SECOND EDITION

BY TELEGRAPH.

LATE FROM WASHINGTON.

THE IMPENDING VETO MESSAGE.

SENATOR FOOT RAPIDLY SINKING

The Reconstruction Committee.

Gen. Lee's Testimony Unimportant.

THE PRESIDENT IN CALIFORNIA.

From Washington.

[Special Despatch to the Bulletin.]
WASHINGTON, March 27.—The Cabinet were convened at an early hour this morning, for the purpose of hearing the veto of the Civil Rights bill read. It is not known now that it will be communicated to the Senate to-day. The great point which the President makes in it is that it is an invasion of the rights of the States. Senator Foote is rapidly sinking. He

cannot live more than a few hours. Senator Howard of the Reconstruction Committee sent to the House the testimony of 57 witnesses from the States of Virginia, North Carolina, and South Carolina, inclusive of that of Gen. Lee. The latter's evidence is unimportant and evasive throughout, and it is so regarded by the

More Support for the President. San Francisco, March 25.—The steamer Pacific has arrived from Portland, Oregon,

with \$100,000 in treasure. The Republicans called a meeting at Portland to endorse President Johnson, when Governor Gibbs, who was present, arose and denounced the whole affair as a meeting of copperheads, and he with others then left.

From Poughkeepsie. POUGHKEEPSIE, N. Y., March 27 .- The steamer Connecticut ran high and dry on the coal beds, near Bristol, last night. She will probably be got off this morning. The water in the Hudson was lower yesterday than for a number of years.

Henderson, the drummer boy of the Rappahannock, discovered three burglars in one of the buildings of Eastman's college, last night. One of them fired at him, the ball striking a tes'ament in the breast pocket of his coat, doing him no injury. He returned the fire, but the burglars escaped. An examination proved that they were trying to steal his silver drum and a quantity of money belonging to the stationery department of the

Senator Foote.

WASHINGTON, March 27.—Senator Foote at noon to-day was supposed to be in a dying condition.

The Civil Rights Bill.

WASHINGTON, March 27.—The members of the Cabinet were called together this morning, two hours before the usual time of meeting, with reference, it is supposed, to the Civil Rights Bill.

From Cincinnati.

CINCINNATI, March 27.-The Ohio Senate yesterday passed a bill authorizing the city of Cincinnati to issue bonds to the amount of \$2,500,000 for the purchase of gas works. The "Enquirer Company" have purchased all the property on Vine street, between the Gas office and Mozart Gardens, on which will be erected a magnificent opera house, with a printing office in the

Pennsylvania Legislature.
[HARRISBURG, March 27, 1866.
SENATE.—Mr. Worthington read a bill in place authorizing American Wood Paper Company to hold real estate in Chester

county.

Mr. Schall, one incorporating the Allentown Passenger Transportation Company. Mr. Donovan, one for the relief of Casper M. Berry, late Brigade Inspector.
Mr. Ruff, one relative to the construction

and repair of roads in Lower Merion Township, Montgomery county.
HOUSE.—The House was engaged in the

first reading of three hundred and fifty pri-The act preventing the City Councils of Philadelphia from increasing the public debt was objected to by Mr. Freeborn.

The following act, reported some time since from the Judiciary Committee, as amended, was objected to by Mr. Seibert: "Be it enacted, that so much of the 3d section of the act approved April 9, 1861, as has been construed to authorize the Receiver of Taxes of the city of Philadelphia to charge and receive commission of five per cent, from decive company to a payers he and the same lie and the same lies. linquent tax payers be and the same is repealed; provided that this act shall not take effect until the expiration of the term of the present Receiver of Taxes.

An act legalizing the election of Common Councilmen from the First, Eighth, Ninth and Thirteenth Wards of Philadelphia was objected to by Mr. Donnelly.

An act providing for the sealing and inspection of gas meters in Philadelphia was objected to by Mr. Donnelly.

