## EVENING BULLETIN.

SATURDAY, MAY 12, 1866. THE OTHER SIDE.

We took occasion, yesterday, to make some comments upon the fact that the anniversary of the death of Stonewall Jackson had been solemnly observed at Richmond, within a day or two, and that the event was made the occasion of special honors at the graves of other rebel dead. About the same time that the telegraphic wires were bringing us intelligence of these demonstrations of rebel feeling, the mail brought us some tidings from Georgia concerning certain posthumous honors that it was proposed to pay to the Union dead, but which were not

"The authorities of Augusta, Ga., have forbidden the freedmen from strewing flowers on the graves of the Union soldiers. The colored people assembled recently at one of their school houses near the Cemetery, for the purpose, and were well provided with flowers, wreaths and banners. Their teachers, white and black, accompanied them, and they marched to deposit their offerings upon the grayes of the nation's dead. The procession was met at the gate of the cemetery by the Mayor of the city and a strong force of police, and despite the entreaties of the teachers and the negroes, was refused admission?"

allowed to be so paid. The story was simply

was refused admission." It needs no evidence taken before the Congressional Committee on Reconstruction to enlighten us as to the present state of Southern feeling, when we have such pregnant facts as these staring us in the face. Honors for dead traitors, neglect and contumely for the men who died that the nation might live! This is an exhibition of the temper of the South, and yet we are asked to allow these unrepentant rebels to resume their old place in the control of the government of the country, and to permit them, with the aid of Northern copperheads, to undo the work that cost the loyal people of the Union hundreds of thousands of precious lives, and thousands of millions of treasure to accomplish. If this mad result is suffered to be brought about, we will have no cause of complaint if the Republic should become the scorn and laughing stock of the world.

NEW YORK HAS AN IRISH LION. Mr. Stephens, the Fenian Head Centre. had scarcely got his face washed and his coat brushed, at his quarters at the Metropolitan Hotel, New York, before there was a movement set afoot to get up a grand demonstration in his honor by the Gothamite municipal authorities. As a New York alderman never lets slip an opportunity of displaying his own importance and of en-

joying his champagne and chicken-salad a the public expense, the ovation will of course come off. There may be some question arise as to the delicacy of thus officially glorifying a man whose only claim to public notice is founded upon the fact of his being a rebellious subject of a friendly power; but when did a New York official consider delicacy or propriety when there was a chance to make buncombe, gain over voters, or to enjoy a free blow? In a recent Fenian parade in the "Commercial Metropolis" several Irish regiments paraded wearing the State uniform and carrying muskets that had been obtained at the State arsenals. This was considered a little gross, but New York gulped it down, grossness and all, and it is prepared to repeat the dose, on short notice, whether it is for a Head Centre or an extreme circumference. John Bull may not like the proposed demonstration, but he can have his wounded feelings salved over by sending out a representative or two from the Court of St. James. Let Albert Edward, Russel or Clarendon take a run across from the other side, and the New York officials, who are now ready to whis ky-punch and champagne Head Centre Stephens, and to swear by the green, will be equally well prepared to hob-nob with the representatives of the British Govern ment, and to pledge the English lion in full bumpers. New York is a peculiar institu-

THE TRIAL OF JEFFERSON DAVIS. It is stated that the Court for the trial of Jefferson Davis, on the bill of indictment for high treason found by the grand jury at Norfolk, is to be convened at Richmond and if the trial should come off the jurors will, of course, have to be drawn from the judicial district in which the trial takes place. This will be trying Ali Baba by a select jury of twelve chosen from among the Forty Thieves; it will be questioning the right of Maximilian to usurp Imperial powers in Mexico before a tribunal selected by Napoleon III, or requiring Captain Semmes to answer the charges of piracy and treason before a jury composed of twelve "good men and true" drawn from the body of the crew of the late Confederate steamer Alabama.

