DEATH OF GEN. WILLIAMS.

From Washington.

[Special Despatch to the Bulletin.]
WASHINGTON, March 24.—The Senate Finance Committee is unanimously in favor of the Loan bill which passed the House yesterday. The Secretary desired unlimited authority in the matter, but is satisfied with this bill. He is determined to bring about a resumption of specie payments as speedily as possible.

The veto of the Civil Rights bill will be sent to Congress on Monday. The ground taken by the President is stronger than that taken in his yeto of the Freedmen's bill. He pronounces all such legislation revolution-

The vote on the proposition in the Naval Committee to accept League Island, in accordance with the request of the Secretary of the Navy, will be nearly unanimous. The Senate Naval Committee is also favorable to League Island.

From Mexico. NEW ORLEANS, March 23.—The Picayune has the following French version of affairs in Mexico, received by the arrival of the steamer Sonora from Vera Cruz, on the 12th, via Tampico on the 15th, and Bagdad on the

The weather at Vera Cruz is already quite warm, but healthy. The population is large compared with what it was in former jears. Business is lively, and the work on the railroad from the sea coast in the direction of the capital is progressing rapidly, but it is not in running order further than Paso del Macho, 45 miles from Vera Cruz.

The commission which went to the city of Mexico to announce Leopold's death, in returning to Vera Cruz, was attacked by guerillas at Rio Frio, between Puebla and the capital. One was killed, another had an arm fractured and afterwards amputated, and a third was badly wounded.

A passenger by the Sonora, who left San Luis Potosi, February 13th, and went via Queenstown to Puebla and Orizaba, reports business dull in San Luis; rents are unaccountably high; mines, and especially the Catarco, lively. Mest of the Americans are at Cordova. Regular stages are running between San Luis, Monterey, and Saltillo. No communication with Matamoras or

The City of Mexico dates were to the 25th ult. The Capital was full of people but dull, very few Americans were there, all having gone to Cordova.

No sickness at Vera Cruz, Tampico or Bagdad. Small numbers of troops are constantly arriving from Europe, and not many leaving; only such whose terms of service are up. About 30,000 French troops

Death of Gen. Seth Williams. Boston, March 24.—Brevet Major-Gen. Williams died last night at the residence of his sister, of inflammation of the brain, probably superinduced by his severe labors in the Adjutant General's office for the past five years. No officer could die more regretted or beloved.

From Georgia. AUGUSTA, March 23.—The negro Essex Walker was hung here to-day, for the murder of Thomas Byrne, of Burke county.

## CITY BULLETIN.

INQUEST CONCLUDED.—Coroner Taylor INQUEST CONCLUDED,—Coroner Taylor concluded the inquest in the case of Mrs. Emellne Snell, yesterday afternoon, Mrs. Saell, it will be remembered, was abot while walking along Girard avenue with her husband and child, on the evening of the 7th. She died on the 10th, and the attending physician, Dr. Kline, certified that death was caused by a nervous shock. The Coroner was not notified and the body removed to Norristown for interment. Being beyond the jurisdiction of Coroner Taylor, certain affidavits were necessary before a disinterment could be had. As soon as these were procured the investigation commenced. A post-mortem examination by Dr. Shapleigh showed that death resulted from concussion of the brain, caused by the shot. The ball was found in the head. Several witnesses were examined but there was no testimony to show who had fired the shot. The verdict of the jury therefore was that death was caused by a pistol shot fired by a party unknown.

A DISTURBANCE.—A party of Irishmen

A DISTURBANCE.-A party of Irishmen who had been entertaining a couple of friends who had inst arrived from the Emerald Isle, yesterday, got pretty full of whisky, and at four o'clock in the afternoon kicked up a disturbance at Fifth and Market streets. The whole crowd fell into the hands of the police. One of them, named Joseph Morrell, had a "billy" on his person. He was held in \$1,000 bail, by Alderman Godbou, to answer at Court. The others were held for breach of the peace.

THE HIGH SCHOOL INVESTIGATION.—The Special Committee engaged in levestigating the com-plaintagainst Prof. N. H. Maguire, Principal of the Central High School, held another session yesterday

there was great inefficiency in the management of the affairs of the school. The next meeting of the Committee will be held on Monday afternoon.

ATTEMPTING TO STATE OF THE S

ATTEMPTING TO SHOOT.—Yesterday afternoon Patrick Flanigan, the proprietor of a liquor store at Crease and Thompson streets, got into a difficulty with a man in his establishment, and, it is alleged, attempted to shoot him with a revolver. When arristed he is also alleged to, have threatened to fire upon the officer. Patrick was taken before Alderman Shoemas er and was held in \$500 hall for carrying concealed deadly weapons,

WELL ARMED.—This morning Sergeant Neff overhauled four suspicious colored men at Sixth and Bedford streets. Three of the men got away, but the other was captured. The prisoner had on his person a loaded revolver and several knives. Also, a pocket handkerchief, marked "E. L Osburne." He gave his name as Robert Thomas, and was committed by Ald. Tittermary.

