And I will tolling in this connection to this vast concourse that the time will come, and that, too, before a the time will come, and that, too, before a while when the colored population of great while, when the colored population of the United States will find out who have selected them as a hobby, and a pretence by which they can be successful in obtaining and maintaining power, and who have been their true friends and want them to partici-pate in and enjoy the blessings of freedom. The time will come when it will be made known who contributed as much as any other man, and who, without being consid-ered egotistic, I may say, contributed more in procuring the great national guaran-tee of the abolition of slavery in all the States by the ratification. the United States will find out who have tee of the abolition of slavery in all the States by the ratification. of the amendment to the Constitution of the United States, giving a national guarantee United States, giving a national guarantee that slavery shall no longer be permitted to exist or be re-established in any State or urisdiction of the United States. Strike Among the Cumberland Coal Miners. BALTIMORE, April 19th.—The Cumber-BALTIMORE, April 19th.—The Cumber-land Civilian says the strike among the miners still continues. The Companies first proposed reducing the price of mining from seventy-five to fifty cents per ton. The miners refused the price. Sixty cents was then offered, which was also refused. It was rumored a few days since that a compromise had been effected and that work would go on at sixty-five cents. On Tuesday the miners held a meeting and unanimously agreed to adhere to the old price, seventy-five cents. The result of this price, seventy-five cents. The result of this state of affairs has been the entire stagnation of the coal trade. Hundreds of boats are lying idle at the wharves and the boatmen, getting discouraged, are seeking other pursuits.

The Fenians in Canada. TORONTO, C. W., April 19.- The volun-teers which were sent to the Lower Canada frontier have been recalled, Fenian raids being no longer feared. The examination of Fenian prisoners at The examination of remain prisoners at Cornwall continues with closed doors. It is understood that the examination will be concluded to-day, when the prisoners will be remanded for a few days to await the arrival of important witnesses. It is the arrival of important witnesses. It is thought that the prisoners will be commit-ted for trial at the Fall Assizes, unless spe-cial commissioners are appointed by the Government for their trialst an earlier date. The Canadian Confederation Scheme. TORONTO, April 19.—Resolutions in favor of the confederation of the British provinces have passed the Nova Scotian Assembly, by a vote of 31 to 19. The question is still pending in the Parliament of New Bruns-wick, and if rejected, then the House will probably be dissolved, and a new election held, involving a delay of some weeks be-fore the final result. fore the final result.