The Canadian Volunteers. MONTREAL, March 27.—At a meeting held yesterday to provide for the families of vol-

nations on duty, about fifty persons were present, who subscribed \$25,000. It is supposed that \$50,000 can be raised without difficulty. NEW ORLEANS, March 26.—Arrived, steamship Guiding Star, from New York, and ship Flying Eagle from Liverpool.

Price of Gold in New York. NEW YORK, March 27.—Gold has been quoted to-day as follows: 10.30 A. M., 1261@\$ 11.15 10.45 1261 11.30 M 126½ | 12.00 M.

New Jersey Matters.

New Jersey Matters.

New Jersey M. E. Conferencemet, Bishop Scott presiding. The exercises of the morning were conducted by Rev. Mr. Sedgwick Rusling.

Minutes read and approved.

The first question was taken up, so far as admitting to trial in the ministry young and unmarried men. Secret wight was named, favorably reported upon, and was admitted.

Joseph A. Cann. Was named. The Committee and Joseph A. Cann was named. The Committee and Presiding Eider reported invorably upon his character. He was admitted. Henry Bradford was proposed. He had passed a

very good examination, waswell reported upon, and after considerable discussion he was admitted.

The effective Elder, Trenton District, W. E. Perry.—He stated that they sar on that district had been prosperous. The various enterprises connected with the work had been well attended to by the ministers. Churche, improvements, &c., had been well attended to a new church had been commenced at Lambert ville, which will soos be completed.

At Titusville another was in progress. In Trenton, in the Green street church, a glorious revival had taken place. The Front street brethren had erected a new parsonage. The church is now prosperous. The State street church had raised about \$12,000 for the liquidation of their debt, and have erected a splendid arsonage. About \$10,000 had been raised for the Central Church. At Bakerville the churches were in an advancing condition
The churches at New Brunswick were all flourishing.
The Second Church, at Long Branch, reported that the old church had been sold, and a new Gothic-styled church was in course of erection. An institution of learning is to be erected there.

At Keysport, Squam Village and Freehold, and other places the condition of the Churches were favorably reported upon. places the condition of the Churches were favorably reported upon.

The missionary funds, &c., were announced, and the question of education, requiring preachers to preach on education, was satisfactorily answered.

John S. Heisler, E. H. Durell, T. Hanlon, J. B. Graw, R. E. Lawrence, B. Hughes, M. Franklin, W. W. Christine, H. Belting, T. S. Phelps, J. H. Hutchinson, J. K. King, G. H. Neal, W. T. Abbott, A. J. Gregory, W. E. Boyle, C. W. Heisley, S. F. Weaver, J. Vannete, were named and favorably passed upon.

Edmund Hance was transferred to the list of supernumeraries.

numeraries.

The Committee on Church Extension made an able and lengthy report, giving the plan of organization.cc, and was advocated in an able and eloquent manner by Rey, S. Y. Monroe. His appeal was of the most feeling and argumentative character. The report was adonted. After disposing of some other business, the presentation of reports, &c., the Conference adjourned.

CITY BULLETIN. Destructive Fire in the Eighteenth Ward —A Planing Mill and Several Dwellings Burned.

This morning about two o'clock a fire broke out in the extensive sash and door manufactory of Messrs. Brady, Schaeffer & Co., located at Nos. 161 and 163 Allen street, below Shackamaxon, in the Eighteenth Ward. The structure was brick and three stories in height. It was filled with valuable machinery and there was also on hand a heavy stock of combustible materials.

materials.

The flames spread rapidly at first, and although the alarm was promptly given, had gained much headway before the firemen got fully into service. The whole structure was soon enveloped and after the firemen got some control over the fire, it burned stubbornly until long after daylight, causing a bright light which illuminated the neighborhood for squares and emitting a dense smoke which made it impossible for any person to remain near the burning building.

The building and its contents were entirely destroyed, nothing remaining but the bare walls. The structure was owned by Matthew Brady whose loss is estimated at \$15,00 upon which there is an insurance of \$1,000.

estimated at \$15,000 upon which there is an insurance of \$1,000.
The loss of Brady, Schaeffer & Co. is estimated at \$10,000; insured for \$2,000. Besides this firm there were other occupants, whosa losses and insurances were as follows: Allison & Bro., wood carvers and turners, loss, \$3,000, insured for \$1,000; Emerick & Co., loss, \$3,000, insured for \$750.

