The First Fenian Battle.

TORONTO, June 2, 10.45 A. M.—This morning a force of volunteers came up to a body of Fenians encamped at Ridgeway. An attack was immediately begun and the fighting became general. A number have been killed, but the result of the engagement is not yet known.

[Ridgeway, the scene of the reported fight, is on the shore of Lake Erie, about 10 miles west of Fort Erie.

Reported Defeat of the British. BUFFALO, June 2d-11.30.—The English

troops now occupy Fort Erie. It is not yet known whether the reported fight at Ridgway is with a portion of the Fenians who went over to Fort Erie yesterday, or with another party. It is understood the Fort Erie Fenians

went down the river. Ridgway is seven miles up the Lake to-

wards Port Colborne. The steamer Interna tional has arrived at Fort Erie with troops. Latest.

It is reported that the British troops are retreating from the Ridgway fight. No particulars have yet been received.

BUFFALO, June 2, 9.45 A. M.—The latest news from the Fenian camp states that the whole Fenian force is moving. It is stated that the bridges across Frenchman's creek and Miller's Point were burned last night. Telegraphic communication is now open again with Canada.

ALBANY, June 2.—About one hundred Fenians left here on the 12 o'clock train last night for the West. Their real destination is unknown. They were in charge of comnetent military officers. Upwards of a thousand of their friends assembled at the depot to witness their departure.

RUTLAND, Vt., June 2.-About 150 Fenians passed through this place about one o'clock this morning, bound north. They were in charge of officers wearing sidearm.

NEW YORK, June 2d .- All the United States troops in Gen. Meade's Department are said to be under arms, for use in case of emergency. Gen. Sweeny was here yesterday, but probably left in the afternoon. for the frontier. It is said that 850.000 rounds of ammunition have been sent by the Fenians from New York, and 600,000 from Chicago to the frontier, within a few

Over 1,000 Fenians are also said to have left New York within a few days. A despatch from Buffalo says 1,500 British regulars with artillery, arrived at Suspension Bridge. Their aim was to attack the

Fenian forces, who have now vacated their encampment. A despatch from Toronto says 4,000 troops

are within a few hours march of the enemy, and plenty more are in reserve. A despatch from Suspension Bridge states the river from Black Rock to Tona-

wanda, was filled last evening with small boats, carrying Fenians to Canada. It is reported that three Fenian vessels

have landed a number of troops and some cannon in Gravellen bay; but this report needs confirmation. NEW YORK, June 2.—A despatch from

Albany says that Gov. Fenton will issue a proclamation to-day, warning the citizens of the State against countenancing the Fenian invasion of Canada. Also that 12 regiments of militia are to be sent to the frontier from the counties of Niagara, Monroe, Onondaga, Oswego, Jefferson and St. Law-

A despatch from Montreal says it is reported that the Fenians have seized the arms at Rouse's Point, and were marching on the British fort at Isle aux Noix. Also, that the Canadian Government has been informed that the U.S. gunboat Michigan has intercepted the Fenian reinforcements to those landed at Fort Erie. British troops were marching from Hamilton to capture the Fenians at Fort Erie.

A Buffalo despatch says that the U.S. steamer Michigan is patrolling the river from Black Rock to the head of Grand Island, with two armed tugs, with orders to sink anything crossing during the night.

derable excitement here over the Fenian news. Nearly 300 men have left here for Canada. About 700 passed through Indianapolis yesterday for the border.

Despatches from Columbus deny the report of the purchase and shipment of arms and ammunition by Fenians from that city. FENIAN CAMP, MOUTH OF FRENCHMAN'S CREEK, C. W., June 1—1,30 P. M., via Buffalo, 3 P. M.—[Special to N. Y. World.]—One thousand five hundred Fenians commanded by General O'Neill, crossed Nimeron Commanded Co agara river from Buffalo at 2.30 A. M., and captured Waterloo and Fort Erie, tore up a small portion of the track of the Buffald

a small portion of the track of the Buttalo and Lake Huron Railway, and cut the telegraph wires leading to the Canadian interior.

They then moved down the Niagara river towards Chippewa, halting at this place, where rumors prevailed during the forenoon of the advance of Canadian troops.

Processive here here here here the stilly construct. Breastworks have been hastily construct-

ed, and at this hour reports of the Canadian advance are regarded so important that drums are beating to arms, and troops assembling in line of battle. Shots are heard in the distance. A man just came in wounded in the lag in the leg.
Skirmishers are pushing to the front.
Flanking columns are moving out at the

double-quick, and every preparation is be-ing made for an engagement expected upon a doubtful rumor.

The American shore is lined with spectators; crowded tugs and small boats are plying up and down the river. There is tremendous excitement all along the frontier but no measures have been taken to pre-vent communication betweenthe two sides. Fenians and strangers are crossing and recrossing the Niagara in skiffs. Canadian

families are fleeing as from the wrath to come.
The United States steamer Michigan lies at Black Rock, opposite and in full view of the Fenian lines. Her guns, firing a salute for General Scott this forenoon, frightened the Canadians for a time out of their wits.

The Fenians are thoroughly armed, but un-uniformed and lacking supplies.

There are rumors of another crossing of

Niagara, with artillery, to-night. Fenian movements will probably be decided to-night. There are rumors that the Fenians are now crossing the St. Lawrence.

Two telegrams received this morning, one dated 10 o'clock, Windsor, the other at Detroit, state there are no Fenian movements at these points, and the stories current all day, of a crossing effected under fire, are without foundation.

