears, and was restored. The Bishop expressed deep regret that the same could not be said of the ministry in this country.

The peculiarities of the Methodist Ministry were then dwelt upon. The Bishop

try were then dwelt upon. The Bishop stated that, without any disposition to underrate other systems, the Methodist had no risk from a comparison with them. No Methodist Church is without a Pastor, and no minister, who desires it, is without a Pastoral charge. In New England it had been said that there were four hundred churches (not Methodist) without any Pastor. In connection with this it was a singular fact that there were 400 preachers without pastoral charge. Certainly there must be in such a system a lack of practical wisdom. The Bishop reminded them of the wisdom of always making the best of every appointment, and doing all the good they can in all cases, whether they were perfectly satisfied with the charge, or the charge with them, or otherwhise. The questions framed by the founder of Methodism were then presented to the close by the Bisher and resented to the class by the Bishop, and re-sponded to in a distinct tone of voice. Very

apt and impressive remarks were mede in reference to each question by the Bishop.

Upon the subject of "Holiness," and the mode of preaching, "not too long or too loud," and the other practical and most important duties of the ministry, the Bishop

was very happy and pointed.

During this service the vast audience listened with breathless attention. The following were then admitted into the Conference and elected to Deacon's orders, after

ence and elected to Deacon's orders, after being reported upon by the Committee of Examination and Presiding Elder:
Wm. P. Howell, Jos. R. T. Gray, Leonidas Dobson, Charles W. Bickley, Jacob S. Hughes, James F. McClelland, Samuel A. Reisner, Henry F. Isett, Edward P. Aldred, Wilmer Coffman, Benjamin T. String, Jno. Stringer and Thos. E. Martindale.
Albert Jump was continued on trial at his own request.
