The steamer William L. Kennedy, of the Boston line of steamers, touched here this afternoon, and took on board thirty colored men and women for Boston, where homes in various families in that city have been procured. On a previous trip the Kennedy took a similar number, and under the arrangement of the Freedmen's Bureau, which has the undertaking in charge, numerous other installments will be shipped North as rapidly as employment can be procured for them. The movement is looked upon with intense interest by the farmers and residents of the Peninsula, the whole of which swarms with freed people of all ages and sexes, confident that it will tend to similar movements upon a large scale and be productive of the most important results to the farming interests of this section of the State. The officers of the Freedmen's Bureau in this district are entering with renewed zeal into the enterprise, and the fact that sixty thousand government rations are monthly issued to the freed people, destitute, helpless and without employment, under their charge within a circle of about twenty miles, doubtless acts as an additional stimulus to their exertions.

The United States gunboats Winnepec. Saco and Marblehead, and the yacht America have arrived at Norfolk from Annapolis. They form a portion of the cruising fleet which is organized every summer for the purpose of giving the cadets of the Naval Academy an opportunity to learn the various details of practical seamanship. The machinery of the Winnepec became disabled coming down the bay, and is now repairing at the Portsmouth Navy Yard. The sailing frigates Macedonian and Savannah, which have on board the balance of the cadets of the Academy, started from Annapolis several days ago, but owing to head winds, are beating down the Bay, and will arrive here pro-bably to-night. The whole fleet will rendezvous in Hampton Roads, and when everything is in readiness, will sail from the same harbor.

One hundred and forty thousand feet of lumber, contained in about a dozen dilapidated buildings, used for different purposes during the war, was sold to-day at auction, for \$850.

Several days ago, while the workmen were excavating a lot near the market, in Norfolk, they exhumed the bones of three haman beings, which from all appearance had been interred centuries ago, and were probably the remains of the first denizens of the country, whose race has long since become extinct. The discovery created quite an excitement.

The Imperial loss was 500 killed and wounded, 800 prisoners, 14 pieces of artillery and the entire train of wagons, valued at \$2,000,000. The Liberal loss was slight. General Olivera was severely wounded but escaped capture. Cortinas is reported as between Matamoras and the stragglers from Olivera's army, and will

The officer pursued and captured one, and the others fell into the clutches of a couple of Seven-teenth Ward policemen. The prisoners gave their names as Wm. Knox, John Smith and John Brown. DEOWNED.--Purnell Harrington, the Captain of the tugboat E. A. Souder, fell overboard and was drowned early on Sunday morning, a few miles below Reedy Island,

ment of these threats, he, on Tuesday morning last, a short time before daylight, re-paired to the residence of Mr. Woodward, and with a bowie-knife, coolly and delibe-rately murdered Mr. Woodward, his wife, and eldest daughter, and an old lady, the mother of Woodward. The bloody deed becoming known throughout the neighbor-bood, the murderer was pursued, and finally arrested. The most intense excite-ment prevailed throughout the whole of Orange county, and strong threats of lynch-ing the assassin have been made.

Murder of a Father and Son in Arkansas,

[From the Little Rock Gazette, 15th.] Our community was shocked, excited, filled with the deepest sorrow, to learn yes-terday morning as they sallied from their homes, that Dr. A. W. Webb and his son Motte, a mere youth of some fourteen years of age, were assassinated in their bed—side by side—father and son. Dr. Webb was in attendance at the Coun-

cil Chamber until eleven o'clock Wednes-day night; he then went to his home, and between that and dawn his house was entered and the double fiendish murder perpetrated-by whom or how many is yet to be ascertained; but it is to be hoped for the sake of justice and the reputation of our people that they may be overtaken and swift reiribution follow the bloody and bar-161@171 barous deed.

From what we can learn it appears that some person domesticated in the house, getting up in the morning saw one of the ront windows open, and assuming at once that something was wrong, went immedi-ately to the room of the Doctor where he found them weltering in their gore. They had evidently been killed by a blow from an axe, and the work was done by a mer-ciless hand, and no doubt for the sake of plunder, as the key of the safe was found in "it before of and the door mode t, broken off, and the door ready open, 'but coward conscience," at the moment when the treasure was within his grasp, smote the fiend with such fear and trembling that he left without carrying away the

coveted prize. Dr. Webb, as is well known, had been a physician in this community, with a large and lucrative practice for twenty years past, and it was reasonable to suppose that he had money, but the idea seems brutal beyond conception that anything in human shape could conceive a plan of murdering ather and son, and at the same time rob bing the safe of its contents. But the deexhibited in so many ferocious lights, that thing which may occur. Dr. Webb was a man of some eccentricity,

but he had a kind heart, and many has he relieved by his skill and extra attention, who might have died and been forgotten, and from whom he never expected to re-ceive any reward. An inquest was held on the bodies, and a verdict brought in in accordance with the circumstances elicited. The funeral of the deceased took place, last evening, from the Episcopal Church, and was attended by the city authorities and the fire department in a body.
