#### XXXIXth CONGRESS—FIRST SESSION

[CLOSE OF YESTERDAY'S PROCEEDINGS.]

SENATE.-The Tax bill was taken up, and its reading was resumed from the point reached yesterday.

The following amendments, recommended by the Finance Committee, were

agreed to. That section six of the act of March 3d 1865, be amended by substituting the follow "That every National banking associa tion. State bank or State banking associa tion shall pay a tax of ten per cent, upon the amount of notes of person, State bank of tion and paid out by them after the first day July, 1867; and such tax shall be assessed and paid in such manner as shall be pre scribed by the Commissioner of Internal Revenue.

That section fourteen of the same act shall be amended by striking out all after the enacting clause, and inserting in lieu thereof

the following: "That the capital of any State bank or banking association which has ceased or shall cease to exist, or which has been o shall be converted into a National bank, for all the purposes of the act to which this is an amendment, shall be assumed to be the capital as it existed immediately before such ink ceased to exist, or was converted as aforesaid: and whenever the outstanding circulation of any banking association. cor poration.company or person shall be reduced an amount not exceeding five per centum of the chartered or declared capital existing at the time the same was issued, said circulation shall be free from taxation; and whenever any bank which has ceased to issue notes for circulation shall deposit in the Treasury of the United States, in lawful money, the amount of its outstanding circuiation, to be redeemed at par under such regulations as the Secretary of the Treasury shall prescribe, it shall be exempt from any tax upon such circulation; and wheneve any State bank or banking association has been converted into a National banking association, and such National banking association has assumed the liabilities of such State bank or banking association, includ-ing the redemption of its bills, or by any agreement or understanding whatever with the representatives of such State bank or banking association, shall use the bills o such State bank or banking association, such National banking association shall be held to make the required return and payment on the circulation outstanding, so long as such circulation shall exceed five per centum of the capital before such conversion o such State bank or banking association."

That the act approved March 10, 1866, be amended by striking out sections 3, 4 and 5 of said act, and inserting, in lieu thereof the following: "That it shall be the duty of all persons required to make returns or income and articles or objects charged with an internal tax.to declare in such returns o lists whether the several rates and amounts therein contained are stated according to their value in legal tender currency, or according to their value in coined money, and in case of neglect or refusal so to declare to the satisfaction of the assistant assessor receiving such returns or lists, such assistant assessor is hereby required to make lists or return for such persons so neglecting or refusing, as in cases of persons neglecting or refusing to make the return or lists required by the acts aforesaid, and to assess the duty there on, and to add thereto the amount of penalties imposed by law in cases of such neg-

lect or refusal.
"And whenever the rates and amounts contained in the returns of lists as aforesaid shall be stated in coined money, it shall be the duty of each assessor receiving the same to reduce such rates and amounts to their equivalent in legal-tender currency, according to the value of such coined money in said currency for the time covered by said returns; and the lists required by law to be furnished to collectors by assessors shall in all cases contain the several amounts of in legal-tender currency."

On motion of Mr. Fessenden, chronometers were added to the free list. The Senate non-concurred in the Finance Committee's amendments to strike the following articles from the free list:

Iron bridges, and castings for iron bridges; mills and machinery for the manufacture of sugar, syrup, and molasses from sorghum, imphee, beets and corn; reapers, mowers, threshing machines and separators, shellers and wooden ware.

The amendment of the Committee to add o the House free list the following articles were agreed to: Wooden tanks and cisterns for crude mineral oils, safes, looms, spinning machines, pumps, steam engines, hot air and hot water furnaces, and sewing machines, wine, made of grapes, currants or other fruits and rhubarb, India rubber springs used exclusively for railroad cars, cordage, ropes and cables made of vegetable

An amendment was agreed to in reference An amendment was agreed to in reference to the non-payment of taxes assessed monthly and quarterly, requiring ten per cent to be added to the return, provided that notice when such tax shall become due

and payable shall be given.

