The Suppression of the Slave Trade. The State Department has received copie of Spanish official documents, including one intended to render impossible, hence forth, the successful prosecution of the African slave trade in Cuba and Porto Rico The Minister of the Colonial Department on the 29th of September last, addressed the Queen, saying, among other things "The opportunity was then come and no earlier than on this occasion, in which you earier than on this occasion, in which your majesty may deign to order the fulfilling in all respects, of what has been determined for the suppression and punishment of the slave trade, by the resolution of the join Committee of Congress and Senate, voted definitely on the 11th of July of the current year, in what concerns the Antilles.

There is nothing that is not perfectly legal

There is nothing that is not perfectly legal in what is proposed, and relatively to the peninsula, the Government gladly assumes all the responsibility of the act, that if a any time it be accused of having exacted obedience to legislative measures, deficien in the last form, which was opposed as being merely a regulation, it will always be ready to answer, and will answer by justifying itself through the exposition of what is actually passing in the world. That if it neglected these forms, it was not to invalidate rights, but to sustain them; not to disturb the country, but to leave its interest in quiet; not to strangle and bury beneath the weight of a blind and arbitrary decision the claims of public opinion, but to realize its just desires and to carry them into practice in the government of our ultra-marine provinces, and admit the action of the courts with the promptitude which contemporaneous events impose on the most legitimate and laudable, aspirations of all mankind sincerely interested in the prosperity and welfare of our dominions beyond the sea.

The project of law referred to by the Royal decree shows what constitutes of fences under its intent, such as the fitting out of vessels and any other act done with them to suit them for the slave trade, as well as the voyage of such vessels towards the coast of Africa, whatever may be their flag; the acquisition of loyal negroes outside of the islands of Cuba, Porto Rico or their adjacents, or their transportation to these islands or to any other point; the introduc-tion of the same negroes into the islands referred to, or the presence in their jurisdic-tional waters of vessels with cargoes of loyal negroes. Subsequent articles show who are to be considered originators of the offence; who are to be considered accomplices and

The punishment of death is to be visited on captains, pilots, supercargoes and mates of the slave vessels that may make armed resistance on the coasts of Africa, or those of Cuba, or of Porto Rico, or on the high seas, to vessels of war charged with capturing them; and the said captains, pilots, super-cargoes and mates of vessels, that may disembark their crews to acquire, or ransom or protect, or consummate their introduc-tion, and should make armed resistance to the crews of vessels of war that may land to hinder the theft, or to the public force on the coasts, or in the interior of the islands of Cuba, Porto Rico, or their adjacent islands Heavy penalties of both fine and imprison ment are prescribed for other classes of offences in connection with this subject.

In view of the reasons given by the Colo-

nial Minister, in conformity with the full State Council, and in accordance with the Council of Ministers, the Queen has determined to decree as follows:

Article 1. After the publication of the present Decree in the Gaceta de Madrid, any person of color—man, woman or child—who may be in servitude in our Provinces of Porto Rico or Cuba, shall be considered as emancipated and free on touching the territory of the Peninsula or its adjacent islands, or on arriving within the jurisdiction and maritime zone of the same, whatever may be the cause of his landing in said territory, or finding himself in the waters of its jurisdiction. its jurisdiction. Moreover, any person of color, who is a slave, shall enjoy the blessings of emancipation and liberty whenever either in the company of his master, or sent by him, he treads upon the territory or enters within the jurisdiction of any State where slavery does not exist.

where slavery does not exist.

ART. 2. In future, condemnation of criminals of color, who may be in servitude to an ultra-maritime presidio, with detention and sale for misdemeanor (noxa), is prohibited. Criminals, who being slaves, on whom punishment in the presidio with detention and its accessories may be imposed, shall satisfy such of the presidios of the island of Cuba and Porto Rico.

