Resolved, That we are alike opposed to granting suffrage to the negro in Maryland and representation to non-voting negroes by rebels, and that, therefore, we fully and completely indorse the Congressional amendments to the Constitution, basing representation on the voting population, and all laws forever prohibiting the leading rebels from holding any office of confidence

THE MERCHANTS' NATIONAL BANK-EX-PLANATION.—John Bull, bank examiner, in explanation of a portion of his recentlypublished report concerning the affairs of the Merchants' National Bank, says, in a card, that it is due to Colonel William B. Rochester and Colonel J. B. M. Potter, paymasters, to state that the amounts to their respective credits were merely transfers of funds already on deposit with the Mer-chants' National Bank, which transfers were made upon the checks of Colonel Paulding, chief paymaster, on the said Merchants' National Bank; that by an order of the Paymaster General, dated May 30th, 1865, they were required to keep the funds on deposit in the same place until withdrawn out in the regular course of business and that these funds were only paid in a regular way, so far as the same has been

A FLOATING ISLAND.—The Bangor (Me.) Whig says that in a pond near that city there is an island, of about half an acre in extent, which for many years has literally floated upon the water, having no hold upon the ground save what was afforded by the roots of some of the trees upon it, which had grown through the island into the bottom of the pond. The surface of the island is sufficiently strong to sustain the weight of a loaded team. Recently, however, a freshet in the pond raised the water to such a height that these roots were broken, and the island, impelled by the force of the wind, slowly drifted across the pond. It now remains near the shore, which the intervening logs, prevented it from entirely tervening logs prevented it from entirely

John A. Innis, a well known citizen of Salem, Mass., and a prominent worker in the Anti-slavery cause, died on Sunday last. He was a native of Boston. At one time he was imprisoned in Baltimore under suspicion of being engaged in running away slaves, when he had gone to that vicinity to procure a free colored boy, whose mother had become a resident of Salem. He also served on board a privateer during the war

LUMBER TRADE IN THE NORTHWEST.— The St. Paul (Minn.) Press says that the aggregate of lumber cut this year is almost equal to that of three preceding years. It is estimated that the upper Mississippi will send down this spring at least seventy-five millions of feet, while so great is the home demand that not more than twelve million will be left for shipment below.

BOOT MANUFACTURE IN THE WEST.— Since 1862 the boot manufacturing business of Chicage has increased from one small establishment to fifteen, which turn out nine hundred cases per week, consuming three hundred dozen sides of upper leather, sixteen hundred sides of sole leather, and fifty dozen calf skins. About twelve hundred hands are employed in the business.

A FRENCH MISER.—An old man, aged sixty-five, who lived alone and in a state of sixty-five, who lived alone and in a state of great wretchedness at Saint Maude, was lately found dead. Only a sum of 2f, 40c, was discovered in cash, but beneath a heap of rags were found concealed shares and bonds of various railway companies, representing a value of 48,000 francs.

On the 1st instant, at Leavenworth, Kanon the 1st instant, at Leavenworth, Kansas, a policemen, in attempting to make an arrest, was mortally wounded and soon died. The murderer was seized by the crowd and hung in rear of the jail. The Journal regrets that the people of Leavenworth felt it to be their duty to thus trample upon the laws and inflict summary purpose the property of the cowardly criminal. punishment upon the cowardly criminal.

JOSEPH EASTERBROOK, Jr., of Camden, Me., got his life insured for \$3,000, sometime ago, and afterward became deranged and committed suicide by shooting. The insurance company refused to pay the policy, but the Maine Supreme Court decides that they must pay the \$3,000 and the costs besides.

THE beautiful village of Holly Springs, Miss., is being rapidly rebuilt. It was destroyed during the war.

IN THE YOUNG AND RISING

Generation, the vegetative powers of life are strong: but, in a few years, how often the pallid hue, the lack-lustre eye, and emaciated form, and the impossibility of application to mental effort, show its baneful influence it soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps, the yetth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body too much enteshed to give zest to healthful and rural exercise, though sare turned inwards upon themselves; the parent's heart bleeds in anxiety, and fancies the grave but writing for its victim.

