They remove
the obstructions of its organs, purify the blood, and
expel disease. They purge out the foul humors which
breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a
healty tone with strenght to the whole system. Not
only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases.
While they produce powerful effects, they are at the
same time, in diminished doses, the safest and best
physic that can be employed for children. Being sngarcoated, they are pleasant to take; and, being purely
vegetable, are free from any risk of harm. Cures have
been made which surpass belief were they not substantisted by men of su-h exalted position and character, as to forbid the suspicion of untruth. Many eminent clergy men and physici ans have leat their names
