The Fenians in Buffalo. Buffalo, May 31st -- Another body o armed men arrived here last night, from the West. They are said to be a Fenian regiment. About a thousand have come altegether, and more are expected.

Nothing can be learned from the men beyond that they are laborers bound to California. They have apparently no arms, but it is understood there are plenty secreted here. It is pretty generally thought that a raid on Canada from this neighborhood has been determined on.

There is no excitement here, as no one believes in the success of any movements the Fenians may make.

Arrival of the Costa Rica. NEW YORK, May 31,-The steamer Costs Rica has arrived with \$324,500 in gold from Aspinwall. Among her passengers is Mr. Nelson, late U. S. Minister to Chile.

Panama had been kept in a state of excitement by the report of an expected revolution. Nothing had transpired however. The Spanish squadron left Callao in dis-

grace, it is said, for Montevideo. Beforehis departure Admiral Nunez addressed a communication, to the British Consul, full of bombast, stating that having chastised the Peruvians, he now leaves the Pacific, but is ready to return at any time if Peru again becomes insolent.

The trade on the coast was brightening. Gibraltar, Salvador and Costa Rica had declined to join the Chile-Peruvian aliance. The U.S. steamer Vanderbilt and Mon-Hor Monadnock sailed on the 21st inst, for San Francisco.

The convict Bradley, who stole \$15,000 from the safe of the U.S. Paymaster, had escaped from the chain gang at Panama.

CHURCHES BURNT IN THE SOUTH .-- A writer in the New Orleans Christian Advocate, says that so far as he has ascertained. between one thousand and twelve hundred church houses were burned during the war. These churches, he thinks, had cost the people not less than five millions of dollars. In the loss the Methodists were the greatest sufferers, the Baptists next, then the Presby-terians, the Catholics least.

THREE river monitors, belonging to the United States, lying at New Orleans, were lately sold at auction, and were purchased by General Herron. They are all in good order, but brought only \$52,000, although one of them cost \$60,000. It is hinted that they may be turned over by General Herron to the Liberals in Mexico, and that many days may not elapse before they may be thundering away on the Mexican coast. pack on his back!" be thundering away on the Mexican coast, AN ATTEMPT was made on the night of the 12th inst., to burn the city of Madison, Wis. Incendiary fires were started at five different points, and several buildings were burned. A GREAT LAND-SLIDE.-The Yreka Journal, published in Siskiyon county, in the northern part of California, contains the following:
An immense slide of ground descended

last week from the top of the mountain south of Deadwood Creek, damming up the creek sufficient to create a reservoir sixty feet deep. The slide came in a solid body slipping along on a scapy clay formation upon which the wholemountain rests. The slide traveled a distance of about a quarter of a mile, and held together so compact that it even moved the sluices and logs out of the creek without damaging them. It is sup-posed that the slide was started by the drift-ing underneath in Steel & Warnock's claim,

ing underneath in steel & warnock's claim, together with the late heavy rains.

For two days and nights the creek was held above the slide, where it was fifty yards from bank to bank, with about 1,000 inches of water running. On the morning of the third day the water commenced running over the slide and coursing rapidly through the trees, which remained in the same posithe trees, which remained in the same posi-tion they were on the top of the mountain before the slide. Many persons have visited the place, and consider it one of the grandest natural scenes.

A DWELLING HOUSE RIOWN UP BY GAR On Saturday last Mr. Bancroft, of Buffalo, removed to a house on Elliott street, which he had been fitting up for a residence. A gasfitter had been arranging the fixtures, leaving the pipe unstopped. About nine o'clock Mr. Bancroft discovered the escape of gas, and started with a candle to find the leak. As he attempted to descend the stairs a flame burst out all around him, and the walls of the house shook as from an earthquake. In a few moments the rear wall of the upper story fell out, and the front wall was also badly shattered. No one was in-

**GLOOMY REPORTS FROM TEXAS** 

Bonds Returning from Europe.

