Frightful Massacre by Indians in Arizona. SAN FRANCISCO, May 6 .- A special messenger arrived yesterday at Los Angelos, bringing a despatch from the commander of Fort Grant to Gen. Mason, announcing that Fort Goodwin, Arizona, had been taken by 2,000 Indians, and the garrison consisting of 124 men massacred with one exception, and the fort burned. The man who escaped was out hunting at the time, and witnessed the commotion from a distance. He saw the fort burning and heard the firing of guns during the fight, which lasted nearly an hour. It is supposed that the Indians gained admission to the fort under the pretext of entering into a treaty of peace, which Gen. Mason had instructed the commander of the fort to make.

SAN FRANCISCO, May 8.—A letter dated Maricopa Wells, Arizona, April 18th, states that Bevet Major Jas. F. Millar, Captain of Company B,14th Infantry, and Acting Assistent Surgeon Tappan, U. S. Army, was fired upon by the Apaches at Cotton Wood Springs, March 22d, and the former killed and the latter badly wounded.

From San Francisco. SAN FRANCISCO, May 8.—The roads in the interior are now passable, and large quantities of freight are being forwarded. Wheat is firm with a fair demand. Flour

is in moderate request and steady. A despatch received yesterday from New Westminister, reports that new gold diggings, paying \$9 per ton, have been struck on Clemen's creek, near the Big Bend mines. Hundreds of boats are going up the Columbia river laden with miners and provisions. It is rumored that the United States soldiers at Fort Cedville have deserted, and gone to the mines, taking their

arms with them. The charter election in Virginia city, Nevada, resulted in the success of the Union ticket. The charter election at Stockton also resulted in the success of the Union ticket.

#### Providence Election. PROVIDENCE, R. I., May 9.—Thomas A.

Doyle, Independent candidate, was to-day elected Mayor of this city by a majority of 519. The City Council was elected chiefly n local issues, without referencet o political nestions.

Some routine business was transacted, and the Society

"No care between their wings."
The air was really alive with song—vocal with melody, and full of fragrance from the lilac, now in its fullest perfection. We paused several minutes this morning, in admiration before the fine mansion of W. W. Keen, Esq. Chestnut above Thirty-sixth street once before noticed and one of the most desirable to abide in through all West Philadelphia. There is certainly no such collection of evergreens, such a variety, or so finely grown, to be found anywhere in the country. One day we shall step in and enumerate the kinds for the benefit of your "merchant prince" subscribers, who flock to such airy localities for summer residences. One object was remarkable for its beauty—the grand knodedenforn illazimum, perfectly ablaze with its tufts of crimsom flowers, now softening into a warm, rich rose, under the influence of the outside atmosphere. It is worth a walk to see it. The plant, however, is not an open ground specimen—laurel although it he—but must have been transferred to the front of the portice from the conservatory behind.

To leave this pretty spot, and enter the Station House, is a kind of "dropping down" weare beginning to be accustomed to.

Mr. Edward Gallagher, was held to ball for "threatening and abusing." So mean a record led to inquiry? We found that an inoffensive colored man, a white-washer—applying for work, after having seen the owner of the building, and not interfering in any with "Mister" Gallagher, or his partner, was "run at with a hatchet," and driven from the ground, attersevertal attempts to strike the applicant. Such rufliams should be made examples of, and the defendant ought to have been held to Court for an "assault with a finent to kill." Henry Twaddell got into a fight, was arrested for "assault and battery," but had sense enough to settle, and so was not sent to Court. Henry Algears, too fond of

part of the city, perhaps(?): while 5 scampered, as all "scamps" ought to do. They will be sent back from "Moys"! in the course of the week. The census, to-day, was 3,226—last year, 2,541; increase, 485. Yesterday, 487, was 3,726—last year, 2,521, increase, 485. Testeroxy, 507, an advance of 18.

There was a fine concert to the insane, given in their Department, y-sterday atternoon, under the direction of Herr, or rather, Professor L. Engelke, a description of which, with the programme we will give to morrow. The performers were the "Teutonia Saengerbund."

