Herald extra of the 13th inst. The United States Flag Ship Vanderbilt and Monitor Monadnock arrived in the harbor of Panama on the evening of the 13th mst., having sailed from Callao on the 3d. By these vessels we have news of the re-Bult of the bombardment of Callao. On the 2d inst at noon, the action commenced from the shore batteries, the fire being returned by the Berenguela, Villa de Madrid, and Blanca on the northern side, and the Numancia, Resolucion and Almansa on the South.

The Villa de Madrid and Berenguela were so badly damaged early in the fight that they were obliged to withdraw to San Lorenzo and were afterwards followed by the Numancia and the rest of the fleet, all more or less dam-

The Spanish Admiral Nunez is said to have been badly wounded.

During the engagement Senor Galvez, the Pernylan Secretary of War, was killed by the explosion of a battery. The fight lasted until 4 o'clock in the af-

ternoon, when it terminated by the withdrawal of the Spanish fleet. Very little damage was done to Callao, only a few hundred dollars' worth of pro-

perty being said to be destroyed, exclusive of what the batteries suffered. Ten Peruvians are reported to have been killed and twenty wounded.

Nothing reliable was heard of the loss on the side of the Spaniards, but it is to have been very heavy.

Owing to the short time which elapsed between the termination of the engagement and the departure of the Vanderbilt, that vessel brings no further intelligence, nor was it known whether the Spaniards intended to renew the attack, but it is supposed they will

The news of the defeat of the invaders was received with great enthusiasm by the inhabitants of Panama.

Advices from Valparaiso to April 17th report the blockade to have been raised and the Government to have brought into force the import and export duties, as they were previous to the blockade.

The markets were dull; purchasers refused to pay over \$16 per hundred pounds for copper. Freights alone were active to England at £3 10s.@£3 15s., and there was likely to be a scarcity of vessels. Exchange 471.

General Mosquera, the new President of Colombia, had arrived at Bogota.

There is no news of importance from Central America or the Isthmus. The rainy season had set in.

Among the treasure brought by the Arizona is a half million dollars on Government account, and not before reported. Fortress Monroe.

FORTRESS MONROE, May 19.—The steamer Smyrna, the second of those by which it is proposed to inaugurate the direct trade between Norfolk and Liverpool, is said to have gailed from the latter port, on the 4th inst. The steamer Ephesus, the first of the line of steamers, has been long expected, but has

not as yet arrived. The schooner L. P. Smith, from New York, for Philadelphia, with timber, which was detained here by the weather, has sailed. The weather cleared off this morning The wind, however, is still easterly.

MISSISSIPPI.—The Memphis Bulletin's correspondence in Central Mississippi sayı that the last two weeks have been wholly lost to planters in that section of the State Incessant and excessive rains have kept the soil so wet that to work it would have been injurious, if not impossible. The grass has consequently taken so strong a hold on many farms that there is but little probaof its being eradicated, and at the same time a stand of cotton preserved. Cotton from old seed has died out amazingly, while that from new seems to have endured the long spell of unfavorable weather re-markably well. All bottom lands have been deluged and the crops almost entirely destroyed. Planters have generally gone to great expense in repairing and replenishing their stock of plantation implements and augmenting their supply of mules, and hence a failure of crops is inevitably bankruptcy. Comparatively few could make

The workmen, we learned, are paid by the day, "rain or shine," and the stormy weather of last week led them to pay due attention to their health, consequently very little was apparently done, although the process of boring and drilling is necessarily a slow one. Saturday.

agreed to report the House Bill, reviving the grade of General in the regular army. A new Army Bill will be reported in a few days. The maximum is not intended to be over forty thousand. Mr. Campbell, Minister to Mexico, is here

by the storm yesterday afternoon, was very great. The loss is estimated at tens of thousands of dollars. Buildings were unroofed, windows destroyed, young trees and plants cut down by the hail, and gardens wholly ruined. The nurseries and greenhouses suffered much damage.

The storm covered an area of four miles but the hail was limited to about two miles. Hailstones of more than an inch in diameter covered the ground, cut limbs from the trees and killed thousands of birds, who had taken refuge in their foliage. Several children were injured by the hail, and a number of animals were killed. The lightning struck a stone chapel in Mount Hope Cemetery, where many people had taken refuge, but none were severely injured. The building was somewhat damaged. St. Mary's Hospital was partly unroofed.

The glass manufacturing establishment of the Rochester Chemical Works was partly demolished, involving a large loss of glass. The store-keepers opened their stores on Sunday evening in order to enable citizens to get materials to make their houses tenable for the night.

From Eastport. EASTPORT, Me., May 21.—The store of Warren Hathaway, Agent of the Eastern Express, was broken open on Saturday night, it is supposed for the purpose of getting the property owned by Fenians, which had been attached for debts due parties here. Mr. Laffin (N. Y.) explained that that was impossible now, as the testimony was already printed. The resolution was adopted.

Mr. Davis (M. Y.) offered a resolution which was adopted, directing the Committee on Banking and Currency to report as to the expediency of excepting the currency of the State Banks outstanding on the lat of July, 1857, or some day previous thereto.

The call of States for resolutions, which commenced on the 5th of February last, progressing a little on each Monday, having been concluded, the next business in order was the consideration of a resolution offered by Mr. McClurg (Mo.) on the 5th of February, and which was then laid over for one day, under the rule, declaring, that the continued contumacy in the secuding States renders it necessary to exercise Congressional legislation in order to give the loyal citizens of those States protection in their national and personal rights enumerated in the Constitution, and in addition thereof makes it necessary to keep on foot a large standing aamy to maintain the authority of the government; that the Government is already overburdened by a war debt incurred to defend the nationality against an infamous rebellion and that it is neither just nor politic to inflict this yast additional expense on the peaceful industry of the nation; therefore resolving that it he referred to a joint committee on Reconstruction to inquire the exceeding States to defray the extraordinary expenses that would otherwise be imposed on the general Government, and that the said Committee be instructed to report by bill or otherwise.

The previous question being moved and seconded, Afr. Niblack (Ind.) moved to lay the resolution on the table. Negatived.

The previous question being called, the resolutions were agreed to without a division.

The next business in order was the consideration of a resolution offered by Mr. Defrees (ind.) on the 26th of February, and which was then laid over under the role, declaring that it is the opinion of this House that role, declaring that it is the opinion of this House that congress has no Constitutional right to fix the qualifitions of electors in the several States,

'After a debate the resolution was referred to the Committee on the Judiciary.
