CITY BULLETIN.

FRANKLIN INSTITUTE.-A very large audience was assembled last evening in the dience was assembled last evening in the lecture room of the Institute Building, at the regular monthly meeting. After the usual business, which occupied about ten minutes, the paper which had been announced for the evening, was read by Mr. Emile Geyelin. Its subject was "The Jonval Turbine," with special reference to the water-works lately constructed at Montreal. Mr. Geyelin first described the condition of the former works, and the special difficulties which were to be overcome with regard the former works, and the special dimensives which were to be overcome with regard to the formation of ice, &c. The mode of adaptation to these exigencies of the Jonval turbine wheel was then explained, and lastly the form, character and dimensions of the wheels and pumps were described in detail. This part of the subject was illustrated by large diagrams which were projected by means of a powerful lantern upon a screen, so as to be perfectly distinct upon a screen, so as to be perfectly distinct to all present, though enough light to read by, and of course, to show all things with entire clearness, was allowed to remain.

This means of illustration, devised and first presented in the Franklin Institute, is presented in the Frankin Institute, is placed at the command of all who desire to avail themselves of it, in connection with papers read before the Institute. At the conclusion of this paper, the President, Mr. Wm. Sellers, expressed his gratification on behalf of the Institute, for the able and interesting treating which had just been read. teresting treatise which had just been read. The attention and interest of the members to Mr. Geyelin's paper, was most marked and flattering, though some annoyance was caused by those who, arriving late, found it necessary to traverse the whole room be-

fore suiting themselves with seats.

The report of the Resident Secretary. Professor Morton, was then read. In this mention was first made of an improved governor for steam engines, invented by Mr. David Shue. In this the arms which carry the balls, in place of being so hung as to have a radial motion as in the common ap-paratus, are so arranged that their motion must be in a plane, halfway between a ra-dial and a tangential direction. By this means all tendency to jam or bind on sud-den change of velocity is avoided and great delicacy is secured, as was proved by actual experiment before the meeting.

The apparatus for making aromatic infusions known as the Turkish Coffee-pot, invented by Mr. J. H. See, of Charlestown, Massachusetts, was then explained. The water heated in a closed boiler at the bot-tom of the apparatus is forced, by the pressure of the steam generated, to ascend a central tube to the summit, where it over from which, after percolating the coffee which is placed in this receptacle, it runs down into the coffee-pot proper, which may be separated by a simple movement from the boiler, and used alone after the above operation has been completed. An ingeni-ous arrangement of safety valve precludes the possibility of accident: The coffee, or other matter, treated in this case with boiling water under pressure has all its ex-tractive matter taken up in the most complete manner possible The drawing and model of M. Fletcher's

Rotary Steam Engine, were exhibited, but arrived too late for description. Dr. Richardson's apparatus for produc-ing intense cold and anæsthesia by ether spray was exhibited, and some water frozen in a test tube in less than a minute by its means. Various processes in manufactur-ing chemistry and metallurgy, of recent publication, were then described and finally a number of interesting experiments, illustrating the chief points in the subject of spectrum analysis were exhibited by the

The important point about these demonstrations is that they were effected with the lime light, and are thus brought within the reach of many, whom the use of a large galva-nic battery, such as is required for the electric light is unattainable. The arrangement of apparatus for these effects was also simple and ingenious, and the production of the Sodium band by the substitution of a glass rod for the ordinary lime cylinder, an entirely original device. The meeting adjourned at a late hour after a profitable and entertaining session.

ODD FELLOWS' CELEBRATION. - Last evening the members of the Grand Lodge, evening the members of the Grand Lodge, Grand Encampment, and a number of subordinate lodges, met at the hall on North Sixth street, and formed into a procession, headed by the Liberty Cornet Band, and proceeded to the Academy of Music, where Past Grand Sire James B. Nicholson deliv-Past Grand Sire James B. Nicholson delivered an interesting address, having for his subject, "Odd Fellowship, its Origin, Progress and Destiny," Some of the Lodges appeared in full regalia. Among the distinguished members of the order present on the stage, were M. W. Grand Sire J. M. the stage, were M. W. Grand Sire J. M. Neatch, of Missouri; M. W. Past Grand Sire Robert Craighead, of Ohio; M. W. Past Grand Sire S. R. Escaville, of Maryland; M. W. Past Grand Master Hon. Schuyler Colfax, of Indiana, and a score of Past Grand Masters of Pennsylvania and adjoining

HEAVY LARCENY OF BONDS .- Jas. Lenney was committed, yesterday, by Alderman Beitler, on the charge of the larceny of \$5,500 in U.S. registered bonds, the proor to both or the past thirty-five years. The bonds were taken from a chest in the house of Mrs. Martha James, No. 1305 Lancaster avenue, where Mr. Boyle resided. Mrs. James testified that the defendant and "Tom Lofty" had been at her house, and the latter had gone upstairs just previous to the discovery of the robbery. Detective George H. Smith testified that "Lofty" had been arrested in New York with two of the stolen bonds in his possession, and he implicated Lenney in the

