Daring Robbery in New York.

[From To-day's New York Tribane,] One of the most daring robberies ever committed in this city was perpetrated on Tuesday afternoon last in the Sub-Treasury Building. From the statement of the victim and others, it would appear that shorely after 12 o'clock on the day mentioned, Mr. William Condell, the first teller's assistant in the Bank of America, left that institution having in his possession checks on the Assistant United States Treasurer for the sum of \$5,000 in gold and \$4,000 in currency. On reaching the Sub-Treasury, he presented his checks and was paid \$5,000 in gold certificate and \$4,000 in Treasury Notes of large denominations. These he carefully placed in his pantaloons pocket, and then went into another part of the building for the purpose of seeing a friend. He could for the purpose of seeing a friend. He could not find him, and proceeded to the Post office, stopping on his return to lunch at Gould's. He then returned to the Sub-Treasury building in search of the friend already mentioned, and on entering the building some person passed him in a hurried manner, and slammed the door against him. At the same time Mr. Condell lest all recollection. Some time after he was recollection. Some time after he was found by a boy lying insensible upon the pavement, and a man bending over him searching his pockets. As the boy came up, the man muttered something about looking for the address of the insensible looking for the address of the insensible man to see who he was, but in a moment after disappeared in the confusion and

crowd which such an unusual circumstance The officers of the bank we re at once no tified of the fact that one of their employes was lying insensible in the Sub-Treasury building, and at once had him removed to the New York Hospital. An examination disclosed the fact that Mr. Condell had been robbed, without doubt, by the man whom the boy saw bending over him. The victim did not recover consciousness until late on Wednesday afternoon, over 24 hours after the robbery. He does not present any marks of violence, nor can be give any acassaulted. He complains of a pain in the

chest. Within the past four years Mr. Condell last one having occurred some three or four years since, shortly after he had been gar-roted and robbed in New Jersey. The offi-cers give him a high character for integrity. No clue to the thief or thieves has yet been

The Late Bond Robbery.

[From to-day's N. Y. Tribune.] After a considerable amount of work, the detectives have at length succeeded in recovering a portion of the \$164,000 in bonds and money stolen from the residence of Mr. John P. Moore, No. 110 Madison avenue, on the evening of the 23d ult. The full particulars of the affair were published at the time in the Tribune.
On Saturday last two men, giving the names of Lewis Clark and Charles Dennis,

called upon a gentleman residing in the upper part of the city, and proposed to sell him some coupon bonds. He examined them, and became satisfied that they were a portion of those stolen from the residence of Mr. Moore. The gentleman (whose name we suppress at the request of the authorities informed the men that he had not the amount with him wherewith to purchase the bonds, but if they would call subse quently he would see what he could do. They left, promising to call again. Captain Young, of the detective force, was notified of the occurrence, and at once made arrangements to secure the parties when they

might offer the bonds for sale. Yesterday afternoon Captain Young, accompanied by Detectives Elder, McCord, Radford and Kelso, succeeded in arresting Clark and Dennis, and in their possession found \$19,450 of the missing bonds. These were subsequently identified by the man above mentioned as the bonds which were offered to him by the prisoners. They were also identified by Mr. Moore as a portion of

those stolen from him.

The prisoners were taken before Justice Dowling, and on the above statement were committed for examination by the magistrate. The detectives describe the prisoners as among the most expert sneak thieves in the country, and state that the robbery was effected by entering the house by means of false keys, and while one watched the other slipped up stairs and stole the tin box containing the valuables. The prisoners, who are sharp, shrewd-looking men, refuse to

commit themselves in any manner.
Of the amount stolen only \$64,000 could be made available by the thieves, the rest being in railroad bonds and registered Government securities. Every effort is being made by the detectives to recover the rest of the missing property.

Some of the London merchants have instituted a custom of charging an admission to those who enter their stores without buying. The lady sight-seers can enter by pay-ing a small fee, and examine all the latest styles and costumes without making any

CITY BULLETIN.

