ATTEMPTED MURDER IN A RESTAURANT. -Last evening, about half-past five o'clock, a shooting affair occurred at the restaurant of James Stewart, at the S. W. corner of Fifth and Walnut streets. It seems that a young man entered the safoon and ordered some oysters, which the proprietor proceeded to prepare. The young man, in the meantime, went into an area adjoining the restaurant, but returned before his order had been filled. Mr. Stewart chanced to look up at this moment, and saw a re-volver in each hand of the stranger, who suddenly wheeled around and fired the con-tents of one barrel at a man named Benjamin F. Robinson, employed as a bartender by Mr. Stewart, who was seated at a table in the centre of the room. The load took effect, entering the mouth of Mr. Robinson, the ball coming out under his chin. The injured man jumped up and rau, closely followed by the would-be murderer, who fired another shot at him, which fortunately did no harm. At this juncture of affairs did no harm. At this juncture of affairs did no harm. At this juncture of affairs Aldernan Dougherty and Mr. Stewart seized the young man, and conveyed him to the Central Station; he gave the name of William B. Fries. He charges Robinson with having ruined the character of his sister. Persons who were present when the shooting took place, state that not a word was said by either the prisoner or the injured man before the occurrence. On Monday evening Fries, entered the salon. Monday evening Fries entered the saloon and acted in a very singular manner, said that he recognized two or three persons in the room, among them the bartender; but the latter denies ever having met him be-fore. The prisoner stated that hs purchased one of the revolvers yesterday morning, for the purpose of shooting the bar-keeper, and hoped that the ball had done its work. He had \$33 on his person. He is about twenty-four years old, resides at No, 924 North Tenth street, and claims to have enlisted in the lat. New York Independent Engineers the lst New York Independent Engineers, Colonel Serrill, September 21, 1861, and on his discharge therefrom to have served in the New York Heavy Artillery. Mr. Robinson is about thirty-one years of age. He was removed to his residence, No. 530 Powell street. His wound is not dangerous unless leaking when I would result.

Whereas, The members of the Harvard Club, of Philadelphia, shared in the instant and sorrowful sense of loss, which the in-telligence of the death of President Sparks awakened in all the sons of Harvard and in all the lovers of good letters throughout our

country.

Resolved, As the unanimous and heartfelt sense of this meeting, that the deceased has honored the University that delighted to honor him, and that in his personal no less than in his high literary character, in his un-wearied industry, in his religious fidelity to his talents, and opportunities, in the native simplicity of his manners, in his sincers and straight-forward bearing, by which he won the unmingled respect and cordial regard of those whose privilege it was to reside at the University, during his Presidency, a rich gift has been cast into the overflowing treasury of honorable memories with which our departed brothers, sons of our Alma Mater have endowed her, making her an

excellency and a joy. Resolved, That, in respectful token of our sympathy, a copy of these resolutions be sent to the family of the deceased, and that they be published in the daily papers, as an expression of our respect for an eminent scholar and a truly Christian gentleman.

AUSTRIA AND PRUSSIA,-At this period Continental Europe is considerably agitated by the warlike preparations of Austria and Prussia and the prospect that Italy will "mix in" the trouble. People in this country do not worry themselves much about the matter, however, and in Philadelphia much mor interest is taken in the extensive coal operations of W. W. Alter, No. 957 North Ninth street. Mr. Alter also has a branch office at Sixth and Spring Garden

BECAUSE a person has a bad Cough it should not be interred that Consumption has set in, although a case of Consumption is rarely met with unaccompanied by a distressing Cough. Where, however, a predisposition to unimonary disease exists, a cough if left to itself, strains and racks the lungs and wastes the general strength, and soon establishes an incurable complaint. In all cases, then, it is the safer plan to get rid of a Cough, Cold or Hoarseness without delay, and for this purpose no remedy acts more promptly or surely, or with more benefit to the organs of the chest, than Dr. D. Jayne's Expectorant, an article scientifically compounded from carefully selected drugs, and which, on trial, will always be found worthy of its world-wide reputation. Prepared only at No. 242 Chestnut street.

A POPULAR AND VALUABLE REMEDY. A FOPULAE AND VALUABLE REMEDY.—
The Delphic cypher, "S: T—1860—X." has become familiar to everybody, but everybody is not familiar with the intrinsic value of the article it represents—the celebrated Plantations Bitters. THEIR RECENT OPENING.

The spring "opening" of this popular house has just taken place—in act, it may be said to be taking place continuously, as every oay adds a large number of new garments to their stock to take the place of those that are being sold. Their nominal "opening," however, was a b. illiant success, having far exceeded in extent and richness any former exhibition of the kind in this city. In fact it is no longer necessary for the most exacting votaries of fashion to send their orders shroad, as every "new thing under tracks to leave the same and in the sending of Spring fashions in Paris, we may remark in sendirmation of this, takes place at the Féte of Longchamps, during Passion Week, and it will gractive of fashi

Here the advantages and superiority of the Fluid Extract in a comparative view are strikingly manifest.
