WASHINGTON, May 13.—The last install ment of documents relative to Mexico makes nearly six hundred pages. It appears from the mass of correspond-

ence that, on the 5thof January, M. Romero sent documents to Mr. Seward, showing, in the first place, that the assassination of General Ortega was an accomplished fact, notwithstanding the endeavors of the French to conceal it; and, moreover, that it was premeditated and executed by orders from Mexico, or by command of the French General-in-Chief of the invading Army, or by the French agent in that city, on whom they try to lay the responsibility of their conduct. He adds that "the assassins have not had the manliness to assume the responsibility of their crime, but have tried to con-ceal it, or impose the guilt of it upon an un-

happy traitor officer, who has joined the conquerors of his country.

In a subsequent communication, dated February 20th, he transmitted to Mr. Seward additional documents in order to keep the United States Government informed of the conduct of the invadors of formed of the conduct of the invaders of Mexico.

Mexico.

He says—"I now call your attention to the inconsistency of treating Mexicans as belligerents after once having denied them that right. The French agent of Maximilian, after having denied all the rights of belligerents to the soldiers of the republic, whom he proclaims as bandits in his decree of the 3d of October last, and shoots, without trial, in conformity to his decree, even though they belong to regular organized forces, now, the commander-in-chief of the invaders negotiates a formal exchange of prisoners with Gen. Riva Palacio, whom he styles "General," and flatters with courte-ous language for his humanity to French

prisoners.

To say the least, this signifies an acknowledgment of the rights of belligerents to the forces of the Republican army. The evident object of this inconsistency is to gain the release of the French prisoners; and it is an open confession forced from the invaders of the Mexican soil that those forces defending the independence of their country, are not disorganized bands of highway robbers, as they assert; and it is unjust and absurd to deny them the consideration usually ex-tended to all belligerents throughout the

civilized world.
On the 10th of March M. Romero addressed Mr. Seward as follows: "Mr. Secre tary, as a specimen of the manner in which the so-called decree of the usurper Maximilian, issued on the 3d of October last, ordering the execution of all Mexicans who defended the independence of their country is carried out, I have the honor to inclose to you with this note, the death sentence pronounced against Colonel Carlos Garcia Ca-no, and the mode of its execution, contained in an extract from Los Ombra, a paper published in the city of Mexico."

The Colonel was a young man of twenty-five, who had once served in the ranks of the Interventionists, but afterwards, reflecting on his duty as a Mexican, joined the de fenders of her independence. He was sub-sequently taken prisoner, condemned, and executed in the irregular manner shown by the annexed document. I refrain from commenting on what is here improperly called a trial, and which is nothing but rea assassination, as it was done in accordance with the so-called decree, which is already known to the Government of the United

States.
The following is Mr. Seward's reply—

The following is Mr. Seward's reply—
DEPARTMENT OF STATE, WASHINGTON,
March 14, 1866.—Str. I have the honor to
acknowledge the receipt of your communications of January 5th and 22d, February
20th and March 10th, 1866, with their inclosures, which relate to the decree issued on
the 3d of October, 1865, by the so-called Emperor of Mexico, and in which the penalty of death is declared against all Mexicans found in arms and defending the integrity and independence of their country against the forcible intervention of France

in that republic.

You further inform me that this penalty has actually been visited upon Major General Jose Maria Ortega, and several of his companions in arms, recently made prison-

ers by the French. In reply, it is scarcely necessary for me to assure you that the Government of the United States deeply regrets the untimely fate which has overtaken these brave champions of the cause of liberty and republican institutions in Mexico, and fully deprecates the practice of a system of warfare so little in consonance with the usages of en lightened States. I beg, in answer, to state that the subject will receive the attention to which it is so justly entitled from the Government, and meanwhile have the honor to renew to you, sir, the assurances of my highest consideration.
[Signed] WM. H. SEWARD.

Senor Matias Romero, &c., Washington

The following correspondence took place between Generals Weitzel and Mejia— HEADQUARTERS DISTRICT OF THE RIO GRANDE, BROWNSVILLE, TEXAS, Jan. 2d, 1866.—General: I understand that you have taken seventeen persons from the Libera forces and that you intend to execute them In the name of the entire civilized world, I protest against such a horrible act of barbarity. I believe it will stamp the power which you represent with infamy forever. To execute Mexicans fighting in their own country and for the freedom of their country and for the freedom of their country and for the freedom of their country are foreign. try against foreign power, is an act which, at this age, will meet with universal execration. I cannot permit this to be done under the eye of my government without, on its be-half, entering this solemn protest.

I am, very respectfully, your obedient G. WEITZEL.

Major-General Commanding. To Major-General Tomas Mejia, com-manding the line of the Rio Grande. IMPERIAL ARMY OF MEXICO, DIVISION OF MEJIA, HEAD-QUARTERS MATAMORAS, Jan. 2, 1866.— General: I acknowledge the receipt of your communication, dated this day. I find myself under the necessity of replying energetically to the participation which you pretend to take in the internal concerns of this country. The business to which the protest in your note refers has now been brought before competent tribu-nals, and no one has a right to suspend the proceedings. For your individual cogni-tion I will add that the prisoners in ques-tion are accused of having taken, by force of arms, thirteen wagons, twenty-six mules and horses, and robbed thirteen persons. It would be very strange, General, if, in the middle of this nineteenth century, the ban-dits and forbing robbers were to receive dits and fighting robbers were to receive help and protection from the civilized

By the same occasion I see myself obligated to remind you of the contents of the letters I had the honor to address you on the 21st of last December. I shall return, without answer, all communications of the character and couched in the language of the one now before me. Accept, General, my esteem and conside-

The Failure of the Merchants' National Bank of Washington—Examination by the Government. Washington, May 12.—John Ball, Bank Examiner, has made a report to Hon. Free-man Clark, Comptroller of the Currency,

in which he says— On the 30th day of April, ultimo, I in-formed you that the examination of the National Bank of Baltimore City, Maryland, then being made, indicated that the Merchants' National Bank of Washington, D. C., had been, or was likely to be, a loser by the house of Bayne & Co., of Baltimore, to an extent which would make an early to the condition of that bank examination into the condition of that bank desirable, whereupon I had the honor to receive your instructions to proceed with an examination of said bank at the earliest practicable moment after completing the examination in Baltimore. The remaining investigations in that city throw much light upon the affairs of the Merchants' Bank. Among other things certified checks of the Merchants' Bank to the amount of \$125,000 were pledged as a collateral, of which no

record is found here.