Alasi increase of appetite has grown by what it fed on—the energies of the system are prostrated, and the whole economy is deranged.

Helmbold's Fluid Extract Buchu-FOR WEAKNESS ARISING FROM EXCESSES OR INDISCRETION.

Attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Worror of Disease, Weak Nerves, Trembling, Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dinness of Vision, Languor, Universal Lassitude of the Muscalar System, Often Enormous Appetite with Dispeptic cymptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Enzytions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots flying before the Eyes, with Temporary Sufficient and Loss of Sight, Want of Attention, Great Mobility, Resteesness with Horror of Society, Nothing is more destrable to such Patients than solitude, and nothing they more drand for Fear of Themselves, no Hose of Manner, no Earnestness, no Speculation, but a huried Transition from one question to another.

These symptoms, If allowed to go on—which this medicine invariable removes—soon follow Loss of Power, Futuity and Epiliptic Fits, in one of which the patient may expire. Fatulty and Epileptic Fits, in one of which the patient may expire.

During the Superintendence of Dr. Wilson, at the Bloomingdale Asylum, this sad result occurred in two patients; reason had for a time left them, and both died of epilepsy.

Who can say that these excesses are not frequently followed by those direful diseases, INSANITY and CONSUMPTION? The records of the Insane Injury times, and the melancholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibitions appear. The counterance is actually sodden and quite destitute—neither mirth nor grief ever visits it. Should a sound of the voice occur, it is rarely articulate.

With world measures, wan despair

"With woful measures, wan despair Low sullen sounds his grief beguiled." Whilst we regret the existence of the above diseases and symptoms we are prepared to offer an invaluable gift of chemistry for the removal of the consequences, HELMBOLD'S HIGHLY CONCENTRATED FLUID EXTRACT OF BUCHU.

THERE IS NO TONIC LIKE IT. It is an anchor of nope to the surgeon and patient; and this is the testimony of all who have used or prescribed it.

We make no secret of the ingredients. HRLM-BOLD'S FLUID ENTRACT BUCHU is composed of Buchu, Cubebs and Juniper Berries, s-lected with great care, and prepared in vacuo by H. T. HELM BOLD. Druggist and Chemist of sixteen years' experience in the City of Philadelphia and which is now prescribed by the most eminent physicians, has been admitted to use in the United States Army, and is also admitted to use in the United States Army, and is also in very general use in State Hospitals and public Santary Institutions throughout the land.

[Dr. KEYSEE is a physician of over twenty years' experience, and a graduate of the Jefferson Medical tollege, and of the University of Medicine and Surgery of Philedelphia.] t ollege, and of the University of Medicine and Surgery of Philadelphia.]

MR. H. T. HELMEDLD.—Lear Sir:—In regard to the question asked me as to my opinion about Buchu, I would asy that I have used and sold the article in various forms for the past thirty years. I do not think there is any form or preparation of it; have not used or known to be used in the various disenses where such medicate agent would be indicated. You are aware, as well as mysell, that it has been extensively employed in the various disenses of the bladder and kidneys, and the reputation it has acquired in my judgment is warranted by the facts.

I have seen and used, as b-fore stated, every form of Buchu-the powder'd leaves, the simple decoction, tincture, finid extracts—and I sm not cogniz ant of any preparation of that plant at all equal to yours. Twelve years' experience ought, I think, to give me the right to judge of its merits, and without prejudice or partially if give yours precedence over all others. I do not value a thing according to its bulk; if I did other Buchus would out do yours, but I hold to the doct i e that bulk and quantity did not make up value—if they did, a copper cent would be worth more than a gold doilar.

I value your Buchu for its effect on patients. I have

doilar.

I vaine your Buchu for its effect on patients. I have cured with it and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other Buchu, or any other proprietory compound of whatever name. Respectfully yours, etc., GEORGE H. KEYSER, M. D., O. 140 Wood street, Pittsburgh, Pa. August 11, 1865.
