CITY BULLETIN.

House of Correction.—The Joint Committee of Councils appointed to inquire into and report upon the best plan for the disposition of those persons who are committed to prison for small offences, had a meeting yesterday afternoon, in the Common Council Chamber. The following members of the Committee were present: Messrs. Bilthe Committee were present: Messrs. Billington, Krupp, Oram and Hetzell, of Common Council, and Mr. Marcus, of Select

The Hon. Joseph R. Chandler and Hon. John Robbins, Prison Inspectors, and Messrs, James D. Brown, John M. Whittal and Geo. Erety, Guardians of the Poor, were

Mr. Billington was chosen chairman of the Committee.

Mr. Brown said there was no doubt of the necessity of the House of Correction. He said that a number of persons were sent to the Almshouse laboring under the effects of the Almshouse laboring under the enects of drunkenness, and when they have recovered there is no way of employing them with any profit to the institution. He also re-ferred to many that were discharged after being in the institution four weeks, because there was no place for them. He thought at least twenty vagrants were admitted every week that are able to labor.

Mr. Erety said that the population of the Almshouse now amounted to 2,800, and out of this number at least 700 are fit subjects for a house of correction. He was satisfied that the only profitable way of employing these people is to have stone quarries for them to work in. They were good for nothing in shops. The women could be employed in weaving coarse cloth. He would suggest that a place could be selected on the west side of the Schuylkill, where stone is plenty, for the erection of a House of Correct The vagrants could be employed immediately in erecting the buildings. These people now remain idle at the Almshouse people now remain this at the Almshouse, because there was nothing for them to di that would pay for the trouble of employing

Mr. Oram was satisfied that if a proper House of Correction was erected it would be made a source of revenue, and would also do much towards reducing the number of vagrants.

After some discussion it was resolved.
"That it is the judgment of this committee that a House of Correction should be erected as soon as possible."

Mr. Marcus then moved that a committee of seven be appointed to report a detailed plan for the erection of a House of Correction, which was agreed to.

Union Benevolent Association.—This Society held its annual meeting yesterday afternoon, Samuel H. Perkins in the chair. The thirty-fifth annual report of the Board was made, in which it is said that in sumwas made, in which it is said that in summing up the work there is found to be a marked increase of labor performed over previous years. The details of the report of the ladies branch not said that in summing the ladies branch not said the report of the ladies branch not said the report of the ladies. also bears an increase of interest and of greater earnestness on the part of the visitors, who had found an element for the exercise of their patriotism, as well as their charity, in the distress which has followed many of the soldiers home from the fields they have won. The Union Benevolent Association will never deny them aid while there is the means to help them. The whole amount of money distributed last year by visitors from appropria-tions by the General Board was \$3,895; from collections made by the visitors themselves \$2,594 92; from the office, including wages paid as aid, \$1,100; amount paid to thirty-five sewing women by the ladies' branch, \$4,017 12; for other female labor at the store of the society, \$793 67; cash value of 1,740 tons of coal distributed in quarters, \$13,056; 94 tons of coal and 11 cords of wood collected by the visitors, \$708; amount distributed in provisions, \$1.550. The total disbursements amounted in cash to \$23,937 55.

The report states that the number of visits made to the poor was 16,128; number of families under charge, 6,995; sick administered to, 1,417; of persons found employment, including domestics and placed in families, 1,243; Children placed at school and Sunday school, 108; persons, including children found asylums, 43,

Thomas Latimer, Esq., submitted the

following, which was adopted:

Resolved, That the system of operations
prosecuted by the Union Benevolent Association with such eminent success for the last thirty-six years, commends itself to the continued support of the citizens of Phila-

The following named gentlemen were elected officers for the ensuing year:—President, Samuel H. Perkins; Vice Presidents. Richard D. Wood, J. Fisher Leaming: Treasurer, Edmund, Wilcox; Corresponding Secretary, L. Montgomery Bond; Recording Secretary, John H. Atwood.

BOARD OF TRADE. -The stated meeting for October of the Executive council of the Philadelphia Board of Trade, was held on Monday evening—John Welsh, Esq., the President of the Board, in the chair.

