LATE FROM FORTRESS MONROE

Movements of United States Vessels

PRIZE FIGHT COMING OFF.

FROM CENTRAL AMERICA.

A Million of Treasure.

From Fortress Monroe.

FORTRESS MONROE, June 18th.—A farm called Patemsville, on the southern branch of the Elizabeth river, near Norfolk, has been sold for the sum of $5,450.

The United States Revenue cutter Wyandotte sailed early this morning for San Francisco, at which harbor she will be stationed.

The steamer North Point, Captain R. C. Smith, arrived in the harbor yesterday morning in a disabled condition in tow of the steamer Fanny. The North Point, with a cargo of cotton bound to Baltimore, left Savannah on last Thursday.

The United States steamer Standish, Acting Master Joseph Baker, sailed from this harbor yesterday morning for Philadelphia, with the United States receiving ship Constellation in tow.

The prize fight between Sam. Collier, the victor of several pugilistic contests during the past spring and a rising celebrity in the prize ring, and Barney Aaron, of New York, holding the championship of the feather weights of the country, for a stake of $500 and the right to possess the said honors, is to take place on the 20th of June somewhere in Virginia. Collier has been training a few miles back of Ole Point beach for six weeks back, at a fisherman's hut, having been reduced to about 128 pounds, and is in fine condition. All the parties are now in Baltimore, whence the start for the scene of action will be made.

From Central and South America.

NEW YORK, June 20.—The steamer Arizona has arrived with Panama dates to the 12th inst. Everything was quiet on the Isthmus. The rainy season had thoroughly set in. She brings $900,000 in treasure.

Late dates from the interior had brought no important news.

President Mosquera had arrived at the Capital, and was well received.

The news from Central and South America is unimportant. Everything on the south coast had assumed a pacific turn since the Spanish fleet left, and business was improving.

There was no news from Mexico.

From Washington.

WASHINGTON, June 20.—The President has approved the bill to regulate and secure the safe-keeping of public money intrusted to disbursing officers of the United States. It is made their duty to deposit with the Treasurer or Assistant Treasurer money intrusted with them for disbursement, and to draw from the same only as funds are required for payments to be made in pursuance of law. A violation of which, and the use of the public money for private advantage, are to be punished by fine or imprisonment.

The Case of Isham Henderson.

LOUISVILLE, June 19.—In the United States Court, in the case of Isham Henderson, Judge Ballard discharged the defendant, thus relieving him of all military control.

The Italian counterfeiters of fractional currency have been sentenced to the penitentiary, Lateronger for 15 years, and the two others to 7 years and ten months each

From Havana.

NEW YORK, June 20.—The steamer Columbia has arrived, with Havana dates to the 16th inst.

Price of Gold in New York.

[By the American Telegraph Co.]

NEW York, June 20.—Gold has been quoted to-day as follows:

10.30 A. M.,	153	11.30	152⅞
10.45	153⅛	11.45	152
11.00	153⅛	12.00 M.,	152⅜

COURTS.

QUARTER SESSIONS—Junge Peirce.—John Kelty was convicted on a charge of passing counterfeit notes.

Richard Hallons was acquitted of a charge of assault and battery.

Charles Dean was convicted of a charge of assault and battery and mayhem. Officer Hart attempted to arrest the defendant, he refused to go, and a scuffle ensued, and Officer Hart was bitten.

James M. and Adelbert Urian were charged with committing an assault and battery on Naudain, colored, and Naudain was charged with committing an assault and battery upon James Urian. The parties engaged in a fight on the Darby road, and each accused the other of commencing the disturbance. Jury out.

A DEAF JUROR.—The suit of Chas. Trumper against Ferdinand Fabarius and three others, was on trial nearly all day Monday at New York, in the Circuit Part 1, before Justice Potter. A large number of witnesses were examined on the plaintiff, and when the hour for the adjournment of the Court had arrived, it was by some means discovered that one of the twelve jurors was deaf, and could not understand a word of an ordinary question put to him by the Court. The Justice called the juror to him, and satisfied himself that he was so deaf as to be wholly unfit for jury duty. Counsel for the defendants being unwilling to proceed with eleven, the whole case will be recommenced. The unfortunate man was reminded that if he had made his condition known in the morning, he would have saved the time of the Court, counsel, jurors, witnesses, &c., for the day, and himself the mortification to which he had been subjected.

