CITY BULLETIN.

The Election-Humors of the Bay and Evening.

There are but few stirring incidents to chronicle as to the progress of the elec. tion and as to its result. Facts and figures are wanted at this period, and not much fancy-work. The new law, as to the opening and closing of the polls went into operation and worked as well as could have been expected. Most of the polls were opened "on time," and there was but slight delay at those voting places where the officers were not ready just at the minute. The morning was bright and clear, but it clouded over in the afternoon and a regular mist and drizzle set in towards night. This seemed to have the effect to depress the spirits of the Unionists, particularly as there seemed to be some scratching on the city, county and Senatorial tickets, and there also seemed to be a feeling as if there was not as thorough an organization as there ought to be in the Union ranks. To the surprise of many persons the returns came in more slowly during the evening than when the polls closed at a later hour. This, however, appeared to be the effect of the bad working of both the local and the general telegraph lines, owing to the condition of the atmosphere, which seemed utterly devoid of life and electricity. The spirits of the Union men rose, however, when the returns from Allegheny and the other western counties came in. "Repubother western counties came in. other western counties came in. "Repub-lican gain" was the cry! Allegheny had acc-mplished her entire duty, inspired by the late Soldiers' and Sailors' Convention, and may be considered the banner county of the State. She has coal to warm her friends and iron to cool her enemies, thank Providence! 'She feels the imminence of the crisis, and rallies to the support of the people's progresentatives in Congress in the grandest style! After we heard from Allegheny we felt safe and went on our way rejoicing. At the Central Sta-tion there was an anxious crowd of officials and reporters, and the returns from the difand reporters, and the returns from the dif-ferent city wards were scanned with the most eager eyes. The Tax Receiver's office was also open and blazing with gas. The National Union Club House and the Union League House were also filled with people, impatient and expectant. At almost midnight, after the Western States had been heard from, and after it was certain that, outside of Philadelphia, the Commonthat, outside of Philadelphia, the Common-wealth of Pennsylvania was true, the smothered enthusi...sm of loyal men broke forth. They could listen with joy to the music of marching bands. They could move in unison and harmony with the ranks of the "Invincibles" and the other clubs which filled the streets with music, and made the night as light as day. To add to the "general joy." the city was shlere

He said it would be out of place for him to advocate the propriety of Sunday Schools, for, for the furtherance of this object they, had assembled. One of the first points to be understood was the o-ject of these schools. A cear understanding of the scrip-tures was one of the principles of the Institution. We should endeavor in all our might to impart a correct knowledge of the words of eternal life. Christ even in bis early days, was skilled in the knowledge of sacred writ. (Children should be instructed in the knowledge of should endeavor in all our might to impart a correct knowledge of the words of eternal life. To the Methodist Church, the church at large is in-debted to this idee of education in this department. He expected to see this cause greatly advanced. THE UNION LEAGUE. The Union League was, of course, the centre of the excitement last night, and a vast concourse of people assembled at an early hour in the evening to hear the returns. As far as the eye could reach, this great crowd stretched away, and the sea of upturned faces, as they watched the bulletins which announced the results of the election, pre-sented a wonderful spectacle. Long after midnight and into the "wee sma' hours," the people stood their ground in a drizzling rain, and as the indications of the gains through-out the State increased, the enthusiasm of the crowd reached a pitch which culminated the crowd reached a pitch which culminated in the appearance of Judge Kelley, who ad-dressed the assemblage, amid a storm of ap-plause and excitement, in a brief and telling speech. Judge Pitkin, of New Orleans, and others also addressed the crowd. The re-ception which Judge Kelley met with was a crowning testimony to the confidence which the people have reposed in this gal-hard the metano of the primeiples of human lant champion of the principles of human liberty, and his return to Congress will prove an especial thorn in the side of the

President. While the vast crowd was filling the street and making the welkin ring with their lusty cheers, a busy scene was being enacted, within. The lower floor of the League House was crowded with the mem-bers, to whom the returns were rapidly announced from the main staircase. On the second floor, the large reading-room was arranged for the State Central Committee and the Committees of the League, and at the long tables were seated many of the most distinguished citizens of Philadel-phia, pencil in hand, footing up the returns as they were received. Two wires were brought into the room, one of which fur-hished the city returns and the other the general returns from the State. An able corps of operators was in attendance, under the direction of Mr. Superintendent Brooks, of the American Telegraph Company, and when we left the scene, at 2 A. M., the busy click of the instruments was still heard, re-ceiving and despatching the good news in

Frank Jordan, Chairman of the State Com-mittee, Gent, Muzzey, Wayne McVeigh, Esq. and many others. The English visitors at the League were intensely inferested in the workings of an American election, and exworkings of an American election, and expressed great delight at the triumph of Re-

publican principles. The Union League has done nobly during this momentous campaign, and the loyal people of Pennsylvania owe a debt of gratitude to this patriotic body, that has so bravely opposed itself to the encroach-ments of Executive usurpation, and has so inspired the loyal community with new de-votion to the principles which the Union League was founded to maintain.

ERENADE. Hon. Leonard Myers was serenaded last evening by the Myers Club, the City Execu-tive Committee, the Invincibles and the workmen of Mr. Landell's Union Iron Works. He spoke in response to each and all amid the wildest cheers.

MURDER OF A POLICEMAN.-Another terrible murder was perpetrated in Williams-burgh yesterday morning. John Hipwell, an officer of the Metropolitan Police force, was the victim in this case. The officer was on duty in a locality where several burgla-ries have recently been committed, and it is ies have recently been committed, and if is believed that one of these villains perpe-trated the foul deed. Officer Hipwell was seen at 3.80 o'clock in the morning by a brother officer, and a few minutes later the discharge of a pistol was heard. Citizens were attracted to the spot, when Officer Hip-well was discovered stretched upon the pavement in the agonies of death. A bullet had penetrated his heart, and he expired in a few moments without having uttered a word. It is thought that the deceased had surprised a burglar at work, and that in his attempt to capture the ruffian hereceived his death wound. Not the slightest dise was left whereby to trace the murder. The de-ceased had long been attached to the Forty-fifth Precinct, and was highly respected. He was 42 years of age, and leaves a wife and four children. - N. Y. Times, To day. THE SEWING MACHINE COMMITTEE at Mount Holly.