WEST PHILADELPHIA.— a tmosphere, this morning was full of fog, rendering objects half a square distant, almost invisible—a kind of Scotch misty sort of weather. The only thing which broke the almost Sunday quiet of this suburban district, was the arrest, yesterday afternoon, of two individuals on suspicion of being implicated in the late horrible series of murders below the city. The circumstances were as follows: Two men entered one of the Market street Passenger Railway Cars in company, conversing during their transit to the Pennconversing during their transit to the Penn-sylvania Central Railroad Depot very freely sylvania Central Railroad Depot very freely on the subject. Their language and manner attracted attention, and aroused the suspicion of the conductor. "They've found that son of a b—— of a boy," was the remarks of one. "No matter," replied the other, "all is right; Livingston's safe anyhow." They were arrested between five and six o'clock at the Depot after having severally, proqured their after having, severally, procured their tickets to St. Louis, where they said they belonged, and were at once conveyed to the Station House, Thirty-seventh and Market streets, where they were searched. Nothing, however, was found upon them to implicate them in the foul deed. They had some six or eight dollars a piece on their persons, besides their tickets of transportation. They were subjected to a very severe examina-tion, but succeeded at last in convincing the officers of their innocence, and were discharged shortly after midnight. Their names were Alexander and Abraham Macalester. Of course, the news of the arrest scenario. Of course, and quite a crowd congregated about the building. There were two other arrests of a man and woman, found under suspicious circumstances about 16 P. M. They were unable to give any clear account of themselves, and were committed. The business of the Alms-house on Wednesday was unusually dull. Fourteen persons were admitted, two died, one of "inanition," another of "erysipelas," three eloped, nine were discharged, and there was one birth. Wednesday, however, is one of the days on which the Out-ward Committee hold a kind of quasi Oyer and Terminer, and they had their hands full, as was evidenced by the increased number of dis-charges from the house on Thursday morning, all men, amounting to no less than fifty-four,. There were three deaths, one of "pleurisy," one "debility," and one cause not stated; with twenty admissions, and eight elopements, unsuccessful applicants, and two were bound out from the Children's Agrilum. The same Committee sit and two were bound out from the Children's Asylum. The same Committee sit to-day on female cases, and as they did not meet last week, the number of discharges will be proportionately heavy, and Bedford, Spafford, Small, and Seventh street below Shippen; where the "Smokehouse" is located, will have an influx of the the street who effect the horse part all their visitors, who, after they have spent all their money, obtained no one knows how, and pawned their clothes to obtain bad whisky,

PROBABLE HOMICIDE.—Yesterday afternoon about five o'clock, Jerry Ring, who was employed at Engel & Wolf's farm got into a difficulty with a mannamed William Leary, and is said to have struck him with a stone. Leary is then alleged to have cut Ring on the arm with a knife and knocked him down and beat him. Ring was taken to the hos-pital, and is not expected to survive. He resides on Pratt street, between Thirty-nintland Fortieth, Twenty-fourth Ward, and ha a family. Leary was arrested by Mr. Engle and was handed over to a couple of Fifteentl Ward policemen. TUNNEL UNDER THE ENGLISH CHANNEL. -English engineers have recently been in Paris to obtain the authorization of the French Government to have soundings and measurements made on the French coast with reference to the construction of a tun-nel from Calais to Dover. The distance would be at least thirty miles. It appears to be an impossible engineering problem, but the Mont Cenis tunnel is cited in sup-port of the feasibility of the scheme. There are few undertakings the success of which would be hailed with greater satisfaction by the traveling public than this. No traveler to the continent can ever forget that wretched English Channel, and the miserable little tubs of steamboats in which

passengers are ferried across. DECIDEDLY COOL.—The Meadville Republieau is responsible for the following—A wedding took place at the Occidental the other day, the parties being a widower who was about to perpetrate matrimony the third time, and a widow who had invested her affections for the second time. When the prospective husband walked into the parlor with the "Squire," the widow was seated reading a novel. She got up, joined hands, and transferred her devoted heart and fortune to husband No. 2, and he promised to be a faithful "lovyer" to wife No.

Serious Railroad Accident.

A Train Falls Through a Bridge. Execution of the Murderer Green.

From Washington. [Special Despatch to the Bulletin.]

WASHINGTON, April 13.-The Government has sent peremptory instructions to all our officers along the frontier, where the Fenians are concentrating, to keep a watchful eye upon their movements, and not permit any entanglement whatever, and to see that our neutrality laws are rigidly en-

forced. The House Judiciary Committee, who are investigating all the facts in regard to Jeff. Davis's connection with the conspiracy plot to assassinate President Lincoln, have received a large installment of evidence from the Bureau of Military Justice, which is said to be of a character clearly implicating

Davis and his coadjutors. The Ways and Means Committee will report a bill in a few days abolishing the offices of Surveyor of Port and Naval officers throughout the country, on the ground that said officers are entirely unnecessary.

There is a strong party here from Con-necticut opposing the action of the Naval Committee to purchase League Island. They are working for New London.

Serious Railroad Accident. Essex Junction, Vt., April 13th.-A serious accident occurred near Williston on the Central Railroad, this morning, occasioned by the burning of a bridge twenty feet in length, which spanned a carriage

The fire took place in the night, and the night express train going north, due there about 4.30 o'clock, having no knowledge of it, was moving at full speed. The engine leaped the chasm, but knocked out all the trucks when she struck the opposite side, so that she halted instantly,
