The committee appointed to investigate all the departments of the Central High School, together with the report of the committee on said school, respectfully report that it has given the same its careful atten-tion, and herewith submits the testimony

that was elicited by the examination:

First. The committee is not disposed to go into detail, but is of the opinion that most, if not all, of the difficulties which now exist, and which lessen the usefulness of the institution, are to be attributed to a want of cordiality of feeling and harmonious concert of action among the members of the faculty; and believing this cannot be restored under its present management, it recommends that

the faculty be entirely reorganized.

Second. The committee further recommends that no gentleman at present con-mected with the school, other than as pro-

meeted with the school, other than as provided for by the accompanying resolution, not a principal of any of the public grammar schools of this city, shall be eligible for the position of principal.

Third. The committee also recommend that application be made to the next Legislature for the passage of an act by which pupils may be admitted into the Central High School from private as well as public grammar schools of this city: Provided, That such applicants shall pass a satisfactory examination.

tory examination.
The committee offer the following resolutions for the consideration of the board:

Resolved. That the Secretary of this Boa be, and he is hereby, instructed to notify the members of the Faculty of the Boys High School that their term of service will expire on the first day of September next Provided that nothing herein contained shall be construed so as to make any member of the present faculty ineligible for re-election by this board to the position he now

eccupies.

Resolved, That the Committee on Boys High School be, and they are hereby, in structed to proceed in the usual manner in organizing a new faculty, as heretofore has been their practice in filling vacancies.

Resolved, That this Committee be dis-

charged from further consideration of the subject.
All of which is respectfully submitted. SAMUEL SCHEIDE, WM. C. HAINES.

WM. M. LEVICK, NATHAN HILLES, Committee. I approve of the report, excepting the third recommendation.

John B. Green.

On metion of Mr. Freeborne, the repor was laid on the table, and ordered to be printed for consideration, with the testi-mony, on the Tuesday following the next

stated meeting.

The resolution of Mr. McIntyre, to strike out Rule 11th of the rules of the board, which prevents the admission of pupils into the Boys' High School under the age of thirteen, and to the Girls' High and Norma School under the age of fourteen, presented at the last meeting, was then taken up, and after some debate was adopted, by a vote of

sixteen yeas to nine nays.

Miss Ella Buzby was then unanimously elected a teacher in the Girls' High and Normal School. Adjourned.

Anniversary of the Northern Home for Friendless Children. The anniversary exercises of this fine institution took place in Rev. A. Cookman's church last evening, in the presence of a very large and deeply interested audience. The spacious edifice was densely packed, it being difficult to find even standing room.
Rev. E. W. Hutter presided. A very effective prayer was made by Rev. A.Cookman,
after which a brief opening or welcoming address was delivered, in a very creditable style, by a little three-footer belonging to the Home. This, as well as all the recitas tions and dialogues, elicited the applause of the audience. An abstract of the Managers' report was read by Dr. Hutter, and the statistical parties of the report of the Board tical portion of the report of the Board of Trustees by Mr. Mitcheson, who evinced of Trustees by Mr. Mitcheson, who evinced decided good taste, by refraining from inflicting upon the audience, that usually most uninteresting part of the exercises, the reading of the report. We commend his example to the attention of the managers of Sunday School celebrations generally. The address of the Rev. P. S. Henson, was full of pathos and elegence. His earnest appeals in health eloquence. His earnest appeals in behalf of the children, and his touching allusions to soldiers' and sailors' orphans present, deeply affecting the audience. The collec-tion at the close of his remarks, was a large one, there being little doubt that a sufficient sum was obtained to secure a long-desired object—the refitting of the school room. Dr. Bez dle's address was short and to the point,

and was listened to with much interest. The exercises of the evening were conducted by A. M. Spangler, who has given a large share of his time to the instruction of the children of the Northern Home in singing. This part of the programme was creditable in the highest degree, eliciting the warm applause of the audience. It may fairly be questioned whether the same number of children of tender years can be found any where in the city whose singing en a public occasion would be as spirited and accurate. Their childish voices blanded curate. Their childish voices blended beautifully with the tones of the fine organ which was presided over by a

gentleman whose abilities gentieman whose ablities as an organist, and whose exquisite sweetness of style and delicacy of touch, are well known. Those who listened to the voluntary performed during the taking of the collection will not soon forget the rich treat. The introductory to the "Mountain Home" and the introductory to the same Home," and the interludes on the same piece, were fine specimens of musical execution.

It is only justice to the one hundred and ten boys and girls to say that their deport-ment was admirable, while the accuracy of their recitations and their proficiency in singing were the subjects of warm com-

mendation on the part of the audience.

A pleasant little episode occurred after the collection was taken. A gentleman present, a member of Mr. Cookman's Church, offered to be one of twenty to raise five hundred dollars, by \$25 subscriptions. This tagt being appropried. fact being announced, some ten others, all members of Mr. Cookman's Church, accepted the proposition, and Mr. C. was appointed treasurer of the fund, with a fair assurance that the good work, so auspiciously begun by his people, would be fully

carried out. The breathless attention of the audience during the recitations, singing and speak-ing were marked features of this most interesting occasion, which may be set down as decidedly the most successful anniversary ever held by the managers of the Northern Home.

From the Trustees report we glean the following statistics:

following statistics: During the past year 170 children have been admitted into the Institution. Of this number 109 have either been placed in Institutions, or have been returned to their parents. Into the Soldiers' Orphan Home 112 children have been received; five have been dismissed. The whole number of soldiers' children in the Home on May 1st was 175; in the other department 148. This

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frands upon the sick, for they noticoly contain little, if any, Sarsaparills, but often no curative properties whatever. Hence, bitter disappointment has followed the use of the various extracts of Sarsaparilla which indoed the market, until the name itself has become synonymous with imposition and cheat. Still we call this compound "Sarsaparilla," and intend to supply such a remedy as aball rescue the name from the load of obloquy which rests upon it. We think we have reson to believe, it is by far the most effectual purifier of the blood yet discovered by any body.

AYER'S CHERRY PECTORAL is so universally known to surpass every other remedy for the cure of Coughs, Colds, Influenza, Hoarsenss, Croup, Fronchitts, Incipient Consumption, and for the relief of Con-

body.

AYER'S CHERRY PECTORAL is no universally known to surpass every other remedy for the cure of Coughs, Colds, Induenca, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease, that it is useless here to recount the evidence of its virtues. The world knows them.