The report of Mr. Souder, as chairman of a

committee appointed at the May session to respond to a communication from the Hon.

W. Eliot. chairman of the Communication Eliot, chairman of the Committee on Ommerce of the House of Representatives of the United States Congress, respecting the necessity and propriety of national recognition and aid in reference to the improvement of the Southwest Pass, or Pass al'Outre ment of the Southwest Pass, or Pass at Outre
of the Mississippi, recommending action
favorable to the undertaking, was read and
confirmed by the board.
A donation from William J. Swain, Esq.,
of an elegant copy of Webster's Unabridged

Dictionary, was received, and ordered to be suitably acknowledged by the secretary.

A resolution highly commendatory of the statistical chart recently compiled by Wm.

G. Neilson, Esq., of the Iron and Steel Association, was referred to the Committee of

the Month for more formal action.

A communication from the San Francisco Chamber of Commerce, treating of the epening of new currents of trade, under the influence of modern enterprise, and new facilities for intercommunication, and the proper national policy in reference to them the protection of the interests of commerce in eastern countries by new naval stations and by an improved consular system; and the extension of the telegraph system, so as to place San Francisco and the United States generally in communication with the Asiatic continent, was read.

The subject was referred to the Committee of the Month for further consideration. Committee of the Month, Messrs. Coates, Perot and Faust.

CHARGED WITH SHOOTING .-- James Falby was arrested, yesterday, on complaint of Constable John Shaffer, charged with firing a gun from his tayern, at Moyamensing avenue and Federal street, on Friday night, the 28th of September, a portion of the load from which took effect in the face and one from which took effect in the lace and one of the eyes of Mr. Shaffer. The sight of the eye is so much affected that it is doubtful if he will recover the use of it. The prosecutor testified that he saw the defendant discharge the gun, and that he felt the shot immediately after. Mr. Falby was held for trial

FACTORY ACCIDENT,-Henry Shall, a German, aged forty-nine years, residing at Fifth man, aged forty-nine years, residing at Fifth and Columbia avenue, was caught in the machinery which he was adjusting at the mill of Mr. A. C. Miller, yesterday, and was dragged round by the revolving wheels with great velocity several times. Both of his legs were broken, and he was otherwise so seriously injured that his life is despaired of. He was taken to the hospital.

ELECTION OF A SCHOOL CONTROLLER.—At a meeting of the School Directors of Seven-teenth Section, on Monday night, Mr. Wm. O. Kline was elected a Controller in place of Mr. James McManes, whose term of office had expired.

PHILADELPHIA WATER WORKS .- The following statement shows the amount of water pumped by the different works during September, 1866: Fairmount, 659,144,131 gallons; Schuylkill, 43,790,760; Delaware, 163,682,320; Twenty-fourth Ward, 54,697,140; Germantown, 14,290,800. Total, 926,605,151. Average per day, 30,886,838.

ENGLISH HOUSE SPARROWS.-Mr. Dixey, Commissioner of City Property, has re-ceived a large number of house sparrows from England, which he intends placing in the public squares and parks in the spring. will keep them in a cage during the coming winter.

New Jersey Matters. JUDGE MOORE.—The nomination of Judge William Moore, by the Republican Union party of the First Congressional District of New Jersey, for Congress, is an act which is highly complimentary to a staunch and unswerving loyalist, an able and influential gentleman, and a credit to the nominating convention. Judge Moore is one of those active, energetic men, whose power and character are revealed in their works and truthfulness. He is not a "silver-tongued orator" on the rostrum, but he has done more than any other man in Atlantic county to wrest that county from Copperhead rule and in placing it on the side of loyalty. The Republicans, therefore, have done wisely in selecting him as their standard-bearer in this important contest, stanuard-pearer in this important contest, for he is ever ready to meet and successfully oppose all the schemes of rebel sympathizers. A man of large business experience, and thoroughly conversant with legislative matters, the interests of the First Congressional District will be seed in his Congressional District will be safe in his hands. His election is sure, but it is in-cumbent upon every true Republican to work for an increased majority, not only work for an increased majority, not only for Judge Moore, but for the entire Union ticket. Last year we carried every mem-ber of the Legislature in the First District; this year we want to do still better, by electing every county and local officer.