MONTREAL, June 1.—Reports have just reached us that a large body of Fenians have seized the arms at Rouse's Point, and are now marching on the British fort at Isle are now marching on the British fort at fale aux Noix. About three hundred men reached St. Albans this morning. Two large bodies of troops are now leaving, one to re-inforce the garrison at Isle aux Noix, and the other that of St. John's. The Fenians have burnt a bridge at Fort Erie, and cut four of the telegraph wires there. Many exciting rumors are flying about. exciting rumors are flying about.

Montreal, June 1.—The government has

just received information that the U. S.gun-boat Michigan has intercepted reinforcements to the Fenians who landed at Fort Erie this morning. Those who havelanded are marching peli-mell towards Chippewa, about four miles from Niagara. Troops from Hamilton are marching to capture them. Four hundred more Fenians have arrived at St. Albans since this morning. A battery of Armstrong guns and two wings of the 25th and 30th regiments, in addition to those mentioned in my telegram of 1 P. M., will leave in an hour to meet them.

MONTREAL, June 1st, 8,30 P. M.—I have received a telegram from Ottawa stating that Government has been informed tha ix thousand Fenians are marching from Fort Erie to Port Colburne for the purpose of destroying the locks of the Welland canal. They will be encountered to-morrow by troops and a battery of Armstrong canal and the canal and guns under Colonel Peacock. The eastern

frontier is strengthened to-day, although the movements there are regarded as feints. Plundering and burning are marking the tracks of the invaders. The Reeve of Fort Erie is reported to have been shot by Fenians while reading the riot act. The government officials say they are kept well informed of all the Fenian movements. The troops from this city left this evening, apparently with much enthusiasm and

threatening to give no quarters.

Toronto, C. W., June 1.—The Fenians' raid on Fort Erie to-day has caused the greatest consternation in the city. The fire bells rung an alarm. The call to arms was bells rung an alarm. The call to arms was sounded by the bugles at an early hour. Telegraphic despatches are pouring in, containing the wildest and most improbable stories of the doings of the F. B. The number intrenched at Fort Erie is considered to be between one thousand and three thousand. Volunteers from all parts of the country, have been ordered to rendezvous at Toronto. The Forty-seventh regulars, the celebrated Crimean gray battery, the Sixteenth regulars, from Hamilton; the Queen's Own, Tenth Royals, and Naval Gueen's Own, Tenth Royals, and Naval Brigade volunteers have been despatched to the scene of action. A fight is anticipated to-night, as the Fenians are advancing towards Port Colburne, where the troops are quartered. The whole Canadian force is under the command of Col. Peacock, of the

under the command of Col. Peacock, of the Sixteenth Regulars.

A public meeting was called by the Mayor of Toronto at 4 P. M. to-day. The assembly was most uproarious, and were only intimidated by a strong force of police. About 500 men were enrolled to act as special constables within the city. Great fears are entertained of the conduct of Fenian sympathizers here.

General Napier has been appointed com-mander of all the forces in Upper Canada. The wildest excitement prevails. All the militia are to be called out.

A home guard has been formed, and are being armed and mustered in.

BUFFALO, June 2, 3 A. M.—Have just received from Canadian sources the latest and nost important news in reference to the Fenian movement. Now ascertained that Fenian invading force, relinquishing, by reason of a blockade put during night upon their communications with this side of the Niagara the hope of obtaining expected re-Niagara the hope of obtaining expected re-inforcements and supplies, broke up their encampment at the mouth of Frenchman's Creek, about 10 P. M., destroying all su-perfluous arms and ammunition which they had taken across, and have divided into bands with intention of penetrating the Canadian interior by stealth, doing what damage they can to railroads, canals and other property in the capacity of raides

other property, in the capacity of raiders instead of a fighting army.

The routes to be pursued are of course kept secret. If the regular British troops now on the move can be evaded, a reunion of the Fanion forces at some attractions in the secret. of the Fenian forces at some strategic point of the Fenian forces at some strategic point will be striven for. If not, and if aid expected from this side is not speedily rendered, the onlygourse left open must be a general scattering and retreat, without supplies forced to exist on the country they traverse, and unable to oppose the forces now on the move against them. It is easily seen that a better and more extensive movement her got to be mediated. tensive movement has got to be made in support to this trifling advance guard, illordered and poorly-provided for invasion. Trains arrived at Suspension Bridge during night, have brought 1,500 British regulars and part of the artillery, whose aim was to move up the Erie and Ontario road, attack the Fenian force, which has by this time entirely vacated their encampment.

BRITISH DEFEAT NOT CONFIRMED

Fenianism in Washington Used Up.

The Fenian Movement.

TORONTO, June 2d, 12.25 P.M.—Last night the forces at Fort Colborne were augmented by the arrival of the Toronto University Company. Early this morning the troops took the train to Ridgeway. They are under command of Colonel Baker, Colonel Dennis having gone on an expedition down the river.

Three miles from Ridgway Station the Fenians were found encamped in bush. The column at once attacked them, the 'Queen's Own," firing the first shot.

The fight now became general, the volunteers driving the Fenians. A number were killed on both sides. The volunteers behaved splendidly, rushing at and retreating the Fenians with the utmost gallantry. It is thought the volunteers will at least hold their own until the arrival of the

British regulars and artillery. BUFFALO, June 2d, 12 M .- It is understood that the patrol tugs fired on and stopped several boats last night trying to

reach the Canadian shore. We learn that an intended proclamation from the Fenian leaders to the people o Canada, is now in the hands of gentlemen of this city, and was expected to have been issued yesterday, if affairs had warranted. Accounts from Canada represent that the Fenians will find themselves very much disappointed in the expected aid from their

brethren and friends in Canada. Washington, June 2d.—The Fenian Headquarters for the sale of "Irish bonds,". in this city, has closed for want of patronage. A hundred Fenians or more left Washington this week for the scene of war, and an additional number are prepared to follow.