THE GAS INVESTIGATION. - Another meeting of the Select Council Committee appointed to investigate the affairs of the Trustees of the Philadelphia Gas Works, was held last evening. Col. Page, the Chair-man, stated that he had addressed a communication to the President of the Board of Trustees, relative to obtaining witnesses, but had received no reply. He did not wish to interfere with the action of the Trustees, and therefore he had not summoned any witnesses for this meeting of the Commit-tee. Mr. Barlow made a statement in which he denied ever having had a con-tract from the Trustees of the Gas Works, or ever having been connected with them in any way:

A HOME FOR AGED METHODISTS. -- A meeting was held last evening at the Trinity Methodist Church, to devise means for founding a home for aged and indigent members of the Methodist Church. There was a large attendance. Amos Phillips, Esq., presided. Rev. Dr. Atwood opened with prayer and Bishon Simpson Ray. Los with prayer, and Bishop Simpson, Rev. Jas.
Neill, Rev. Dr. Bartine, and J. Walker
Jackson made addresses. A liberal collection was taken up, as the nucleus of the

ALLEGED DISHONEST POSTMASTER.--Befor U.S. Commissioner Smith, yesterday, for U. S. Commissioner Smith, yesterday, Erastus M. Furman was charged with embezzling funds belonging to the United States. He was formerly Postmaster at Ashland, Schuylkill county, and was indebted to the Government \$2,811 when he yacated his office in 1865. He neglected to pay up when notified, as did also his sureties. Furman was committed in default of \$4,000 bail to answer at Court. \$4,000 bail, to answer at Court.

Professionals.-Two men giving the names of William R. Moore and William H. Watkins, arrested by Detective Stephens upon the charge of being professional pick-pockets, had a hearing before Alderman Beitler yesterday afternoon, and were committed under the ninety-day law.

Union STATE CENTRAL COMMITTEE.-A meeting of this body was held yesterday afternoon, Col. Francis Jordan, chairman, presided. The committee was organized by the selection of Geo. W. Hamersley, A. W. Benedict and J. Robley Dunglinson as Secretaries, and Wm. H. Kemble as Treasurer. Treasurer.

PHILADELPHIA ARTISTS' SALE.—B. Scott. Jr., will sell at his gallery, 1020 Chestnut street, this evening, at 72 o'clock, a fine collection of modern oil paintings, direct from the easels of Philadelphia artists. As this is the first sale of the kind ever held in this city, it has also of the kind ever held in this city, it should meet with an appreciative re-ception at the hands of our citizens. The catalogue embraces about one hundred spe-

COAL CONTRACTS.—The contract for supplying the Schuylkill Water Works with 2,200 tons of coal, has been awarded to the Glenville Coal Company, at \$4 99 per ton, and the contract for 800 tons for the Twenty-fourth Ward Works to Plaisted & Collins, at \$6 23 per ton.

STRANGERS IN THE CITY.-The city is now well filled with strangers. All the hotels are doing a thriving business, the daily list of arrivals being much larger than it has been for several weeks.

A CHANGE IN THE WEATHER.-Last night and this morning the thermometer took a sud den downward turn, and at daybreak we could not den downward turn, and at daybreak we could not talk of the "rosy fingers of Aurora," for nobody could have repiled "Aye" to the question of Richard III about having "seen the sun to-day," for that luminary was invisible. There is one "peculiar institution" of Philadelphia that still remains visible, and that is the coal yard of W. W. Alter, No. 957 North Mintatreet. Assembly Building.—Signor Blitz every evening and Wednesday and Saturday af-

ernoons. THE ARCH.-Mr. F. Mackay's benefit last evening constituted a dramatic treat we shall never forget. His acting in the two principal pieces stamps him as an artist whose genius is "touched to the finest issues," and who, when he chooses to put forth his powers, can melt the heart, stir the brain and arouse the enthusiasm of the coldest critic in the world. We say emphatically that we never saw better acting in our life than that of Mr. Mackay in "Old Phil's Birthday" and "Napoleon's Old Guard." This evening that jolly Philadel-Guard." This evening that jolly Philadelphia favorite, Mr. Sam. Hemple, takes his benefit, and presents a bill calculated to draw out all hiscomic forces and delight his hosts of admirers. To-morrow Mrs. Thayer's benefit takes place. On Saturday the Frank Drew testimonial occurs, and en Monday Miss Lucy Rushton appears in "As You Like It."

THE OPERA TROUPE under the management of Messrs, George Holman and D. H. Hess begins a brief engagement at Concert Hall on Monday. The troupe is said to be composed of some of the finest juvenile singers in the world, and wherever its entertainments have been given they have here. tertainments have been given they have de lighted large and intelligent audiences. THE CAROLINA TWINS appear to-day at Assembly Building. We will speak further of them hereafter.