North of the mill in Allen street is a row of three-storied brick dwelling houses. Three of these were considerably damaged by fire, and the furniture suffered greatly from water and from hasty removal.

No 167 Allen street was owned and occupied by Daniel Mickel. His loss is estimated at \$1,000 and his insurance is \$500.

No. 167 Allen street was owned and occupied by Daniel Mickel. His loss is estimated at \$1,000 and his insurance is \$500.

No. 169 is owned and occupied by Davis Fitzpatrick. Loss \$600. Insured \$1,000 and coupled by R H. Davis. Loss \$100. Covered by insurance.

A large frame livery stable, belonging to D. Webster, was located south of the mill. This was partially destroyed. A number of horses were in the building at the time. They were all safely rescued by citizens and police, under Lieut. Witcraft.

At the time of the conflarration a strong wind was blowing from the west. This was fortunate. In the rear of the mill there is a lot of frame dwelling houses, and if the wind had been in the opposite direction, they would have beenswept away, throwing many families into the street homeless.

The Eighteenth Ward Public School; House, a three-storled brick structure, situated on the east side of Allen street, immediately opposite the burning mill, was in great danger for some time, but the front is of solid brick without any window frames, and it was thus saved from destruction.

The firemen were upon the ground in large numbers, and worked manfully, notwithstanding the weather was so severe as to freeze the water in some of the hore. Many of the ormpanies remained in service until after daylight.

FIREMEN'S SQUABBLES.—Seven men con-

FIREMEN'S SQUABBLES.—Seven men con-FIREMEN'S SQUABBLES.—Seven men connected with fire companies in West Philadelphia were before Alderman Allen, this morning, upon the charge of riotous conduct. On Saturday night last some brush on the Almshouse property was set on fire. As the Union Hose company reached the almshouse gate they were attacked by parties said to be too the Mantua Hook and Ladder Company, and were driven away from their carriage. The apparatus had to be taken home by citizens and the police. On Sunday the Union retaliated and attacked the Mantua at Fortieth street and Lancaster avenue. A couple of policemen interfered or a serious disturbance might have been the result. During yesterday seven of the allegee participants in the riotous demonstration.

PROBABLE HOMICIDE.—Benjamin Welsh PROBABLE HOMICIDE.—Benjamin Weish was before Alderman Tittermary this morning, charged with having stabled a man named Adams. It seems that last night a party was given at a house in Stewart street, near Filzwater. Welsh and Adams were both present. About twelve clock they got to quarreling, as it is stated, about a woman. Weish is alleged to have drawn a knile and plunged it into the right side of Adams, causing a wound from which his recovery is considered doubtful. The wounded man was removed to his home on Stewart street, a few doors from the house in which the affair occurred. Weish was committed to await the result of the injuries inflicted.

PRAISEWORTHY.-Too much cannot be FRAISEWORTHY.—Teo much cannot be said in favor of the conduct of our roble firemen, at the configer ion in the Eighteenth Ward, last evening. Several acts of daring were made to save the dwellings in the immediate neighborhood of the fire, which demand more than passing notice. Among them were the strenuous effors of the Good Intent Engine, Lafayette Hose, Empire Hook and Ladder Company, and Vigilant Engine. Mainly through their efforts was the time large Public School Houre, known as the "Bringhurst School," saved from the devouring element.

ATTEMPTS AT ROBBERY.—This morning between twelve and one o'clock, a colored man was discoved by Officer Pennington in Blaur's drug store at Eighth and Walnut streets. The inmates of the house were aroused, and another officer was sent to the rear of the premises, but in the meantime the third escaped by the back way. It is supposed that he secreted him self in the store previous to its closing. Nothing was atolen rear, to replace the buildings destroyed by About the same time the window of a trimming store on Ninth street above Spruce was broken, but the appearance of Officer Mouille frightened away the

THE HIGH SCHOOL INVESTIGATION .-- An-THE HIGH SCHOOL INVESTIGATION.—Another session of the special committee engaged in the investigation of the charges sgainst Prof. N. H. Maguire. Principal of the Central High School, was held vesterday afternoon. Profs. Haverstick, Hopper and Vogdes who had been previously examined were cross-examined by Mr. Maguire. Professors McClure, Kirkpatrick, Angele and Wilson, were then examined by the committees. The testimony gave further evidence of the inefficiency in the management of the school, some of the reasons therefor.