HURRYING UP THE STREET CLEANING.—
The Street Sweeping Machines are at work to-day, in the Fifteenth Ward. We understand that it is the intention of Messrs. Hill & Smith, the Contractors, to run these machines day and night hereafter—at night in the other portions of the cley, and in day time in the other portions of their district. The nostility among the old contractors and their especial friends including McKniley, et al., will probably be increased in consequence of this movement.

The scrapers are now as far north as Lehigh avenue, on the Delaware front of the district. The remainder of the Eighteenth, Nineteenth and Twenty-fifth Wards will, it is expected, be relieved of their past accumulas toon of dirt in a few more days. These, with the small periton of the northwest section, will finish the heavy work of the whole city. When we recollect that the northern section of the city embraces as much paved infrace as the whole populated part o' the city of New York, where 439 550 per an um is paid for the work of clearing, while we pay \$47.00 for the Northern District, and \$1600 for the Southern District, or a total of \$92.000 for the whole city. We can realize the extent of the job hefore the Philadelphia contractors.

The taking up of ashes is not yet thorough'y systematized. It must be borne in mind that the whole fall and winter accumulation of ashes were thrown on the hands of the Contractor at once. Every house-holder naturally dealres his to be taken forthwith, and this feeling has naturally created disafection. The contractors promise that in another week or so this department will also be in good working order, and the carts will make their weekly rounds on the days, fixed. Both contractors are now actively engaged going over their districts, so that we may reasonably expect to have the ancient reputation of our city for cleanliness speedily restored. The work cannot be pushed forward too rapidly, and we trust that no more obstacles may be thrown in the avy of the purification of the city either throug HURRYING UP THE STREET CLEANING.

WALKED INTO A TRAP.—Eight men were WALKED INTO A TRAP.—Eight men were before Alderman Clouds, last evening, upon the charge of assault and battery. It seems that on Tuesday night a passenger railway car was attacked at Germantown road and Oxford streets. The conductor was assaulted and stones even thrown at the car, by which it was much damaged. One of the alleged assailants was arrested, and at the hearing he offered to prove, by parties who were with him, that he had nothing to do with the affair. He was allowed to get his winnesses, and when they were all assembled, they were identified by the conductor and driver as the parties who had attacked the car. All hands were then held to bail to answer the charge of assault and battery.

Yes answer.

YACHTING.-The Delaware Yacht Club YACHTING.—The Delaware Yacht Club Federal street ferry, Camden. Captain Frazee, the Superintendent of the Camden Ferry, has kindly shown every opportunity to the members to aid them in making the Delaware Yacht Club the finest this side of New York. The first grand regata of the club, free to all yachts, will take place June 1st, and will be a splendid affair. The subscription price has been placed at the very low figure of \$5 per annum, and the roll of members will be a large one. Gentlemen who are interested in this fine squalic pursuit, are cordially lavited to visit the club house at all times.

ROBBED HER EMPLOYER.—Sallie Tobin, Ayoung girl about 16 years of age, who had been living at service at a house on Eighth street, was before Ald. Swift, yesterday, upon the charge of larceny. She desired to enter upon another course of life, and a young woman named Annie Hansbury told her that if the had some good clothesahe would get her a place. Sallie, it is alleged, then helped herself to a jockey hat, three dress bodies, some under clothing and a valuable gold ring. She was committed to answer, and Annie Hansbury was sent below as an accomplice.

THE SCHUYLKILL NAVY .- On Saturday THE SCHUYLKILL NAVY.—On Saturday afternoon next at four o'clock there will be a grand turn out and review of the several boat clubs comprising the Schuylkill navy. The river, between Fairnount and the Girard avenue bridge, will, no dontt present an exceedingly gay appearance. The police boats, under command of Lieut. Ligar, will also be out, in order to prevent any interference by other crafts with the movements of the barges. Mayor Mchichel, it is undersfood, will witness the review from one of the police boats.

