WILL SPEAK, BY INVITATION, AT THE

ACADEMY OF MUSIC, ON FRIDAY EVENING, MAY 18TH. SUBJECT-"MY POLICY."

This is Miss Dickinson's most popular lecture, and is staid to have created the greatest enthusiaum in the West, where she has been, for several months past, addressing immense audiences on "My Policy," or the Johnsonian dogma-of Reconstruction. So great was the demand for its repetition that she was compelled to decline innumerable invitations.

THE FENIANS.

THE DEMONSTRATION AT NEW YORK.

Speech of Head Centre Stephens in Fall.

His Plan of Campaign, Politically and Otherwise.

A Stirring Demonstration.

[From to-day's N V Hereld 1 Central Organizer James Stephens, of the coming Irish republic, a genteel, bald man, had been in this country but a few hours last week when the grand public demon-stration which came off in his honor at Jones' Wood yesterday was concocted by the distracted circles of the F. B. in New

York. Notwithstanding this there was a crushing turnout, and the gates at Jones' Wood were besieged long before the hour appointed for the meeting. Sixty-sixth street, from Second avenue to the wood, was througed before ton clock. thronged before ten o'clock.

At ten o'clock the gates were opened and the crowd outside began to diminish. They went in under the green trees and lounged about the sward in groups, talking about "ould Ireland" and the prospects of the Brotherhood, since the advent of Stephens, in whom all expressed the utmost confi-

dence.
While the assembled Fenians were waiting for the appearance of the Central Oring for the appearance of the Central Organizer, an open barouche, drawn by two milk-white steeds, came rapidly down the mall tewards the Executive Committee rooms, in the tavern, but stopped short just opposite the stand. General Joe Hooker and Brigadier-General George D. Ruggles, the latter of the Atlantic Department staff, were the occupants, and their arrival created considerable commotion. Man and women considerable commotion. Men and women clattered across the main stand, where they had before been comfortably seated, and crowded about the barouche to get a glimpse of the great Stephens. When it was discovered that it was not Stephens there were many loud surmises as to who the distinguished gentleman was. Killian, the Eastport general, was suggested; but the majority of those present knew him too well, and they laughed at the name. Soon is passed from ear to ear that "Fighting Joe" was among them, and a loud cheer went up. The Gene-ral passed on to the committee rooms, and was assisted up to the reception room. where he was received by John Rafferty, Chairman of the Executive Committee. Although the visit of General Hooker was purely one of pleasure, and accidental, he was forced to remain and shake hands with a multitude of his admirers who flocked in to see him. The General has been confined to his room for a long time with an ailment the doctors term paralysis, and he was called upon to explain to every comer. The greetings he underwent while waiting for stephens were amusing. Some were glad to see him so hearty, others pained to find him so miserable. The General quieted all their anxious inquiries with the assurance that he would be sound again in less than a month from the new treatment he is undergoing. Among those presented to General Hooker were M. J. Hefferman, Secretary of Civil Affairs F. B.; Judge Connolly, Colonel Mulcahey, General Wm. Halpine, and many who served with him in the war.

Probably not less than fifteen thousand enrolled Fenians were present at the hour

appointed for the commencement of the demonstration. If all the Manhattan circles had sent full delegations there would have been more than thirty thousand true Irishmen to welcome Stephens. As it was, delegations were present from the following

At half-past one the carriage which had been sent down to the Metropolitan for the Central Organizer appeared before the main gate to the wood, bearing its illustrious freight. The several bands, which had been duped many times during the morning by the appearance of swift moving

been duped many sines during the morning by the appearance of swift moving baronehes, struck up "Hail to the Chief" with commendable vigor. Mr. Stephens was driven rapidly down the Mall to headquarters between long lines of shouting and cheering Fenians, male and female, young and old, lifting his hat often from his bald head and bowing his pale face to the de-lighted multitude. He was seated in an open carriage with Captain Morgan Doheny and was received at the hotel by Col. Kelly, Mr. Rafferty and Mr. Sutton.

On entering the reception room all arose with heads uncovered, and cheered. Stephens was first introduced to Major General Hooker and Brigadier General Ruggles, of General Meade's staff, afterwards to Judge Connolly and Denis J. Gaffney, of Albany, who studied law with Thomas Addis Em

Among those present were Colonel P. J. Downing, Ninaty-ninth regiment; John J. Mr. Stephens discoursed freely for about fifteen minutes, after which he retired with the committee for nearly an hour. Mr. Stephens's Address.

After order and silence were to some extent obtained, Mr. Stephens proceeded to address the assemblage as follows: Friends of Ireland-Towards the close of December, 1857, a young Irishman called at my residence in Dublin, bringing me leters from Colonel O'Mahony and from the late Colonel Michael Doheny. also an oral communication to make him-self; but all was to the effect that an organization had been established in America, of which Colonel Doheny was appointed the chief, and I was requested to commence an organization and to direct it in Ireland. At

home as well as abroad—in fact, throughout the world—that few men of any brains or the world—that few men of any brains or position could be got—to take part in it. They did not know the people. The Irish people were then, as ever, sound. [Cheers. A Voice—"Three cheers for the Irish people," and cries of "They will remain so."] Yes, their nearts were in the right place, and they only required to be shown what to do that they might do it. [Cheers, and a Voice—"Yes, and they found a man to do it." Continued cheering.] On my return to Ireland after

cheering.] On my return to Ireland after seven years exile, the first thing I did was to travel through the country in every direction to derive a thorough knowledge direction to derive a thorough knowledge of the people, and to see what could be done. I devoted a whole year to that, during which time I traveled three thousand miles on foot. [A Voice—"Were you ever in Tipperary?" Cheers.] Yes, often. There is not a spot from Slievenamon to Ballinderry that I don't know. [Great cheering! Yes, brown the words of Thorse. cheering.] You know the words of Thomas