FIRE.—About four o'clock yesterday afternoon a fire broke out in the cotton pressing establishment of J. Howard. No. 347 Frankford road. The building was a two-storied brick, the first floor being used for drying purposes. The flames apread rapidly through the loose cotton, and the structure was pretty well burned out. A large quantity of cotton in a back building escaped. The loss is estimated at \$2,000.

ADMITTED TO THE BAR. - Philadelphia, March 24th, 1866, on motion of Benjamin Harris Brewster, E.q., Wm. Knight Shryock was this day admitted to practice as an Attorney in the District Court and Court of Common Pleas for the city and county of Philadelphia.

PORTION OF A DROWNED BODY FOUND-An arm and shoulder was found in the Delaware, at Simpson & Neill's dry dock, yesterday afternoon. The limb bere the appearance of having been in the water a long time. Efforts were made to find the remainder of the body, but were unavailing. DISCHARGED.—This morning Recorder

Eneu gave his decision in the case of John J. Collins, who has had several hearings upon the charge of seling lottery policies. The case was dismissed on the ground that Collins is already under \$3,500 ball before Alderman Lutzupon a similar charge and the case has been returned to Court. BAD Boys,—Five boys, who have been in

the habit of annoying the public school at Fitteenth and Fitzwater streets, were arrested yesterday, and after a hearing before ald, Lutz, were committed for a breach of the peace. ASSAULT WITH A RAZOR.—A colored man

named Charles Sands was arrested last evening at Fifth street and Girard avenue for attempting to cut a womân with a ruzer. He was taken before Alderman Shoemaker and was committed to answer. FUGITIVE FROM JUSTICE.—John Brown,

alleged to be a fugitive from justice from Mount Holly New Jersey, was arrested last night by the Harbor Po lice. He was sent back to New Jersey. NAZARETH M. E. CHURCH.—The Rev. T. Fernley, the newly appointed pastor of Nazarath E. Church, Thirteenth street, below Vine, will reach to-morrow morning.

AMERICAN ANTI-INCRUSTATOR.—SCALE N BOILERS.—The Scientific American says:
"As incrustation is the sole cause of the destruction of Boilers, we do not see why owners go not employ some means to obvisite the evil. The thickness of an egg-shell between the water and the iron compels the use of 15 per cent. more fuel to generate steam; and, as a crust one-fourth to one-half inch is no uncommon occurrence, the immense waste of fuel and the more rapid burning of the iron are readily seen. Repairs to some of the western boilers cost 2,000 dollars a year. This and the fuel wasted might both be saved it the collers were kept clean, as iron cannot burn with water next to it. Hence will be seen the advantages and necessity of preventing scale. The item of stopping works to scale boilers is no inconsiderable amount. The apparent loss of the day is triffing, but in large estab-lishments, where large capital is idle—the men off and not to turn up when wanted—should induce every mill owner to save this lost day, which need occur but

once in six or twelve months if no scale formed." The operation of the American Anti-Incrustator is uch THAT IT REMOVES ALL THE SCALE FROM THE BUCLE AND AFTER ITS REMOVAL, PREVENTS ANY NEW CRUST OR SCALE FROM FOAMING, AND EFFECTS A LARGE SAVING IN FUEL.
In this city, alone, upwards of fifty manufacturing

stablishments as well as the Continental Hotel, have already introduced the Anti-Incrustator, and the arready introduced the Anti-Internation, and the Company are daily receiving orders and inquiries from almost every State in the Union. Every information given at the office of the Com-pany, No. 147 South Fourth street, corner of Har-mony, Philadelphia. Correspondents promptly an-

Messrs. Savery & Co., at their Philadelphis Iron Hollow-ware Foundry, Southwest corner Front and Reed streets, have had the Anti-Incrustator in use since February 8, 1864. Their testimony is as follows: "OFFICE OF THE PHILADELPHIA IRON HOLLOW-WARE FOUNDRY, Southwest corner Front and Reed streets, Philadelphia, March 16th, 1866.

John C. Cresson, Esq.; President Anti-Incrustation Company:
"DEAB SIR—In the boiler connected with our establishment, we have had one of your Anti-Incrustators in use since February 5th, 1884. At that time our boller was comparatively new, but scale had already formed in | it, and in some instances we took out pieces from one-sixteenth to one-eighth of an inch in thickness.

"Our method of cleaning then was different from the present. By the use of the Anti-Incrustator, we are no compelled to stop our works, as formerly, as the instru-ment keeps the boiler free from scale, and consequently clean, without trouble.—Pick, scraper and hammer are dispensed with and the injury liable to boilers by clean ing with the old process is entirely removed. The Anti-Incrustator we consider of great value to every manufacturer. Our experience, from its use, gives us much pleasure to state that it saves fuel, a vast deal of trouble and renders the boilers more secure under all circumstances. Since its introduction we use double the power in our works that we did previously, and with less fuel. Our boiler is 28 feet long and 60 inches diameter, with two return flues 12 inches diameter,

urn flues 12 inches wanter,

New Jersey M. E. Conference—
Fourth Day.—The Conference was called to order by
Bishop Scott, and the devotional services, consisting
of reading a portion of Scriptures, singing and prayer,
were conducted by Rev. J. S. Helsler.

