other powder and disabling the guns. By this explosion Senor Galvez, the Peruvian Minister of War and Marine, was blown to stoms. Next to the Dictator in power, of Read twice and referred to the Committee

The kill were said iron-clad

will prove a serious one to the country.

His Excellency, the Dictator, is said to have been everywhere in the thickest of the fight, animating, encouraging and directing the Peruvian batteries. I do not know the damage to the Spanish fleet, but the loss was no doubt heavy. It was obvious that several of the vessels had been badly punished. The Spaniards, we thought, did not go very near the batteries, many of their shot falling into the water. The presence of

torpedoes may have inspired caution. In coming away from a farewell visit to Admiral Pearson, I picked up one floating adrift near our vessels. It was a red keg, containing about fifty pounds of wet powder, with some yards of insulated wire at-tached, and inside the arrangement for explosion by a galvanic battery. The senior surgeon, Dr. Peck, was sent to the Villa de Madrid and Berenguela as soon as they anchored, with offers of assistance. His services were accepted by the surgeon of the Villa de Madrid, but on board the Berenguela the officers gathered around him at the gangway, and said they were deeply

grateful, but needed no help. When the Numancia anchored, Dr. Johnson was sent on board, while Dr. Peck, who had returned to the Vanderbilt, went on shore to tender his services to the Peru-vians. I was sorry to learn, through Dr. Johnson, that Admiral Nunez had been badly wounded by splinlers, no fewer than eight injuries havir g been received in the head, arms, legs and side. The Doctor was not permitted to see the Admiral, and I apprehend he has been seriously hurt. The Peruvian batteries were but little injured. The authorities on shore were confident that on the morning following the bombardment they would be better prepared than at the first to resist an attack. 10

first to resist an attack. There were two iron-clad vessels on the side of the Peruvians, one a monitor, the Loa, with a single gun (sixty-eight-pounder) in a turret, and one the Vittoria, built in the charge of the Core devices. built in the shape of the Confederate iron clads, covered with railroad iron, and having a sixty-eight pounder at each end. Th monitor was struck ten times but received no damage. I do not know how the other fared. There were several small men-of war, but their artillery was too light to be used, and they were secured inside the mole I have the honor to be

Your obedient servant, John Rogers, Commander. To Hon. Gideon Welles, Secretary of the Javy.

Navy. Appended to the above report is a finely executed map of the bombardment of Callao, showing the movements of the Spanish squadron and the position of the Peruvian batteries. The design being the work of Lieutenant Gown K. Haskell, United States Navy.

From St. Louis. ST. LOUIS, May 22.—In the Old School Assembly to-day, the action of the Assem-bly in regard to the exclusion of the Louis. ville committee was ordered to be recorded and a committee, with Dr. West as chair man, was appointed to answer it. The re-port of the Committee on Foreign Missions shows that the Board has forty-six missions in different countries. The receipts for the year were \$207,000, and the expenditures \$210,000. Nearly half the churches of the denomination failed to contribute to the support of the Board. Both money and

men are needed. The Hon. Saml. Galloway, of Ohio, con-1

sumed most of to-day in replying to Dr. Boardman's speech of yesterday, taking strong grounds against the conduct of the Louisylle Presbytery, and dealing tren-Louisville Presbytery, and dealing tren-chant blows against disloyalty in and out of the church. Nothing of special importance occurred

in the New School Assembly.

The House went into Committee of the Whole on the state of the Union, Mr. Dawes in the chair, and resumed the consideration of the Tax bill, commencing at the para graph imposing a tax of two cents a pound on cotton upon which no tax has levied.

After adopting various amendments, the House, at half-past four, took a recess until half-past seven. Evening Session.—The House met at half-

past 7 o'clock, and went immediately into Committee of the Whole on the state of the Union (Mr. Dawes in the chair) on the Tax

bill. The Committee, after disposing of ten pages of the bill, down to the paragraph on bankers, rose, and the House, at 10 o'clock,

adjournéd.

From' Massachusetts. Boston, May 22.—The Senate elected to-day General B. F. Butler, of Lowell, to be Major-General of the Massachusetts State Militia, under the new militia organization. The American Baptist Missionary Union commenced its anniversary meetings to-

day. The Hon. Ira Harris, of New York, President of the Society, made an interesting speech, in which he indicated his purpose of retiring from the office of President, which was conferred upon him four years ago, at the death of Gov. Briggs. It was the highest honor he had ever received from his brethren but he knew there were men as able and who could give more time to the duties o the position. Reports of the committees were read and

accepted. The Treasurer's report shows the receipts of the year to be \$170,000, ex-penditures \$173,000. The missionary labors of the Society in foreign countries appear to progress favorably. progress favorably.