INDIAN AFFAIRS.—Governor Edmunds, of Dacota Territory, communicates to the Commissioner of Indian Affairs from Fort Sully, on the 6th instant the arrival of the steamer Ben Johnson with the Northwestern Indian Commission on board. There are about 600 lodges of Indians at Fort Sully, all of the Upper Sioux nation, and there are said to be a thousand or more at Fort Rice. The general feeling among the Indians in that locality is said to be friendly. The object of the Commission is to negotiate treaties with these Indians.

THE FORD'S THEATRE building in Washington is being fitted up under the direction of Surgeon-Gen. Barnes. The upper story will be used for the Army Museum, and the first and second stories for the valuable military records of the war.

CITY BULLETIN.

WEST PHILADELPHIA.—In a former notice of the Insane Department of the Philadelphia Hospital, Almshouse, we made a brief reference to the crowded state of the Institution at the present time, and its entirely insufficient accommodation for the class who are almost massed within its walls, and expressed our fears as to the consequences that must certainly ensue, in the case of a visitation from the Asiatic cholera. This is no new story, but the actual presence of a fact, that, long ago, was patent to the eyes of the Guardians of the Poor, who were unable to act in the premises without the action of Councils. The highly respectable and influential gentlemen composing the present Board are, we are informed on high authority, about asking the speedy attention of the City Fathers to this very important subject. That they may be fully advised as to the *actual* and *past* condition of things, we have been at no small pains to procure all the necessary statistics:

The Chief Resident Physician and Superintendent, so far back as 1859, and since, on March 26th, 1865, specially addressing the Committee on Insane, in response to inquiries on the subject, wrote as follows:

"INSANE DEPARTMENT PHILADELPHIA ALMSHOUSE, May 26, 1865.—*To the Committee of Insane Department:* GENTLEMEN: The following statement will show the crowded condition of this department, particularly that occupied by the women:

Respectfully, S. W. BUTLER.

This estimate, however, made no mention of the *Assistants*, who have likewise, to be accommodated in the several apartments, all of whom have to be properly accommodated, so, at that date, no less than 108 had to have their couches spread upon the floor.

We now bring the matter down to the time of writing, in an exhibit of the situation as it now stands, having been furnished with the necessary documents:

JUNE 18th, 1866.

The "Men's Third Floor" contains the hospital or infirmary ward, as does the "Women's Third Open," a similar provision for the aged, sick and infirm, to both of which departments the male and female invalids of other floors, are, immediately transferred. The woman, however, are more fortunate than the men, since they have a special nurse appointed, but the same officer on the male side has not only his own average of 70 patients to attend to, but the additional task of taking care of all the sick of the other floors. Rather severe labor for one man; the management and care of so many individuals, with none other than pauper assistance, never to be depended upon, sent to him from the outwards who, receiving no pay, take advantage of the situation, obtain "a day's liberty," and, of course, never return.

It will be seen that the increase from 1865, when it was 114, has reached 130. Passing through the scrupulously clean wards during the day, and examining the bed rooms, the floors of which are almost snowy in whiteness, from which one could even eat without the fear of contamination from a grain of dust, with the lofty windows thrown open, and a pleasant breeze generally pervading the apartments, and visiting the same rooms at night, and finding in the female departments, and beholding no less than one hundred and nineteen helpless, inoffensive creatures huddled away, as it were, in the vacancies left between the beds, with their nightly associates and bedfellows, the rats, that run hither and thither and yon, in search of food, which many of the unfortunates put in the pockets of their dresses, stealthily at table, unseen by the watchful assistants. The males this year have only an excess of eleven, but men can rough it where women cannot.

