CITY BULLETIN.

THE HIGH SCHOOL TROUBLE.—The Controllers of the Public Schools held a special meeting yesterday afternoon, to consider the report of the Special Committee oppointed to investigate the affairs of the Central High School. The resolutions appended to the report directed the Secretary of the Board to notify the Faculty of the School that their term of service will expire on the 1st of September next, and instructed the Committee on High School to proceed to reorganize the faculty in the usual manner. Messrs, McLutyre Duffy, and Nobinger conceed to Intyre, Duffy and Nebinger opposed the adoption of the report in long speeches, in which the evidence taken was freely quoted from, and in which it was declared that the charges of intemperance, incompetency, mismanagement, lack of ability, &c., against the Principal, Prof. Maguire, had not been sustained by the testimony. Theresolutions were adopted, however; yeas 17, nays 9.
Those voting nay were Messrs. Abel, Duffy,
Fagan, Gaw, Geiz, Levick, McIntyre, Nebinger and Pollitt. Mr. McManes was absent. The remaining members voted yea.

DEPARTMENT OF LETTERS.-In a libel suit pending in the Circuit Court of the District of Columbia, Secretary Stanton was, last week, summoned and asked to produce a letter addressed to Mr. Dana, formerly Assistant Secretary of War, charging an employe with disloyalty, on which the action of libel is based. Secretary Stanton, for reasons stated and sustained by the Attorney General, declined to produce the paper. The question then rested with the paper. The question then rested with the Court, whether it should compel a communication made to the Department to be produced. Yesterday Judge Otts delivered his opinion that the Court could not compel the production of the paper. He held that the theory of our Government is that there are three departments, the Legislative, Executive and Judiciary, each independent of the other. It cannot be possible that the Executive should be called before a Court and be compelled to disclose what has been done, is being done, and is to be done.

THE YOUNG AND RISING

Generation, the vegetative powers of life are strong; but, in a few years, how often the pallid hue, the lack-lustre eye, and emaciated form, and the impossibility of application to mental effort, show its baneful influence! It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps, the yeuth is removed from school and sent fato the country. This is one of the worst movements, Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body too much enfeebled to give zest to healthful and rural exercise, the distribution of the ever-changing scenes of the city, the powers of the body too much enfeebled to give zest to healthful and rural exercise, the distribution is a transfer of the worst movements. Heart bleeds in anxiety, and fancies the grave but waiting for its victim.

Alasi increase of appetite has grown by what it fed on—the energies of the system are prostrated, and the whole economy is deranged.

Helmbold's Fluid Extract Buchu FOR WEAKNESS ARISING FROM EXCESSES OR INDISCRETION.

Attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memery, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Horror of Death, Night Sweats, Coid Feet, Wakefuless, Dinness of Vision, Languer, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic ymptoms, Hot Hands, Flushing of the Bady, Dryness of the Skinn Hallid Countenance and Empitions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots fijng before the Eyes, with Temporary Sinfusion and Loss of Sight, Want of Attention, Great Mobility, Restlessress with Horror of Society, Nothing is more desirable to such Patients than Solitude, and nothing they more dread for Fear of Themselves, no Repose of Manner, no Earnestness, no Speculation, but a hurrled Transition from one question to another.

These symptoms, if allowed to go on—which this medicine invariable removes—soon follow Loss of Power, Fututly and Epileptic Fit, in one of which the patient may expire.

During the Superintendence of Dr. Wilson, at the Bloomingdale Asylum, this sad result occurred in two patients; reason had for a time left them, and both died of epilepsy.

patients; reason had for a time left them, and both died of epilepsy.

Who can say that these excesses are not frequently followed by those direful diseases, INSANITY and CONSUMPTION? The records of the Intake Anytums, and the melancholy deaths by Consumption, hear ample witness to the truth of these assertions. In Lunaticary lums the most melancholy exhibitions appear. The countenance is actually sodden and quite destitute—neither mirth nor grief over visits it, Should a sound of the voice occur, it is rarely articulate,

"With world measures, wan despair
Low sullen sounds his grief beguiled."

Whilst we regret the existence of the above diseases and symptoms we are prepared to offer an invaluance gift of chemistry for the removal of the consequences, HELMBOLD'S HIGHLY CONCENTRATED FLUID

PHYSICIANS, PLEASE NOTICE!

We make no secret of the ingredients. HELMBOLD'S FLUID EXTRACT BUCHU is composed of
Buchu, Cubebs and Juniper Berries, selected with
great care, and prepared in vacuo by H. T. HELMBOLD, Druggist and Chemist of alxieon years' experience in the City of Philadelphia and which is now
prescribed by the most eminents physicians, has been
admitted to use in the United States Army, and is also
in very general use in State Hospitals and public Sanitary Institutions throughout the land.

[Dr. Keyskis is a physician of over twenty years'
experience, and a graduate of the Jefferson Medical
tollege, and of the University of Medicine and Surgery
of Philadelphia.]

Mr. H. T. HELMBOLD.—Lear Sir:—In regard to the
question asked me as to my opinion about Buchu, I
would say that I have used and sold the article in
various forms for the past thirty years. I do not think
there is any form or preparation of it i have not used
or known to be used in the various diseases where
such medicate agent would be indicated. You are
sware, as well as myseli, that it has been extensively
employed in the various diseases of the bladder and
kidneys, and the reputation it has acquired in my
judgment is warranted by the facts.

I have seen and mad, as before stated, every form of
Auchu—the powdered leaves, the simple decocition,
tincture, fluid extracts—and I am not cognizant of any
preparation of that plant at all equal to yours. Twelve
years' experience ought, I think, to give me the right
to judge of its merits, and without prejudice or partiality I give yours precedence over all others. I do not
value a thing according to its bulk; if I did other
Buchus would out-do yours; but I hold to the doct-ine
that bulk and quantity did not make up value—if they
did, a copper cent would be worth more than a gold
doilar.

I value your Buchu for its effect on patients. I have PHYSICIANS, PLEASE NOTICE! dollar.

I value your Buchu for its effect on patients. I have cured with it and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other Buchu, or any other proprietory compound of whatever name. Respectfully yours, etc.,