The following was, on the recommendation of the Finance Committee, stricken from the thirteenth section: "And apothecaries shall not be regarded as retail dealers liquors in consequence of selling or of dispensing upon physicians' prescriptions officinal in the United States and other national Pharmacopœias, either simple or compounded in quantities not exceeding in ag-gregate half a pint of either at any one time. nor exceeding in aggregate cost value the sum of \$360 per annum.

Several amendments were agreed to relating to distilleries, substituting new and more stringent language than that contained in the present law.

The following proviso to the thirty-first section of the bill was recommended by the Finance Committee and adopted: Provided, That any articles manufactured

in a bonded warehouse established under the 168th section of the Internal Revenue act of June 30, 1864, and located in any of the Atlantic States, may be removed there-from for transpertation to a customs bonded warehouse to any port on the Pacific coast of the United States, for the purpose only of being exported therefrom under such rules and regulations, and upon the execution of

such bonds or other security as the Secre-tary of the Treasury may prescribe.

On the recommendation of the Finance Committee, a new section was added, affix-ing a penalty of three times the smart of send and a fine of three times the amount offered in any case where a person or persons shall bribe or attempt to bribe internal revenue officers; and any officer convicted of receiving a bribe shall forfeit his office and be in like manner, and be forever disqualified to hold office under the United

States.
A fourth amendment from the same Committee relative to the seizure of goods, as provided in the internal revenue laws, was also adopted.

The following amendment to the section as it came from the House, prescribing penalties against assessors, collectors or in-spectors, who shall become interested in the manufacture of tobacco, snuff, cigars, li-

quors, etc., was agreed to:

"And any such officer interested as aforesaid in any such manufacture at the time
of the passage of this act, who shall fail to
divest himself of such interest within sixty days thereafter shall be held and declared to have become so interested after the pas-

age of this act."

Pending the reading of the bill, pages 233 out of 244 having been reached.

Mr. Fessenden (Me.) moved that the Senate adjourn.

GARBNER & FLEMING, COACHMAKERS, 214 South Fifth street, below

PRIOES.

2024-3m Two messages from the President, one in relation to the withdrawal of Austrian

roops from Mexico, and another in relation o the recent constitutional amendment, Mr. Hendricks (Ind.), in behalf of Mr.

Johnson, who is absent, presented the minority report of the Committee of Fifteen. Mr. Trumbull (Ill.) objected to the reception of the minority report, as a viola-tion of the practice and precedent of the

The Senate, at 5.15, adjourned. HOUSE.—On motion of Mr. Washburne (Ill.) the Senate bill to amend the act of April 20th, 1866, authorizing the sale of marine hospitals and revenue cutters, was taken from the Speaker's table and passed. The House proceeded to the consideration of the Indian Appropriation bill, and the bill

was passed. The House at 4.15 o'clock adjourned.

Extraordinary Relics of a Preadamite The following remarkable communication from a well-known gentleman of Middletown, Connecticut, appeared lately in the

Maine Farmer: Messrs. Editors:-As you are somewhat interested in geology and its kindred branches, and have endeavored to interest your readers in these things, allow me briefly to call your attention to the geology of this locality. Here, in Middletown, and on the opposite side of the Connecticut river, in Portland, is found the red sandstone. This rock extends, I think, from Amherst, Mass., to New Jersey. But this particular basin to which I wish to call your attention, is about eight miles in width and 5,000 feet in depth. On the west of this basin the trap rock has been lifted up through the sand-stone, and on the east there is a granite ridge, a part of the White Mountain range, which is thought also to have come up through the red sandstone, though not at s late a date as the trap on the west. While the granite and the trap were rising, one or both the sandstone was slowly sinking. I say slowly, for it was, I think, thousands of years settling down to its present level.