The difficulty, however, lies in the fact of want of room, and "every penny spent in the improvement of the present location," as Miss Dix once said, and that very lately, addressing one of the Board, "is so much money thrown away." A new institution will have to be erected, and it should be removed as far as possible from the contamination of our Almshouse, somewhere miles away, in the midst of leafy greenery, with the advantages of outdoor exercise and physical labor, to asist in the physical, and, of course, a natural sequence, mental recuperation of the patient. What a contrast the contracted limits of the "prison pen" now occupied by the insane of the Alms House with the palatial splendor and costly accommodations of the much-talked-of Penn Hospital, under the care of Dr. Kirkbride, where but one hundred poor patients are admitted annually. Every one else, in that costly establishment, pays his regular board, or has it paid for him, and when his funds are exhausted, or the six months in which the year's residence of the poor inmate's time has expired, he or she is hurried away to "Blockley," frequently to leave it after a week or two's residence, perfectly restored to health.

Councils, we learn, intend to act speedily on this matter, as they ought; for with the erection of the new South street bridge, a farm like that of the Almshouse, containing a river frontage from Chestnut street to a point below the Arsenal, and extending inland flush to the fences of the Woodlands Cemetery, and containing over one hundred and eighty acres in its limits, is too valuable for building lots to be much longer appropriated to its present purpose.

At the police station this morning there was a comparative rush of business. Ten cases were adjudicated by Alderman Allen; "vagrancy," "drunkenness," breaches of the peace, some of whom were committed, some fined, some discharged; but Catharine Glody came to especial grief. She was a domestic in the Pennsylvania Hospital for the Insane, and was committed on the charge of larceny. She has been in the habit of abstracting clothing from the institution, and was at last caught in the act, and so suffers accordingly.

CHARGED WITH LARCENY.—A colored man named Carter Williams was arrested last night by Officer Donnen, of the Fifth District, upon the charge of larceny. For two years the accused had been employed in a store on Chestnut street, and occasionally he was taken to the house of one of the proprietors to wait on the table. Articles have been missed both from the store and dwelling, and a few days since a piece of goods taken from the store was found on the accused. Williams will have a hearing at the Central Station this afternoon.

ASSAULTING A POLICEMAN.—John Flynn was before Alderman Tittermary this morning, upon the charge of assaulting officer Faries of the Second District. On Monday last Faries attempted to make an arrest on Penn street above South, when he was set upon, beaten, and his prisoner rescued. Flynn who is alleged to have been the ringleader of the assailants was arrested last night. He was committed for trial.

TAPPING A TILL.—A young man named George Linnew, was arrested yesterday, for having robbed the money drawer of a store on Delaware avenue, above South street, of about six dollars. A portion of the money was found on his person. Linnew was committed by Alderman Tittermary.

NO BETTER BLOOD PURIFIER can be obtained than DR. JAYNE'S ALTERATIVE. It contains no concealed poisons, no mercurial or other metallic preparations, but is a combination of those articles which long experience has proven to possess the most efficient alterative and deobstruent properties. It acts directly on the blood, stimulates the digestive and secretive organs, and enables the Liver, Kidneys &c., to perform their proper functions. Its efficacy is established by its long-sustained popularity, and by the many cures it has effected, a number of which are published each year in Jayne's Almanac. Read them and be convinced. Prepared only at 242 Chestnut street.

Finance and Business—June 20, 1866.

A reference to the above list of the transactions will give the reader a correct idea of the apathy which exists at the Stock Board. There was no disposition to buy, and in the present abundance of money no pressing anxiety to sell. Prices, consequently, remain comparatively steady for most descriptions of securities. The Five-Twenties, '62, sold at 103. The Coupon Sixes, '81, closed 110¾ bid; the Seven-Thirties at 103⅛, and the Ten-Forties at 96⅝. In State and City Loans there was not a sale. The latter closed at 93 bid for the old, and 96½ for the new issues. Pennsylvania Railroad was not so strong, and closed 54⅞ bid. Reading Railroad declined ¾. Camden and Amboy Railroad sold at 129¾—an advance of ¼, and Catawissa Railroad Preferred at 25⅝—an advance of ⅛. 55 was bid for Germantown Railroad; 43 for Northern Central Railroad; 38 for North Pennsylvania Railroad; and 50½ for Philadelphia and Erie Railroad. Canal stocks were but little sought after; 56¾ was bid for Lehigh Navigation; 84½ for Morris Canal Common; and 34½ for Schuylkill Navigation Preferred. In Bank shares we noticed sales of Commonwealth at 54—an advance of 1; and Mechanics' at 30¾. Coal and Oil stocks were neglected, and there was no movement in Passenger Railway shares.