The Richmond Examiner, in a recent editorial article, declared that while Diogenes carried his lantern to but little purpose in looking for an honest man, he would absolutely waste his candle in searching for white Union men in Virginia. We admire the plain-spokeness of the Examiner, and what is more, we believe it scarcely goes beyond the literal truth in its declaration. The trial of the arch-traitor before a jury drawn from such a population would be one of the most stupendous burlesques of the present

or any other age. Dr. Charles Pendleton Tutt. We learn, with great regret, that one of our most valued physicians died yesterday at his residence in this city, from disease incurred from excessive devotion to his professional duties. Dr. Charles Pendleton Tutt was a native of Virginia, and belonged to the well-known Pendleton family of that

State. He established himself in this city about ten years ago, and has, during that period, been actively engaged in the practice of medicine. At the time of his death he was one of the Attending Physicians at the Blockley Almshouse, where he had a large private class of students. Dr. Tutt, although still ranking among the younger class of his profession in Philadelphia, has won golden opinions, not only on account of his professional skill and ability, but also for his many noble traits of personal character, which have endeared him to a large circle of friends in his adopted home. Although closely connected with the Masons, Faulkners, and other noted families of Virginians, who were active leaders in the rebellion, Dr. Tutt was, throughout our troubles, a staunch and unflinching loyalist, and his fidelity to the cause of his country, added to his amiable disposition and refined manners, made him a universal favorite. His death causes

our city that will not be readily supplied. A NEW SONG! Three I housand sold in One Week

Three I housand sold in One Week

[From the "Great Organ."]

This most popular and "taking" humorous song published combines scase and sentiment, tove, life and laughter. The leading vocalists throughout the country are placing it in their budgets of good things, and delighting their suddences with it nightly. Our homes are ringing with its melody. It is sung everywhere—in fact sung, whistled, hummed, drummed, Brass-Band-dan of the venerable Tucker. The song, the dance melody, and that unique echo, ab lib. of "sally, Sally, sally," are making a most successful raid upon the popular taste.

Did you ever see such a song? Did you ever hear
one? Did you ever —— well, to say that everybody one : Did you ever well, to say that everybody likes it, is only to echo the general opinion about Sally. HEES II, IS ONLY TO ECHO the general opinion about Sally.

[From the "Brazen Trumpet."]

A song that is irreducibly funny must be irrepressibly popular. Here is one that possesses the former merit and has consequently secured the latter desideratum. Saily is bound to shine.

GOLD MINING COMPANY

Pennsylvania.

Capital, - - \$300,000. PAR VALUE, 81 PER SHARE.

Office, No. 276 South Third Street.

The Company has been chartered, and their object is to develop their property, which has been proven to contain a large amount of mineral wealth. The evidences now in possession of the directors, which can be examined at the office, display a greater richness of "ore" than has been discovered in any gold mining operations. The certificate of the U.S. Mint, herewith submitted, proves this to be an undeniable fact.

MINT OF THE UNITED STATES. PHILADELPRIA OCTOBER 2, 1865, 
Beport of the examination of a small specimen of ore brought by Mr. F. W. Corinth, of Philadelphia, and stated to be from Greens county, Pennsylvania. The ore is a sulphuret of from and lead in quartz with visible gold which appears, upon hasty inspection, so much like pyrites as to be easily mistaken or overlooked.

overlooked.

It was assayed in three parcels of various weight, from 18 grains to 3 pennyweights, and by different methods, either of which give accurate results; these tesults show much irregularity as to the amount of precious metal, but in any case, a very extraordinary richness! and thelargest parcel produced the highest weturn.

computed the amount of goid per for which his quarts produces.

In order to develop the property by sinking a shaft to the bed of "Gold Ore," the company will dispose of a limited number of shares of the capital stock, and persons calling at the office can obtain explanatory pemphlets, and receive any information they desire. To persons interested in Greene county, this enterprise is of much important, as the further discovery of Gold in other places, adjacent to the lands of the Anber Company, give assurance of the existence of rich mineral wealth, and fully warrant a liberal investment of capital in the development of this property and the mineral resources of our own State.