From Washington.
[Special Despatch to the Bulletin.]
WASHINGTON, May 31.—The Mexican question was elaborately discussed again to-day by the House Committee on Foreign

Affairs, but no conclusion was reached. A new tariff bill is being prepared in the Treasury Department which will be transmitted to the Ways and Means Committee on Monday next.

One of the President's organs in its issue rather ridicules the new constitutional amendment.

An army Surgeon, who arrived here today from Texas, where he has been stationed for some time, gives rather gloomy accounts of affairs in that State.

Advices received by the Government from its agents in Germany indicate that our bonds will be returned in considerable quantities in the next few months, owing to the unsettled condition of affairs in Europe

Fatal Bailroad Accident. CLEVELAND (Ohio), May 31.—The train from Sandusky to-day was stopped on account of a broken engine, three miles west ofhere, and run into by the day express

train from Toledo. One lady, whose name has not been ascertained, was killed, and four or five other persons were seriously and several slightly injured. Their names will be furnished as

soon as obtained. President Newell, of the Toledo road, and Superintendents Flint and Rucher, are doing everything for the relief of the injured in their power. There will be no detention of travel, as the track is undisturbed.

Honors to General Scott at New York-General Suspension of Business. NEW YORK, May 31.—The Produce Exchange, the Custom House, Stock Exchange and all other public business will be suspended, to-morrow, in respect to the me-

mory of Lieut.-General Scott. XXXIXTH CONGRESS-FIRST SESSION. WASHINGTON, May 28, 1866.
SENATE.—Mr. Ramsey (Minn.), from the Committee on Naval Affairs, reported a resolution for the relief of Paul S. Forbes, contractor, for the building of the iron-clad Idaho.

Idaho.
Mr. Wilson (Mass.), from the Committee on the two houses on the subject of the death of Lieutenant General Scott, reported a resolution of respect and veneration for the memory of the deceased, and that as a further mark of respect to the memory of the deceased, when the two houses adjourn to-day it be to meet on Monday next, and that a joint Committee of seven Senators and nine Representatives be appointed to represent Congress at the funeral of the late General.

The resolution was unanimously adopted: At one o'clock the Reconstruction resolu-

tions were taken up.

House.—On motion of Mr. Wilson (Iowa) HOUSE.—On motion of Mr. Wilson (Iowa) the Senate amendments to the House bill, to facilitate commercial, postal and military communication among the several States, were taken from the Speaker's table and concurred in

concurred in.

The bill has therefore passed both houses,
The House resumed the consideration of
the bill to promote the construction of a line of railroad from Pittsburgh, Pa., to Cleveland, Ohio, which was under discussion when the morning hour expired, yesterday.
Mr. Le Blond (Ohio) made an argument against the principle of Congress assuming such authority as is proposed in this bill and that reported yesterday by Mr. Stevens to promote the construction of a line of railway, between Washington and the construction of a line of railway between Washington and the Northwest. He did not believe that Congress possessed sovereign rights over each State in every essential particular.

Mr. Scofield (Pa.) opposed the bill, contending that the proper action to be taken by Congress would be the passage of a general bill instead of a special one.

Mr. Morchead (Pa.) argued in force of the

general bill instead of a special one.

Mr. Moorhead (Pa.) argued in favor of the bill, and expressed the hope that both it and the bill to construct a line between Washington and the Northwest would pass.

Mr. O'Neill (Pa.) opposed the bill, arguing that it was unnecessary as the State of Pennsylvania had always been liberal to the neighboring States in regard to railroad facilities.

Mr. Eggleston (Ohio) spoke in support of the bill, and Mr. Coffroth (Pa.) followed on the same side. the same side.
The debate was closed by Mr. Garfield in

advocacy of the bill. He concluded by moving the previous question, which was seconded by the House, and the bill was then passed. Yeas 77, nays 41.

The morning hour having expired, the House proceeded to the consideration of the business on the Speeker's to ble business on the Speaker's table.