From Carrick-on-Suir to Galtamore, From Silevenamon to Ballinderry. [Great cheering.]
You see I know it. [Continued cheering.] With this knowledge of the people I conscientiously answered the letters of my friends in America, and on certain conditions I undertook to organize a force of ten thousand men in three months in Ireland. I undertook to do no more at that time. [A Voice—"Och, thin, it was enough; glory to your soul." Laughter and cheers.] The conditions I exacted were twofold. First, that I should have absolute direction and control of the organization. I believe that you know this was a conspiracy, and is a conspiracy in Ireland against British rule. And I believe it utterly impossible for any oppressed nationality to organize such a power as could effect its independence without a conspiracy, and without one man having the supreme control in that conspiracy. [Cheers.] For that reason, and for that alone, in the interest of the movement I undertook to unite, I deemed it necessary to make that first condition—that I should have supreme control of the organization. The second condition was that I should be supplied with certain sums of money per month. I asked for the small sum of from £80 to £100 a month for the first three months. After this time, having organized ten thousand men. I meant to have made other proposals. I sent a trusted friend, who has since been in an Irish prison, to America, on that occasion, with my answer. On the 17th March, 1858, he returned; he had found no organization in America, only a few devoted men, at the head of which was Mr. Doheny—(A voice—"Poor fellow, I knew him well!")—who had had together against all sizes. who had held together against all circumstances in America, and who were then endeavoring to keep the Irish feeling alive and make it a power there. But he found no organization. There was but this nucleus of twenty or thirty men. They accepted my conditions and sent me a paper endorsing, so far as they could endorse it, my action in Ireland. On the 17th of March, then, 1858, I began the organization in Ireland. As I told you, it was a conspiracy. [Cheers.] To become a member of this conspiracy it was necessary to take an oath. You have heard a good deal on the subject of this oath, but per-

haps you have not heard my real reason for

making it an essential condition of membership. I had we found when we had a hundred, or two or three numbership around us, if we happened to meet it any place where the clergy men happened to meet it any place where the clergy men happened to be against the movement, they invariably spoke against it, and they are the clergy men happened to be a substitute that they had not because the people had not been trained; they had not got the necessary training, and it was necessary to get the people, io my mind, to distinguish between the two-load character. We have invariably inculcated opon our friends the duty of giving obedience and submitting in all devotion to their clergy in their splittant of the substitute of the clergy in their splittant of the substitute of the clergy in their splittant of the substitute of the clergy in their splittant of the substitute of the clergy in their splittant of the substitute of the clergy in their splittant of the substitute of the subs

Mr. Stephens [emphatica ly]—I have already called on you not to say a word hurful to any one. I have a great respect for Mr. Robects and Mr. O'Mahon's and on you not to say a word hurful to any one. Here, public y and before the Irish people, I once more in a friendly and fraternal spirit rivvite these gentlemen—the heads of all parties—to come to me while I remain in New York, and endeavor to come to an understanding. I call on the Irish people here and throughout the world—for I believe the words. [Pronounce, however simply spoken, will be read wherever our race can be found—I call, then, on our whole race to rise up against the man or body of men who would stand between Ireland and this essential union to day. For I claim for Ireland at this hour more true republican principles and lights than are to be found in the same number of people in any country on earth. [Cheers.] And if there be more anywhere elsa it must be on this republican contineat. But certainly, I do say this, and I say it deuberately—for I know that these words will be read in France and in other lands that are also very dear to me, for France I genewed cheering.]

Speeches were made by various other parties subsequently, including Dr. Moriarty, of Philadelphia. A VOLCANO AT VENICE.—The Venice journals contain accounts of a singular phe-nomena which has just taken place in that city. Works had been for some time past going on,in the garden adjoining the St. Ag-nese Church, for boring an Artesian well, and a depth of one hundred and sixty feet had been reached, when one afternoon a rumbling noise was heard underground, and almost immediately after a column of water of the diameter of the well spouted forth to the height of the neighboring houses. The liquid was accompanied with smoking masses of slimy matter and ashes, which emitted a suffocating smell of gas. Engineers at once commenced works to make a channel for the water, as the ground had become saturated, and the walls of the churches and houses around were beginning to crack. The latter were evacuated by their inhabitants. The eruption continued until midnight, but in the meantime about one hundred tons of sand and other earthy matter had been thrown up. The lights in the neighborhood were ordered to be extinguished, and no smokers were allowed to approach the spot, for fear of an explosion. The cause of the occurrence is believed to be the expansion of gas compressed in the layers of earth, which found an outlet in the rifice made by boring the well.

THE estate of M. D. Potter, the lately deeased proprietor of the Cincinnati Commercial, proves to be much more valuable than was supposed. Mr. John A. Pomeroy was appointed administrator, the widow waiving her right to administer. The value of the personal estate was stated to be \$350,000, and the real estate \$150,000. The administrator's bond was fixed at \$700,000, and the stamp on the letters was \$225.
