From Washington.

[Special Despatch to the Bulletin.] WASHINGTON, March 26 -Senator Sumner brought into the Senate to-day a mass of documents and authorities to show that Mr. Stockton had no right to vote on his own case. The question will be argued with great ability on both sides. It seems to be an entirely new question, nothing of the kind ever having occurred in that body.

The Senate Finance Committee will report the Loan bill to-morrow or next day, with one or two amendments.

The U.S. Supreme Court. WASHINGTON, March 26.—The Supreme Court of the United States have decided the Massachusetts liquor cases. They hold that licenses granted by the United States under the internal revenue laws, for the wholesale sale of liquors, held by a citizen of Massachasetts, do not protect him in the sale, or keeping for sale, of liquors within said State in view of the prohibitory law of the State of Massachusetts. The decision of the court below is affirmed.

On Wednesday Mr. Richardson, of Boston, one of the council for the liquor dealers, is to make an argument before the Com-mittee of Ways and Means, in favor of making licenses a protection for the sale of spirituour liquors, instead of permissive, as ust decided by the Supreme Court of the

Bend, Wisconsin, when he learned the fol lowing facts, which are substantiated by Hon. F. O. Thorpe, who resides at West "On Saturday, the 3d inst., at West Bend, the Rev. Mr. Miller was was called to go into the country, a few miles from town, to preach the funeral sermon of Mrs. Lambert, who was supposed to be dead. She was arrayed in her funeral attire and placed in her coffin. It appears that Mr. Miller was the owner of a fractious horse, that was sometimes unmanageable and would run

away. He was to pass through a tim-bered country, and on account of snow drifts the road was almost impassable, and and from this fact the horse succeeded in throwing the minister from the cutter. From appearances, Mr. Miller was thrown with great force upon a large oak stump that was filled with short knots. One se knots came in contact with and severed the jugular vein. When he was found, life was almost extinct from the loss of blood. He was taken to the nearest house and medical aid at once procured, but he only lived a short time. The cutter was found some distance from where the accident occurred, and the horse detached from it. But the most singular development of this sad and mysterious affair is yet to be told: Further information proves that Mrs. Lambert was not dead, but had been in a trance for two days, presenting every indication that life had departed. She is now improving, and expected soon to recover. She states that she could hear every word spoken, and could realize the preparations her friends were making for her funeral, but could make no resistance or move a muscle of her body. Her grave had been dug. She now lives, and the minister who had been called to preach herfuneral sermon now lies

THE NEW VOLCANIC ISLAND. - The Herald publishes an account of the wonderful appearance of a volcanic island in the ful appearance of a volcanic island in the Greek Archipelago. The story, fully vouched for as true by the United States and other officials who were eye witnesses to the startling phenomenon, is stranger than any fiction conceivable, and the phenomenon itself is one of the most remarkable ever known. The island has risen under the sea not suddenly but from under the sea, not suddenly, but gradually; and the water for miles around was boiling and steaming at a tremendous rate. While this island was thus gradually growing that of Sontorlin, near by, appears to have been disappearing. A gentleman who landed on the new island found it to be of coal or lava, and still so hot that eggs which he discovered thereon were cooked hard. Among other carious ascompanying phenomena is the appearance on the surface of the ocean, as good as new, of a vessel which was sunk ten years ago. The island is several miles in circumference and, being of volcanic origin, it is supposed will disappear as soon as the force of the irruption is expended.

WASHINGTON, March 26.—An official proclamation has been made of the ratification of the treaty between the United States and the Chiefs and Headmen of the Winnecongan Band of Dakota or Sioux Indians. These Indians bound themselves to discontinue for the future all attacks upon the persons or property of other tribes unless first assailed by them, and to use their influence to promote peace everywhere in the region occupied or frequented by them. The band agree to withdraw from the routes overland already established or hereafter to be established throughout their country, and in consideration of this the United States agree to pay them \$10,000 annually, for ten years, in such articles as the Secretary of the Interior may direct.

Clement Clay's Treason.

Boston, March 26th.—The Advertiser publishes a letter in the possession of the State Department at Washington identified as being written by Clement C. Clay, under date of St. Catharines, C. W., Novem ber—, 1864. The letter shows: the complicity of the writer in the robbing and murdering raids from Canada into the United States and is understood to furnish the real grounds for Clay's prolonged imprisonment at Fortress Mouroe. The letter is addressed to J. P. Benjamin and urges official sanction by the rebel government of Lieutenant Bennett, H. Young and other desperadoes who made a raid on St. Albans, in order to prevent their being given up under the extradition treaty. Clay justifies their acts as being legitimate warfare. He also interests himself to protect in the same way Captain Charles H. Cole, charged with piracy in attempting to seize a Federal steamer on Lake Erie. The latter says "the sympathies of nine-tenths of the Canadians are with Young and his men and a majority of all the news-papers justify or excuse his acts as merely retaliation, and they desire only the authority of the Confederate States Government for it, to resist their extradition. The letter alludes to their pending Presidential election as follows: All that large portion of the Northern people, especially in the Northwest want, to resist the despotism at

Washington, is a leader. They are ripe for resistance, and it may come after the Presidential election. At all events it must come if our armies are not overcome and destroyed or dispersed. No people of Anglo - Saxon blood can people of Anglo - Saxon blood can long endure the usurpations and tyrannies of Lincoln. Democrats are more hated by the modern Republicans than Southern rebels, and will be as much outraged and persecuted if Lincoln is reelected. They must yield to a cruel and disgraceful despotism or fight. They feel it and know it.

U. S. Supreme Court. U. S. Supreme Court.

Washington, March 25th.—The Supreme Court of the United States this morning decided the case of Michael A. Noian and others, et. the Board of Assessors of the city of Albany, defendants in error; at the sait of Adam Van Allen, plaintiff in error; and other cases. The ouestion presented was whether the shares of the stockholders in the Banking Association created under the acts of Congress, which provide for the creation of mational banks, can be subjected to taxasion by the State anthorities.

Associate Justice Nelson delivered the opinion of the Court, holding that the shares held by individuals were not a part of the capital of the Bank; and must be regarded as the personal property of the shareholders and as such subject to taxasion by the State, within the provisions of the Act of Congress; but that the judgment of the Court below must be reversed on the ground that there was a discrimination between the shares of these banks and the capital stock of the State.

A colored preacher was here introduced, who gave his experience as a slave, and a collection of \$75 was taken up for his benefit. He gave a pititul account of the condition of his experiences in slavery; how his wile and children were sold and separated from him; how he had purchased his wife's freedom, and had nearly paid the good old Quaker who loaned him the money. His children had been freed by the Emaucipation Proclamation of Mr. Lincoln, and ne desired assistance to bring them on.
