Freedmen's Affairs in Florida. Major Gen. Howard is in receipt of a report on the condition of the freedmen and port on the cendition of the freedmen's Bureau in the operations of the Freedmen's Bureau in the State of Florida, for the quarter ending. September 30th, 1866, submitted to Brevet Major General J. G. Foster, assistant commissioner. The Freedmen are reported working well and to the satisfaction of their employers, except in a few instances, and their idleness in such cases may be traced to the oppression of employers, which tends to dishearten the laborers. Their general industry, quiet and orderly habits general industry, quiet and orderly habits and efforts to please their employers is seldom disputed. Even old slave-owners, wedded to their notions of the beneficent influences of the institution of

slavery, are forced to admit that the freed-men work and behave much better than had been expected. The organization of the buneen expected. The organization of the bureau courts recently ordered, was necessary at the time, to meet the requirements of the present condition of affairs, especially the division of crops previously adjudicated by bureau officers, whose decisions were not regarded as those of the courts will be. The homestead law is very chronical to the courts. mestead law is very obnoxious to many of the planters, and threats are made to ininegroes from making settlements.

under its provisions.

The health of the State during the past month has been better than might have been expected from the prevalence of cholera in other parts of the country. Some few cases of cholera occurred in Jackson-ville, Pilatka, Lake City, Cedar Keys, Gainesville, Apalachicola, and Pensacola, but the diseas, vielded reedily to modical but the disease yielded readily to medical treatment.

A private letter received in Washington from a gentleman temporarily sojourning in Florida, and who has had favorable opportunities of observing the condition of affairs in that section, contains the following interesting extracts, clearly showing the lawless state of society and the hostility of "the reconstructed" toward Union men:

The temper of the people is by no means satisfactory, and there are manifestations of bitter feeling toward Congress and Northern men, but more especially toward those termed "Radicals." The proclamation of the President of August 20 has been interpreted by the people and the papers as doing away with the influence of the military and restoring the complete supremacy of State laws in all cases. In some instances, espe-cially in towns, the civil authorities have sayed to arrest and fine United States officers and soldiers for trifling infractions of municipal regulations while in the discharge of their duties, the authorities believing that all their old rights are restored to them, with the exception of representa-tion in Congress. Should this prove to be the case, United States officers and soldiers will be subjected to constant annoyances, arrests and fines by those lately in arms against them, and who would thus endeavor to avenge themselves upon the military for their own defeat and subjugation. The white refugees who joined our forces have also of late been subjected to unnecessary prosecutions and fines; their property se questrated during the war has not been restored, and they are too poor to incur the heavy expenses of a suit for damages. The necessity for the presence of United States troops is becoming more apparent every day, for if they are withdrawn Union men will be forced to leave the State. The only apparent remedy for this is the extension of political privileges, so that the electors may be so increased as to give a majority in favor of the Union, unconditionally.

From Cuba.
HAVANA, Oct. 13.—On Wednesday last. the Queen's birthday, the Captain General held a court, and the next day a grand re-

view of 10,000 men took place.

A terrible hurricane commenced in the Bahamas on the 30th ult., and lasted two-days. Almost half the town of Nassau was destroyed by the external transfer of the statement of the destroyed by the storm. Houses were blown down, roofs carried away and trees uprooted. Trinity church was demolished. A portion of the roof of the Government house was carried away, and the roof of the Marine Hospital was entirely blown off. Vessels were driven ashore and knocked to pieces, and wharves demolished.

The neighboring islands suffered in the same manner, and a large number of vessels have been lost or damaged. This hurricane is the severest which has been experienced since 1813, The steamers Trade Wind and Liberty arrived yesterday from New Orleans, and the Hendrick Hudson from Philadelphia. All were quaran-tined for five days. Vessels from New York are now quarantined for only three

days.

Maryland Politics.