SUSPICION OF ROBBERY.—This morning, SUSPICION OF ROBERTY.—Into morning, before Alderman Tittermary, Alexander Robinson was arraigned upon suspicion of robbery. He is the master of agang of chimney sweeps, and was employed yesterday at a bouse at Third and Catharine streets. After the chimney had been cleansed and the "sweeps," had departed, a pair of spectacles highly prized and a number of other articles were missing. Suspicion fell upon Robinson and he was arrested. He was committed.

DIDN'T GET TO THE THEATRE.-Four boys were arrested, last night, at the Chestnut Street
Theatre, for attempting topass in upon stolen tickets.
It is supposed that the pasteboards were stolen by a
youth employed in the establishment where they were
printed, and were then given to his companions.
There were no numbers upon the coupons and that
fact led to detection. The juveniles were committed
for a further hearing by Aiderman Jones.

FUGITIVE FROM JUSTICE-Joseph Barkley, alleged to be a fugitive from justice from Delaware, was arrested last night, at Twentieth and Willow streets. He was sent back to Delaware this morning.

Noona (Pa.) asked the Speaker whether it was in order to inquire on which side of the question the

In order to inquire on which side of the question the gentleman was.

In Speaker intimated that it was not.

Mr. Grinnell repiled that he was on the honest side.

Mr. Grinnell, was excused and Mr. Bloan (Wis.) appointed in his place.

Mr. Wentworth (Ill.), from the Committee on Ways and Means.reported by uranimous consent a bill for the admission, he of duty, of steam agricultural implements and machinery for the manufacture of flax-beet at d sugar for the period of one year.

Mr. Stevens (Pa.) moved to lay the bill on the table, which was gerred to. Mr. Stevens (ra.) moved to lay the state of the which was agreed to.

Mr. Wenthworth appealed to Mr. Stevens to let it be recommitted.

Mr. Stevens consented to that, but Mr. McKee (Ky.) chiected, and the bill was laid on the table.

Mr. Stevens consented to that, but Mr. McKee (Ky.) chiected, and the bill was laid on the table.

Mr. Stealding (Ohio) introduced a bill to grant certain privileges to the American Sub-Marine Telegraph Company. Sead twice and referred to the Committee

Company, ead twice and referred to the Committee on Commerce.

Mr. Beaman (Mich.) introduced a bill granting cer tain lands to the State of Michigan, to aid in the con struction of a ship causi to connect the waters of Lake Superior with the lake known as Lac la Belle. In said State, Road twice, and referred to the Committee on Superior with the lake known as Lac la Belle in said state. Read twice, and reierred to the Committee on Roads and Canals.

Ar. Beaman offered a resolution, which was adopted instructing the Committee on Commerce to inquire into the expediency of constructing a ship canal from the mouth of the river Raiser to Sain Joss ph's r.ver. in Michigan, and to report an appropriation for a survey of such a ship canal.

Mr. Blaine (Me.) offered a resolution, which was adopted, directing the Committee on Banking and Currency to inquire into the expediency of making the stock of National Banks taxable in the city or town where the helder thereof has his legal residence.

Mr. Kas ou (Iowa) offered a resolution which was adopted, directing the Committee on Commerce to consider and report whether Congress may without conflict with the provisions of any existing treaty discriminate by appropriate legislation in respect to dulies or charges upon the ship or cargo so as to favor steam vessels bearing the flag of the United States running without public subsidy between ports of the United States running with the aid of a public subsidy in competition with them.

Mr. kisymond (N. Y.) introduced a bill to authorize the secretary of the Treasury to change; the names of certain wessels Read twice and referred to the Committee on commerce.

