From our Third Edition of Yesterday. From Washington.

[Special Despatch to the Bulletin.] WASHINGTON, May 25.—Semmes, recently elected to an important office in Mobile, arrived to-day to secure his pardon, so that he can hold the office.

The Republicans of the Senate held a caucus to-day for the purpose of deciding on the course to be pursued in reference to the third section in the Constitutional Amendment. It was determined to strike it out.

The arguments in the Fuller and Dawson contested election case were closed to-day and the decision of the Committee will be rendered at the next meeting.

Santa Anna's agents are here, and to-day had an audience with Secretary Seward.

XXXIXTH CONGRESS-FIRST SESSION. WASHINGTON, May 25, 1866, SENATE.-Mr. Morrill (Me.) introduced : resolution calling upon the President for information as to what Executive action had taken place under the various hills for the colonization of persons of African

decent. Adopted. Mr. Wilson (Mass.) called up the joint resolution concerning cadet appointments. The question was upon the amendment of Mr. Nesmith (Oregon), that hereafter the Superintendent of the Military Academy may be selected from any corps of the army Disagreed to, yeas 18, nays 19.

The joint resolution was then passed.

The debate on the reconstruction resolution was then resumed. House.—Mr. Donnelly (Minn.) intro-duced a bill to encourage the growth of forest trees on the Western plains. Read twice and referred to the Committee on Public

Lands.
Mr. Hubbard (Iowa) introduced a bill to repeal the restriction in the postal laws which prohibits the carrying of franked books and documents by the Overland Mail to the Western territories, and which re-quires their prepayment. It was read twice and referred to the Post Office Committee.

On motion of Mr. Perham (Me.), the Sen ate amendments to the House bill, amendatory of the Pension laws were non-con-curred in, and a Committee of Conference was asked.

The Senate bill to incorporate the District of Columbia Canal and Sewerage Company, was taken up as the first business in order during the morning hour. It provides for commercial canal and a sew the Anacosta river, from a point near its junction with the Potomac to a point near its old canal and thence deepening ten feet below high tide, the canal or ditch to the Georgetown terminus of the Chesapeake and Ohio canal. The capital stock of the company is to be a million of dollars, its revenue to be desired from tells and its revenue to be derived from tolls and rents for the use of wharves and docks, and the Company is bound, within thirty days after the passage of the act, to cause a constant stream of fresh water to be turned into the old canal, and continue to flow till the 20th of October next.

Mr. Ingersoll (Ill.) who reported the bill from the Committee for the District, explained its great importance as a sanitary and as a commercial measure, stating in the latter connection that it was intended to construct a canal from the Anacosta river at Washington to Annapolis, a distance of twenty miles, which would give water communication between Washington and New York through the Chesapeake Canal, thus diminishing, by several hundred miles the present water route by way of Fortress

OITY BULLETIN.

DESTRUCTIVE FIRE, -This morning, about nine o'clock, a fire broke out in Lord's ex-tensive woolen mill, located near Darby, in the Twenty-seventh Ward. The flames burned stubbornly, and it was found necessary to telegraph to the city for the assistance of two steam engines. The apparatus were despatched to the scene of conflagra-tion, and were accompanied by Chief Engineer Lyle. At the latest advices the fire was still burning, and the entire mill will probably be destroyed. The loss will be heavy.

SHOT HIMSELF.—A man named William Stahl, residing at No. 1411 Ridge avenue, shot himself this morning. He was killed and the Coroner was sent for to hold an in-

TTAGEDY IN JASPER COUNTY, INDIANA

The telegraph operator at Francesville, sends us the particulars of another Newland-Evans tragedy, which transpired in Jasper county, near Rensselaer, on Wednesday.
Addison Parkinson, a wealthy farmer and stock grazer of that county, highly esteemed in all the relations of life, discovered that his daughter, an interesting girl of fifteen years of age, had been seduced. She confessed her guilt, and divulged the name of Newton Guthridge as the author of her ruin. Guthridge was a tenant farmer on the lands of Mr. Parkinson, a young man of about twenty-five years of age, rather good-looking and had hitherto borne an unblemished reputation. He had been about the homestead more or less for a year past, and was engaged this spring in putting in a crop on shares. Immediately upon learning of his daughter's ruin, Mr. Parkinson armed himself with a revolver, and proceeded in hot haste in search of Guthridge. It was about seven o'clock in the evening, and the young man was in the barn putting up his team. Mr. Parkinson called him to the door and shot him down. Three balls took effect, killing him instantly. After committing the bloody deed he announced himself prepared to abide the law and made no effort to escape. The affair has created intense excitement in the neighborhood, where the parties are well-known.—Lafayette Courier. Sales at Philadelphia Stock Board.

MEDICAL.

AYER'S CATHARTIC PILLS are the most perfect purgative which we are able to produce or which we think has ever yet been made by auphody. Their effects have abundantly shown to the commanity how much they ercei the ordinary medicines in use. They are safe and pleasant to take, but powerful tocare. Their penetrating properties stimulate sluggish or disordered organs into their natural action, and impart a healty tone with strength to the whole and impart a healty tone with strength to the whole and impart a healty tone with strength to the whole and impart a healty tone with strength to the whole as the same time, in diminished doses, the safest and best physic that can be employed for children. Belng sugarcoated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cares have been made which surpass belief, were they not antent clery men and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afficied, safering fellow-men.