On the east bank of the Connecticut are

the Portland stone quarries which have been worked for 150 years. At present, in the 3 quarries, about 1,000 men are at work, and 30 to 40 vessels are employed in carrying the stone to the great markets. These excavations which have now reached a doubt of 105 foot, below the conference at depth of 105 feet below the surface of the depth of the feet below the surface of the water in the river, have revealed untold wonders. The stone is said to be full of fossil remains in its lowest depths. I might call it a great charnel house, but this is too gloomy a term to apply to it. It is rather God's great Book of Records, which has been here carefully preserved and hermeti cally sealed up till within the last few years. On the countless leaves of this book are found the records of past ages. They tell us of the climate, of the seasors, and of the storms; of the birds and animals; and more wonderful still, they tell us of the men of those ages, show us their implements and shadow forth something of their customs. They also open to us their graves and show to us their modes of burial, the men lying in one posture and the women in another. These men all had had three fingers and a thumb, and four toes. The comparatively more recent of them were six to seven feet high, but as we unfold the leaves farther and proceed back in the cycles of time to the lower depths of he rock, we come to a race of giants twelve feet high, with feet twenty-two inches in length. These men wore shoes and had do mestic animals of peculiar structure and great size. The only human instruments

so for discovered were made of stone. They had saws and long knives made of slate and brought probably from Vermont.
This sandstone basin is believed to be of the same geological age as the basin of Paris in France, but the fossil remains are more numerous than those in the Paris ba sin, more wonderful, and in a better state of preservation. How easy it is to see a thing after it is pointed out to us! Just as it is easy to use and apply Kepler's laws after These quarries were worked more than 100 years, and were used for sidewalks and buildings before the fossils were discovered! Now the practical eye can see them almost every-

The most indefatigable observer, and the most industrious collector of these facts is most industrious conector of these facts is Dr. Barrett, of this place, who has spent almost a life-time in collecting fragmentary evidence and surmounting difficulties. He is said to have a remarkable knowledge of comparative anatomy and to be in many respects a very learned and remarkable man, who has been far in advance of his times. Many years since the fact of a pre-Adamite race dawned upon him and he announced it in conversation. Presently similar discoveries have been made in Eu ope and learned men are beginning to admit the fact. Agassiz carries the existence of man on earth back 70,000 years. Dr. Barrett says man trod this valley at least 90,000 years ago, but not our race; the pre-

sent race is a new and distinct creation. Not claiming to have made any discoveries of my own or to have much knowledge of geology, I have penned this brief sketch of what is claimed to have been discovering the state of the sketch of what is claimed to have been discovered by the sketch of what is claimed to have been discovered by the sketch of what is claimed to have been discovered by the sketch of what is claimed to have been discovered by the sketch of what is claimed to have been discovered by the sketch of covered here, and of this remarkable man. to draw your own attention and that of others, who know more about it than I do, to these discoveries and this locality, which to these discoveries and this locality, which is perhaps the most interesting one to the student in geology in this country.

Yours with respect,

SAMUEL JOHNSON.

#### MEDICAL.

AYER'S CATHARTIC PILLS are the most perfect purparties which we think has ever yet been made by anybody. Their effects have abundantly how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate sluggish or disordered organs into their natural action, and impart a real product of the companion of the organs, purify the blood, and expel disease. They purse out the foul but nors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healty tone with strenght to the whole system. Not only do they cure the every-day complaints of every-body, but also formidable and dangerous diseases. While they produce powerful effects, they are at the physic that can be employed for children. Being sugarcoated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of sur he exalted position and character, as to forbid the suspicion of untruth. Many eminent clergymen and physici as have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis our American Almanac, containing, directions for the use and certificates of their cures, of the following complaints:

Costiveness, Billous Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from four surveys.

use and certificates of their cures, of the following complaints:
Costiveness, Bilious Complaints, Rheumatism, Drop sy, Heartburn, Headache arising from foul stomach; Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising sherefrom, Fistulency, Loss of Appetite all Diseases which require at evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deaffers, Partial Bilindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Klineys, Gout, and other kindred complaints arising from a low state of the body, or obstruction of its functions.
Do not be put off by unprincipled dealers with other preparations which they make more profit on. Defend the Aven's and take no others. The sick want the best aid there is for them, and they should have it.