A COSTLY NAP.—A discharged soldier went into a house on Beach street, near Noble last night, and while there fell asleep. When he awoke his pocket-book, containing \$119, was missing. Eight women who were in the house at the time were arrested on suspicion of having committed the robbery. Keither pocket-book nor money was found. The prisoners were sent below by Alderman Toland.

FIRE.—This morning about half-past one o'clock, a small brick carnenter shop, on Wood street, below Seventeenth, was destroyed by fire. It belonged to Thomas Rodgers. The loss was about \$100, A small stable adjoining made a narrow escape. Three or four horses, which were in the stable, were taken out safely.

JEWISH FOSTER HOME.—In our notice yesterday, of the Jewish Foster Home, we fell into an error as regarded the Treasurer's report. Instead of the whole income for the year being \$645, there were donations and interest from investments, during the year, which fully equaled the expenditure.

ATTEMPTED BURGLARY.—About 1 o'clock this morning an attempt was made to enter a tailor shop on Eighth street, above Willow. The front win-dow was bored through, but the burglars were frightened off before they had gained an entrance.

TILL TAPPING.-William Johnson and George Buckley, a couple of Baltimore youths, were arrested yesterday for robbing the money drawer of an establishment at Thirty-first and Gray's Ferry road. Ald. Lutz sent them below. SALE OF REAL ESTATE, STOCKS, &c.-Jas-

Card from James Dorsey.

To the Editor of the Evening Bu'lctin:—In your issue of last evening appeared an editorial making reflections upon the subject of a Complimentary Testimonial tendered me by a large number of personal friends and many influential citizens, as a slight token of their appreciation of my services in arresting the fiend in human form, Anton Probat. It is but just to myself to say that I had no hand in this testimonial, and at first declined to accept the compliment, but was so urgently pressed that I finally consented. I trust that you will see that you did me very great injustice in your columns, and award me the use of them in endeavering to place my character in its correct light.

Very respectfully.

JAMES DORSEY.

We publish the above card, although it does not in any way affect the position assumed by us in the mat. ter. We suppress a portion of Mr. Darsey's card, as it involves a charge against a brother office very nearly akin to perjury, and we do the author of the card a kindness in not giving publicity to a very ill-considered assertion.

MOVEMENTS OF MR. SEWARD.

PROPOSED THIRTY-YEAR LOAN.

The Constitutional Amendment. Colorado Veto Expected.

From Washington

partment to-day.

[Special Despatch to the Bulletin.]!
WASHINGTON, May 10.—The statemen that Secretary Seward had gone to New York, is untrue. He is at the State Depart-

In anticipation of the passage of the new thirty year five per cent. loan, Jay Cooke to-day received an order from New York for two hundred thousand dollars, from a private invester.

The Senate Commerce Committee to-day reported favorably upon the nomination of Mr. Smythe, the New York Collector. The House will probably strike out the third section of the Constitutional Amend-

ment. The vote on it will be very close. The President has completed his veto of the Colorado bill.

British Vessel Used by alleged Fenians. NEW YORK, May 10.—Capt. McBlune, of British schooner Wentworth, from Windsor to this port, reports that on the 2d inst, his vessel was seized off Grand Menan by a party of sixty men, under the com-mand of Col. Kelly, who said they were mand of Fenians.

They scuttled the fishy craft they were in and after keeping possession of the Wentworth about four hours landed at a place called Brady's Mistake. They acted in a very orderly manner, doing no damage either to the vessel or crew. After they left Capt. McBlune resumed command and proceeded on his voyage.

Explosion of a Shell-Loss of Life. Boston, May 10.—In the iron foundry of Davies & Farnum, at Waltham, yesterday afternoon, a shell which had been purchased for old iron, exploded, instantly killing Wm. H. Howard, and two boys named Casey and Flynn; also severely wounding Mr. Bean, the foreman of the foundry, and Mr. McFarland, a workman. Mr. Howard was formerly a captain in the 35th Massachusetts Regiment, and was a brave and good officer.