The announcement of the failure of two grocery houses and a broker cause some surprise.

The report of Secretary McCulloch as to his purchases and sales of gold bonds since January 1, 1866, made to the House states that on February 2 1866, he commenced to sell gold at 40¾, and continued his sales until February 23, closing at 37¾, when he sold altogether, $14,910,000. He then sold none un il May 16, when he again commenced to sell at 39¾, and sold up to May 23, at not over 40¾. On May 21 he closed his sales by selling $35 000 at 35, and $100,000 at 36, making total sales, $50,3 5,000, on which he received premiums amounting to $16,391,418. Mr. Myer was the broker who sold the gold, who was employed by Mr. Van Dyke at a commission of one-eighth per cent. on the entire amount, except the last two items, sold at 35 and 36, which he sold without charge. The Secretary has bought since January 1, $1,550,000 of 10-40s, for which he paid $1,416,126. He also sold between January 3 and June 8, $22,769 950 of 5-20s, for which he has received $23,435,249, which was paid in 7-30s, compound interest notes and legal-tenders. To the bond transaction Jay Cooke & Co. were employed for the negotiation of the exchanges which was rendered necessary by the low rates to which 7-30s had fallen, rendering it impossible to fund the indebtedness unless the Government securities were kept at par. These transactions were conducted at a profit to the Government of about $1,0.0,000, besides placing the 7 30s above par, and increasing the price of all other Government securities. No gold has been bought since January 1, 1866.

Philadelphia Markets.

WEDNESDAY, June 20.—The movement in Breadstuffs continue of an extremely limited character, but with continued light supplies and reduced stocks of all descriptions; prices generally are well maintained. There is less demand for Flour, the downward turn in gold having the effect to check the ardor of buyers. The only sales reported are 900 barrels Northwestern extra family at $11@12 50 per barrel; 300 bbls. Penna. and Ohio extra family at $12@14 25; superfine in a small way at $8 50@9, and extras at $10@10 25. Rye Flour is held at $6 75. In Corn Meal nothing doing to fix quotations.

The market is very bare of good Wheat, and this description is wanted; 1,000 bushels Spring sold at $2 55—an advance. Rye is worth $1 30. There is very little Corn coming forward, and it is in fair request at yesterday's quotations: sales of 1,700 bushels yellow at $1 05 and some mixed Western at $1. Oats are unchanged; 3,000 bushels Western sold at 73 cents, and some Pennsat 74 cents; Delaware is worth 76 cents. In Barley and Malt there is nothing doing.

Whisky—The demand is limited. Small sales of Penna. at $2 24@2 26, and Ohio at $2 28@$2 29.

LEAGUE ISLAND IN THE SENATE.

THE TAX ON COTTON.

Decline in Specie Shipments to Europe.

From Washington.

[Special Despatch to the Bulletin.]

WASHINGTON, June 20.—The Senate Naval Committee to-day unanimously instructed Senator Grimes to report the House bill for the acceptance of League Island. He will press it to a vote at an early day.

No intelligence has yet been received from the prize fight which came off at daylight this morning some twenty-five miles down the Potomac. It is reported that the Baltimore man came off victor.

The free traders are working like beavers to defeat a high protective tariff.

The Tax on Cotton.

WASHINGTON, July 20.—The Senate, in Committee of the Whole, has agreed to the recommendation of the Finance Committee to fix the tax on cotton at two cents per pound.

Decline of Specie Shipment.

BOSTON, June 20.—The Africa, which sailed to-day for Europe, takes 71 passengers for Halifax and 118 for Liverpool. She takes out no gold, and only about $16,000 in silver.

