A EUROPEAN CONGRESS TO MEET

Austria, Prussia, Italy and the Diet to be Represented.

Difficulties Anticipated.

Probable Ministerial Crisis in England.

NEW YORK, June 12.—The steamer Scotia from Liverpool on the 2d, via Queenstown on the 3d, arrived this morning. A European Conference.

It is fully confirmed that Austria, Prussia, Italy and the German Diet have accented the Conference and will be represented by their Ministers of Foreign Affairs, while the Diet has chosen Baron von der Pfordten, Bavarian Minister of Foreign Affairs. The time of the meeting has not been fixed, but Lord Clarendon, Gortscha-koff, Bismarck and La Marmora had officially announced that they would shortly

arrive in Paris.

The Pennsylvania arrived at Queenstown on the 1st. London, June 2—Evening.—The political

news is unchanged.

A Berlin despatch says the Austrian Government has justified the armament of the German States to the representatives of the

Great Powers on the ground that these States were to take into consideration the probability of Federal execution against Prussia, as the latter questions the right of the Federal diet to settle the differences respecting the succession to the Elbe Duchies VIENNA, June 2d.—A semi-official article says great importance is attached to the obstacles which exist in the way of a settle ment of the questions to be discussed in the conference, as regards Venetia. It is con-sidered that it will be most difficult to find means of compensating Austria for the cession of that province, even should Austria be willing to entertain the idea of compen-

sation.

La Presse believes that Napoleon will preside, with Drouyn de Lhuys as second plenipotentiary. There were rumors of an understanding if not an alliance between Austria and Russia to support the treaties

It is affirmed that Austria positively refused to entertain any project for the cession of Venetia, and had made over Holstein to the Germanic Confederation.

The London Times in view of this action by Austria regards the Conference as almost hopeless in insuring peace, while every day makes it more clear that the three Powers are not likely to submit their disputes to their neighbors. Apprehensions are entertained that all the seven Powers may yet not be represented at the Confer

ence.
The Military Preparations Continue. The House of Commons continued to debate the Reform bills. A division was expected on Capt. Hoyter's amendment in favor of the postponement on the 4th. It is expected that if Government has a majority, they will withdraw the measure, and if de feated, a resignation is considered likely, or

even a dissolution of Parliament. The Chilean Minister has not demanded his passports, but presented letters of recall. It is also reported that Chile has withdrawn

her Minister from Paris.

The weekly returns of the Bank of France show an increase in specie of 26,500,000

The French budget shows an estimated surplues of revenue of 94,000,000 francs.

Advices from Egypt report the reappear ance of the cholera among the returning

pilgrims.

The Vienna Press says of the Austrian reply to the invitation to the conference, "I is stated that Austria has accepted the con dition that no proposition shall be discussed having the object of the territorial aggrandizement of any government represented Austria has not expressly stipulated that the Venetian question shall not be discussed. the subject not being mentioned in the invitation." It is stated the Emperor of Austria had received an autographic letter from the Czar advocating the rejection of the proposals referring to the cession of Venetia and the settlement of the Austro-Prussian dispute by the recognition of the claims of the Duke of Oldenburg and the Duchies, and the restoration of friendly re lations between the Cabinets of Vienna and

St. Petersburg.
It is semi-officially stated that Prussia considers the Austrian declaration relative to the convention of the Holstein estates, as a great provocation to war, a violation of the treaty of Vienna, and an attack on sovereign rights which Prussia is bound to resist. Nevertheless she hopes that Austria may see fit to desist in carrying out her resolution. The Prussian troops are in force on the Austrian-Polish frontier. The Paris Bourse was flat. Rentes closed

CITY BULLETIN.

WEST PHILADELPHIA.—In the category of events at the Alms House we took some little pains to inquire particularly into the relations of Anton Probst with the building. Several papers stated that his name, as en-

several papers stated that his name, as entered on its records, was Prevost. We give the record in full, as it stands:

"1865."—Admitted "Dec. 1" Name, "Probst Antoine." Age, "23." Occupation, "No trade." Department, "Medical." Eloped, (in pencil) "3,2,66." Reference, "No frds."—no friends.

On special inquiry of nurse Miller, chief nurse of the Medical department of the Hospital, we learned that Antoine or Anton came under his care, suffering under an attack of fever; that a cutaneous affection su pervened (itch), and he was sent to what is in Hospital parlance, called the "skin ward," Altogether, he was under treatment about three weeks. During this period he was doule, cheerful and obedient to instruction. He was then returned, as is the rule of the house, to the department from which he came, when Mr. Miller placed him as an assistant in the kitchen and dining-room. He was faithful, amiable, and obliging, waiting on the convelescents, and helping at table with the approbation of every one. A part of his duty was to wheel over every morning the meat used in the kitchen of the ward, and the bread consumed during the day. Mr. Luderitz, the baker-in-chief, says he never met with a more quiet, apparently inoffensive or attentive man, visiting his department. In the "store," where the bread is placed after baking, and from which it has to be removed early every morning, Probst had the