ART. 3. If the benefits of the emancination ART. 3. If the benefits of the emancipation

and liberty authorized by Article 1 shall fall on individuals who should have come to the territory of the Peninsula and its adjacent islands in virtue of a sentence of the courts of Cuba and Porto Rico, being slaves the Theology Period Cuba and Porto Rico, being slaves there, the whole or part of the indemnity which was to be expected for the sale of the slave, now emancipated, and which is pro-hibited, shall be satisfied in the manner which special provisions may determine. In each case said indemnity shall never be greater than the average of what might have been produced by the adjudication of the slave at public auction.

ART. 4. When sale on account of crime (noxa) has for the purpose of the payment of costs of process occurred, these shall be officially declared. In all cases the slaves emancipated, by coming to the Peninsula, shall remain subject in condition as a freeman, to indemnify losses and damages, and civil responsibilities.

ART. 5. The Colonial Minister (Ultra

Ma), shall dictate the instructions needfal to the execution of the fourth decreed, and for the organization of the presidial establishments on such terms as to be able to carry into effect the other sentences referred to in Article 2.

Done at the palace on the 29th of Septem-Under the Royal Rubric. The Minister for the Colonies. ALESANDRO CASTRO.

From Harrisburg. HARRISBURG, Oct. 24.—Governor Curtin left Harrisburg to-day, at noon, on his way to Elmira, New York, where to-morrow evening he will address a mass convention of soldiers and sailors, representing the southern and western tier of counties of that State. The invitation which called His Excellency to Elmira was signed by nearly one hundred soldiers, and recognized him as the soldiers' friend of the Keystone

It is known at the office of the Secretary of the Commonwealth, that the official re-turns of the late election cannot be promulgated before Monday next, and, perhaps, not until the middle of next week, on account of the reassembling of the Judges of the Election on Friday next of several

Members elect to both branches of the Legislature are beginning to make their appearance here for the purpose of caucusing on the object of the organization as to the United States Senatorship and State Treasurer. Arong the Republican members, Col. M. S. Quay, of Beaver county, is much talked of for Speaker.

talked of for Speaker.

Other candidates for the same position will, of course, be in the field, but at this early start Colonel Quay has many friends. He was Chairman of the Ways and Means Committee of the last House. The State Treasurership, by almost universal consent in political circles, is conceded to its present incumbent, William H. Kemble. Aside from the fact that he stands high with his political party, which has a large majority on joint ballot, he has unquestionably made one of the ablest financiers ever at the head of the Treasury Department, George W. Hammersly, Clerk of the Senate, and A. W. Benedict, Clerk of the House, will be elected without apposition.

From Baltimore.

BALTIMORE, Oct. 24.—There are various rumors prevailing to-day, which may be true, to the effect that the editors of the American and others have been cited before the Grand Jury of Baltimore, by the conservative party as incitors of of riot and asking their indictment as disturbers of the public peace for in cendiary publications. This, of course and produce the public peace for in cendiary publications. is a purely political matter, and has two-sides. It will tend rather to excite than

allay difficulties.

The Commissioners continue determined to resist Gov. Swann, and to obey their legal advisers at all hazards.

There are no new developments in regard to the Police Commissioners. Their counsel still adhere to their original determination, not to participate in the examination of witnesses on Friday. Rumors have been current here to-day, of the arrival of troops from Washington, but they are incorrect.
It is true that some troops are expected

here shortly, to embark for Texas, and that a colored regiment will be sent here to be mustered out of the service—facts which have probably given rise to the rumors of troops being ordered here with reference to the pending difficulties. The interview of General Canby with the authorities, all reports to the contrary notwithstanding was of a most friendly withstanding, was of a most friendly character.

Mr. Peabody arrived here to-day, and was received by the Mayor and a committee of the City Council, at the Philadelphia depot, and thence escorted to Barnum's Hotel. The trustees of the Peabody Institute also participated in the reception. The dedication of the Institute will take place o-morrow.

The Department of the South.

