From Washington.

[Special Despatch to the Bulletin.] WASHINGTON, March 28.—But for the death of Senator Foot the Senate would have proceeded at once to consider the veto message and passed it by a two-thirds vote-It is said they have one or two votes to spare on this or any similar veto that may hereafter be sent to the Senate.

The Senate Finance Committee came to no conclusion to-day respecting the Loan bill. They will amend it in one or two particulars. They think there should be a limit as to the amount of gold and greenbacks which should be kept in the Treasury The Secretary, it is said, does not wish any such restriction on the bill.

The Ways and Means Committee had another protracted session to-day over the Tax bill, but adjourned without coming to any conclusion.

#### Death of Senator Foot.

WASHINGTON, March 28.—Senator Foot, of Vermont, died this morning, at 9 o'clock. [By the death of Senator Foot the State of Vermont has lost two most distinguished Representatives within a few months, Senator Collamer having died shortly before the assembling of Congress. The loss of Senator Foot will be severely felt in the Senate, to which body he has been elected three times successively. A plain, honest and unpretending man, he has long exercised a powerful influence in the National councils, and throughout the war has exhibited an unflinching devotion to the great cause of the Union. Senator Foot was a native of Vermont, and has occupied various important public positions during the past thirty years. He was in his sixtyfourth year at the time of his death.]

The Great Bond Robbery. NEW YORK, March 27th,-The alleged principal in the great bond robbery of \$7,500,000 from R. G. Lord, has been apprehended. Information reached United States Marshal Murray a few days since, that the persons implicated were about to leave for Boston. They were watched and followed and the supposed principal was captured on his arrival at Newburyport, Massachu setts. It has not yet transpired whether the missing bonds have been recovered; but little doubt is felt that they have.

The Herald says: "Several rumors prevailed yesterday, one of which was that the thief and bonds had been returned to this city. This, we are assured from good authority, is not true. It is, probable, however, that they are on their way here, and that further particulars relative to the manner in which the case has been worked up may transpire to-day. The reward in this case, it is said, foots up to two hundred and fifty thousand dollars, the largest ever offered in this country for the recovery of stolen property,"

From Cairo.

CAIRO, March 27th .- The tow boat Hercales, with twelve loaded coal boats, while coming down the Ohio river, at 4 o'clock this morning ran against the monitor Tippecance, anchored opposite the city, breaking the cabin of that vessel, and causing it to drift against the monitor Oneata. The latter's iron ram was bent several inches out of line, and she was forced from her moorings. Both monitors floated some distance below the city before they could be stopped.

It is not definitely known how many coal boats were lost as the Hercules collected those still afloat and proceeded on her voyage without loading, but it is believed eight were lost.

Three steamers have previously been wrecked on these Monitors and the steamboat men loudly demand their removal.
