[Special Despatch to the Bulletin.] WASHINGTON April 4th.-Alexander H. Stevens is here for the purpose of conferring with some of the Southern Senators relative to affairs generally in the Southern States. He will, it is said, lay before the Reconstruction Committee some important suggestions touching affairs in his own and other Southern States.

Mrs. Jeff. Davis has laid her case before the President. She desires to see her husband. The President will probably accede to her request.

As a prudential measure, the Government has ordered several more vessels to Newfoundland. It is said that a large number of Fenians have gone there, disguised as fishermen.

Senator Wade will offer an amendment to Mr. Sumner's bill relative to the Paris Exposition that none of the appropriation shall be paid out until Napoleon withdraws the French troops from Mexico.

The debate will commence to-day on the veto. The vote will be very close.

A LOCOMOTIVE BREAKS THROUGH A BRIDGE-ENGINEER SCALDED AND FIRE-MAN KILLED.—The through train from Washington to New York met with an acci dent in the Twenty-fourth Ward, about one o'clock this morning. As the engine reached a small iron bridge, which crosses Haverford street, it ran off the track, and the additional force, caused by the wheels imming overthe shortes coursed the bridge jumping over the sleepers, caused by the wheels jumping over the sleepers, caused the bridge to give way. The engine, tender and Adams' Express car were precipitated into the street below, and were piled up on top of each other. The locomotive had its ash-pan demolished, and was otherwise injured. The tender and Express car were also somewhat injured. Robert Bingham, the fireman, was killed.

He went down with the engine, and his head was almost torn from his body. His remains presented a shocking appearance. The deceased was a single man, 22 years of

age, and resided in Chester county.
Thomas Fingerfrocker, the engineer, was badly scalded by escaping steam, and is not expected to recover. He also went down with the engine, but sustained no other injuries. He is about 45 years of age, and has a family residing in Lancaster.

No other persons were injured The passengers all escaped and were pro-bably not aware of the disaster, as there are frequent stoppages on that portion of the road.

The engine was a "shifter." and was only used to draw the trains between the Falls of Schuylkill and Gray's Ferry.

The bridge where the accident occurred was pretty well demolished.

The accident is believed to have been caused by the misplacement of a switch which is close to the bridge.

Coroner Taylor will investigate the affair

PHILADELPHIA SOCIETY FOR PROMOTING AGRICULTURE.—A stated meeting was held this morning, Craig Biddle, Esq., President,

in the chair.

The President presented a communication giving an account of the first cheese factory established in the country, which is located in Susquehanna county. The season commences in May and continues about five months and a half, with a consumption of from four hundred to six hundred barrels of milk per day. In 1757 the exportations of cheese amounted to 65,000 lbs.; while in 1865 the exportations from New York alone amounted to over \$50,000 000 lbs., valued at about \$8,000,000.

sion of the Society, to be held in St. Louis, on the 4th of September, 1866. Dr. Robt. McClure, V. S., made a statement in regard to the hog disease called trichina. This disease now prevails extensively in Germany, and it exists only in the ogs which go abroad. None of the vegetable feeding animals have ever been found to be infected with it. In Germany there had been five hundred cases of disease from eating ham, and of that number one hundred had died. In this country there had been but two deaths from this cause. The great danger is from eating ham raw or im-

properly cooked. Fatting, smoking, or drying, has no effect. Adjourned. RESCUING A PRISONER.—This morning Archibald McHenry was before Alderman Ewift, upon the charge of assault and battery and rescuing a prisoner. One of the participants in a ball at the Musical Fund Hall last night, was arrested by a couple of the Eighth Ward Police, McHenry is alleged to have struck the officers with a "billy," cutting the head of one, and the ear of the other. The prisoner then escaped, but Mc-Henry was secured. He was held in \$1,000

ROBBING A MONEY DRAWER.—Charles H. Wilson and Samuel McMullen were arrested yesterday upon the charge of having robbed the money drawer of Peppercorn's lager beer saloon, at Front and Christian streets. They were committed for a further hearing by Ald. Tittermary.

COURTS. QUARTER SESSIONS—Judge Allison.—Prison cases claimed the attention of the Court this morning. A large number of prisoners were tried upon bills chaging larceny. In one case Patrick McClansy was convicted of a charge of bigamy. He married one wife in New York nine years ago, and after liv-ing with his wife about a year, came to Philadelphia, and three years ago he mar-ried a second wife at St. Joseph's Church. Sentenced to one year in the Eastern Peni-

Reported Insurrection in Cuba.

We have an alarming report circulating with credit since Thursday, viz., that on the plantations of Oviedo (diamond wedding), Martin Hernandez and two others, ne Bolondron, the negroes have revolted, and are defending themselves. As we are living on a volcano which may burst at any moment, this report is causing considerable consternation, and is being rapidly exaggerated. The truth I have been able to sift out is that on Thursday morning a lot of "emancipadoes" presented them-selves, forty in number, to Oviedo, and demanded their freedom, citing the Gaceta of March 2, ordering their rendition to the authorities; that on Friday none of the negroes were willing to work, and had armed themselves with the long knives used in cutting the cane. The same has taken place on the plantation of Mar-tin Hernandez (a Floridan by birth) and on two estates near the town of Bolondron Notice was immediately sent to the government, and a squad of cavalry was sent out this morning and more troops are prepar-ing to go. There is little doubt but that this insurrection will be put down, but others will occur till slavery is abolished in this island.

DEATH OF CHESTER HARDING .- This eminent artist died, after a brief illness, at Boston, yesterday morning. He was extensively known and greatly respected. His residence, for more than half a century, was Springfield, Mass., where, as a portrait painter, he established his reputation. Earlier in life heresided in Madison county, N. Y., from whence, in 1812, he went into the army. Soon after his marriage he resided in Pittsburgh, Pa., as a house painter, and occasionally painted signs. Aspiring higher, he induced his young wife to sit for a portrait, and the most exquisite emotion of his life was occasioned by the discovery upon the capyers of a likewass? discovery upon the canvass of a likeness? Thus encouraged, he entered upon a career which ended in fortune and fame. Mr. Harding was an enthusiastic angler All his intervals and vacations were devoted to fishing. Weeks and even months of every year were passed in fishing excursions. Every brook, river or lake in the United States or in Canada, where trout "most do congregate," is familiar with Chester Harding's foot and fly. He was preparing, when he fell ill at Boston, for his annual May trout excursion, in which he was to have been joined by his almost invariable companion, George Ashmun. Mr. Harding had passed the winter at St. Louis, where he painted a splendid portrait of Gen. Sherman. He must have been seventy-five years old.

SHOOTING AFFAIR IN NEW YORK.—Louis Bossuet, a Belgian, 66 years of age, residing at No. 181 Greene street, New York, attempted, on Monday night, to shoot Edward Wilson, a retired pugilist, who keeps a liquor saloon at No. 16 Leroy place. Bossuet was actuated by a desire for revenge in consequence of the seduction of his daughter by Wilson. He fired once at Wilson but missed his aim. fired once at Wilson, but missed his aim. the ball wounding another man who was sitting at the same table. Before the attempt could be repeated the assailant was felled by the bystanders. He was held to bail to await the action of the Grand Jury.