ame character.
In his ward he was rather taciturh "speaking," as Nurse Miller said, "but indifferent English; but when in conversation (in the gallery) with his countrymen—other Germans—his face lit up, and he talked with animation. He left me," said Mr. Miller, referring to his books, "on the 28th of February. He had been out in the city on liberty once before, and returned. This time he did not. He said, when he procured his pass, that he had heard some money had been sent to him from Germany, and he wanted to go to town and get it." He never came back. It will be perceived that he was not marked "eloped" in the "front office" until March 2d, simply because it was generally believed that he would return Happy would it have been for him had he done so. Nurse Miller, himself, likewise a German, was a soldier, and he says that during the whole time Probst was with him he never alluded to the fact of his having been a soldier, except by saying "I have

served, too." ROBBING A SOLDIER.—Cornelius Brown vas before Alderman Beitler this morning, upon the charge of larceny. It appears that on Saturday last a colored man belonging to Mercersburg, Pa., who had had been in the army four years, came to the city and stopped at a house, the location of which he could not give. On Sunday he discovered that his trunk had been broken open and \$165 in money and some clothing had been \$165 in money and some clothing had been abstracted. Yesterday he saw Brown leaving the house with a bundle of clothes. He gave chase and had the man arrested. A pawn-ticket on the accused called for a coat which was identified as the property of the colored man. The defendant was committed in default of \$1,500 bail for trial.

Bold Robbery.-Last evening a party was given at a house, No. 1221 Poplar street. While everybody was in the height of enjoyment some men went up stairs and com-menced throwing clothing out of the front window to a companion who was below.
The police came along and, after a short chase, succeeded in capturing the fellow with the clothing. There were three others engaged in the robbery, but they succeeded in escaping. The prisoner gave his name as Andrew Long. He had a hearing this morning, before Alderman Boswell, and was held in \$1,000 bail to answer.

ROBBERY BY ASNEAK THIEF.-A dwell ing house, No. 1828 Spruce street, was robbed yesterday afternoon. Painters were at work in the house, and a young man entered, pulled off his coat and said to the servant girl, "I suppose that we can go into any of the rooms now." The reply was in the affirmative, and the fellow went up-stairs and got into the servant's room. There he broke open a trunk, and abstracted about \$59 in money, a gold ring, two gold studs, and some other articles. After en-gaging in a brief conversation with the painters, he departed with his plunder.

IMPROVING .- Mr. Samuel G. Ruggles, the Chief of Police, who has been confined to his house for several days by serious illness, was much improved in condition this morning. Chief Ruggles is a very efficient offi-cer, and his indisposition resulted from over work, in his desire to preserve order and prevent violations of law during the excitement about the Probst trial. His many friends will rejoice at the prospect of his apeedy recovery.

ILL.-Lieut. Frank C. Hampton of the Second District Police, and Lieut. Joseph Patton of the Sixth District, are detained from duty by illness. Lieut. Hampton was not expected to live during Saturday night, but is now improving. Lieut. Patton has been in poor health for several months, and there are but slight hopes of his recovery. Both are most faithful and popular officers.

ASSAULTING A MAN AND WOMAN .- A party of men entered a lager beer saloon on Poplar street, near Twelfth, yesterday afternoon, behaved very disorderly and badly beat the proprietor and his wife. Two of the ruffians were arrested. They gave the names of Jehu Prizer and Theo. Baker, and were held to bail for trial.

ECCENTRIC SUICIDE.—As the ferryboat Nassau was crossing at South ferry yester-day, at about noon, an unknown young man, dressed in light clothing, and having dark hair and light sandy whiskers, was observed standing near the guards. His hat was blown from his head, and he very deliberately climbed over the railing of the standar let himself apply into the water steamer, let himself easily into the water after it, and, throwing up his hands, sank quickly out of sight. This was done so suddenly and so coolly that those near him had not time to interfere. The steamer had gone about one-quarter the distance across the stream. Although attempts were made to recover the body of the suicide they were for the time unsuccessful.-N. Y. Herald.

SUICIDE.—The Erie Dispatch says: John Brollman, a German, residing on Twelfth street, committed suicide under peculiar circumstances. Finance and Business-June 12, 1866. The Money Market continues to be abundantly supplied with capital, and there are large amounts afloaon the street seeking safe employment from 51/2 per cent. and upwards. As trade in all departments i dull, the requirements of the business community are light, and as the transactions in stocks have fallen to a low ebb, there is very little demand from this quarter The near approach of the summer solstice, the fear of the cholera, the threatening aspect of affairs on the Continent, and the constant wavering and occasional violent fluctuation in the premium on Gold, all conspire to create distrust for the future. A reference to the above list will show the meagre and unprofitable character of the business at the Stock Board this morning. Government Loans were as firm as ever, and a 110 for the Coupon Sixes, '81; 10234 for the Five-Twenties 10214 for the Seven Thirties, and 96 for the Ten-Fordes State Loans were unchanged. The Fenians in Buffalo.