Mr., Inger.oil (UII.) introduced a bill defining and

certain versels Read twice and reierred to the committee on commerce.

Mr. Inger-oll (III.) introduced a bill defining and providing for the punishment of grand and petit larceny within the District of Columbia, and for the employment of prisoners. Read twice and referred to the Committee for the District of Columbia. The morning hour was occupied in the consideration of reports made from the Committee on Indian Affairs.

AMERICAN

ANTI-INCRUSTATOR

IT REMOVES SCALE WITHOUT

Pick,

Scraper, Hammer. Acids,

&c.,&c.

It Prevents New Scale from Forming.

IT SAVES FUEL.

It Renders Boilers Less Liable to Explosion.

READ WHAT MORGAN, ORR & CO.,

Machinists and Steam Engine Builders, No. 1219 Callowhill Street.

PHILADELPHIA,

Say about the ANTI-INCRUSTATOR; OFFICE OF MORGAN, ORB & CO., Machinists and Steam Engine Builders No. 1219 Callowhill Street. Philadelphia, March 27th, 1866.

JOHN C. CRESSON, Esq.,
President American Anti-Incrustation Co.
Dear Sir—On the 22d day of February last, we had one of your ANTI-INCRUSTATORS placed in the took therefrom nearly half a bushel of hard incrusta tion or scale, some of it fully three-eighths of an inch in thickness. The scale taken out was of old formaformed or deposited since the Anti-Incrustator was in-

troduced.
Our Boiler is a cylinder resting upon a tubular. The cylinder in which the Anti-Incrustator was put is \$6 inches in diameter and 12% feet long and the tabular is 36 inches in clameter and 8 feet long with 52 three inch fines. Although the tubular is only affected THROUGH the cylinder, the result has been most extraordinary, and from what we have already seen we are delighted to be able to say to you that your appara-IS THE ONLY SCALE CLEANER ever used by us, notwithstanding we have tried Acids, Molasses, and many other things. Temporarily these things relieved our Boilers of heavy scale, but the result of their work was never such as we have experienced with your ANTI-INCRUSTATOR. It has not only removed the thick particles of the scale, but CLEANED THICK AND THIN DOWN TO THE IRON, thereby exhibiting what we have never seen before.
In your Anti-Incrustator persons using steam have
the great desideratum wanted from the building of the t engine. We know it will remove scale from Bollers, and prevent new scale from decositing or forming, We are certain its use will very materially reduce the

consumption of fuel and have every reason to believe It impossible for Boilers to explode with your apparatus in them. tus in them.

It will givens great pleasure to impart any information relative to your valuable invention to any and every person desiring knowledge on this very import

ant subject, Respectfully yours, MORGAN, ORR & CO.

The Scientific American asys:

"As incrustation is the sole cause of the desiraction" of Boilers, we do not see why owners ao not employ. some means to obviate the evil. The thickness of ar egg-shell between the water and the iron compels the use of 15 per cent. more fuel to generate steam; and, as a crust one-fourth to one-half inch is no uncommon occurrence, the immense waste of fuel and the more rapid burning of the iron are readily seen. Repairs to some of the western boilers cost 2,000 dollars a year. This and the fuel wasted might both be saved if the boilers were kept clean, as iron cannot burn with teater next to it. Hence will be seen the advantages and necessity of preventing scale. The item of stopping works to scale boilers is no inconsiderable amount. The apparent loss of the day is trifling, but in large establishments, where large capital is idle—the men off and not to turn up when wanted-should induce every mill owner to save this lost day, which need occur but once in six or twelve months if no scale formed." The operation of the American Anti-Incrustator is such that it removes all the scale from the

A LARGE SAVING IN FUEL. In this city, alone, upwards of flity manufacturing establishments as well as the Continental Hotel, have already introduced the Anti-Incrustator, and the Company are daily receiving orders and inquiries from almost every State in the Union.

BOILER AND AFTER ITS REMOVAL, PREVENTS ANY

NEW CRUST OR SCALE FROM FORMING, AND EFFECTS
