who are in Germany, are using their best efforts to re-established between the sovereigns that peace which their people so earnestly desire, and have done more than it generally supposed. Russia was also em-ploying all her diplomacy with the second-ary German princes. The writer says there are still people in Paris who believe the war may yet be averted. \_The question of the mobilization of the

Federal army as proposed by Austria, is still pending the Frankfort Diet. Prussia opposed it as entirely opposed to the Fede-ral law, and called on the German States favorable to Prussia to vote against it, re-garding every supporter of the motion as her adversary. The cholera has broken out in the neigh-

borhood of Berlin. The Swiss Federal Council have issued a

a decree calling out the 1st reserves of the Swiss army for the defence of the passes of the Alps on the side of Italy. Kessuth issued an address to the Hunga-

rians, dated at Turin, recommending them to wait for the course of events, and remain as they are, or enroll themselves in the Hun-garian Legion, and if matters progress in such a manner as to open a field for action, due notice will be given. GREAT BBITAIN.

The proceedings in Parliament on the 13th

Inst. were unimportant, In the extraordinary trial in which Mrs, Ryves sought to establish herself as a princess of the Royal family, her mother having been married to the Duke of Cumberland, the jury found a verdict against the claim-ant. The Times treats the case as an imposture.

Satterthwaite's Circular of the evening of the 30th inst. reports a fair amount of busi-ness doing during the week in American securities, and prices on the whole well maintained. Five-twenties at one time touched 66. but closed at 641@643. Illinois Central was without attention at 65@651, but Erie, on the lower prices from New York, declined to 40½@41. Settlement de-veloped the scarcity of the Five-twenties and Eries. English funds are lower under the war

news. The Bank rate remains at 10 per cent. Thomas Hall's Iron Company has suspended payment.

FRANCE. In the Corps Legislatif M. Rouher, in reply to Gurmer Pages, said the threatened disturbances in Europe were not likely to make a favorable condition of the French budget, but if the expenditure was increased by a necessity, for France to assume an armed neutrality, the government would of necessity convoke the Corps Legislatif. Jules Favre then opened the debate upon Maxico. Mexico. The Bourse on the 13th was weak, and

closed at 63f. 45c. THE PRINCIPALITIES. The Roumania Government has issued a circular to the Powers protesting against the hostile attitude assumed by Turkey, and asserting its loyalty to the Turkish Government.

It is stated that England has given notification of its willingness to recognize Prince Charles of Hohenzollern as Hospodar, pro-vided he takes the oath of allegiance to the Sultan.

Sultan. BUSSIA. On the 20th of May the Prince Bokhara, with 40,000 men and tweaty-one guns, engaged a Russian force, and suffered a decisive defeat, losing nineteen cannon, and being completely routed. The Russian loss was insignificant.

agree on the following propositions, viz,-The union of the States is in every case indissoluble and is perpetual; and the Constitution of the United States, and the laws passed by Congress in pursuance thereof, supreme, and constant, and universal in their obligations. The rights, the dignity and the equality of

the States in the Union, including the right of representation in Congress, are solemnly guaranteed by that Constitution, to save which from overthrow so much blood and treasure were expended in the late civil war.

There is no right anywhere to dissolve the Union, or to separate States from the Union, either by voluntary withdrawal, by force of arms or by Congressional action; neither by the secession of the States nor by the exclusion of their loyal and qualified representatives, nor by the National Government in any other form, Slavery is abolished, and neither can nor ought to be re-established in any State or

Territory within our jurisdiction, Each State has the undoubted right to prescribe the qualification of its own elect-ors, and no external power ought to dictate, control or influence the free and voluntary action of the State in the exercise of that right. The maintenance inviolate of the rights of the States, and especially of the right of each State to order and control its own domestic concerns according to its own judgment, exclusively, subject only to the Constitution of the United States, is essen-tial to that balance of power on which the perfection and endurance of our political future depends, and the overthrow of that

system by the usurpation and centralization of power in Congress, would be a revolution dangerous to republican government and destructive of liberty.

Each House of Congress is made, by the Constitution, the sole, judge of the election returns and qualifications of its members, but the exclusion of loyal Senators and Papersentetime, provide the senators and Representatives, properly chosen and quali-fied under the Constitution and laws, is unjust and revolutionary. Every patriot should frown upon all

which can serve no other purpose than to rekindle the animosities of war, and the effect to which upon moral, social and mate-rial interests at home and upon our standing abroad, differing only in degree, is inju-rious like war itself.

The purpose of the war having been to preserve the Union and the Constitution by putting down the rebelion, and the rebel-lion having been suppressed; all resistance to the authority of the General Government being at an end, and the war having ceased, war measures also should cease, and should be followed by measures of peaceful ad-ministration, so that union, harmony and concord may be encouraged, and industry, commerce and the arts of peace revived and promoted; and the early restoration of all the States to the exercise of their constitu-tional powers in the National Government is indispensably pecessary to the strength tional powers in the National Government is indispensably necessary to the strength and the defence of the republic and to the maintenance of the public credit. All such electors in the thirty-six States and nine Territories of the United States, and in the District of Columbia, who in a spirit of patritoism and love for the Union, can rise above personal and sectional con-siderations, and who desire to see a truly National Union Convention, which shall represent all the States and territories of the Union, assemble as friends and brothers

Union, assemble as friends and brothers under the National flag, to hold counsel tounder the National mag, to note counsel to-gether on the State of the Union, and to take, measures to avert possible danger from the same, are specially requested to take part in the choice of such delegates.