"OVER

BUFFALO, June 12.—A grand mass meet. ing of Fenians will be held in St. James Hall, this evening. The meeting is occasioned primarily by the introduction of the resolution in Congress yesterday, to instruct the Committee on Foreign Affairs to inquire into the expediency of reporting a bill to repeal the neutrality act of 1818.

This action gives new life to the Fenian movement, and a very enthusiastic meeting is expected. The Fenian Senator Scanlan. of Chicago, arrived here yesterday. The revolutionary committee of the Irish Republic has published a stirring appeal to the Irish of Buffalo, and all lovers of republican liberty. The following is an extract:

"Let the Irish citizens in particular send in commissary stores, such as bread, meat, coffee, sugar, etc., just what each man would like at home. We want all the money we can raise for other purposes. What these purposes are the people can guess. Let no person imagine that the cause is defeated, or that men who have sworn to free their native land or die will abandon their course because a few over-zealous officials have placed some obstacles in our way. The voice of the great American people is at last heard in the halls of Congress-not from a single individual, but from representatives of thirty millions, and, true to their natural instincts, they have

raised their voices for the oppressed. God bless them! They will rouse many an anxious spirit throughout the world. and make tyrants tremble on their thrones. as the cry goes forth: 'America is the defender of Liberty!' Let the people take heart throughout the land, call meetings, pass resolutions, and pledge their support to men who inscribe upon their banners 'Universal liberty.' Be patient, but work! work! Collect money; have your men ready, and when the cry of battle goes forth let them come as individuals, if they cannot come as companies or regiments,"

A large number of Fenians, from Malone have arrived here, having been furnished with transportation from there to Buffalo. by General Meade. Our citizens are beginning to feel uneasy at the collection of such a large body of Fenians here, though they have behaved extremely well so far.

Gen. Barry, late yesterday afternoon, received authority to give transportation to the Fenians who desire to go farther West, and could not pay their passage, on their giving their parole not to attempt the invasion of Canada. We undertand very few availed themselves of the offer.

From Washington.

[Special Despatch to the Bulletin.]
WASHINGTON, June 12.—Gov. Parsons, of Alabama, writes that there is great destitution among the whites in that State. The Freedmen's Bureau is issuing every week about twenty-five thousand rations.

The President last evening informed Mr. O'Conor that he would bring the question of paroling Davis before the Cabinet to-day. The Finance Committee are about equally divided on the question of taxing cotton. They will probably compromise on three cents instead of five.

The Committee are also considering the question of postponing the two per cent. tax on State banks, which goes into operation on 1st July, to one year from that date.

XXXIXth Congress-First Session. Washington, June 12. SENATE,—A resolution to print 9,000 copies of the report of the Commissioner of Patents was referred to the Committee on

Printing.

A bill to provide for the settlement of accounts of disbursing officers connected with the Freedmen's Bureau was passed.

A bill making appropriations for repairing and improving the public works in dif-ferent parts of the country was passed.

Mr. Anthony (R. I.) from the printing committee, reported a resolution for print-ing 50,000 copies of the Reconstruction Re-

port. Passed.

House,—Mr. Eliot (Mass.), from the committee on Commerce, asked leave to report back with amendments the Senate bill to regulate the transportation of nitro-glyce

rine or glonoine oil, but Mr. Jenckes ob-

On motion of Mr. Reymond (N. Y.), the Committee on Appropriations was discharged from the consideration of the resolutions of the New York legislature, relative to the payment of the Militia of 1812, and of the claim of George Cottingham, and they were referred to the Committee on Claims. Mr. Schenck (Ohio), from the Committee on Military Affairs, reported back, with amendments, the Senate joint resolution respecting bounties to colored soldiers, and

bounties, pensions and allowances to their heirs. The amendments were agree to and the joint resolution as amended, was passed.
Mr. McRuer (Cal.) offered a resolution, which was referred to the Committee on Indian Affairs, authorizing the Secretary of the Interior to pay to John Renland \$2,100, for flour furnished the Indians.

Mr. Bidwell (Cal.) introduced a bill grant-

ing lands to the State of California to aid in the construction of a certain wagon road for military and postal purposes. Read twice and referred to the Committee on Public Lands.
Mr. Hart (N. Y.), from the Committee on

the District of Columbia, reported a bill for legalizing marriages in the District. Read three times and passed.

It provides that all colored persons in the

as still existing, whether the rites of marnot, shall be deemed husband and wife, and their children shall be held to be legitimate. Mr. Delano (Ohio) introduced a bill amendatory of the Naval Appropriation bill of this session. He explained that a section of that bill repealing a section of the act of 1835 had the effect of increasing the pay of say officers from 20 to 33 per cent., equal to \$1,300,000 annually, and said that neither House had any idea of doing anything of the kind. If the pay of navy officers ought to be increased it ought to be done openly

and knowingly.

Messrs. Le Blond and Pike objecting to its consideration at present, the bill was referred to the Committee on Naval Affairs. Mr. Niblack (Ind.) presented the memorial and resolution of the General Assembly of Florida relative to a direct tax. Referred to the Committee on Ways and Means.