Minutes of the preceding meeting were then taken
up, read and approved.

The seventh question, concerning who are the supernumeraries, was then takenup. The case of J. W.
Hickman was called. That gentleman made, an affecting statement concerning his enfeolled health, and
asked to have his relations changed from supernumearry to effective. His wish, was compiled with.

Mr. Grant was hore permitted to make a statement
in regard to the delinquency of members who had not
settled with himconcerning the business of the book
concern. New Jersey Matters.

settled with himconcerning the business of the book concern.

Is the case of S. Jaquett, he was retained as Supernumerary, without work.

The Rev. Messrs. Atwood and Robinson were here introduced to the Conference.

The case of Henry Belgie was called, and his relation as supernumerary was continued.

The fifth question was called, and considered, when R. M. Stratton was elected to Elder's orders.

The question of orders of local ministers and deacons was called, and S. L. Johnson was elected to a deaconship. This question elicited considerable remarks general y, which were duly appreciated.

The application for deacon's orders by R. L. Barwiss was refused. S. G. Jarmon was elected, Considerable discussion prevailed on these applications, when Mr. Cheston was also elected. Mr. Hopkinson, from the Methodist Protestant church was received in to deaconship.

Peter Provost was admitted to trial in the Confeence. Andrew Scott made application for admission and was received.
The procession of electing Peter Burd to trial met with much discussion. Mr. Burd was recommended

as an able and efficient preacher and a very valuable member. He was also represented as being an illiterate man, but he had been very successful in winning souls to God.

Mr. Winner seemed to be warmly in favor of the young applicant, and alluded in strong terms to the work he had accomplished holding that, if it took foos to convertsouls, he was in favor of focis, for Mr. Burd had been the means of having converted over two hundred in the space of one year.

A resolution was offered recommending that Mr. Burd be retained in his present position another year, with instruction to deevide his time to study. Theresolution was adopted, 5s to 27.

The amount of Missionary money collected throughout the districts of the Conference is \$18.501 15.

A number of committees made their reports in reference to the programme of future business, preaching, dc, which were adopted.

Monday morning at 9% o'clock was fixed as the time for receiving the report of the Centenary Committee.

The hour of adjournment having arrived, the meeting announcements were made, and the body adjourned.

noon, with \$103,500 in specie. XXXIXth Congress-Pirst Session.

The House met as in Committee of the Whole on the State of the Union, the only business in order being a general debate on the President's Annual Message. The attendance both on the floor and in the galleries was very slim. State of the Union, the only business in order being a general debate on the President's Annual Message. The attendance both on the floor and in the galleries was very slim.

Mr. Brooks (N. Y.) rose to a personal explanation in reference to the Giobe report of the discussion between himself and the gentleman from Ohio, (Mr. Garfield), on Thursday last, He stated that the remarks purporting to have been made by Mr. Garfield were not heard by him (Mr. Brooks) and were as he understood them, incorrectly reported; although it was not for him to say how or when the misreporting occurred. It was to him a matter of comparatively little importance except that he wished to stand right upon the record. Referring to the reports of the reports of the reports of the reports of the correctly reports at the stand right upon the record. Referring to the reports of the correctly Brinting Bureau, he found that although it was not as genetic, the found that although it was not as genetic, and Messars. Stewart, Steel and Dawson. He had a letter read from Mr. Jordan, Solictor to the Treaspry, to Mr. Chase, stating as the result of an investigation made by himself (Mr. Brooks) and Messars. Stewart, Steel and Dawson. He had a letter read from Mr. Jordan, Solictor to the statements were true.

Mr. Garfield (Ohio) sald that he was obliged to the gentleman from New York for the correction he had made. It was the universal custom for one member, anthorized by a committee, to make the report, and that, had been done in this case. He had been authorized by a majority of the Committee to make the report, and that, had here done in this case. He had been authorized by a majority of the Committee in this case. He had been authorized by a majority of the Committee to make the report (Md.), Wilson (towa), Jenckee (R. I.), and Fenton (N. Y.), would have made a correction. The conclusion of the report which he had made was in these words:

Resolved. That the policy of printing public money in the Treasury has resulted in a great saving of expense the conclusions of the Committee, and that it allocated the presented to him for his signature he would not have signed it.

Mr. Garfield (Ohio) stated that this was the first time he knew that the gentleman from Ohio dissduted from the report of the majority. The majority had anthorized him (Mr. Garfield) to make it, and he had

antorized him (air. Garfield) to make it, and he had made it.

Mr. Wilson (Iowa) said that he had been saked by Mr. Henry Winter Davis, a member of the Committee, whether he was willing to sign the report, and had replied that he was not, as he did not agree with the Committee in its conclusions, as set forth in the report and resolution accompanying it.

Here the matter dropped, and Mr. Moulton addressed the House. New York Stock Market.