THE MASS MEETING.—The mass meeting of the Union Republican Party of Camden city and county, at the Court House, on Monday evening, was a grand success. The citizens turned out in large delegations with banners and music, and victory for the banners and music, and victory for the whole ticket was legibly written in every countenance. The "Boys in Blue," who have just effected an efficient organization, turned out in large numbers, and are resolved to do as noble battle for the old flag at the ballot-box as they did on the field of carnage with the bullet. Thespeakers were felicitous in expounding the issues before the people, and were received with outbursts of enthusiasm. The ball in the First District is now fairly started, and the true and of entitishms. The ban in the First Dis-trict is now fairly started, and the true and loyal men will keep it rolling onward and more vigorously until the sixth of Novem-ber crowns their labor with a glorious

COUNTY SARBATH SCHOOL ASSOCIATION To morrow, the 18th inst., the Camden County Sabbath School Association will hold its annual Convention in Camden. large representation is expected, and ample preparations have been made for their reeption. This Association was organized in 1859, and through the collection and dis-semination of statistics of the Sabbath School work in the county, and the awakening influence of conventions held at various points, has done much to give impetus and efficiency to this powerful agency for good. The afternoon session will be de-voted to a general conference in relation to the work in the county, and in the evening the Association will be addressed by the Rev. Messrs. Rose, Henry Baker, Monroe, and others. This Association has done great good in its work, and is now in a prosperous condition.

A VILLAINOUS PROCEEDING.—The Re publican Unionists of Camden, and in fact throughout the entire first district, were painfully surprised at finding the name of James B. Dayton, E. q., reported in the proceedings of the Copperhead Convention at Woodbury as a candidate for nomination. Woodbury as a candidate for nomination. This was evidently done, in the absence of that gentleman, by that unscrupulous party, to create disaffection among the Republicans, as Mr. Dayton authorizes us to assert that his name was used without his consent and contrary to his emphatic refusal to have anything to do with that confidence in the contrary to his emphatic refusal to have anything to do with that confidence in the contrary to his emphatic refusal to have anything to do with that confidence in the contrary to his emphatic refusal to have anything to do with that confidence in the contrary to his emphatic refusal to have anything to do with that confidence in the contrary to his emphatic refusal to have anything to do with that confidence in the contrary to his emphatic refusal to have anything to do with that confidence in the contrary to his emphatic refusal to have anything to do with that confidence in the contrary to his emphatic refusal to have anything to do with that confidence in the contrary to his emphatic refusal to have anything to do with the contrary to his emphatic refusal to have anything to do with the contrary to his emphatic refusal to have anything to him the contrary to his emphatic refusal to have anything to him the contrary to his emphatic refusal to have anything to him the contrary to his emphatic refusal to him the vention. Mr. Dayton is a brother of late Hon. Wm. L. Dayton, is a sound and unswerving Republican, and has no sympathy with the party that encourages treason.

His Head Off.—Richard H. Lee, the able and gentlemanly Postmaster of Camden has been at last decapitated by the executive axe, and T. C. Moore, a strong copperhead, appointed in his place. This is the way A. Johnson rewards his Republican friends. It is understood that the axe will fall on all the officers in the first district who refuse to pay the Johnson assessmen for the campaign. Very few, however, with pay it.

