The Philadelphia Gas Works. The Committee of Select Council ap-pointed to examine into the affairs of the Philadelphia Gas Works, held an adjourned meeting last evening, Col. Page presiding. Col. Page stated that he had received no answer from the Trustees to the communication of the 30th of May.

Mr. John Roberts, Foreman of the First

Ward Works was present, and testified as follows: Have been foreman about six years; at the present time we have from 325 to 350 men employed at the Point Breeze Works; the "stokers" are required to be skilled; the result of employing unskilled labor would be to injure the materials and work; in order to make good coke it is pressessary for the coal to be fully carit is necessary for the coal to be fully car-bonized; since January, 1865, we have had the requisite amount of skilled "labor," early in 1865 we discharged with one or two exceptions, all who were not of the same political party as the majority of the Trustees this was done at the order of the Engineer. places were filled by taking "helpers," and making them "stokers," and employing new hands as "helpers;" this did not require us to pay men to instruct the "helpers," the "helpers" receive \$2 15 per day; the "sto-kers" receive \$2 25 per day; never heard of a man receiving pay for services not ren-dered, except when he has been injured at the works; from 41 to 41 cubic feet is the average for a pound of coal; there can be a leakage of gas after it is put into the holder; gas may leak at the retort or in the pump; we had but one "blow" of gas in 1866, and lost about 60,000 cubic feet of gas; it was conaidered to be the result of carelessness and the man was discharged; it was one of the old hands; in 1864 the men at the works in the First Ward stood two-third Democrats. the First Ward stood two third Democrats, and one-third Republican, in 1864 Mr. McCready, an efficient foreman, was discharged by Mr. Stewart, their Engineer, as he alleged, for political cause; Mr. Stewart was a Democrat and Mr. McCready a Republican; the break in the holder occurred in 1864. I don't know of a return of a less amount of coal than that actually consumed in order to cover up the deficiencies in the yield; such a thing could have been done without my knowledge; the averdone without my knowledge; the average consumption of coal per day is now about fone hundred tons; in the winter, we use more; the exact heat required in the manufacture of gas, is ascer-tained through practice; that is the reason why skilled labor is required; iron retorts

retorts in May, 1865, and they suffered the loss; I saw the Cameron coal; tested it, and its average yield was about 4.17; in combination with other coal the yield was 4.60; the greatest yield with Cameron coal alone alone was 4.38; the highest of Penn and Westmoreland, on section work is 5; the average last month was 4.33, with a portion of Cameron coal used; would prefer the Penn and Westmoreland to the Cameron; have had something less than 1.000 tons of the Cameron coal; so far as the works are concerned. I think they are as well managed as ever before: I mean the Point Breeze Works; I cannot explain how it is that there was a loss, but getting all our bad retorts in 1865 it shows a bad exhibit; in 1862 the average yield was 4.39, while in 1865 it was 4.08 to the pound; I put this entirely upon the defective retorts; unskilled labor and want of management had nothing to do with it; the men now employed are men of experience, some of them have been engaged over six years.

A resolution was offered by Col. Ellmaker, and adopted, stating that the resolution adopted at a previous meeting in regard to cfficers and men appearing in uniform was not designed to be compulsory, but intended as a request to appear in uniform as far as The Chairman made a motion which was

EXPLANATION OF A ROBBERY.—Recorder Enen had before him, yesterday afternoon,

ness then went back to the store, and in the presence of the girls said he had had his pocket picked. Hundermark, at the suggestion of Roehl, left information at the Mayor's office, that he had been robbed of the money. After this Roehl took witness before a magistrate, where he made an affi davit to the effect that his pocket had been actually picked. The defendant said he had done so, but notwithstanding, he intended to pay his creditors. The case was contin-ned until Friday next, at three o'clock, the defendant having been committed in default of \$5,000 bail.

NEW CHESTNUT STREET JEWELRY ES-TABLISHMENT.—The westward march of mprovement still progresses; banks, news-paper offices and business establishments generally are being moved up Chestnut and other streets every day. One of the latest improvements of this character is the new mr. J. T. Gallagher, formerly of Bailey & Co., at the corner of Chestnut and Thirteenth streets. We stepped into this beautiful store yesterday afternoon, and were most grati-ied with an examination of the exquisite stock of jewelry, silver ware,&c., displayed. Among other articles we noticed a clock, just received from Paris, of absolutely perfect make, and with a very peculiar and interesting escapement. We also saw a Sevres china table, a relic of the French revolution. lution of the last century. Its top contains accurate portraits of the royal family governing France at that era, and, both from its beauty and historical interest, is of great value. Mr. Gallagher is prepared to attend to watch-making and repairing, &c., and will always keep on hand a splendid stock of the choicest and most fashionable jewelry, silver ware, watches, &c.

MOUNTAIN HOUSE, CRESSON SPRINGS, PA. Now that our city residents are about selecting a place to spend the summer months we would direct their attention to that delightful spot on the top of the Allegheny mountains, known as Cresson Springs. Its elevation, its cold spring and mineral waters its mountain scenery, and above all, its pure air, render it one of the most desirable summer resorts in the country. The house is kept now, and has been for several years past, by that experienced and gentlemanly landlord, Mr. George W. Mullin, whose attention to the comfort of his guests is a matter of commont appear. ter of comment among all who have ever spenta summer at Cresson. We learn that many improvements have been made in the place since last season, thus adding to its attractions. It can be reached by all the through trains on the Pennsylvania Railroad, thus rendering it easy of access. Per sons desiring to procure accommodations at the Mountain House should address the proprietor at Cresson Springs, Cambria county, Penna.

SWINDLING BOARDING HOUSE KEEPERS Before Alderman Beitler, yesterday af-ernoon, Lafayette Meyers was charged with obtaining boarding under false pretences Several proprietresses of boarding houses testified that the defendant and wife had taken board with them, promising to pay their board promptly, but had not done so. Mrs. Catharine English, with whom they boarded for six weeks, testified that Mrs. Meyers had represented her husband to be a private secretary in the War Office, but afterwards said that he was selling cigars in Philadelphia. The case was continued for a further hearing.

Explanation of a Robbert.—Recorder Enen had before him, yesterday afternoon, Charles Roehl, hoop-skirt manufacturer, at No. 548 North Second street, who was charged with fraudulently secreting his property, with intent to cheat and defraud Moen & Co. out of \$2,700, and also by the firm of Osborn & Cheeseman, of New York, with defrauding them out of \$2,394 53. It was in evidence that goods purchased by defendant of the plaintiffs were sold by him at much less than he paid for them.

Ameil Hundermark, employed by Mr. Roehl as a porter, testified that on Monday, June 4th, Roehl gave him a bogus package containing papers of no value, telling him to put it in his pocket. Roehl then called down some girls, and in their presence counted out the sum stated, \$6,765, saying to witness "Take this to bank and get me checks on New York for it," calling attention of the girls to the fact. After they had left the room he placed the money in his pocket and gave the bogus package to witness, who threw it into the Delaware.
