AUSTRIA AND PRUSSIA.

Up to the night of the 20th of April a belief in the pacific adjustment of the German difficulty grew stronger. The telegrams spoke of concessions by Austria, and there were other rumors leading to a conviction that peace would be maintained. The funds in England and on the continent had materially improved under these pacific in-

fluences.

The Times of the 21st, however, announced that it had received news that on the previous day the Emperor of Austria and Count Mensdorff, against the advice of some of the other members, resolved to withdraw Count Karolir, the Austrian Ambassador, from Berlin, which decision being made known to the Prussian Minister in Vienna, it was expected he would depart immediately. It is added in explanation that Count More It is added in explanation, that Count Mens-dorff, on receiving the Prussian answer of the 15th, telegraphed to Berlin, a repetition of the Austrian demand of the 7th, and re-ceived a fresh refusal on the 14th. Hence a

council was held and a bold course adopted The Times believes this action is to be followed by significant military movements, viz. The withdrawal of the Austrian troops from Holstein, where they are held in check by the superior Prussian forces. This would enable Austria to assume the offensive, and the Times says the abandon-ment of Holstein by Austria will be re-garded as an act in anticipation of war and will cause a general alarm. It does not, however, consider the war inevitable.

There is great activity reported in the Austrian navy, all vessels being prepared

service. There are apprehensions of fresh disturbances in Spain and Jassy.

We are mapping the Darby road for the beness of the Supervisors and the property-holders, and shall give the statistics at an early day.

The tunnel of the Fennsylvania State Central Railroad at the crossing at Marke. street, is progressing very slowly. During the whole winter the citizens residing beyond Thirty-third street, with their friends below, have been compelled to pick their way through mud and sinch, timber, and stores; now, on one side of the street, now, on the other, with scarcely a light to guide them, except from the uninviting "summeries," to their places of destination. At present one-third of the road is occupied by this nuisance, and scarcely a light to read scarcely a bight passes but some accident bappens, in the way of "akained shins," disrupted garments, etc., at the least, WEST PHILADELPHIA.—The police busi-

At the Almaheuse, to which we next turned our attention, we found the gardener, with a multitude of hands, busily engaged in planting potatoes. The Jackson White was the favorite. The field on which the laborers were employed contained some seventeen acres, more or less. Not a bad potato patch! One field of some five or six acres bad already been set with roots, and was doing finely. The rye, which last year was exhibited on Chestnot street, a giant variety, was in great luxuriance. All of which information ought to be interesting to taxpayers, for everything grown on the place is consumed by the inmates. "A penny saved is a penny gained" an old time maxim that the present excellent Board of the Guardian of the Poor consider it their duty to exemplify in their practice. No matter what is priduced on the premises, they still are compelled to purchase, and purchase largely. The boxes have not yet been placed in all the cars, but by the close of the week all will be supplied, and the new arrangement will be in full operation. It will be areat convenience to the public and will greatly facilitate letter carrying. It will not require more than forty minutes for a letter to vesch the main post office from any portion of the city. There appears to be some misapprehension in regard to the running of the cars on Sundays, and a correspondence on the subject has recently taken place between the Postmarker Carpent and Descriptions. pondence on the subject has recently taken place between the Postmarter-General and Postmarter Walborn. The latter issued his instructions to the railway company yesterday. On Sundays the messengers are to report at the office at 45 A.M., and the care are to start from Seventh and Ninth and Chestnut streets not later than? O'clock A.M. Three cars will be required—one to go south, another northerest, and the third northweat. Is the aftersoon the messengers are to report at the stations at 630 o'clock to receive the mails, and the cars will leave Thirteenth and Walisce, Third and Master and Prifth and Wharton streets, at 645 o'clock. FIRE IN THE NINTH WARD.—This morn-FIRE IN THE NINTH WARD.—This morning. about ist o'clock, the extensive saw and planing mill of John D. Jones on Twenty-first street, above Chestput, was discovered to be on fire. The building was of brick, three stories in height. The alarm was promptly given, and the firemen were soon on the sround, but owing to the combustible nature of the contents of the structure the fiames spread rapidly and burned stubbornly. The whole structure was completely destroved, and the largest iportion of the walls fell down. There was a heavy stock of lumber and finished and unfinished work on hand. This was all burned. There was also considerable machinery in the structure, and it was ruined. The lers could not be estimated this morning, but it will be heavy. There is an insurance which it is supposed will cover the loss. None of the surrounding property was damaged by fire, but considerable injury was done by water. Several hours clapsed before the fire was fully extinguished, and ome of the firemen were in service until ten o'clock.

ATTEMPT TO SHOOL

ATTEMPT TO SHOOT.-A colored man, ATTEMPT TO SHOOT.—A COIOTEU III. named Lloyd Douglass, mas arrested last evening at Seventh and Lombard streets, for attempting to shoot a white man, named Rdward F. Gantiner. The latter was waiting for a car, when the accused told him to move on, or if he didn't he would shoot him, at the same time pointing a pistot at his head. A policeman then came up and arrested Douglass. The prisoner was committed by Alderman Swift. CADETS OF TEMPERANCE.-This organi-

cation made a parade to-day. The procession formed on Froad street, at half vast ten o'clock this morning. A large number of sections turned out in full force, and the juveniles made quite a fine display. There were in the line numerous banners and devices emblematic of the temperance gause. Finance and Business-May 1, 1866. The Stock Market was very dull to-day, and for all the speculative shares on the list prices were weak.