In compliance with such instructions, an examination of the said bank was com-menced on Monday, the 7th day of May instant, and is still progressing. The first step taken in the examination was to cause a statement to be prepared from the books of the bank, showing the amount of liabilities and resources. A condensed copy of such statement is herewith inclosed (marked appendix A). Simultaneously with the preparation of such statement, an examination of the assets found in the bank was made, and a careful scrutiny of the accounts of other banks and individuals commenced with a view to a verification or otherwise of sneh statement.

Already it is made manifest that large discrepancies exist in the accounts of some of the creditors as well as debtors to the bank, as shown by the books on one side, and the statement of accounts received from the said creditors and debtors within the last three days on the other. As examples of these discrepancies, it may be stated that there is a difference of about \$200,000 in the indebtedness of Bayne & Co., as shown by their statement of account received on the 10th inst., and a difference of about \$29,000 on the credit of the Union Bank of Maryland, as stated by the respective banks. It becomes plain, therefore, that an adjustment of these descrepancies must be made before a certain knowledge of the amount of liabilities and resources can be made. There are, however, several of the most important liabilities which are fixed and defined. Upon these I shall proceed to make a detailed report. The first liability for the bank is for its circulating notes outstanding. This is as follows, viz: Amount of circulating notes received

from the Comptroller of the Cur-

Amount of circulating notes out-the United States, especially to meet this liability, the following bonds to wit: Five-twenty bonds, \$200,000 On these bonds there is due accrued

interest in gold for six months, ending on the 1st of May, inst., 6,000
This, counting the bonds and interest at their par and not their market value, gives 206,000 with which to redeem the outstand ing circulation. Without making any allowance for notes likely to be destroyed, this sum is unquestionably fully sufficient for the purpose with a surplus of \$26,190 available to meet

the liabilities of the bank.

The next and most important liability of the bank is its indebtedness to the Govern-ment of the United States, and to the disbursing officers and agents of the Government. The following is a statement in detail of the said indebtedness as taken from the books of the bank, and believed to be

to \$100,000.

To show to some extent how this large item of indebtedness to the government and disbursing officers and agents was created I deem it my duty to report to you certain facts derived from sworn statements, a

follows, viz:
On the 29th of April, ultimo, several interviews and consultations were held by or between interested persons and others, the object of which was to arrange for the trans-fer of funds to the Merchants' National Bank, and by the bank to Bayne & Co., for the avowed purpose of saving Bayne & Co. from suspension, and thus saving the bank. It is said to have been fully explained and well understood by the persons present at these interviews, that unless Bayne & Co. could receive from \$150,000 to \$250,000 without delay, they must fail, and that this would involve the failure of the bank.

The persons known to have been present at one or more of these interviews and consultations, and cognizant of the condition of the bank, were Mr. L. Huyck and Mr. C A. Sherman, President and Cashier of the said bank; Mr. C. W. Botiler, Jr., and Mr. Oscar King, directors; Mr. L. P. Bayne, of Bayne & Co., Baltimore; Mr. Huntington, Cashier of the First National Bank; Mr. Frizzel, Assistant Cashier of the National Frizzel, Assistant Casiner of the National Bank of the Metropolis, and Lieutenant-Colord E. E. Paulding, Paymaster U.S. A. After stating these facts to show how far the true condition of the bank was known the true condition of the bank was known on the 20th day of April, it remains for me to give a list of the deposits of the government and disbursing officers' and agents' funds from that date until the final suspensions of the bank of the 2d of Mariante and the state of the sta

A check on New York drawn by the First National Bank was placed in the hands of National Bank was placed in the hands of Mr. Oscar, King, for Bayard & Co., which check was duly delivered. The remaining \$50,000 of the \$200,000 were pain to the Merchants' National Bank in currency, \$30,000 of which were used to make good certain checks given by the bank to them the day next previous, making a total of \$180,000 virtually paid to that house. The balance, it is alleged by the officers of the bank, was used in paying checks in the regular course

The next liability to be noticed is given in the statement as "Loans, \$115,000." These loans have been made from two banks, one in New York and one in Washington. To secure their repayment, the bills receivable of the bank are said by the officers to have been used as collaterals to the amount of \$119,528 48. I have been able to verify the existence of these absent bills receivable to the amount of about \$16,000 only. If these notes are all paid or collected, it will, without taking the interest into consideration, leave the sum of \$84,528 48 available to

meet other liabilities.

To individual depositors there is due, according to the statement, the sum of \$38, 610 89. This amount may be somewha varied. A careful examination of these accounts is being made in comparison with the depositors' books, which will be reported hereafter. And, finally, the indebtedness of this bank to other banks and bankers constitutes a liability for which there is no special security. It is given in the statement at \$65,852 26, as before stated This item is liable to be materially change and can only be finally determined after an adjustment of accounts between the parties. Any change that may be made in it will naturally increase rather than diminish it The assets as yet found in the bank are as

A copy of their assignment is inclosed forthwith. (Marked appendix B.)