Major-General D. E. Sickles, commanding Department of the South, has issued an order providing that no officeholders or person on duty in the department, in any capacity, subject to military authority, will be allowed to trade, either as principal, fac-tor or agent, directly or indirectly, in cotton, rice or other products, or merchandise of any kind, within the limits of the district or post where he is stationed. The order provides that no person will be permitted to interfere with the rights of the freed people, in common with all others, to sell and dis-pose of the products of their labor in their

wn way, as they may choose.
This order is not to be construed to revoke any temporary regulation established by competent authority prohibiting the sale of products raised on shares, until the crop shall have been prepared for market, and properly divided, nor to prevent an author-ized officer or agent on duty in the Freedman's Bureau from acting as umpire in the settlement of disputes arising out of the division of crops raised on shares.

FREEDMEN'S AFFAIRS IN MISSISSIPPI.— Major General Howard is in receipt of a report of the operations of the bureau and the condition of the freedmen for the month of September, in the State of Mississippi, from Brevet Major General T. J. Wood, Assistant Commissioner for that State. Outrages reported during the month were, in every instance, laid necessarily before the State Executive and received prompt and efficient cognizance; all means in the power of the civil authorities apparently being taken to bring the offenders to justice. The educational department of the bureau has received special attention, the support of the schools generally devolving upon charitable institutions in the Northern States, which have nobly de-voted themselves to this Christian work. One resident clergyman of Vicksburg has taken an active interest in this matter, and intends to open a school for colored children; and other influential citizens have also vantages to the freedmen. Efforts are being made to excite a general interest among the citizens of the State in this important work, General Wood thus hoping to secure the at tention and patronage of the citizens, in or der that the education of the freedmen may not be neglected or discouraged after the bureau ceases to exist. The drought has seriouly injured the grain crop, and it is estimated that the quantity of corn produced will not be sufficient to support the inhabitants of the State beyond the month of January easuing. The cotton crop was seriously injured by worms during August and the earlier part of September, and recent rains prevented the gathering of the residue of the cotton which was not previously destroyed, rotting the fibre in the boll to a great extent. These causes have worked a fearful ruin, and the most trust-worthy information received shows that the amount of cotton produced will not repay the capital invested. The total number of rations issued during the month was 11,9251, being a decrease of 5351 on the issue of the previous month.

DAY RUM.—Just received, an invoice of Gennius Dimported Bay Rum, for sale by the gallon, by ROBERT SHOEMARER & CO., Druggist, R. E. cor aer Fourth and Race streets. CASTOR WHEELS.

CASTOR WHEELS.

FOR HEALTH AND STRENGTH USE OAPE WELL & CO.'S PATTENT GLASS CASTOR WHEELS.

These wheels are designed for Pianos, Bedsteads, &c. We claim that they give to Pianos a greatly increased force of sound, without detracting from the harmony, and melody of the instrument, rendering every note more distinct to the ear. This is so apparent that they are now being applied by many to these valuable mesical instruments. Dr. Valentine Mott, previous to his death, pronounced the Glass Castor Wheels an invaluable invention for bedfast invalids, who are guarded against the damp floors after indergoing the process of cleaning, or where dampness is produced from any other cause. Aside from this, Housekeepera are relieved from the dread of having their carpets cut or torn, as frequently happens from those now in use, often caused by a rust, which adheres with gine-like tenacity. No such annovance can possibly proceed from the Glass Castor Wheels, as we all know that glass is non-corrostive. There are no rough or unfinished edges to the Glass Wacels, such as we often find in those of iron, and the latter, though smoothly finished, will soon rust, from the dampness of the atmosphere, if nothing else, producing roughness on the surface, or edge, while the former will always maintain the smoothness of glass, just as they are finished.

By sleeping upon glass wheels you retain all the electricity yea had in your body on retiring, and you get up in the morning feeling as fresh and active as a young man. Glass being a non-conductor, the electricity gained while in bed cannot pass off. Ask your doctor what he thinks of the Glass Castor Wheels Ask him if all diseases, with the exception of chronic diseases, are not caused from the want of electricity we have a man in our place whom the doctors pronounced past curling, with the infammatory rhemmatism. The wheels cured him in less than four weeks. He is to-day a stout healthy man. These are facts which can be proven on application at our office.