Sale of Government Property. The United States District Tax Commis-The United States District Tax Commissioner will sell to the highest bidder, the following Government property, situated on the islands of Port Royal, Ladies, St. Helena, Boosa and Parry. The sales will be as follows: November 1st, 1866, forty-four lots and houses in the town of Beau fort; November 5th, nearly three thousand lots in the newly laid out city of Port Royal, at the southwest end of St. Helena Island December 3d, thirty-three school farms, all improved, and containing in the aggregate, six thousand acres. These sales are to be made under the act of July 6th, 1866, which provides that the "school farms in the parish of St. Helena, South Carolina, shall be sold subject to any lease of the same, on or before January 1st, 1867, at not less than \$10 per acre, and the 1867, at not less than \$10 per acre, and the lots in the city of Port Royal, and the lots and houses in the town of Beaufort, which have been bid in by the United States at tax sales, shall be sold at public auction, and the proceeds of said sales, after paying expenses of the surveys and sales, shall be invested in the United States bonds, the interest af which shall be appropriated to the support of schools, without distinction of race or color, on the islands in the parishes of St. Helena and St. Luke.

Murder of a Freedman in Georgia. Murder of a Freedman in Georgia.
AUGUSTA, Oct. 16.—A freedman was shot
in Columbia county last night. The outrage originated from a difficulty with a
white man, which the freedman reported to
General Tillson, who advised him to seek
redress from the civil authorities. A party
of white men surrounded his house last
night, while attempting to escape. The
citizens are indignant at the outrage. A
military force has been sent to arrest the
perpetrators.

perpetrators.
Several jayhawkers have been arrested in Newton county by the military.

A slight frost occurred in this vicinity last night. The weather is favorable to the cotton crop, which is looking better.

The Quebec Sufferers.
QUEBEC, Oct. 16.—At a meeting called to
devise means of relief for the sufferers by
the late fire, \$15,000 was subscribed. A
treasurer has been appointed to receive further contributions. The number of lives lest is now known to be six. The number of houses burned is found to be even larger of houses burned is found to be even larger than previously estimated, and numbers twehty-three hundred. Nearly twenty thousand people are without shelter. The skating ring, drill sheds, Marine Hospital, the Jacquess Castor Hall, and the lower town market are filled with people. The weather is very favorable.

GENERAL N. P. BANKS was renominated yesterday, for Congress by the Republicans in the sixth District on the first ballot. General Banks had one hundred and fortythree votes out of one hundred and fityone, and the nomination was made unanimous amid great cheering:

A Wife to be Sold. A party of three men came to the office of Alderman Albeitz, in the Fifth Ward, yes-terday, and desired the magistrate to draw written article or legal agreement in which one of the parties gave over to the other all his right, title and interest in the person of his wife for the small sum of \$5, the third person to act as a witness. The Alderman asked the husband of the woman thus offered for sale if she was willing to accede to the terms offered by her purch He received an affirmative answer, but still he refused to draw up the article until the lady herself should be brought to the office, for her written consent. The trio started to

get the latter, but up to the time of our leaving the office they had not returned. All the parties are Welsh and reside in the Fifth Ward.—Pitteburgh Gazette. REMARKABLE CASE OF RESECTION.—
Nearly three-years ago a pamphlet appeared from the pen of Dr. Formento, an accomplished physician of this city, containing memoirs of his practice while surgeon of the Louisiana Hospital, at Richmond, Virginia. Among the remarkable cases related in these memoirs, was that of a resection, which, to the unprofessional reader, must have appeared almost incredible. The operation in question was performed on the arm of Captain H. B. Myatt, of the Lafayette Cadets, 14th Louisiana Volunteers, wounded at Galnes's Mill, on the 27th of June, 1862. His left arm was badly broken at the elbow. The next day, 28th of June, REMARKABLE CASE OF RESECTION. at the elbow. The next day, 28th of June, four inches of the bone above the elbow were resected and taken out through an incision which was then closed. In a short time the subject not only returned to the field, but re-turned with the use of his left arm to such an extent that, except in being four inches shorter, it was scarcely distinguishable from the other. The report of such a case might well encounter doubt; but fortunately, Capt. Myatt presents himself as a witness to its perfect verity, and is willing to exhibit his arm to the skeptical as ocular proof. We have seen it. The sight, though plain to the eyes, almost baffles belief. It is certainly a marvel of surgery. There is no socket for the elbow-no junction between the upper and lower bones. The lower arm hangs as if just broken and held by nothing but the skin; but the muscles work perfectly, and the left arm can perform every movement which the right can, with equal precision, and with almost equal strength.—N.