The U. S. Iron-Clad Miantonomah. Boston, May 10.—The U.S. iron-clad Miantonemah, in company with the U.S. steamer Augusta, from New York for Halifax, passed Highland Light, Cape Cod, at 2

o'clock on Tuesday afternoon. Secretary Seward. WASHINGTON, May 10th.—The telegram from Harrisburg, stating that Secretary Seward passed through that city yesterday for New York, is incorrect. The Secretary was in Washington yesterday, and is to-day at the Department as usual.

Election at Ogdensburg, N. Y.
Ogdensburg, N. Y., May 10.—The charter
election held in this place yesterday resulted
in the choice of the whole Republican ticket by 140 majority. D. W. Brown is elected

XXXIXth Congress-First Session.

WASHINGTON, May 10, 1866.
SENATE.—The House bill to authorize the Vice Admiral of the Navy to appoint a Secretary, with the rank and pay of a Licutenant, was passed.

A resolution calling upon the Secretary of War for information as to the intention of the Government with regard to the Government works at Harper's Ferry, was adopted. Ferry, was adopted.

The bill to authorize the coinage of five cent, pieces The kill to authorize the coinage of five cent. pieces was passed.
On the expiration of the morning hour the Post Office Appropriation bill was taken up.
House.—Immediately after the reading of the journal the House resumed the consideration of the journal the House resumed the consideration for the journal the House resumed the consideration for the journal the House resumed the consideration of the journal the House in opposition to the measure. He wished that the colored race in the Southern States were allowed to occupy the same position as they did in his own State but he was not willing that the general government should interfere with the matter in Pennsylvania; neither was he willing that it should interfere with it in the Couth. The injustice and animus of the third section had been so the oughly exposed by gentlemen on the Republican side that he deemed it unnecessary to say anything about it. further than to express his belief that the intention was to prevent the possibility of any Southern State voting for the amendment as a whole.

The scheme was one of procrastination and delay.

whole.
The scheme was one of procrastination and delay, looking to the exclusion of the Southern States till after the next Presidential election. The President's plan, on the contrary, was plain, and simply just and effectual; and, as he believed, acceptable to the people North and South.

effectual: and, as he believed, acceptable to the people Not hand South.

The issue between the President and Congress was made up and the appeal must be made to the people. He believed that nothing could avert the speedy possession of the legislative branch of the Government by the conservative men of the country under the lead of Andrew Johnson.

Mr. Strouse (Pa.) followed on the same side. He declared that the Constitution was never intended to be plastered and paiched, and that Congress should be exceedingly cantious about tamperlog with it.

Many Republican members being gathered in groups throughout the hall, and paying no attention to the gentleman who had the floor.

Mr. Le Blood (Ohlo made a point of order that it was not in order for members of this "marmonious part"; to hold caucus meetings during the session of the House.

The Speaker good humeredly sustained the point of order.

The groups separated and retired to the cloak room,

the House.

The Beaker good humeredly sustained the point of order:

The groups separated and retired to the cloak room, and Mr. Strouse proceeded with his remarks.

Mr. Banks (Mass.) was the next speaker.' He regarded this as the most important question that could be presented to Congress or the country. He believed that the reorganization of the governments in the insurgent States could only be safely made by effecting a change in the basis of political society. He did not believe in theoretical constitutionality. He did not believe in theoretical constitutionality, or statutory reovisions or in anything that ieft the basis of political society in the Southern States untouched, and left the enemies of the country in a condition for renew the war. Therefore no proposition met his entire approval which did not effect a radical change in the basis of political society in these States; but he did not expect the House to adopt his opinions, nor would he insist on any theories of his own. He had no doubt that the Government of the United States had fill authority to extend the elective frenchise to the colored people of the South, but he did not think it had the power. The public opinion of the country was such at this moment as to make it impossible. He therefore thought it wise on the part of the Committee on Re-construction to waive that