XXXIXTH CONGRESS—FIRST SESSION.

WASHINGTON, June 20, 1866.

SENATE.—Mr. Grimes (Iowa) from the Naval Committee reported the House bill authorizing the acceptance of League Island, Philadelphia, as a Naval Station.

The House joint resolution for the distribution of certain surplus copies of the American State papers was passed.

The Senate, by a vote of 5 yeas to 25 nays, refused to discharge the Finance Committee from the further consideration of the resolution fixing a day for adjournment. The motion was made by Mr. Hendricks, of Indiana, who said he wished the resolution brought before the Senate and passed.

HOUSE.—Mr. Donnelly (Min.), from the Committee on Public Lands, reported a bill granting to the State of Iowa land in alternate sections, to aid in the construction of the Iowa Central Railroad. Ordered to be printed and recommitted.

Mr. Eggleston (Ohio), from the Committee on Commerce, reported back the Senate amendments to the bill further to provide for the safety of lives of passengers on board steam vessels, with a recommendation that they be nonconcurred in, and a Committee of Conference was asked.

Mr. McRuer (Cal.) introduced a joint resolution authorizing the Secretary of the Treasury to settle the account of C. F. Fay. Read twice and referred to the Committee on Claims.

Mr. Boutwell (Mass.) introduced a bill to amend the act of April 18, 1818, for the punishment of certain crimes against the United States. Read twice and referred to the Committee on the Judiciary.

It provides that the act of 1818 shall not be so construed as to prohibit citizens of the United States from selling vessels, ships or steamers built within the United States, or materials or munitions of war, the growth or product of the same, to inhabitants of other countries or to governments not at war with us; *Provided*, that the operations of this act shall be suspended whenever the United States shall be engaged in war.

Mr. Glossbrenner (Pa.), from the Committee on Public Lands, reported back the bill for the relief of inhabitants of towns and villages in the Territories of New Mexico and Arizona. Ordered to be printed and recommitted.

Mr. Schenck (Ohio) offered a resolution, which was adopted, instructing the Committee on Foreign Affairs to inquire into the expediency of making the United States consulate at Quebec a salaried office.

Mr. Washburne (Ill.) asked and obtained leave to attach his signature to the report of the Reconstruction Committee, which was made in his absence.

Mr. Ingersoll (Ill.) asked leave to offer a resolution calling on the Secretary of State and Postmaster General for information as to why the public printing for their respective departments is given to the Richmond *Examiner*.

Mr. Eldridge (Wis.) objected, and the resolution was not received.

Mr. Perham (Me.), from the Committee on Pensions, reported a bill increasing the pensions of widows and orphans, and for other purposes.

The first section extends the provisions of the pension laws to Provost Marshals, deputy Provost Marshals and enrolling officers who have been killed or wounded in the discharge of their duties; Provost Marshals to rank for the purpose of pension, as captains, deputy Provost Marshals as first lieutenants, and enrolling officers as second lieutenants. The second section increases the pensions to widows of deceased soldiers and sailors having children, at the rate of $2 per month for each child under the age of 16.

Mr. Perham made a statement as to the existing pension laws and those bills that are pending. Under the existing pension laws the annual amount paid was $16,000,000. This bill would increase the amount $6,000,000, making it $22,000,000. The bill pending, relating to pensions to the soldiers of 1812 and their widows, would cost $13,000,000, which would make the total amount of pensions $35,000,000. Under these circumstances the committee was of opinion that neither the country nor the pensioners themselves would favor a proposition to double the pensions now allowed.

Mr. Harding (Ky.) moved to strike out the first section. Negatived. 34 yeas, 78 nays.

Unitarian Conference.

BUFFALO, June 20.—The annual conference of the Western Unitarian Churches assembles to-day, about 150 member are already arrived, and by to-morrow it is expected that as many as 250 delegates will have assembled. Many prominent Unitarian Ministers from the East are also here, including Dr. Bellows, Rev. Mr. Hefworth and others. The conference will last five days.