The Democratic committee appointed to visit Annapolis and present to Governor Swann a petition for the removal of the Po

lice Commissioners, together with affidavits charging them with official misconduct, had an interview with the Governor in the Executive chamber. Governor Swann re-ceived the petition and sworn statements, and replied that he would examine the pa-pers and act in the matter promptly. There is much speculation in regard to the course to be pursued by the Governor. It is understood that he will summon the commis-sioners to answer the charges this week.

from Our Third Edition of Yesterday. THE REPORTED RESIGNATION OF SECRETARY STANTON.

Statements of Washington Papers,

General Sherman Probably to be Secretary of War.

The Reported Retirement of Secretary

WASHINGTON, October 18th.-The National Republican of this morning says it has the highest authority for denying the report that Mr. Stanton has tendered his resignation as Secretary of War; while the National Intelligencer remarks that the statement that he had written a letter to the President, requesting to be relieved of his position was at least premature. But the latter paper says:-"It is understood that Mr. Stanton has signified his intention to ask to be relieved as soon as his annual report is completed, and also that on account of his health he would not be averse to spending a few years in Spain, as Minster at Madrid."

Without controverting the authority on which the above publication is made by the Intelligencer and without attempting to state particulars, the substance of the general newspaper despatch of yesterday may be repeated, namely—there seems to be no doubt that Mr. Stanton will soon retire from his present position, and in that event there is a strong probability that Lieutenant-General Sherman will be invited to take charge, temporarily at least, o the War Department.

Commercial Intercourse with Japan. Washington, Oct. 18.—The President has proclaimed the convention between the United States and the Empire of Japan, for the purpose of encouraging and facilitating the commerce of the citizens of this country in Japan. Sheet lead, matting, ratan, oil for printing, indigo, gypsum, firing pans and baskets, all of these articles being used in the preparation and packing of teas, shall be free of duty, and the following articles are to be admitted at the reduced rates of five per cent., viz.: machines and machinery, drugs and medicine. [Note—The prohibition of the importation of opium, according to the existing treaty, remains in full force.] Iron in pigs or bars, sheet iron and iron wire, tin plates, white sugar in loaves or crushed, glass and glassware, clocks, watches and watch chains, wines, malted and spirituous liquors. The citizens of the United States, importing or exporting goods shall always pay the duty, fixed thereon, whether such goods are intended for their own use or not. The President has also proclaimed the convention beween the Empire of Japan and the Governments of the United States, Great Britain, France and Holland, providing for the payment to these Governments of the sum of 3,000,000, this sum to include all claims of whatever nature for past aggressions on the part of Nagato, whether indemnities of ransom of Simonosaki or expenses entailed by the operations of the allied squadrons, which were sent to the straits of Simonosaki in order to destroy the batteries erected by the Prince of Nagato and Suwo, for the destruction of foreign vessels, and the stoppage of trade the government oppage of trade, the government of the Tycoon on whom devolved the duty of chastising this rebellious Prince.

NEW YORK, Oct. 18.—The steamer James S. Greene, from Georgetown, D. C., arrived this morning. She reports having seen a large brig ashore twelve miles south of Feminck's Island. The sea was breaking over her.

On the 17th she saw a schooner ashore six miles north of Barnegat. She also saw the steamer Empire, from Wilmington, N. C. for New York ashore on Sandy Hook. She tried hard to pull her off but the hawsen broke. She will probably be got off on the

The Canadian Federation. TORONTO, Oct. 18.—It is not decided yet whether the Governor General will accompany the Confederation delegates on their mission to England. The probabilities are that he will follow them in a few weeks afterwards. No reliable information can be obtained regarding the discussions in the late Cabinet meetings, but it is supposed that confederation was the main topic.

A Ministerial dinner took place at Montreal on the 30th of September. It was a

private affair, and the Confederation scheme, it is believed, was discussed at length. In consequence of the trouble about the Lamirande extradition case, the Judges in Montreal have agreed that in future, when necessary, they will issue a writ of habeas

corpus immediately when applied for. The Baltimore Trouble. BALTIMORE, Oct. 18.-The committee ap-

pointed to wait on Governor Swann, and ask the removal of the Police Commissioners, left here this morning, and had an interview with the Governor at Annapolis.
